CHRISTIAN SCIENCE CHURCH.

The Christian Science church was founded in 1879 by Mary Baker Eddy, the discoverer of Christian science and author of its text-book, "Science and Health, with Key to the Scriptures." The church was organized "to commemorate the word and works of our Master, which should reinstate primitive Christianity and its lost element of healing" (Church Manual). In 1893 the church was reorganized as the First Church of Christ, Scientist, known as the mother church, in Boston, Mass. The present officers of the mother church are:

President—Judge Clifford P. Smith,
Clerk—John V. Dittmore,
Treasurer—Stephen A. Chase.
Directors—Archibald McEllan, Allison V. Stewart, Stephen A. Chase, John V. Dittmore, Adam H. Dickey.

All Christian science churches and societies, of which there are now 1,260 in the United States and 135 in foreign countries, are branches of the mother church. Lesson-sermons compiled from the bible and "Science and Health with Key to the Scriptures" are read at the services in Christian science churches. There are about 5,000 Christian science practitioners regularly devoting their time to the practice of Christian science mind healing.

Mrs. Eddy founded the Christian Science Journal, Sentinel, Quarterly, Der Herold der Christian Science and The Christian Science Monitor (a daily newspaper), all of which are published by the Christian Science Publishing Society in Boston.

There is in connection with the Christian science movement an official board of lectureship designed to furnish the public correct information concerning the fundamental teachings of Christian science. Lectures given by members of this board are free to the public.

There are in Chicago ten Christian science churches having an average total attendance of about 12,000. Each of these churches maintains a free reading room in addition to a joint reading room at 81 East Madison street, where the public may have free access to all authorized publications on the subject of Christian science.

The offices of the Christian science committee on publication and the Christian science committee for the distribution of literature in Chicago are in the Orchestra building, 220 South Michigan avenue.

UNITARIAN CHURCH.

NATIONAL CONFERENCE.

THE VOLUNTEERS OF AMERICA.

Organized in March, 1896.
 Commander—Gen. Ballington Booth.
 National Headquarters—34 West 28th street, New York, N. Y.
 Northwestern Headquarters—31, 110 South Dearborn street, Chicago, Ill.
 Northwestern Territorial Commander—Maj.-Gen. Edward Fielding.

EPIDEMICS IN 1911.

PNEUMONIC PLAGUE IN MANCHURIA.

Beginning in October, 1910, and continuing until February, 1911, a pneumonic plague of almost unexampled virulence raged in the northern provinces of China. It was especially violent in Manchuria, nearly 4,000 perishing in the city of Fuchelien alone. In Harbin about 1,000 persons, including eighteen Europeans, died from the disease. The total number of victims was estimated at 46,000, practically all who were attacked died, as only five recoveries were recorded.

Business in the infected districts came to a standstill and for a time railway traffic in Manchuria was suspended. One or two cases of the plague occurred in Peking in January, causing a panic among the native and foreign residents of the capital. Many of the latter, including members of the diplomatic corps, fled from the city, while others shut themselves up in the legation quarter, around which a quarantine line was established. The disease did not spread, however, and the alarm subsided.

Beginning April 3 an international medical conference was held in Mukden to consider the causes of the plague and its possible cure. Forty delegates, representing eleven powers, including the United States, were present. It was generally agreed that the disease was communicated to human beings by a species of marmot called tarabang, which is extensively hunted in Mongolia and Manchuria for its fur. It was clearly established that hunters were the first victims and that the plague was spread by the hunters going from place to place. There was some difference of opinion as to whether the disease was communicated by direct contact, but it seemed to be established that the exhalations and moist sputum of the victims were highly infective. The most effective preventive, it was agreed, was the establishment of strict quarantine. It was shown that rats did not carry the disease as in the case of the bubonic plague.

Though little is known of the action of the pneumonic plague bacillus, it is thought that the virulent toxin created by the bacillus during germination and quickly introduced into the system, acts upon the nerves, affecting the heart. After the first symptom appears the disease progresses with great rapidity, and it is supposed that the poison hardly has time to weaken the victim to an extremity. As death approaches a comatose state is brought on in which the sufferer becomes so weak as to stagger and fall wherever he may happen to be. Though there is pain in the lungs, it is not the pneumonia, but the poison in the blood that kills. Death may come in a few hours or in a day or two. The enlargement of the glands in the neck and groins, which is a characteristic symptom of bubonic plague, is absent in the pneumonic variety.

RELIGIONS OF THE WORLD.

According to the revised (1898) edition of Mulhall's Dictionary of Statistics there are 476,100,000 Christians in the world. The same authority places the number of Roman Catholics in Europe, America and Australia at 223,030,000; protestants, 157,050,000, and Greeks, 88,660,000. It has been estimated that there are in the world 256,000,000 followers of Confucius, 190,000,000 Hindus, 176,800,000 Mohammedans, 148,000,000 Buddhists, 118,000,000 polytheists, 43,000,000 Taoists, 14,000,000 Shintoists and 12,000,000 Jews. Of the Christians more than 230,000,000 are Catholics, 98,300,000 orthodox Greeks, 70,000,000 Lutherans, 21,000,000 episcopalians, 17,000,000 methodists, 11,000,000 baptists, 9,000,000 presbyterians and 4,500,000 congregationalists.

ASIATIC CHOLERA IN THE UNITED STATES.

In July, 1911, vessels arriving from infected ports in Italy brought a number of passengers suffering from Asiatic cholera to America. Most of them were immigrants or seamen, who had contracted the disease in the course of the voyage across the Atlantic. Strict precautions were taken at the quarantine stations in New York, Boston, Philadelphia and other Atlantic seaports and most of the cases were confined to the quarantine hospitals. The disease in a few instances broke through the quarantine and several deaths occurred outside the detention hospitals. One of the earliest was that of Tomaso Bracchi, an Italian youth, who died in Auburn, N. Y., June 20. Manuel Bermudez, a sailor from a tramp steamer, was removed from Bettevue hospital, New York, July 22, suffering from cholera and there was much fear that the disease would spread throughout the city. Patrick Cushing died in a hospital on Staten Island, N. Y., July 15. The greatest number of deaths occurred on Swinburne island, New York, to which suspected cases from the Moltke, Perugia, Oceania and other steamers arriving from Italian ports were taken. Up to July 19 seven of the patients had succumbed out of the score or more treated. July 23, Mrs. T. Mastrodocono, who had taken as lodgers two Italian sailors, died from cholera at the detention hospital on Gallup's island at Boston. The precautions taken by the authorities at the various ports proved effective and the disease was prevented from obtaining a foothold on the American side of the Atlantic.

CHOLERA IN ITALY.

While European Russia was practically exempt from cholera in 1911 the disease continued its ravages in Italy. The situation seemed to be worst in Palermo and Naples, where many cases and deaths were reported in June and July. The disease also claimed a considerable number of victims in Leghorn, Spezia, Brescia and Pisa. Between June 7 and Aug. 26, 800 cases were reported in Leghorn alone, the majority of the cases proving fatal. Between Aug. 20 and Aug. 26 there were 1,635 cases reported throughout Italy and 533 deaths.

PLAGUE IN INDIA.

In the half year ended June 30, 1911, deaths from the plague in India reached the enormous total of 650,690. The disease has become such a fixture in many of the provinces that but little is said of it and it is only heard of occasionally through official reports. The efforts of the British authorities to stamp out the epidemic have failed to produce any marked result for the better.

STOCK AND BOND COMMISSION.

Appointed Sept. 3, 1910.

Dr. Arthur T. Hadley, Yale university, New Haven, Conn., chairman.
 Frederick N. Judson, St. Louis, Mo.
 Frederick Strauss, New York, N. Y.
 Walter L. Fisher, Chicago, Ill.
 Prof. H. B. Meyer, Madison, Wis.

The commission was created by section 16 of the act passed in 1910 amending the interstate commerce law. It was authorized to investigate questions pertaining to the issuance of stocks and bonds by railroad corporations, subject to the provisions of the act to regulate commerce.

LABOR ORGANIZATIONS.

AMERICAN FEDERATION OF LABOR.

Headquarters, Washington, D. C.

President—Samuel Gompers.

Secretary—Frank Morrison.

Treasurer—John B. Lennon, Bloomington, Ill.

National and International unions, 116.

Departments, 4.

State branches, 39.

City centrals, 628.

Trade and federal labor unions, 671.

Total number of unions, 1,458.

First convention held Nov. 15-18, 1881.

AFFILIATED NATIONAL AND INTERNATIONAL ORGANIZATIONS, NAMES AND ADDRESSES OF SECRETARIES.

Asbestos Workers of America, National Association of Heat, Frost and General Insulators—Thomas J. McNamara, 1801A Elliot avenue, St. Louis, Mo.

Bakery and Confectionery Workers' International Union of America—Otto E. Fischer, 221 Chicago avenue, Chicago, Ill.

Barbers' International Union, Journeymen—Jacob Fischer, 222 East Michigan street, Indianapolis.

Bill Posters and Billers of America, National Alliance—William McCarthy, room 635, Knickerbocker theater building, New York, N. Y.

Blacksmiths, International Brotherhood of—William F. Kramer, suite 570-585 Monon building, Chicago.

Boiler Makers and Iron Ship Builders of America, Brotherhood of—W. J. Gilthorpe, Law building, Kansas City, Kas.

Bookbinders, International Brotherhood of—James W. Dougherty, 222 East Michigan street, Indianapolis, Ind.

Boot and Shoe Workers' Union—C. L. Baine, 246 Summer street, Foston, Mass.

Brewery Workmen, International Union of the United—Louis Kemper, Vine and Calhoun streets, Cincinnati, O.

Brick, Tile and Terra Cotta Workers' Alliance, International—William Van Bodegraven, 409, 160 North 5th avenue, Chicago, Ill.

Bridge and Structural Iron Workers, International Association of—J. J. McNamara, American Central Life building, Indianapolis, Ind.

Broom and Whisk Makers' Union, International—C. T. Dolan, 3959 Lincoln avenue, Chicago, Ill.

Brushmakers' International Union—George J. Vitzthum, 2052 Gates avenue, Brooklyn, N. Y.

Carpenters and Joiners of America, United Brotherhood of—Frank Duffy, Carpenters' building, Indianapolis, Ind.

Carpenters and Joiners, Amalgamated Society of—Thomas Atkinson, 76 Bible house, New York, N. Y.

Carriage and Wagon Workers, International—William P. Mayell, 19 Chapin block, Buffalo, N. Y.

Carvers' Association of North America, International Wood—Thomas J. Lodge, 10 Carlisle street, Roxbury, Mass.

Car Workers, International Association of—G. W. Gibson, 1205-06 Star building, 538 South Dearborn street, Chicago, Ill.

Cement Workers, American Brotherhood of—Henry Ullner, 214 Mechanics' Bank building, San Francisco, Cal.

Chainmakers' National Union of the United States of America—C. E. Stanton, box 13, Maxwell, Ind.

Cigarmakers' International Union of America—George W. Perkins, 820 Monon block, 436 South Dearborn street, Chicago, Ill.

Clerks' International Protective Association, Retail—H. J. Conway, lock drawer 248, Lafayette, Ind.

Cloth Hat and Cap Makers of North America, United—Max Zuckerman, 62 East 4th street, New York, N. Y.

Commercial Telegraphers' Union of America, The—Wesley Russell, 922-930 Monon building, Chicago.

Compressed Air and Foundation Workers' Union of the United States and Canada—James McQueer, 174 East 107th street, New York, N. Y.

Coopers' International Union of North America—William R. Deal, Board of Trade building, Kansas City, Kas.

Curtain Operatives of America, Amalgamated Lace—George J. Raiser, 3021 North 5th street, Philadelphia, Pa.

Cutting Die and Cutter Makers, International Union of—Harry Raiser, 616 6th avenue, New York, N. Y.

Electrical Workers of America, International Brotherhood of—Peter W. Collins, Pierick building, Springfield, Ill.

Elevator Constructors, International Union of—William Young, 1952 North 19th street, Philadelphia, Pa.

Engineers, International Union of Steam—James G. Hannahan, 6303 Harvard avenue, Chicago, Ill.

Engravers, International Association of Watch Case—Otto F. Altenburg, box 263, Canton, O.

Firemen, International Brotherhood of Stationary—C. L. Shamp, rooms 2-4, 2502 North 18th street, Omaha, Neb.

Fitters and Helpers of America, International Association of Steam and Hot Water—W. H. Davies, 351 West 63rd street, Chicago, Ill.

Foundry Employes, International Brotherhood of—George Bechtold, 200 South Broadway, St. Louis.

Freight Handlers and Warehousemen' Union of America, Interior—J. J. Flynn, 816-824 West Harrison street, Chicago, Ill.

Garment Workers of America, United—B. A. Largent, 116-117 Bible House, New York, N. Y.

Garment Workers' Union, International Ladies—John Alex Dyché, 32 Union square, New York.

Glass Bottle Blowers' Association of the United States and Canada—William Launer, 930-931 Witherspoon building, Juniper and Walnut streets, Philadelphia, Pa.

Glass Workers' International Association, Amalgamated—William Figolah, 418 North Clark street, Chicago, Ill.

Glove Workers' Union of America, International—Agnes Nestor, 506 Bush Temple of Music, Chicago, Ill.

Granite Cutters' International Association of America—James Duncan, Hancock building, Quincy, Mass.

Grinders and Finishers' National Union, Pocket Knife Blade—F. A. Didsbury, 508 Brooks street, Bridgeport, Conn.

Grinders' National Union, Table Knife—John F. Gleason, 36 Chestnut street, Bristol, Conn.

Hatters of North America, United—Martin Lawlor, 111 Waverly place, New York, N. Y.

Head Carriers and Building Laborers' Union of America, International—A. Persion, box 597, Albany, N. Y.

Horsehoers of United States and Canada, International Union of Journeymen—Hubert S. Marshall, room 605, Second National bank building, Cincinnati, O.

Hotel and Restaurant Employes' International Alliance and Bartenders' International League of America—Jere L. Sullivan, Commercial Tribune building, Cincinnati, O.

Iron, Steel and Tin Workers, Amalgamated Association of—John Williams, house building, Smithfield and Water streets, Pittsburgh, Pa.

Jewelry Workers' Union of America, International—Adam L. Schmitt, 33 Lecest street, Buffalo, N. Y.

Lathers, International Union of Wood, Wire and Metal—Ralph V. Brant, 401 Superior building, Cleveland, O.

Laundry Workers' International Union—Charles F. Bailey, 591 2d avenue, Troy, N. Y.

Leather Workers on Horse Goods, United Brotherhood of—J. J. Pfeiffer, 209 210 Postal building, Kansas City, Mo.

Leather Workers' Union of America, Amalgamated—John Roach, 326 Bank street, Newark, N. J.

Lithographers, International Protective and Beneficial Association of the United States and Canada—John Treanor, 419 Pacific street, Brooklyn.

Lithographic Press Feeders of United States and Canada, International Protective Association of—Harry C. Kranz, 43 Center street, New York.

Longshoremen's Association, International—John J. Joyce, 1003-1004 Mutual Life building, Buffalo.

- Machine Printers and Color Mixers of the United States, National Association of—Charles McCrory, 429 42d street, Brooklyn, N. Y.
- Machinists, International Association of—George Preston, 968-14 G street, N. W., McGill building, Washington, D. C.
- Maintenance of Way Employees, International Brotherhood of—S. J. Pegg, 3900 Olive street, St. Louis, Mo.
- Marble Workers, International Association of—Stephen C. Hogan, 715 Eagle avenue, New York.

PROCEEDINGS AGAINST STEEL CORPORATION.

Suit was brought by the federal government in the United States Circuit court at Trenton, N. J., Oct. 26, 1911, to dissolve the United States Steel corporation and all its constituent or subsidiary companies. The following men were made defendants:

J. Pierpont Morgan.
 John D. Rockefeller.
 Andrew Carnegie.
 Charles M. Schwab.
 George W. Perkins.
 E. H. Gary.
 J. D. Rockefeller, Jr.
 Henry C. Frick.
 Charles Steele.

James Gayley.
 William H. Moore.
 J. H. Moore.
 E. C. Converse.
 Percival Roberts, Jr.
 Daniel G. Reid.
 Norman B. Ream.
 P. A. B. Widener.
 William P. Palmer.

The subsidiary companies named in the suit as defendants were:

Carnegie Steel company.
 Carnegie Company of New Jersey.
 Federal Steel company.
 National Steel company.
 American Steel and Wire Company of New Jersey.
 National Tube company.
 Shelby Steel Tube company.
 American Tinplate company.
 American Sheet and Tinplate company.
 American Sheet Steel company.
 American Steel Hoop company.
 American Bridge company.
 Lake Superior Consolidated Iron mines.
 H. C. Frick Coke company.
 Tennessee Coal and Iron and Railroad company.
 Great Western Mining company.
 Louis W. Hill, James J. Hill, Walter J. Hill, E. T. Nichols and J. H. Gruber were named as trustees in connection with ore companies.

The government in its bill asked:

That the corporation and its alleged conspiracy and monopolization be adjudged unlawful.
 That each and all of the defendants, their officers, directors, stockholders or agents be perpetually enjoined from doing any act for carrying out the conspiracy and monopolization complained of.

That the United States Steel corporation of itself as well as each and all of the elements composing it, whether separate or individual, be decreed illegal and that the corporation be dissolved.

That the ore lease of the Great Northern properties in the Mesabie range be declared illegal.

The government's bill went minutely into the history of the United States Steel corporation and made a number of charges, of which the following is a summary:

The acquisition by the corporation of the Tennessee Coal and Iron company during the panic of 1907 was illegal. If President Roosevelt had been fully advised he would have known that a desire to stop the panic was not the sole moving cause, but there was a desire and purpose to acquire control of a dangerous competitor.

Henry C. Frick and E. H. Gary, when they went to the white house in 1907 to get President Roosevelt's approval of the plan to absorb the Tennessee concern, willfully misled the president when they told him that little benefit would accrue to the Steel corporation through the purchase.

The power and control that have been exerted by the Steel corporation, largely through the grasp of tactics thrown out upon consumers, competitors and capital, are incompatible with the healthy commercial life of the nation.

By its acquisition of the company the corporation eliminated a competitor and unlawfully gained a power which is a menace to the welfare of the country, and which should be destroyed.

By its system of interchangeable directorships the corporation is in direct touch with all the railroad and steamship companies of the United States, and with such powerful concerns as the Standard Oil company, the Pullman company, the International Harvester company and the Western Union Telegraph company, as well as with the overwhelming majority in money and power in the banks and trust companies of the country. The possibilities of the power and control that may thus be exerted over trade and commerce are inestimable.

THE PUBLIC DOMAIN.

Unappropriated and unreserved lands in the United States at the close of the fiscal year ended June 30, 1911.

[From the report of the commissioner of the general land office.]

AMERICAN-EUROPEAN LOAN TO CHINA.

The papers providing for the loan of \$50,000,000 to China by a group of American and European financiers were signed in Peking April 15, 1911. The money was to be used in furthering currency reforms and other interests of the empire. By an imperial edict issued Oct. 29, 1910, American financiers alone were to make the loan, receiving in return bonds maturing in from forty to forty-five

years and bearing 5 per cent interest. Later it was agreed that three banking groups in England, Germany and France should participate in the loan, which is secured by the provincial revenues. The banking houses concerned are the Morgan, the Hongkong and Shanghai Banking company, the Bank of Indo-China and the German East Asiatic bank.

PATRIOTIC SOCIETIES OF THE UNITED STATES.

GRAND ARMY OF THE REPUBLIC.

First post organized at Decatur, Ill., April 6, 1866.

GENERAL OFFICERS.

Commander-in-Chief—Harvey M. Trimble, Princeton, Ill.

SOCIETY OF THE CINCINNATI.

Organized by Gen. George Washington and his officers May 10, 1783, at the cantonments of American army on the Hudson river, New York.

GENERAL OFFICERS.

President-General—Winslow Warren, Massachusetts.
 Vice-President-General—James Simons, LL. D., South Carolina.
 Secretary-General—Asa Bird Gardner, LL. D., L. H. D., Union club, New York city.
 Treasurer-General—Charles Isham, Connecticut.
 Assistant Secretary-General—John C. Daves, Baltimore, Md.
 Assistant Treasurer-General—Henry Randall Webb, Maryland.

Only the thirteen original states have state societies. These, with the names of president and secretary of each in geographical order named, are: New Hampshire—William Davis Sawyer, Francis Coffin Martin.

Massachusetts—Winslow Warren, David Greene Haskins.
 Rhode Island—Aea Bird Gardiner, LL. D., L. H. D.; George W. Olney.
 Connecticut—Henry Larcom Abbott, LL. D.; Bryce Metcalf.
 New York—Talbot Olyphant, Francis Burrall Hoffman.
 New Jersey—James W. S. Campbell, Louis Dunham Boggs.
 Pennsylvania—Richard Dale, Grant Weidman.
 Delaware—John Patten Wajes, Edwin Jaquette Sellers.
 Maryland—Oswald Tilghman, Thomas Edward Sears.
 Virginia—William Gordon McCabe, LL. D.; Levin Joyner.
 North Carolina—Wilson Gray Lamb, Marshall DeLancey Haywood.
 South Carolina—James Simons, LL. D.; Henry M. Tucker, Jr.
 Georgia—Walter Glasco Charlton, George Francis Tannille.

The Order of the Cincinnati was organized by American and French officers who served in the war of the revolution, for the purpose of perpetuating the remembrance of that event and keeping up the friendships then formed. Membership goes to the eldest male descendant, if worthy; in case there is no direct male descendant, then to male descendants through intervening female descendants. The present membership is about 890. George Washington was the first president-general until his decease, and Alexander Hamilton the second.

MILITARY ORDER OF FOREIGN WARS OF THE UNITED STATES. Instituted Dec. 27, 1894.

OFFICERS OF THE NATIONAL COMMANDERY.

Commander-in-Chief—Maj. Gen. Alex. S. Webb, U. S. A., Riverdale, N. Y.

 Chaplain-General—Capt. Henry A. F. Hoyt, Cynwyd, Pa.
 Historian-General—Capt. Edw. H. Smith, U. S. V., Oshkosh, Wis.
 Recorder-General—Maj. Moses R. Doyen, U. S. V., Kokomo, Ind.
 Commanderies have been established in twenty-one states. Total membership about 1,400.

The order is a military organization with patriotic objects, having for its scope the period of American history since national independence. It stands for the needed and honorable principle of national defense against foreign aggression. The principal feature of the order is the perpetuating of the names, as well as the services, of commissioned officers who served in either the war of the revolution, the war with Tripoli, the war of

1812, the Mexican war or the war with Spain and all future campaigns, recognized by the United States government as war with foreign powers. Veteran companionship is conferred upon such officers and hereditary companionship upon their direct lineal descendants in the male line.

SOCIETY OF COLONIAL WARS. Instituted in 1892.

OFFICERS OF THE GENERAL SOCIETY.

Acting Governor-General—Howland Peil, New York.
 Secretary-General—Clarence Storm, 45 William street, New York.

CENTENARIANS IN THE UNITED STATES.

In 1900 there were 3,536 persons in the United States aged 100 years or more. Of these 1,289 were men and 2,247 women. All but 419 were native born and 2,553 were negroes. In Illinois there were 73 persons more than 100 years of age, of whom 31 were men and 42 women. The deaths of the following centenarians in the United States were reported between Nov. 1, 1910, and Nov. 1, 1911:

Beam, Mrs. Jane, 103, Paterson, N. J., March 4.

Bodzinski, Mrs. Mary, 105, 1843 West 45th street, Chicago, June 1.

Cleary, Patrick, 110, Rockford, Ill., Oct. 16.

Domtowski, Mrs. W., 107, West Hammond, Ill., April 14.

Esper, Mrs. Francis, 108, Florence, Col., Feb. 15.

Frazier, William J., 101, Aurora, Ill., Feb. 12.

Hunsaker, Elijah, 101, Quincy, Ill., July 30.

Kirbus, Paul, 102, near Joliet, Ill., March 1.

Kirk, Mrs. Sophia S., 102, Eureka, Kas., Jan. 24.

Kuschura, Miss Victoria, 106, Duluth, Minn., Jan. 31.

Lenover, Samuel, 109, near Hillery, Ill., Jan. 14.

Lisco, Mrs. Louise, 110, Cherryvale, Kas., Jan. 25.

Long, Mrs. De Anna, 120, 3117 Cottage Grove avenue, Chicago, May 23.

Martin, William, 101, Chippewa Falls, Wis., Feb. 25.

Myers, Mrs. Nancy, 103, Terre Haute, Ind., Oct. 30.

McCarthy, Mary, 112, West Stockbridge, Mass., Sept. 23.

Orsborn, John, 103, Grand Rapids, Mich., Aug. 12.

Smiley, Robert E., 100, New York, N. Y., Oct. 7.

Tobey, Mrs. Susanna, 101, Wareham, Mass., Aug. 8.

Truesdale, Mrs. Clarissa, 103, Grand Rapids, Mich., May 8.

Walsh, Mrs. Mary, 100, Summit, Cook county, Ill., April 22.

Williams, Mrs. Lachia, 103, Lansing, Mich., June 27.

Wilson, Mrs. J. O. C., 101, Macomb, Ill., July 15.

RUSSO-CHINESE CONTROVERSY.

Feb. 16, 1911, Russia notified Great Britain, France and Germany of its intention to make a military demonstration on the Russo-Chinese frontier owing to China's persistent violation of the St. Petersburg treaty of 1881. This treaty was then about to expire and China was not willing to renew it until certain modifications had been made. The provisions of the convention which Russia claimed had been violated were these:

1. Russia's right to impose import and export duties unlimited, except in the fifty verst zone, which is free.

2. That the extraterritorial rights of Russians shall not be infringed; that legal suits involving Russians and Chinese shall be considered by a mixed jurisdiction.

3. That Russians shall enjoy special privileges of trade and duty free commerce in Mongolia and

the extrawall provinces.

4. That Russian consulates can be immediately opened at Kobdo, Knaani and Guchen.

5. Due respect of the local authorities for Russian consuls.

6. Russians to enjoy the right to acquire real estate and erect structures in Mongolia and the extrawall provinces.

It was announced that the first demonstration would be made in the province of Ili (also called Kulja) in the western part of Mongolia. This province had been occupied by the Russians since 1871, but was restored to the Chinese by the treaty of 1881.

After some weeks of negotiations China finally announced that it would comply fully with the Russian demands and carry out the treaty as interpreted in St. Petersburg. The projected demonstration did not take place.

LIVE STOCK IN THE UNITED STATES (1910).

The aggregate value of all live stock, including domestic animals, poultry and bees, as reported to the census bureau in 1910, was in round numbers \$4,895,000,000, as compared with \$3,075,000,000 in 1900. This is an increase of nearly \$1,820,000,000, or 59.2 per cent. The aggregate values of principal classes of domestic animals on farms in 1910 were as follows:

Horses and colts.....\$2,076,000,000
Cattle 1,485,000,000
Mules and colts..... 522,000,000
Swine 838,000,000

Sheep and lambs..... 281,000,000

Poultry 153,000,000

The total number of farms in the United States in 1910 was 6,340,357. Of these 94.9 per cent, or 6,017,142, reported domestic animals. The total number of cattle reported in 1910 was 61,225,791. Of these 20,580,845 were dairy cows. The total number of horses and colts reported was 19,731,060. The total number of mules of all ages was 4,183,572. The total number of swine 58,000,672, and the total number of sheep and lambs was 51,809,068.

Sporting Records.

LONGEST GAMES IN 1911.

American League—July 17: Philadelphia, 8; St. Louis, 6, fourteen innings. July 22: New York, 8; Detroit, 7, fourteen innings. July 23: Chicago, 7; New York, 5; fourteen innings. Aug. 7: Philadelphia, 2; Chicago, 1, fourteen innings. There were five games of thirteen innings each, eight of twelve innings each, fourteen of eleven innings each and thirty-four of ten innings each.

National League—May 13: Philadelphia, 5; Cincinnati, 4, sixteen innings. May 10: Cincinnati, 8; Boston, 7, fifteen innings. June 21: Philadelphia, 4; Brooklyn, 1, fifteen innings. Sept. 21: Cincinnati, 4; Brooklyn, 3, fifteen innings. There was one game of fourteen innings, two of thirteen innings each, seven of twelve innings each, fifteen of eleven innings each and twenty-four of ten innings each.

LONGEST GAMES IN BIG LEAGUES.

AMERICAN LEAGUE.

Twenty-Four Innings.

Sept. 1, 1906—Philadelphia, 4; Boston, 1.
July 4, 1905—Philadelphia, 4; Boston, 2.
Eighteen Innings.
June 25, 1903—Chicago, 6; New York 6 (tie).
July 19, 1909—Detroit, 0; Washington, 0 (tie).
Seventeen Innings.
Aug. 9, 1900—Milwaukee, 3; Chicago, 2.
Sept. 21, 1901—Chicago, 1; Boston, 0.
May 18, 1902—Chicago, 2; St. Louis, 2 (tie).
July 1, 1905—Philadelphia, 4; Boston, 2.
Sept. 30, 1907—Detroit, 9; Philadelphia, 9 (tie).
May 13, 1909—Chicago, 3; Washington, 1 (tie).

NATIONAL LEAGUE.

Twenty Innings.

June 30, 1892—Chicago, 7; Cincinnati, 7 (tie).
Aug. 24, 1891—Chicago, 2; Philadelphia, 1.
Nineteen Innings.
June 22, 1902—Chicago, 3; Pittsburgh, 2.
Eighteen Innings.
Aug. 17, 1882—Providence, 1; Detroit, 0.
Aug. 17, 1902—Brooklyn, 7; St. Louis, 7 (tie).
June 24, 1905—Chicago, 2; St. Louis, 1.
Seventeen Innings.
June 26, 1893—Cincinnati, 5; New York, 5 (tie).
Aug. 11, 1904—St. Louis, 4; Brooklyn, 3.
Sept. 18, 1904—Chicago, 2; Cincinnati, 1.
June 4, 1908—Chicago, 1; Boston, 1 (tie).
Aug. 22, 1908—Pittsburgh, 1; Brooklyn, 0.
Sept. 2, 1908—Philadelphia, 3; Brooklyn, 2.
July 26, 1869—New York, 3; Boston 3 (tie).
IN OTHER LEAGUES.
May 31, 1901—I. I. League: Decatur, 2; Bloomington, 1, twenty-six innings.
Sept. 10, 1911—Pacific Coast league: Portland, 1; Sacramento, 1, twenty-four innings.

RECORD OF NO-HIT GAMES.

1879—Richmond (Worcester) vs. Cleveland.
1880—Corcoran (Chicago) vs. Boston.
Galvin (Buffalo) vs. Worcester.
1882—Corcoran (Chicago) vs. Worcester.
1883—Radbourne (Providence) vs. Cleveland.
Daly (Cleveland) vs. Philadelphia.
1884—Corcoran (Chicago) vs. Providence.
Galvin (Buffalo) vs. Detroit.
1885—Clarkson (Chicago) vs. Providence.
Ferguson (Philadelphia) vs. Providence.
1887—Seward (Philadelphia) vs. Brooklyn.
Weyhing (Philadelphia) vs. Baltimore.
1891—Lovett (Brooklyn) vs. New York.
Rusie (New York) vs. Brooklyn.
1892—Stivets (Boston) vs. Brooklyn.
Jones (Pittsburg) vs. Cincinnati.
1893—Hawke (Baltimore) vs. Washington.
1897—Young (Cleveland) vs. Cincinnati.
1898—Hughes (Baltimore) vs. Boston.
Breitenstein (Cincinnati) vs. Pittsburg.
Donahue (Philadelphia) vs. Boston.
1899—Phillippe (Louisville) vs. Washington.
Willis (Boston) vs. New York.
1900—Hahn (Cincinnati) vs. Philadelphia.
1901—Mathewson (New York) vs. St. Louis.
1902—Callahan (Chicago) vs. Detroit.
1903—Fraser (Philadelphia) vs. Chicago.

- 1904—Young (Boston) vs. Philadelphia.
Tannehill (Boston) vs. Chicago.
- 1905—Mathewson (New York) vs. Chicago.
Henley (Philadelphia) vs. St. Louis.
Smith (Chicago) vs. Detroit.
Dineen (Boston) vs. Chicago.
- 1906—Eason (Brooklyn) vs. St. Louis.
Lush (Philadelphia) vs. Brooklyn.
- 1907—Pfeffer (Boston) vs. Cincinnati.
Maddox (Pittsburg) vs. Brooklyn.
- 1908—Young (Boston) vs. New York.
Wiltse (New York) vs. Philadelphia.
Rucker (Brooklyn) vs. Boston.
Rhoades (Cleveland) vs. Boston.
Smith (Chicago) vs. Philadelphia.
Joss (Cleveland) vs. Chicago.
- 1909—None in National or American league.
- 1910—Joss (Cleveland) vs. Chicago.
Bender (Philadelphia) vs. Cleveland.
- 1911—Wood (Boston) vs. St. Louis.
Walsh (Chicago) vs. Boston.

BASEBALL THROWING RECORD.

The world's record for the long distance throwing of a baseball was broken at Cincinnati, O., Oct. 10, 1910, when Sheldon Lejeune of the Evansville (Ind.) club, Central league, threw the sphere 426 feet 6 1/4 inches. The old record, made in Brooklyn, N. Y., Oct. 15, 1872, by John Hatfield, was 400 feet 7 1/4 inches. Lejeune's throw was made at a baseball field day, was carefully measured and will stand as official.

HIGH PRICES PAID FOR BASEBALL PLAYERS.

- 1911—Marty O'Toole, Pittsburgh.....\$22,500
- 1910—"Lefty" Russell, Athletics.....12,000
- 1910—Fred Hunter, Pittsburgh.....10,000
- 1910—Lena Blackburn, White Sox.....10,000
- 1908—Rube Marquard, New York.....11,000
- 1906—Spike Shannon, New York.....10,000
- 1889—Clarkson and Kelly, Boston.....20,000

Western Golf Association—President, William Heyburn, Louisville Country club; secretary, Elmer A. Eulass, Calumet Country club.

TENNIS.

WESTERN CHAMPIONSHIPS.

The twenty-fourth annual western tennis championship tournament was held on the courts of the Onwentsia club at Lake Forest, Ill., July 22-31, 1911. In the finals of the doubles C. M. Bull, Jr., and Harry C. Martin of New York defeated Dean Mathey and G. M. Church of Princeton university, 7-9, 2-6, 7-5, 6-3, 9-7. In the women's doubles Miss Hazel Hotchkiss and Miss Carrie B. Neely defeated Miss Chatfield-Taylor and Miss Marion Butler, 6-2, 6-4. In the mixed doubles Miss Carrie B. Neely and L. H. Palmer defeated Miss Edith Hoyt and Harold Smith, 6-9, 6-3. In the women's singles Miss Hazel Hotchkiss of San Francisco defeated in the finals Miss Carrie B. Neely of Chicago, 6-1, 6-1. Miss Gwendolyn Reese of St. Paul, holder of the title, was forced to default on account of illness and Miss Hotchkiss was declared western champion. In the finals of the men's singles Maurice McLoughlin of San Francisco defeated Walter T. Hayes of Chicago, 6-2, 6-3, 6-3. In the challenge round, T. C. Bundy of Los Angeles, holder of the title, was defeated by McLoughlin, 4-6, 6-1, 6-3, 6-3.

LONGWOOD TOURNAMENT.

The Longwood tennis tournament, at which the Longwood cup and the eastern championship in dou-

bles were contended for, took place on the courts of the Longwood Cricket club, Boston, Mass., July 17-26, 1911. E. P. Larned, of Summit, N. J., won the cup, defeating G. F. Touchard of New York in the finals of the singles, 6-3, 5-7, 6-3, 6-4. W. A. Larned, the title holder, did not defend it against his brother.

H. D. Little and G. F. Touchard of New York won the eastern doubles championship by defeating B. C. Wright and N. W. Niles of Boston, 6-4, 6-4, 7-5.

SOUTHERN CHAMPIONSHIPS.

In the southern tennis championship tournament held at Atlanta, Ga., ending July 8, 1911, Carlton Y. Smith of Atlanta, Ga., defeated E. V. Carter, Jr., in the finals of the singles in straight sets, but in the challenge round he was beaten by Conrad Doyle of Washington, holder of the title, by a score of 6-2, 6-3, 6-2. In the doubles Doyle and Doyle of Washington defeated Grant and Carter of Atlanta, 6-1, 6-1, the players having agreed to make it the best two out of three sets. Miss Murphy of New Orleans won the championship in women's singles by defeating Mrs. S. Taylor in the challenge round, 6-4, 6-4.

NATIONAL CHAMPIONSHIPS.

The tournament to decide the national tennis championships of the United States took place on the Casino courts at Newport, R. I., Aug. 21-Sept. 4, 1911. In the singles the final round was between Maurice E. McLoughlin of San Francisco and Beals C. Wright of Boston, the former winning, 6-4, 4-6, 7-5, 6-3. In the challenge match played Sept. 4, Walter A. Larned, of Summit, N. J., holder of the title since 1907, retained the championship by defeating McLoughlin by the score of 6-4, 6-4, 6-2.

The preliminary matches in the doubles national championship were played on the Onwentsla club courts at Lake Forest, Ill., Aug. 1-2. On the first day R. D. Little and Gustave Touchard, eastern champions, defeated M. McLoughlin and T. C. Bundy, Pacific coast champions, 6-4, 6-4, 7-9, 3-6, 10-8, while the Doyle brothers, southern champions, defeated C. M. Bull, Jr., and Harry Martin, the western title holders, 6-4, 8-6, 6-1. On the second day, Messrs. Little and Touchard defeated the Doyle brothers, 6-4, 4-6, 6-4, 1-6, 6-3. In the challenge match at Newport, R. I., Aug. 22, Little and Touchard defeated Fred B. Alexander and Harold H. Hackett holders of the championship in doubles, 7-5, 13-15, 6-2, 6-4.

NATIONAL TENNIS CHAMPIONS.

1881—R. D. Sears.	1897—R. D. Wrenn.

RECORDS LOWERED OR TIED IN 1911.

The best performances on the American turf in 1911, chronologically arranged, were as follows:

- Jan. 17—3 1/2 furlongs, running, :38%, Calisse, 2-year-old, Juarez, Mexico.
- July 13—1/2 mile, trotting, :57 1/2, Uhlan, North Randall track, Cleveland, O.
- July 29—1 mile, three heats on half-mile track, trotting by stallion, 2:10 3/4, 2:10 1/4, 2:10 1/4, Joe Bowser, Aurora, Ill.
- Aug. 8—1 mile, trotting to wagon, 2:30, Uhlan, North Randall track, Cleveland, O.
- Aug. 10—1 mile, pacing, three fastest heats in a race, 2:01 1/2, Independence Boy; 2:02 1/4, 2:03 1/4, Earl, Jr., North Randall track, Cleveland, O.
- Aug. 11—1/2 mile trotting to wagon, :56 1/4, Uhlan (paced by runner), North Randall track, Cleveland, O.
- Aug. 17—i mile, pacing, fastest average for three heats in a race, 2:02 3/4, 2:01 3/4, 2:02; average, 2:02 1/4; Independence Boy, Columbus, O.
- Aug. 19—1/2 mile, pacing, fastest three heats in a race, 1:01 1/2, 1:00 3/4, 1:01 1/2, Hal Chaffin, Milwaukee, Wis.
- Aug. 21—1 mile, pacing, fastest three heats by a stallion in a race, 2:02 1/4, 2:02, 2:02 1/4; average, 2:02 1/4; Vernon McKinney, Columbus, O.
- Aug. 22—1 mile, pacing, fastest fourth heat ever paced in a race, 2:02 1/4, Evelyn W., Columbus, O.
- Aug. 22—1 mile, pacing, fastest four heat race ever paced, 2:03 (Evelyn W.), 2:03 (Earl, Jr.), 2:03 1/2, 2:02 1/4, Evelyn W.; average, 2:02 15-16; Columbus, O.
- Aug. 24—1 mile, trotting, on half-mile track, 2:02 3/4, Uhlan, Goshen, N. Y., world's record.
- Sept. 11—1 mile, trotting, fastest three heats in a race, 2:04 1/4 (Spanish Queen), 2:04 1/4, 2:04 1/4, Billy Burke, Syracuse, N. Y.
- Sept. 30—1 mile, trotting, fastest four heats in a race, 2:05 1/2 (Grace), 2:05 3/4, 2:05 1/4, 2:05 1/4, Soprano, Columbus, O.
- Sept. 19—1 mile, trotting, world's record for 3-year-old geldings, 2:08 1/4, Peter Thompson, Detroit, Mich.
- Oct. 5—1 mile 20 yards, running, 1:39%, Col. Ashmeade, Churchill Downs, Ky.
- Oct. 6—1 mile, pacing by 3-year-olds, 2:05 1/4, Miss Deforest, Lexington, Ky.; world's record.

POWER-BOAT RACING.

MISSISSIPPI VALLEY REGATTA.

The fourth annual regatta of the Mississippi Valley Power-Boat association took place on the Mississippi river at Dubuque, Iowa, July 4-6, 1911. Summaries:

- 20-foot championship, 15 miles—Won by Pronto III., Kelson and Hilsinger, Bellevue, Iowa. Time, 32:39. Boats with three cylinders or less, 10 miles—Won by Chippewa Chief, Clinton, Iowa. Time, 31:50.
- 22-foot championship, 20 miles—Won by Missouri, H. Lippert, St. Louis. Time, 41:35.
- Cruisers, full equipment, 10 miles—Won by Alamo, Scribner and Iten, Clinton, Iowa. Time, 57:43.
- 26-foot championship, 20 miles—Won by Pronto III. Time, 44:30%.
- Boats with two cylinders or less, 5 miles—Won by Borum Jeric, Theodore Thompson, LaCrosse. Time, 18:25.
- 40-foot championship, 20 miles—Won by Disturber II., James A. Pugh, Chicago. Time, 37:30%.
- In a trial against time, Disturber II. covered a mile in 1:33—an average of 38.54 miles an hour.

Leading Lady of Galena, a 20-footer, owned by W. P. Cleveland, made a mile in 2 minutes—an average of 30 miles an hour.

WESTERN POWER-BOAT REGATTA.

The fourth annual regatta of the Western Power-Boat association took place on Peoria lake at Peoria, Ill., July 25-26, 1911. Following is a summary of the principal events:

20-foot class, 10 miles—Sand Burr II., Atlantic City, N. J., won; Regal Tiger, Peoria, second; Leading Lady, Galena, third; Comet, Bellevue, Iowa, fourth; Scamp III., Davenport, Iowa, fifth. Time, 19:59 1/2.

32-foot class, 20 miles—Sand Burr II., won; Missouri, St. Louis, second; Regal Tiger, third; Water Witch, Muscatine, Iowa, fourth; Scamp III., fifth; A. K., Peoria, sixth; Leading Lady, seventh. Time, 37:51 1/2.

40-foot class, free for all, 25 miles—Red Top III., Bellevue, Iowa, won; Sand Burr II., second; Disturber II., Chicago, third; Premier III., Indianapolis, Ind., fourth. Time, 42:11.

26-foot class, 15 miles—Sand Burr II., won; Leading Lady, second; Scamp III., third; A. K., fourth; Water Witch, Muscatine, Iowa, fifth. Time, 26:57 1/2.

HARMSWORTH CUP.

Dixie IV., a 500 horsepower hydroplane representing America, won the annual motor-boat contest for the British international trophy, known as the Harmsworth cup, Sept. 5-6, 1911. The races took place on a thirty-mile triangular course at Huntington, L. I., England was represented by three boats, the principal one of which was the Pioneer, owned by the duke of Westminster. In the first race the Dixie IV. averaged 35.91 knots an hour and came in 59 seconds ahead of the Pioneer. In the second race the Pioneer's engine went wrong and Disturber II. of Chicago, another contender, was disabled to the point of sinking. The Dixie IV. had no trouble in winning. It was the seventh victory for America in the matches for the trophy.

GREAT LAKES CHAMPIONSHIP.

In the power-boat races on the Niagara river at Buffalo, N. Y., Sept. 15-16, 1911, the Dixie IV., owned by Frederick K. Burnham of New York, N. Y., won the free for all championship of the United States and the Buffalo chamber of commerce trophy. In competing for the great lakes championship (Sept. 16) the Dixie IV. ran on a rock and was completely wrecked. Two persons were badly injured in the accident. The race was won by Gretchen II., owned by John H. Hubbard of Pittsburgh.

NEW YORK TO HALIFAX.

The motor-boats Tramp, Caroline, Eronel and Snap Shot III. left Gravesend bay, New York, on the afternoon of July 22, 1911, for an ocean race to Halifax, N. S. The Caroline proved the winner, arriving at the goal at 1:30 p. m., July 25. The 533 miles were covered in exactly 57 hours.

POLO.

The American team of polo players retained possession of the international cup by defeating a challenging team of British cavalry officers at Meadowbrook, N. Y., June 1 and 9, by scores of 4 1/2 goals to 3 in the first match and 4 1/2 to 3 1/2 in the second.

YACHTING.

THE LIPTON CUP.

The tenth contest for the silver cup donated by Sir Thomas Lipton to the Columbia Yacht club of Chicago, to be competed for annually by 21 foot cabin class yachts, took place Aug. 18, 19 and 21, 1911, on Lake Michigan at Chicago. The first race was over a triangular course, two nautical miles to each leg, twice around; the second was over a windward and leeward course of twelve miles, with three mile legs, and the third was over a quadrangular course. Following is the official time of each race:

Yacht.	Start.	Finish.	Time.
Columbia	2:30	4:57:51	2:27:51

THE LIPTON TROPHY.

The second race for the special trophy donated by Sir Thomas Lipton was sailed over a fifteen mile triangular course on Lake Michigan at Chicago July 15, 1911. It was won by the flagship Valmore, owned and sailed by Commodore William Hale Thompson, which covered the course in the corrected time of 2:35:25. James O. Heyworth's yawl Polaris was second in 2:40:55, while Mavourneen, Invader and Spray finished in the order named. Record of event:

Winner.	Time.	Winner.	Time.
1913—Valmore	3:24:10	1911—Valmore	2:35:23

SIR JOHN NUTTING CUP.

The fifth contest for the Sir John Nutting cup took place on Lake Michigan, off Chicago, Aug. 24 and 25, 1911. The competing yachts were of the 21 foot raceabout class, having a sail area of not more than 600 square yards, a weight of not less than 5,900 pounds and a crew of from three to five men. Only two races were sailed, Invader, flying the Chicago Yacht club's colors, winning both. The course was a twelve mile triangular one. Summary.

FIRST RACE.

Yacht.	Start.	Finish.	Time.

THE AMERICA'S CUP.

RECORD OF RACES TO DATE.

1851—Aug. 22. In this, the year of the great exhibition in London, the Royal Yacht Club of England offered a cup to the winner of a yacht race around the Isle of Wight. The course was 60 miles in length and was won by the schooner-yacht America, designed by George Steers for John C. Stevens of the New York Yacht club. The America was 94 feet over all, 88 feet on the water line, 22½ feet beam and 11½ feet draft. There was no time allowance and the competing yachts ranged in size from a three-masted 392-ton schooner, the Brilliant, to the 47-ton cutter, the Aurora, which came in second in the race. The time of the America was 10 hours and 34 minutes; that of the Aurora was 24 minutes slower. The cup after that became known as the America's cup and has now been successfully defended for fifty-eight years.

1870—Aug. 8, New York Yacht club course: Magic, 3:58:21; Cambria, 4:37:38.

1871—Oct. 16, New York Yacht club course: Columbia, 6:19:41; Livonia, 6:46:45. Oct. 18, 20 miles to windward off Sandy Hook and return: Columbia, 3:07:41¾; Livonia, 3:18:15½. Columbia disabled in third race Oct. 19. Oct. 21, 20 miles to windward off Sandy Hook and return: Sappho, 5:39:02; Livonia, 6:09:23. Oct. 23, New York Yacht club course: Sappho, 4:16:17; Livonia, 5:11:55.

1876—Aug. 11, New York Yacht club course: Madeleine, 5:23:54; Countess of Dufferin, 5:34:53. Aug. 12, 20 miles to windward off Sandy Hook and return: Madeleine, 7:18:46; Countess of Dufferin, 7:46:00.

1881—Nov. 9, New York Yacht club course: Mischief, 4:17:00; Atalanta, 4:45:39¼. Nov. 10, 16 miles to leeward off Sandy Hook and return: Mischief, 4:54:53; Atalanta, 5:33:47.

1885—Sept. 14, New York Yacht club course: Puritan, 6:06:05; Genesta, 6:22:24. Sept. 16, 20 miles to leeward off Sandy Hook light and return: Puritan, 5:03:14; Genesta, 5:04:52.

1886—Sept. 9, New York Yacht club course: Mayflower, 5:26:41; Galatea, 5:38:43. Sept. 11, 20 miles to leeward off Sandy Hook light and return: Mayflower, 6:49:10; Galatea, 7:18:09.

1887—Sept. 27, New York Yacht club course: Volunteer, 4:53:18; Thistle, 5:12:41¾. Sept. 30, 20 miles to windward off Scotland light and return: Volunteer, 5:42:56¼; Thistle, 5:54:45.

1893—Oct. 7, 15 miles to windward off Sandy Hook light and return: Vigilant, 4:05:47; Valkyrie, 4:11:35. Oct. 9, triangular 30-mile course, first leg to windward: Vigilant, 3:25:01; Valkyrie, 3:35:26. Oct. 13, 15 miles to windward off Sandy Hook light and return: Vigilant, 3:24:39; Valkyrie, 3:25:19.

1895—Sept. 7, 15 miles to windward and return, east by south off Point Seabright, N. J.: Defender, 4:57:55; Valkyrie III, 5:08:44. Sept. 11, triangular course, 10 miles in each leg: Valkyrie, 3:55:09; Defender, 3:55:56; won by Defender on a foul. Sept. 13, Defender sailed over course and claimed cup and race; claim allowed.

1899—Oct. 16, 15 miles to windward and return, off Sandy Hook: Columbia, 4:53:53; Shamrock, 5:04:07. Oct. 17, triangular course, 10 miles to a leg: Columbia, 3:37:00; Shamrock snapped its topmast. Oct. 20, 15 miles to leeward and return: Columbia, 3:38:09; Shamrock, 3:43:26.

1901—Sept. 28, 15 miles to windward and return, off Sandy Hook; Columbia, 4:30:24; Shamrock II., 4:31:44. Oct. 3, triangular course; Columbia, 3:12:35; Shamrock II., 3:16:10. Oct. 4, 15 miles to leeward and return; Columbia, 4:32:57; Shamrock II., 4:33:38.
 1903—Aug. 22, 15 miles to leeward and return, off Sandy Hook; Reliance, 3:31:17; Shamrock III., 3:41:17. Aug. 25, triangular course, 10 miles to Reliance, 3:14:54; Shamrock III., 3:18:10. Sept. 3, 15 miles to windward and return; Reliance, 4:28:04; Shamrock III. did not finish.

THE EMPEROR'S CUP.

The first international ocean yacht race for a cup offered by the emperor of Germany was in 1905. The course was from Sandy Hook, N. J., to the Lizard, England, a distance of approximately 3,000 miles. The Atlantic, which was sailed by Capt. Charles Barr, won the race, arriving at the Lizard at 9:16 p. m., May 29, and beating the best previous record, made by the Endymion, by one day and sixteen and one-half hours. The actual elapsed time was twelve days and four hours, and the best day's run was 341 miles. The Hamburg came in second May 30 and the Valhalla third May 31.

RACE TO MACKINAC ISLAND.

The Chicago Yacht club's eighth annual race from Chicago to Mackinac Island was sailed July 22-24, 1911. E. O. Mills' thirty foot sloop Mavourneen, with a time allowance of 9:25:09, won, making the distance of 331 miles in 28:21:51, corrected time—a new record for the course. The Amorita, the scratch boat, finished first in 31:14:30. This also beat the old record, which was 31:24:06, made by the Valmore in 1910. The race was sailed in a strong gale and several of the competing yachts had to seek shelter. The Vencedor went ashore near Charlevoix and was wrecked. Winners of the event to date:

- | | |
|----------------|------------------|
| 1904—Vencedor. | 1908—Valmore. |
| 1905—Mistral. | 1909—Valmore. |
| 1906—Vanadis. | 1910—Valmore. |
| 1907—Vencedor. | 1911—Mavourneen. |

SONDER YACHT RACING.

In a series of five races between German and American yachts of the sonder class at Kiel, Germany, June 19-28, 1911, the Americans were victorious. The Biblot, owned by Harry Payne Whitney and R. W. Emmons, won first place with three victories, the Beaver and the Cima, both American, taking the other two. The German yachts Tilly XIV, Wannsee and Seehund III, were badly beaten, following the three Americans to the finish in every race except the third, in which Seehund III, was third and Cima fourth.

FELKER CHALLENGE CUP.

The annual yacht race for the Felker challenge cup took place on Lake Winnebago at Oshkosh, Wis., July 29, 1911, and was again won by the Kathryn of the Butte des Morts Yacht club. Summary of race:

Yacht.	Start.	Finish.
Kathryn	2:30:27	4:20:40
Menasha	2:30:50	4:24:05
Senorita	2:30:34	4:31:27
Gretchen	2:31:25	Capsized

In a race sailed July 27 the Kathryn won the Sawyer cup by taking first place in class A.

NORTHWESTERN REGATTA.

In the northwestern yachting regatta on Lake Geneva (Wis.), ending Aug. 12, 1911, the Merlin of White Bear won first place and the Dr. O. L. Schmidt cup in the class A races. The Phryne, also a White Bear boat, won the Geneva Yacht club trophy and the championship in the class B contest.

Edward Tilden is president of the Northwestern Yachting association; the secretary-treasurer is Fred A. Poore of Delavan. The 1912 regatta will be held on Delavan lake, Wis.

INLAND LAKES REGATTA.

In the Inland Lakes Yachting association regatta held at Oconomowoc, Wis., Aug. 21-26, 1911, Wax Wing of Delavan lake was the winner in class A.

Little Miss Fix It of Oconomowoc in class B and Swallow of Oconomowoc in class C. A special cup for class A boats was won by Phryne of White Bear lake and Handy Andy IV, won the Pelouse cup.

The officers of the association are: President—commodore, P. A. Valentine; secretary and treasurer, Commodore D. D. Herman, Lake Geneva; executive committee, Dr. O. L. Schmidt, Lake Geneva; Commodore Vandever, Minnetonka; Commodore S. W. Hollister, Oshkosh. The regatta of 1912 will be held at Oshkosh, Wis.

OCONOMOWOC REGATTA.

The thirty-third annual regatta of the Oconomowoc (Wis.) Yacht club was held on Lac La Belle, Oconomowoc, July 29, 1911. The class C trophy cup was won by Raymond Hamilton's Swallow in 1:13:52. The class A cup was won by Lester Armour's Handy Andy in 1:50:50.

MICHIGAN CITY RACE.

The Columbia Yacht club's annual race from Chicago to Michigan City was sailed June 17, 1911. The time prize was won for the second time by the Invader, a 21-foot raceboat, in 4:32:35, corrected time. The Vandal was second in 4:56:02. The class winners with corrected time of each follow:

- 21-foot class—Invader, 4:32:35.
- 21-foot cabin—Spray, 4:58:38.
- 35-foot class—Larikin, 4:54:00.
- Mixed class—Aeola, 5:58:44.
- 20-foot class—Bandit, 7:50:11.
- 25-foot class—Theima, 6:50:10.
- 30-foot class—Chloris, 5:47:53.
- Cruiser class—Mokhai, 9:33:20.

ROWING.

INTERUNIVERSITY RACES.

UNIVERSITY EIGHT-OARED.

In 1898 the race took place on Saratoga lake over a three-mile course; the other contests were on the four-mile course at Poughkeepsie, N. Y.
 June 26, 1896—(1) Cornell, 19:59; (2) Harvard, 20:08; (3) Pennsylvania, 20:18; (4) Columbia, 21:25.
 June 25, 1897—(1) Cornell, 20:34; (2) Yale, 20:44; (3) Harvard, 21:00.
 July 2, 1897—(1) Cornell, 20:47%; (2) Columbia, 21:20%; (3) Pennsylvania, swamped.
 July 2, 1898—(1) Pennsylvania, 15:51½; (2) Cornell, 16:06; (3) Wisconsin, 16:10; (4) Columbia, 16:21.
 June 27, 1899—(1) Pennsylvania, 20:04; (2) Wisconsin, 20:05½; (3) Cornell, 20:13; (4) Columbia, 20:20.
 June 30, 1900—(1) Pennsylvania, 19:44%; (2) Wisconsin, 19:46%; (3) Cornell, 20:04%; (4) Columbia, 20:08%; (5) Georgetown, 20:19%.
 July 2, 1901—(1) Cornell, 18:53¾; (2) Columbia, 18:58; (3) Wisconsin, 19:06%; (4) Georgetown, 19:21; (5) Syracuse, distanced; (6) Pennsylvania, distanced.
 June 21, 1902—(1) Cornell, 19:05%; (2) Wisconsin, 19:13%; (3) Columbia, 19:18%; (4) Pennsylvania, 19:26; (5) Syracuse, 19:31%; (6) Georgetown, 19:32.
 June 26, 1903—(1) Cornell, 18:57; (2) Georgetown, 19:27; (3) Wisconsin, 19:29%; (4) Pennsylvania, 19:30%; (5) Syracuse, 19:36%; (6) Columbia, 19:54.
 June 28, 1904—(1) Syracuse, 20:22%; (2) Cornell, 20:31%; (3) Pennsylvania, 20:32%; (4) Columbia, 20:45%; (5) Georgetown, 20:52%; (6) Wisconsin, 21:01%.
 June 28, 1905—(1) Cornell, 20:23%; (2) Syracuse, 21:47%; (3) Georgetown, 21:49; (4) Columbia, 21:53%; (5) Pennsylvania, 21:59%; (6) Wisconsin, 22:06%.
 June 25, 1906—(1) Cornell, 19:36%; (2) Pennsylvania, 19:42%; (3) Syracuse, 19:45%; (4) Wisconsin, 20:13%; (5) Columbia, 20:18%; (6) Georgetown, 20:35.
 June 26, 1907—(1) Cornell, 20:02%; (2) Columbia, 20:04; (3) Navy, 20:13%; (4) Pennsylvania, 20:33%; (5) Wisconsin (no time); (6) Georgetown (no time); (7) Syracuse (shell sunk).
 June 27, 1908—(1) Syracuse, 19:34%; (2) Columbia, 19:35%; (3) Cornell, 19:39; (4) Pennsylvania, 19:52%; (5) Wisconsin, 20:00%.
 July 2, 1909—(1) Cornell, 19:02; (2) Columbia, 19:04%; (3) Syracuse, 19:15%; (4) Wisconsin, 19:24%; (5) Pennsylvania, 19:32%.
 June 26, 1910—(1) Cornell, 20:42%; (2) Pennsylvania,

20:44%; (3) Columbia, 20:54%; (4) Syracuse, 21:13; (5) Wisconsin, 21:15%.

June 27, 1911—(1) Cornell, 20:10%; (2) Columbia, 20:16%; (3) Pennsylvania, 20:33; (4) Wisconsin, 20:34; (5) Syracuse, 21:03%.

FOUR-OARED RACES.

Poughkeepsie course, two miles.

July 2, 1901—(1) Cornell, 11:39%; (2) Pennsylvania, 11:45%; (3) Columbia, 11:51%.

June 21, 1902—(1) Cornell, 10:43%; (2) Pennsylvania, 10:54%; (3) Columbia, 11:08.

June 26, 1903—(1) Cornell, 10:34; (2) Pennsylvania, 10:35%; (3) Wisconsin, 10:55%; (4) Columbia, 11:14.

June 28, 1904—(1) Cornell, 10:53%; (2) Columbia, 11:12%; (3) Pennsylvania, 11:15%; (4) Wisconsin, 11:18%; (5) Georgetown, 11:34%.

June 28, 1905—(1) Syracuse, 10:15%; (2) Cornell, 10:17%; (3) Pennsylvania, 10:33%; (4) Columbia, 10:45; (5) Wisconsin, 10:52.

June 28, 1906—(1) Cornell, 10:34; (2) Syracuse, 10:45%; (3) Columbia, 10:55%; (4) Pennsylvania, 11:06%.

June 28, 1907—(1) Syracuse, 10:37%; (2) Cornell, 10:40; (3) Pennsylvania, 10:49; (4) Columbia, 10:59%.

June 27, 1908—(1) Syracuse, 10:52%; (2) Columbia, 11:06%; (3) Pennsylvania (disqualified for foul), 10:57%.

July 2, 1909—(1) Cornell, 10:01; (2) Syracuse, 10:10; (3) Columbia, 10:12; (4) Pennsylvania, 10:27.

June 26, 1910—(1) Cornell, 11:37%; (2) Syracuse, 11:42%; (3) Columbia, 11:48%; (4) Pennsylvania, 12:22.

June 27, 1910—(1) Cornell; (2) Syracuse; (3) Columbia; (4) Pennsylvania. No official time taken.

UNIVERSITY FRESHMAN EIGHTS.

Poughkeepsie course, two miles.

June 30, 1900—(1) Wisconsin, 9:45%; (2) Pennsylvania, 9:54%; (3) Cornell, 9:55%; (4) Columbia, 10:03.

July 2, 1901—(1) Pennsylvania, 10:20%; (2) Cornell, 10:23; (3) Columbia, 10:36%; (4) Syracuse, 10:44.

June 21, 1902—(1) Cornell, 9:34%; (2) Wisconsin, 9:42%; (3) Columbia, 9:49; (4) Syracuse, 9:53; (5) Pennsylvania, 10:05.

June 26, 1903—(1) Cornell, 9:18; (2) Syracuse, 9:22%; (3) Wisconsin, 9:32; (4) Columbia, 9:41; (5) Pennsylvania, 9:45.

June 28, 1904—(1) Syracuse, 10:01; (2) Cornell, 10:12%; (3) Pennsylvania, 10:18%; (4) Columbia, 10:28%.

June 28, 1905—(1) Cornell, 9:35%; (2) Syracuse, 9:49; (3) Columbia, 9:53; (4) Pennsylvania, 9:58%.

June 23, 1906—(1) Syracuse, 9:51%; (2) Cornell, 9:55; (3) Wisconsin, 9:55%; (4) Columbia, 10:07%; (5) Pennsylvania, 10:13%.

June 26, 1907—(1) Wisconsin, 9:58; (2) Syracuse, 10:03; (3) Pennsylvania, 10:04; (4) Columbia, 10:05%; (5) Cornell, 10:07%.

June 27, 1908—(1) Cornell, 9:29%; (2) Syracuse, 9:38%; (3) Columbia, 9:43; (4) Wisconsin, 9:55%; (5) Pennsylvania, 10:42.

July 2, 1909—(1) Cornell, 9:07%; (2) Syracuse, 9:14%; (3) Pennsylvania, 9:21; (4) Wisconsin, 9:22%; (5) Columbia, 9:26.

June 26, 1910—(1) Cornell, 10:40%; (2) Columbia, 10:53%; (3) Syracuse, 10:53%; (4) Pennsylvania, 11:09%; (5) Wisconsin, 11:15%.

June 27, 1911—(1) Columbia, 10:13%; (2) Cornell, 10:27; (3) Syracuse, 10:23%; (4) Pennsylvania, 10:24%; (5) Wisconsin, 10:38.

HARVARD-YALE RACES.

UNIVERSITY EIGHTS.

Year.	Winner.	Time.	Loser's time.
1876	Yale	22:02	22:33

1911	Harvard	13:37½	13:52

CORNELL-HARVARD RACES.

Two miles. Eight-oared crews.

Year.	Course.	Winner.	Time.
1907	Lake Cayuga	Cornell	11:03
1908	Charles River	Harvard	10:47
1909	Lake Cayuga	Cornell	11:00
1910	Charles River	Cornell	11:23
1911	Lake Cayuga	Cornell	10:59

YALE-PRINCETON-CORNELL.

In a three cornered boat race between Cornell, Yale and Princeton over a course of 1½ miles on Carnegie lake at Princeton, N. J., May 26, 1911, Cornell was the winner, crossing the line two lengths ahead of Princeton and about a dozen lengths ahead of Yale. The official time was: Cornell, 9:01; Princeton, 9:10; Yale, 9:45.

PENNSYLVANIA VS. YALE.

In a two mile race between Pennsylvania and Yale university crews at Springfield, Mass., May 13, Pennsylvania won by more than six lengths. Time—Pennsylvania, 9:29%; Yale, 9:49%.

COLUMBIA VS. NAVY.

Columbia defeated the navy eight from Annapolis in a two mile race on the Severn river May 13, 1911, by three and a half lengths. Time, 11:27.

SYRACUSE VS. NAVY.

The navy eight defeated Syracuse in a two mile race at Annapolis May 20, 1911. Time, 11:02.

CALIFORNIA VS. STANFORD.

In a three mile boat race between the University of California and the Leland Stanford, Jr., university on the Oakland estuary at Alameda, Cal., April 25, 1911, Stanford won by a length in 14:05.

AMERICAN ROWING REGATTA.

The ninth annual regatta of the American Rowing association took place May 27, 1911, over the Henley distance, 1 mile 550 yards, on the Schuylkill river, Philadelphia, Pa. Winners and time:

First four oared shells—Won by Philadelphia Barge club. Time, 7:10.
Schuylkill cup, first double sculls—Won by West Philadelphia Bt club. Time, 7:49.
Puritan cup, first four oared shells—Won by Arundel Boat club, Baltimore. Time, 7:15½.
Second eight oared shells, special interclub match—Won by Union Boat club of Boston. Time, 6:54½.
New England cup, junior collegiate eight oared shells—Won by Cornell. Time, 6:41½.
Second single sculls—Won by George W. Allison, West Philadelphia Boat club. Time 8:21.
Franklin cup, interscholastic eight oared shells—Won by Cascadilla school, Ithaca, N. Y. Time, 6:41½.
Stewards cup, first eight oared shells—Won by Columbia University Rowing club, New York. Time, 6:49½.

NATIONAL ROWING REGATTA.

The thirty-ninth annual regatta of the National Association of Amateur Oarsmen was held on Saratoga lake at Saratoga, N. Y., July 23-29, 1911. All races except one were over a course of 1¼ miles. Winners and time:

Intermediate single scull shells—W. N. Gear, Union Boat club, Boston; 8:42½.
Intermediate double scull shells—W. N. Gear and C. Wiggins, Union Boat club, Boston; 7:44.
Intermediate four oared shells—Detroit Boat club, 7:24½.
Senior single scull shells (association)—E. B. Butler, Argonaut Rowing club, Toronto, Ont.; 8:11½.
Senior four oared shells—Argonaut Rowing club, Toronto, Ont.; 7:05.
Champion senior sculls—E. B. Butler, Argonaut Rowing club, Toronto, Ont., 7:56½.
Senior double shells—Vesper Boat club, Philadelphia, Pa.; 7:48½.
Senior eight oared shells—Argonaut Rowing club, Toronto, Ont.; 6:11½.
Senior international four oared shells—Arundel Boat club, Baltimore, Md.; 6:50½.
Intermediate eight oared shells—Argonaut Rowing club, Toronto, Ont.; 6:35½.
Senior ¼ mile dash, single scull shells—E. B. Butler, Argonaut Rowing club, Toronto, Ont.; 1:20.
Senior double scull shells—George W. Engel and Samuel F. Gordon, Vesper Boat club, Philadelphia, Pa.; 7:31.

CENTRAL STATES REGATTA.

The fifth annual regatta of the Central States Amateur Rowing association took place at Peoria, Ill., July 17-18, 1911. Summary of principal events: Junior single sculls, ¼ mile dash—Won by H. Floerke, Central Rowing club, St. Louis, Mo.; 1:02½.

Junior four oared shells, 1¼ miles—Won by Lincoln Park Boat club, Chicago, Ill.; 9:27½.
Junior single sculls, 1¼ miles—Won by Ernest Conlon, Grand Rapids (Mich.) Boat club, 11:06½.
Junior four oared shells, 1¼ miles—Won by Western Rowing club, St. Louis, Mo.; 10:35½.
Junior double sculls, 1¼ miles—Won by Grand Rapids Rowing club; 10:00½.
Junior six oared barge, ¾ mile—Won by Central Rowing club, St. Louis, Mo.; 3:57.
Senior four-oared shells, 1¼ miles—Won by Central Rowing club, St. Louis; 9:58½.
Senior single sculls, 1¼ miles—Won by Ernest Conlon, Grand Rapids Rowing club; 11:51½.
Senior pair-oared shells, 1¼ miles—Won by Century Boat club, St. Louis; 10:35½.
Senior four-oared shells, 1¼ mile—Won by Grand Rapids Rowing club, 2:28½.
Senior double sculls—1¼ miles—Won by North Side Boat club, Quincy, Ill.; 9:27½.

Senior six-oared barges, ¾ mile—Won by Central Rowing club, St. Louis; 4:16.

NOTE—The race of 1911 was the sixty-eighth in the history of the event. The first contest took place in 1845.

CANADIAN HENLEY.

The annual regatta of the Canadian Association of Amateur Oarsmen was held on the Canadian Henley course, at St. Catharines, Ont., Aug. 4-5, 1911. Results in principal events:

Junior fours—Don Rowing club, Toronto, first; Hamilton Rowing club, Hamilton, Ont., second; Argonauts, third; 9:00½.
Eight oars, seniors—Argonaut Rowing club, Toronto, first; Detroit Rowing club, Detroit, second; 6:37½.
Eight-oared, junior—Argonaut Rowing club, Toronto, first; Detroit Rowing club, Detroit, second; 6:47.
Junior four oars (in working boats)—Hamilton Rowing club, Hamilton, Ont., first; St. Catharines Rowing club, St. Catharines, Ont., second; 9:45½.
Senior four oars—Argonaut Rowing club, Toronto, first; Dons, Toronto, second; Britannia Rowing club, third; 8:55½.
Junior fours, 140 pounds—Argonaut Rowing club, Toronto, first; St. Catharines Rowing club, St. Catharines, Ont., second; 9:07.

HENLEY REGATTA (ENGLAND).

The royal regatta at Henley, England, took place July 5-8, 1911. The Grand Challenge cup was again won by Magdalen college of Oxford, which took the deciding heat from Jesus college of Cambridge in 7:02. Eton won the Ladies' Challenge plate in 6:56. The Thames four won the Stewards' Challenge cup, W. D. Kinnear again won the Diamond sculls race, his opponent in the final heat being E. W. Powell, J. Berford and A. H. Cloutte of the Thames Rowing club won the Silver Goblets race in 8:03.

SCULLING.

In a race for the world's sculling championship, rowed on the Paramatta river, New South Wales, Australia, July 29, 1911, Richard Arnot of New Zealand, holder of the title, defeated Harry Pierce, champion of Australia. The time, 19:46, was a record for the course of 3 miles and 330 yards.

In a sculling race for the "world's championship" at Raluy River, Ont., Sept. 7, 1911, Ed Durman of Toronto defeated J. L. Hackett of Rainy River by five lengths over a 3-mile course. Time, 20:23.

Sept. 11, 1911, Ernest Barry, champion sculler of England, defeated W. H. Fogwell of New Zealand in a race over the Putney-Mortlake course in London, England, by three and a half lengths in 22:14. The race was for a purse of \$2,000 and the championship of England.

ROWING RECORDS.

- $\frac{1}{2}$ mile—*:57, single scull, straightaway, Edwin Henley, Newark, N. J., July 11, 1901.
 $\frac{1}{2}$ mile—*2:08 $\frac{1}{2}$, single scull, straightaway, Edwin Henley, Newark, N. J., July 11, 1893.
 1 mile—4:23, single scull, straightaway, James Stansbury, with tide, Thames river, England, July 11, 1896. *4:48, single scull, straightaway, Rupert Guinness, Thames river, England, 1893.
 2 miles—*9:18, eight oars, straightaway, Cornell freshmen, Poughkeepsie, N. Y., June 26, 1903.
 3 miles—*14:27 $\frac{1}{2}$, eight oars, straightaway, Cornell varsity, New London, Conn., June 25, 1891.
 4 miles—*18:53 $\frac{1}{2}$, straightaway, eight oars, Cornell university, Poughkeepsie, N. Y., July 2, 1901.
 *Performance by amateurs.

SWIMMING.

NATIONAL A. A. U. CHAMPIONSHIPS.

The National Amateur Athletic union's championship swimming matches took place in Chicago March 15 and Aug. 6, New York March 24, Philadelphia March 25, Pittsburgh March 28 and St. Louis March 31, April 1 and Aug. 19, 1911, with the following results:

- 200 yard breast stroke—Won by M. McDermott, C. A. A.; N. Buck, C. A. A., second; R. Schlemm, C. A. A., third. Time, 2:43 $\frac{1}{2}$. (In C. A. A. tank, Chicago.)
 Fancy diving—Won by F. Bornemann, C. A. A., 195 points; W. P. Heyn, C. A. A., second, 171 $\frac{1}{2}$ points; H. Burton, C. A. A., third, 169 points. (In C. A. A. tank, Chicago.)
 100 yard swim—Won by C. M. Daniels, N. Y. A. C.; Perry McGillivray, I. A. C., second; R. E. Frizelle, Missouri A. C., third. Time, :56 $\frac{1}{2}$. (In the N. Y. A. C. tank, New York.)
 50 yard swim—Won by Harry Hebner, I. A. C.; Perry McGillivray, I. A. C., second; Richard Frizelle, M. A. C., third. Time, :24 $\frac{1}{2}$. (In Y. M. C. A. pool, Philadelphia.)
 220 yard swim—Won by C. M. Daniels, N. Y. A. C.; Hebner, I. A. C., second; Frizelle, M. A. C., third. Time, 2:25 $\frac{1}{2}$. (In Pittsburgh natatorium.)
 500 yard swim—Won by C. M. Daniels, N. Y. A. C.; Frizelle, M. A. C., second; Reilly, N. Y. A. C., third. Time, 6:29 $\frac{1}{2}$. (In Crystal natatorium, St. Louis, Mo.)
 Interclub relay, 400 yards—Won by New York A. C.; Chicago A. A., second; Missouri A. C., third. Time, 4:10 $\frac{1}{2}$. (In Crystal natatorium, St. Louis, Mo.)
 Water polo—Won by Missouri A. C. from Chicago A. C., 3 to 2. (In Crystal natatorium, St. Louis, Mo.)
 $\frac{1}{2}$ mile swim—Won by Bud Goodwin, N. Y. A. C.; M. McDermott, C. A. A., second; J. M. Griffin, C. A. A., third. Time, 14:02. (On beach at South Shore Country club, Chicago.)
 10 mile swim—Won by Michael McDermott, C. A. A.; A. M. Goessling, Missouri A. C., second; Chauncey Heath, Missouri A. C., third. Time, 1:41:00. (In Mississippi river at St. Louis, Mo.)

CENTRAL A. A. U. CHAMPIONSHIPS.

- The Central Amateur Athletic union's annual swimming championships were determined in the tanks of the Chicago Athletic association and the Illinois Athletic club, Chicago, March 8 and 15, 1911. Summary:
 Plunge for distance—Won by Melgs, C. A. A.; Licher, C. A. A., second. Time, :28 $\frac{1}{2}$.
 50 yard swim—Won by Mallen, C. A. A.; Hebner, I. A. C., second; Huszagh, C. A. A., third. Time, :24 $\frac{1}{2}$. (New C. A. A. U. record.)
 880 yard swim—Won by McGillivray, I. A. C.; Foster, I. A. C., second; Briggs, C. A. A., third. Time, 13:14 $\frac{1}{2}$.
 220 yard breast stroke—Won by McDermott, C. A. A.; Buck, C. A. A., second; Heyn, C. A. A., third. Time, 2:47 $\frac{1}{2}$.

- 220 yard swim—Won by Hebner, I. A. C.; Mallen, C. A. A., second; White, C. A. A., third. Time, 2:39 $\frac{1}{2}$. (New C. A. A. U. record.)
 Fancy diving—Won by Bornemann, C. A. A.; Burton, C. A. A., second; Seaverns, C. A. A., third. 100 yard back stroke—Won by Hebner, I. A. C.; Olson, C. A. A., second; Weber, I. A. C., third. Time, 1:14 $\frac{1}{2}$.
 100 yard swim—Won by H. Hebner, I. A. C.; P. McGillivray, I. A. C., second; P. Mallen, C. A. A., third. Time, :57 $\frac{1}{2}$.
 Mile swim—Won by M. McDermott, C. A. A., R. Foster, I. A. C., second; W. Merriam, C. A. A., third. Time, 27:20 $\frac{1}{2}$.
 440 yard swim—Won by P. McGillivray, I. A. C.; J. Briggs, C. A. A., second; D. Thompson, C. A. A., third. Time, 6:17 $\frac{1}{2}$. (New western record.)

CHICAGO RIVER SWIM.

The fourth annual Chicago river swim under the auspices of the Illinois Athletic club took place July 29, 1911, over a course of approximately $\frac{1}{2}$ miles from the mouth of the river to Jackson boulevard bridge. Joseph Steuer unattached, was the winner. Following was the order at the finish and time of first five contestants:

Position.	Time.
1—Joseph Steuer, unattached.....	43:21
2—T. W. Wlans, unattached.....	43:38 $\frac{1}{2}$
3—Otis Randall, Detroit University school.....	44:07
4—W. S. Vosburgh, Jr., University of Illinois.....	44:11
5—Parker Ware, unattached.....	44:15

Record of the event:

Year.	Winner.	Time.
1908—S. C. Jensen, I. A. C.....		44:41 $\frac{1}{2}$
1909—H. J. Handy, I. A. C.....		36:12 $\frac{1}{2}$
1910—Perry McGillivray, I. A. C.....		38:03
1911—Joseph Steuer, unattached.....		43:21

LAKE "MARATHON" SWIM.

Michael McDermott of the Chicago Athletic association won the $\frac{3}{4}$ mile swimming race from Lake View crib to Wilson beach, Chicago, Aug. 12, 1911, in 1:24:27. N. R. Ferguson of the Illinois Athletic association was second in 1:6:12. Winners of event to date:

Year and winner.	Time.
1906—H. J. Handy, I. A. C.....	1:09:00
1907—L. Chiville, Y. M. C. A.....	1:17:00
1908—H. J. Handy, I. A. C.....	1:12:00
1909—W. S. Merriam, M. C. Indianapolis.....	52:25
1910—M. McDermott, C. Y. M. C. A.....	1:06:25
1911—M. McDermott, C. A. A.....	1:04:27

CONFERENCE CHAMPIONSHIPS.

The first annual college conference swimming meet was held in the Patten gymnasium pool at the Northwestern university, Evanston, March 24, 1911. The University of Illinois won with 39 points, Chicago, Wisconsin and Northwestern tying for second place with 17 points each. Events and winners:

- 40-yard swim—Vosburgh, Illinois. Time, :21 $\frac{1}{2}$.
 100-yard breast stroke—Templeton, Wisconsin. Time, 1:24 $\frac{1}{2}$.
 100-yard back stroke—Vosburgh, Illinois. Time, 1:26 $\frac{1}{2}$.
 100-yard swim—Vosburgh, Illinois. Time, 1:06 $\frac{1}{2}$.
 440-yard swim—Little, Northwestern. Time, 6:59.
 Plunge for distance—Rundell, Chicago. 60 ft. in :52.
 Relay race, 160 yards—Illinois. Time, 1:35.
 Water polo—Illinois. Score, 7 to 0.

BURGESS SWIMS ENGLISH CHANNEL.

William Burgess of Yorkshire, England, successfully swam the English channel Sept. 5-6, 1911, from Dover to Cape Gris-Nez. He landed almost exactly twenty-four hours after he started from Dover. It was his tenth and only successful attempt to accomplish the feat, which was first performed by Capt. Webb in 1875. Many other swimmers had tried it in the intervening years, but all failed to overcome the powerful tides and currents in the channel.

NEW ONE MILE RECORD.

The one mile championship of the Amateur Swimming Association of London, England, was won in London July 29, 1911, by H. Taylor in 23 minutes 35 $\frac{1}{2}$ seconds, a new English record in open water.

RECORDS MADE IN 1911.

(Unofficial.)

- 43 yards, back stroke—Made in :23 $\frac{1}{4}$ by Harry Hebner in I. A. C. tank, Chicago, Feb. 23; world's record.
- 50 yards—Made in :24 $\frac{1}{4}$ by Harry Hebner, I. A. C., in Y. M. C. A. pool, Philadelphia, March 25; new American record.
- 150 yards—Made in 1.32 $\frac{1}{2}$ by C. M. Daniels, N. Y. A. C., at New Haven, Conn., Feb. 17.
- 200 yards, breast stroke—Made in 2:42 $\frac{1}{2}$ by Michael McDermott in the C. A. A. tank, Chicago, Feb. 25; new American record.
- 200 yards, breast stroke—Made in 2:43 $\frac{1}{2}$ by Michael McDermott in the C. A. A. tank, Chicago, March 15; new American record in championship event.
- 200 meters—Made in 2:23 $\frac{1}{2}$ by C. M. Daniels in New York Athletic club's tank, Feb. 20; world's record.
- 220 yards—Made in 2:25 $\frac{1}{2}$ by C. M. Daniels in natatorium, Pittsburgh, Pa., March 28, 1911; equals world's record, held by himself.
- 1 mile, amateur—Made in 25:40 $\frac{1}{2}$ by James H. Reilly, N. Y. A. C., at Bye, N. Y., Sept. 16.
- Plunging 60 feet—Made in :22 by Millard Kaiser, M. A. C., in C. A. A. tank, Chicago, Feb. 25; new American record.
- Plunging for distance (1 minute time limit)—75 feet 10 inches made by Millard Kaiser, M. A. C., in Missouri Athletic club's tank, St. Louis, Jan. 28; new American record.

AMERICAN SWIMMING RECORDS.

[Compiled by Martin B. Herbert.]

- 50 yards—:24 $\frac{1}{4}$, Harry J. Hebner, I. A. C.
- 100 yards—:56, C. M. Daniels, N. Y. A. C.
- 220 yards—2:25 $\frac{1}{2}$, C. M. Daniels, N. Y. A. C.
- 440 yards—5:31 $\frac{1}{2}$, C. M. Daniels, N. Y. A. C.
- 880 yards—11:44 $\frac{1}{2}$, C. M. Daniels, N. Y. A. C.
- 1 mile—23:40 $\frac{1}{2}$, C. M. Daniels, N. Y. A. C.
- 10 miles (Mississippi river)—1:30:52, L. B. Goodwin, New York Athletic club.
- 100 yards on back—1:15 $\frac{1}{2}$, H. J. Handy, I. A. C.
- 100 yards, breast stroke—1:17 $\frac{1}{2}$, H. J. Handy, I. A. C.
- 500 yards, relay—5:09 $\frac{1}{2}$, I. A. C. team (H. J. Hebner, Perry McGillivray, William Vosburgh, R. E. Frizelle, H. J. Handy).
- 400 yards, relay—4:03 $\frac{1}{2}$, I. A. C. team (H. J. Hebner, R. E. Frizelle, P. McGillivray, William Vosburgh).
- Plunge for distance (1 minute time limit)—75 feet 10 inches, Millard Kaiser, M. A. C.
- Under-water swim—320 feet, E. P. Swatek, I. A. C.

CENTRAL A. A. U. RECORDS.

- 40 yards—:19 $\frac{1}{4}$, P. W. McGillivray, I. A. C.
- 100 yards—:58 $\frac{1}{2}$, H. J. Handy, I. A. C.
- 220 yards—2:38 $\frac{1}{2}$, H. J. Handy, I. A. C.
- 440 yards—5:50, H. J. Handy, I. A. C.
- 880 yards—12:04 $\frac{1}{2}$, H. J. Handy, I. A. C.
- 1 mile—24:43 $\frac{1}{2}$, H. J. Handy, I. A. C.
- 100 yards, back stroke—1:15 $\frac{1}{2}$, H. J. Handy, I. A. C.
- 100 yards, breast stroke—1:17 $\frac{1}{2}$, H. J. Handy, I. A. C.
- Plunge for distance—65 feet 10 inches—C. L. Brown, I. A. C.
- Under-water swim—320 feet, E. P. Swatek, I. A. C.
- 160 yards, relay—1:23 $\frac{1}{2}$, I. A. C. team (H. J. Hebner, R. E. Frizelle, P. McGillivray, William Vosburgh).
- 100-yard medley swim—1:10 $\frac{1}{4}$, H. J. Hebner, I. A. C.
- Fancy diving—F. A. Bornemann, C. A. A., and G. Galdzik, C. A. A.

FLY AND BAIT CASTING.

[Compiled by Fred N. Peet, 710 West Madison street, Chicago, Ill.]

NATIONAL ASSOCIATION RECORDS.

- Following are the records made under the rules of the National Association of Scientific Angling Clubs:
- All-around championship fly and bait casting—W. H. Ball, first, 10 demerits, Chicago, Aug. 18-20, 1910.
- All-around championship fly and bait casting—L. E. De Garmo, second, 11 demerits, Chicago, Aug. 18-20, 1910.
- Salmon casting—W. H. Ball, 140 ft. 6 in. (rod 15 ft.), Chicago, Aug. 19, 1910.

- Long-distance fly—Fred N. Peet, 117 ft. (rod unlimited), Chicago, Aug. 20, 1910.
- Long-distance fly—Fred N. Peet, 102 ft. (5-ounce rod), Chicago, Aug. 18, 1910.
- Dry fly delicacy and accuracy at buoys 35, 40 and 45 ft.—Fred N. Peet, 99 7-30%, Racine, Wis., Aug. 15, 1907.
- Distance and accuracy at buoys 50, 55 and 60 ft.—F. A. Forsythe, 99 13-15%, Chicago, Aug. 13, 1910.
- Dry fly accuracy at buoys 20, 27 $\frac{1}{2}$, 35, 42 $\frac{1}{2}$, 50 ft.—L. E. De Garmo, 99 2-15% (5-ounce rod), Chicago, Aug. 18, 1910.
- 1 $\frac{1}{2}$ -ounce accuracy bait at buoys 60, 70, 80, 90 and 100 ft.—D. F. Beatty, 99 5-10%, Chicago, Aug. 20, 1910.
- 1 $\frac{1}{4}$ -ounce accuracy bait at buoys 60, 65, 70, 75 and 80 ft.—W. H. Ball, 99 5-10%, Chicago, Aug. 19, 1910.
- 1 $\frac{1}{2}$ -ounce long-distance bait—B. F. Flegel, 203 ft. 7 $\frac{1}{2}$ in., Chicago, Aug. 20, 1910.
- 1 $\frac{1}{4}$ -ounce long-distance bait—B. F. Flegel, 148 ft. 7 $\frac{1}{2}$ in., Chicago, Aug. 19, 1910.
- Two-handed surf casting, 2 $\frac{1}{2}$ -ounce—F. B. Rice, 269 $\frac{1}{2}$ ft., New York, Aug. 21, 1909.

AMERICAN RECORDS.

- Salmon casting, professional—John Enright, 152 ft.; rod, 20 ft., 48 oz.; Central park, New York, Oct. 12, 1906.
- Switch fly casting—H. W. Hawes, 102 ft.; Central park, New York, 1887.
- Long-distance fly casting, heavy rod—W. D. Mansfield, 134 ft.; rod, 11 ft., 10 oz.; San Francisco, 1902.
- Long-distance fly casting (5-oz. rod)—W. D. Mansfield, 129 ft. 6 in.; San Francisco, 1902.
- Dry fly casting for delicacy and accuracy at buoys 35, 40 and 45 ft.—Fred N. Peet, 99 5-15%, at Kalamazoo, Mich., Aug. 3, 1906.
- Long-distance bait casting 1 $\frac{1}{2}$ ounce, longest cast—B. F. Flegel, 162 ft. 9 in., Chicago, Aug. 19, 1910.
- Long-distance bait, 1 $\frac{1}{2}$ ounce, longest cast—E. R. Letterman, 223 ft., Fox river valley tournament, 1907.

ICE SKATING.

CHAMPIONSHIP MEETINGS IN 1911.

NORTHWESTERN (INDOOR).

- Place and date—St. Paul, Minn., Jan. 11 and 12.
- 1 $\frac{1}{2}$ mile open—Won by Robert McLean, Chicago, Fisher, Milwaukee, second; Hanselman, St. Paul, third. Time, 1:21. Second contest also won by McLean in 1:19.
- 1 mile open—Won by McLean; Fisher, second; MacGeever, third. Time, 2:59.
- 1 mile handicap—Won by McLean in 2:54.
- 2 mile open—Won by McLean; Fisher, second; MacGeever, third. Time, 6:20.

INTERNATIONAL (INDOOR).

- Place and date—Chicago, Ill., Jan. 16 and 17.
- 1 $\frac{1}{4}$ mile—Won by Edmund Laluy, Saranac lake; Harry Kaad, Chicago, second; Carl Ahlroth, St. Louis, third. Time, .42 $\frac{1}{2}$.
- 1 mile—Won by Lamy; Robert McLean, Chicago, second; R. L. Wheeler, Montreal, third. Time, 3:09.
- 2 miles—Won by Lamy; Kaad, second; Wheeler, third. Time, 6:36 $\frac{1}{2}$.
- 220 yards—Won by Lamy; Lot Roe, Toronto, second; Kaad, third. Time, :21 $\frac{1}{2}$.
- 1 $\frac{1}{2}$ mile—Won by Lamy; Wheeler, second; Roe, third. Time, 1:26.
- 1 mile—Interstate—Won by McLean, Illinois; Fisher, Wisconsin, second; R. O. Brunst, Ohio, third. Time, 3:06.
- 3 mile scramble—Won by Lamy; Fisher, second; Roe, third. Time, 8:52.
- 1 $\frac{1}{2}$ mile novice—Won by Walter Simonsen; Harmon Newell, second; James Shaw, third. Time, 1:33.

NATIONAL (OUTDOOR).

- Place and date—Saranac Lake, N. Y., Jan. 25 and 26.
- 220 yards—Won by Roe; Lamy, second; W. E. Gunderson, Chicago, third. Time, :20 $\frac{1}{2}$.
- 1 $\frac{1}{2}$ mile—Won by Lamy; Wheeler, second; Robson, third. Time, 1:38 $\frac{1}{2}$.
- 1 mile—Won by Lamy; Wheeler, second; Roe, third. Time, 3:11 $\frac{1}{2}$.

- 2 miles—Won by Wheeler; Lamy, second; Kaad, third. Time, 6:42.
- 440 yards—Won by Lamy; Roe, second; Wheeler, third. Time, 4:44.
- 220 yards, over hurdles—Won by Robson; Halversen, second; Roe, third. Time, 2:38.
- 3 miles—Won by Lamy; Wheeler, second; Kaad, third. Time, 11:02½.

INTERNATIONAL (OUTDOOR).

- Place and date—Montreal, Que., Jan. 28.
- 220 yards—Won by Lamy; W. H. Jackson, Montreal, second; Wheeler, third. Time, 2:17½.
- 220 yards, hurdles—Won by Robson; Gunderson, second; Finlayson, third. Time, 3:17.
- 880 yards—Won by Lamy; Wheeler, second; V. M. Oholm of Stockholm, third. Time, 1:33½. (Lamy suspended for refusing to skate event over again as time limit of 1:30 had been exceeded; no prizes awarded.)

- 1 mile—Won by Wheeler; Kaad, second; Roe, third. Time, 3:16½.
- 3 miles—Won by Kaad; Wheeler, second; Gunderson, third. Time, 10:13½.
- 880 yards, backwards—Won by A. Mason, Montreal; L. Davia, second; Byrne, third. Time, 1:42½.

NEW ENGLAND (INDOOR).

- Place and date—Boston, Mass., Jan. 31.
- 220 yards—Won by F. J. Robson; H. E. Halversen, second; Phil Kearney, third. Time, 1:18 (world's record).

- High jump, flying start—Won by W. H. Quinn of Harvard; height, 4 feet 3 inches (world's record).
- 880 yards—Won by Lot Roe; W. E. Gunderson, second; Robson, third. Time, 4:32½.

- 1 mile—Won by Phil Kearney, New York; Halversen, second; Roe, third. Time, 3:22.
- 3 miles—Won by Gunderson; Halversen, second; Roe, third. Time, 10:38½.

WESTERN (INDOOR).

- Place and date—Chicago, Ill., Feb. 6-7.
- ¼ mile—Won by Robert McLean; Halversen, second; Marzolph, third. Time, :44.
- 1 mile, junior—Won by Archie Millot, Milwaukee; Crokin, Chicago, second; Mears, Chicago, third. Time, 3:26.

- 1 mile—Won by McLean; O'Sicky, Cleveland, second; Lauman, Milwaukee, third. Time, 3:05½.
- 3 mile scramble—Won by Hess, Cleveland; O'Sicky, Cleveland, second; MacGeever, St. Paul, third. Time, 9:30½.

- 220 yards—Won by Halversen; Gunderson, second; Brunst, third. Time, 2:06½.

- ½ mile—Won by McLean; Halversen, second; Gunderson, third. Time, 1:27.
- 2 miles—Won by McLean; Halversen, second; Gunderson, third. Time, 3:16.
- 440 yards, hurdles—Won by Gunderson; Leonard, second; Marker, third. Time, 5:06.

NATIONAL (INDOOR).

- Place and date—Cleveland, O., Jan. 18 and 19.
- ¼ mile—Won by Lamy; McLean, second; Roe, third. Time, 4:05.
- ½ mile—Won by McLean; Lamy, second; Wheeler, third. Time, 2:15.

- 1¼ miles—Won by Lamy—Fred Robson, Toronto, second; Kaad, third. Time, 4:59.
- ½ mile—Won by McLean; Lamy, second; Robson, third. Time, 1:22.

- 1 mile—Won by McLean; Lamy, second; Wheeler, third. Time, 2:59½.
- 1¼ miles—Won by Lamy; Wheeler, second; Kaad, third. Time, 3:56.

EASTERN (INDOOR).

- Place and date—New York, N. Y., Feb. 22-23.
- ¼ mile—Won by Phil Kearney; Robert McLean, second; Fred Robson, third. Time, :44.
- ¾ mile—Won by Phil Kearney; Robert McLean, second; Lot Roe, third. Time, 2:27½.

- 1 mile handicap—Won by Lester Helms (80 yards); L. Barnett (90 yards), second; R. L. Wheeler (90 yards), third. Time, 3:18½.

NEW 5,000 METER RECORD.

At the international skating races in Christiania, Norway, Feb. 4, 1911, M. Strunnikow, a Russian, won the 5,000 meter (about 3.1 miles) race in 8:37½, lowering the world's record of 8:37½, made by J. J. Eden at Hamar, Norway, in 1894, by two-fifths of a second.

WORLD'S ICE SKATING RECORDS.

- 50 yards—05½, Morris Wood,* 1907.
- 75 yards—08, Fred J. Robson,* 1907.
- 100 yards—307, Harley Davidson and Howard F. Mosher, 1895.
- 150 yards—14½, G. D. Phillips,* 1885, and S. D. See, 1886.

- 200 yards—16½, J. C. Hemmet,* 1895.
- 220 yards—18, F. J. Robson,* 1911.
- 300 yards—23½, Harley Davidson, 1895.
- 440 yards—23½, Norval Baptie, 1903.
- 600 yards—55½, O. Rudd, 1893.
- 660 yards—59½, Morris Wood,* 1904.
- ½ mile—1:00½, Norval Baptie, 1903.
- ¾ mile—1:54½, O. Rudd, 1895.
- ¾ mile—1:04½, Edmund Lamy,* 1910.
- 1 mile—2:08, Norval Baptie, 1903.
- 1¼ miles—3:43, John S. Johnson, 1894.
- 1½ miles—4:10, Lot Roe,* 1910.
- 1¾ miles—5:14, J. S. Johnson, 1895.
- 2 miles—5:33½, John Nilsson, 1900.
- 2¼ miles—7:32, J. S. Johnson, 1894.
- 5 miles—14:24, O. Rudd, 1896.
- 10 miles—31:11½, J. S. Johnson, 1894.
- 25 miles—1:31:29, J. F. Donohue, 1893.
- 50 miles—3:15:59½, J. F. Donohue, 1893.
- 100 miles—7:11:38½, J. F. Donohue, 1893.
- High jump, flying start—4 feet 3 inches, William H. Quinn,* 1911.
- Broad jump—25 feet 2 inches, Edmund Lamy,* 1911. *Amateur.

SKATING ASSOCIATIONS.

International Skating Union of America—Allen J. Blanchard, Chicago, president; John Harding, Saranac Lake, N. Y., vice-president; James A. Taylor, Montreal, Ont., second vice-president; Fred H. Tucker, Jr., Brooklyn, secretary.

Western Skating Association—Joseph T. Keane, Chicago, president; Peter B. Olsen, vice-president; Dr. H. H. Hayes, second vice-president; Julian T. Fitzgerald, secretary-treasurer.

CURLING.

NORTHWESTERN BONSPIEL.

In the northwestern bonspiel ending Jan. 23, 1911, in Duluth, Minn., Robert Dunbar of St. Paul was the star player, taking nineteen out of twenty games. Results in main events:

- Spalding Hotel Event—Hurdon, Duluth, first; Smith, Superior, second; Bradley, Duluth, third; Richardson, Duluth, fourth.
- Duluth Curling Club Trophy—Dunbar, St. Paul, first; Robertson, Arlington, second; Hurdon, Duluth, third; Smith, Superior, fourth.
- St. Paul Jobbers' Event—Whyte, Duluth, first; Dunbar, St. Paul, second; Raup, Portage, third; Bradley, Duluth, fourth.
- Minneapolis Curling Club Trophy—Dunbar, St. Paul, first; Sutherland, Selkirk, second; Zauft, West Duluth, third; McDermitt, St. Paul, fourth.

INTERNATIONAL CHAMPIONSHIP.

The international curling championship and the Gordon medal were won by the United States at the Boston (Mass.) arena Feb. 20, 1911, when the Canadian teams were defeated by a total score of 149 to 137. The American teams won in five of the eight rinks.

SKI JUMPING.

NATIONAL SKI TOURNAMENT.

The annual national ski tournament of the United States took place at Chippewa Falls, Wis., Jan. 29-30, 1911. In the amateur class Barney Riley of Coleraine, Minn., was the winner for the fourth time with 242½ points. Carl Solberg of St. Paul, Minn., was second with 243 points. His longest jump was 116 feet. The score of the leading competitors was:

Name and place.	Points.
Barney Riley, Coleraine, Minn.	243½
Carl Solberg, St. Paul, Minn.	243
Arnold Olson, Duluth, Minn.	230½
Endrow Schanche, Chicago.	227
Henry Hall, Ishpeming.	224½
Engwald Hendrickson, Eau Claire.	224
Julius Blegen, Minneapolis.	222
Simon Erickson, Superior.	217

Name and place.	Points.
Eliuar A. Jensen, Chicago.....	215
Rudolph Krupp, Isapping.....	207½
Carl Holvedt, Eau Claire.....	203½

In the professional class Francis Kempe of Red Wing, Minn., led with 271½ points, winning the national championship with jumps of 118 and 121 feet. Anders Haugen of Chippewa Falls, champion in 1910, made jumps of 118 and 120 feet. Oscar Gunderson made the longest standing jump—132 feet. Score in professional event.

Name and place.	Points.
Francis Kempe, Red Wing, Minn.....	271½
Anders Haugen, Chippewa Falls.....	268¾
Knute Helland, Chippewa Falls.....	268
Harris Anderson, Red Wing.....	267

Name and place.	Points.
John Mangseth, Duluth.....	265½
George Thompson, Red Wing.....	264½
Christ Bjornson, Colfax, Wis.....	257
Fred Iverson, Red Wing.....	249½
T. Hammesvedt, Chippewa Falls.....	249
Martin Iverson, Red Wing.....	245½
Sigurd Hansen, Hibbing, Minn.....	240½
Annar Sweeney, Minneapolis.....	236
Alfred Carston, Norge, Chicago.....	233
Jacob Gjestad, Stoughton.....	228

The national tournament of 1912 will be held in Chicago, Ill. The officers of the national association are: President, Dr. C. H. Mason, of Superior; vice-president, N. A. Nelson of Stillwater, Minn.; secretary, Askel Holter of Ashland, Wis.; treasurer, H. H. Borgen of Duluth.

PUGILISM.

Following is a list of the most noteworthy ring battles in the United States since 1882, the heavy weight championship contests being the first given:

Date.	Winner.	Loser.	Place.	Rounds.
Feb. 7, 1882.....	John L. Sullivan.....	Paddy Ryan.....	Mississippi City.....	9
July 8, 1887.....	John L. Sullivan.....	Jack Kilrain.....	Richburg, Miss.....	75
Jan. 14, 1891.....	Bob Fitzsimmons.....	Jack Dempsey.....	New Orleans, La.....	13
Sept. 7, 1892.....	James J. Corbett.....	John L. Sullivan.....	New Orleans, La.....	21
Jan. 25, 1896.....	James J. Corbett.....	Charles Mitchell.....	Jacksonville, Fla.....	3
Feb. 21, 1896.....	Bob Fitzsimmons.....	Peter Maher.....	Mexico.....	14
March 17, 1897.....	Bob Fitzsimmons.....	James J. Corbett.....	Carson City, Nev.....	1
June 9, 1899.....	James J. Jeffries.....	Bob Fitzsimmons.....	Coney Island, N. Y.....	11

WRESTLING.

CENTRAL A. A. U. CHAMPIONSHIPS.

The Central Amateur Athletic union wrestling championships were decided at Central Turner hall, Chicago, April 3, 1911. Following were the winners in the finals of the various classes:

115 pound class—Frank Geahe, Illinois Athletic club.

125 pound class—J. Stoehler, Hamilton Park club.
 135 pound class—H. J. Spanjer, unattached.
 145 pound class—W. Milchewski, Davis Square club.
 158 pound class—Emil Schalk, Davis Square club.
 Heavy-weight class—Cort Sandig, North Side Athletic club.

NATIONAL CHAMPIONSHIPS.

The national amateur wrestling championships were decided at a tournament held under the auspices of the Multnomah Amateur Athletic club in Portland, Ore., May 19. The winners in the finals of the various classes were:

- 105 pounds—Harvey Donaldson, Spokane Athletic club, Spokane, Wash.
- 115 pounds—Norman Chapman, Olympic club, San Francisco, Cal.
- 125 pounds—Gus Bowers, Newark, N. J.
- 135 pounds—O. Franke, Multnomah A. A. C., Portland, Ore.
- 145 pounds—W. Milchewski, Davis Square club, Chicago, Ill.
- 155 pounds—C. Gesek, Spokane A. C., Spokane, Wash.
- Heavy-weights—H. E. Grimm, Seattle A. C., Seattle, Wash.

INTERNATIONAL GYMNASTIC UNION CHAMPIONSHIPS.

Following were the winners in the International Gymnastic union wrestling tournament in Chicago ending Jan. 22, 1911:

- Heavy-weight active—Waino Hyttinen, Finnish Gymnastic society.
- Middle-weight active—Louis Neisen, Chicago Turngemeinde.
- Welter-weight active—Haakon Moen, Sleipner A. C.
- Feather-weight active—Rudolph Banz, LaSalle Turnverein.
- Bantam-weight active—Emil Schmidt, Einigkeit Turnverein.
- Heavy-weight junior—George Kasalsky, Pilsen sokol.
- Welter-weight junior—George Neisen, Chicago Turngemeinde.
- Feather-weight—Frank Cejka, Pilsen sokol.
- Bantam-weight junior—George Novak, Pilsen sokol.

GOTCH VS. HACKENSCHMIDT.

Frank Gotch, American, and George Hackenschmidt, Russian, wrestled for the heavy-weight championship of the world at Chicago, Sept. 4, 1911. The contest took place in the open air in Comiskey's baseball park and was witnessed by more than 25,000 spectators, who paid from \$1 to \$10 each for admission. Gotch won the match in two straight falls, the first after 14 minutes of wrestling and the second after 5 minutes. Hackenschmidt put up a poor defense, excusing himself on the ground that he had strained some tendons in one of his legs while training. The referee was E. W. Smith. The total receipts were \$37,053. Of this Gotch received \$21,000 and Hackenschmidt \$11,000. Gotch in addition was to get 50 per cent of the receipts from the motion pictures. The gate receipts, less the guarantees paid the wrestlers, were divided between the Empire Athletic club of Chicago, under whose auspices the contest took place, and Jack Curley, Hackenschmidt's manager, who promoted it.

A. A. F. TOURNAMENT.

The annual Amateur Athletic federation wrestling championships were decided in Chicago March 11 and 16, 1911. In the tournament for juniors held in the Central Y. M. C. A. auditorium, the Ogden square wrestlers won with 15 points. Hebrew institute was second with 11, Russell square third with 10, while Pilsen sokol and Chicago Turngemeinde tied for fourth with 5 each. Rydzewski was winner in the heavy-weight class.

In the tournament for seniors, held in the Mark White square gymnasium, the Cornell Square Athletic club won the first prize shield with a total of 26 points. Hebrew institute was second with 19 points and Ogden square was third with 8 points. In the heavy-weight class F. Motis defeated W. Hyttinen.

SHOOTING.

RIFLE COMPETITION.

NATIONAL RIFLE ASSOCIATION MATCHES.

The annual meeting of the National Rifle Association of America was held at Camp Perry, O., Aug. 14-22, 1911. In the Herriek trophy match open to teams of eight men each from the army, navy, marine corps, United States military and naval academies and the national guard, Ohio team

No. 1 was the victor with a score of 1,732 points, breaking the record for long range shooting at 800, 900 and 1,000 yards. The aggregate scores of the first ten teams follow:

Ohio, team No. 1.....	1,732
United States navy, team No. 1.....	1,630
United States marine corps, team No. 1.....	1,629
United States marine corps, team No. 3.....	1,617
United States infantry, team No. 1.....	1,614
Ohio, team No. 2.....	1,612
United States cavalry, team No. 1.....	1,601
United States navy, team No. 2.....	1,603
Massachusetts, team No. 1.....	1,602
New Jersey.....	1,594

The president's match was won by Corporal C. A. Lloyd of the marine corps, with a score of 281 points. Sergt. C. M. King of Iowa was second with 280.

The individual long-range tyro match at 1,000 yards was won by Lieut. A. J. Mullen of Arizona with a score of 48.

The championship company team match was won by company I, 1st infantry, West Virginia, with a score of 357. Each member of the team received a gold medal.

The annual members' match was won by Lieut.-Col. C. B. Winder of Ohio with a score of 67.

Lieut. H. E. Simon of Ohio won the marine corps match with a score of 195. Sergt. V. S. Czegka of the United States marine corps was second with 193. The winner was awarded a cup, a gold medal and a cash prize of \$30.

The Evans skirmish match was won by the army infantry team No. 2.

The Cutrow cup match was won by Capt. W. H. Richard of Ohio with a score of 102.

The Peters trophy match (skirmish) was won by Ensign H. J. Kner of the United States navy with a score of 99.

NATIONAL MATCHES.

The national matches under the auspices of the national board for the promotion of rifle practice took place at Camp Perry, O., Aug. 22-30, 1911. In the principal event, the national team match, the conditions called for slow fire at 200, 600 and 1,000 yards, rapid fire 200 yards and skirmish fire. The scores of the winning teams in each class were:

	200	200	600	1,000	Skir-	Total.
	yds.	R. F.	yds.	yds.	mish.	
Marines	512	535	561	487	1,085	3,180
U. S. infantry.....	509	555	552	593	1,000	3,118
Navy	504	552	538	499	1,020	3,113
Massachusetts	502	541	554	501	1,003	3,101

Class B.

Kansas	485	535	538	469	1,023	3,050
West Virginia.....	493	530	539	462	1,012	3,027
Arizona	495	535	537	482	926	2,975
Florida	489	514	533	477	950	2,963

Class C.

Tennessee	477	512	512	463	884	2,851
Delaware	475	469	541	477	857	2,819
Virginia	466	495	493	446	892	2,797
North Dakota.....	458	490	525	468	847	2,783

Sergt. Charles M. King of company I, 53d Iowa, won the national individual match with a score of 285, and as he had previously made a score of 280 in the president's match he was awarded the individual military championship of the United States for having the highest aggregate score—565. Sergt. O. M. Schriver of the United States marine corps was second with an aggregate score of 554.

The united service match, open to teams of twenty men, each man firing ten shots at 200 yards, rapid fire; ten shots at 600 yards, slow fire; ten shots at 1,000 yards, slow fire, and one skirmish run, was won by the United States navy team with a score of 4,263 points. The national guard team was second with 4,217 and the army team third with 4,109.

SEA GIRT TOURNAMENT.

The twentieth annual shooting tournament of the New Jersey State Rifle association took place at Sea Girt, N. J., Sept. 1-9, 1911. The Dryden trophy was won by the Ohio team with a score of 1,096 points. New York was second with 1,035. The Spencer match at 1,200 yards was won by C. B.

Winder of the Ohio national guard with a score of 69 out of a possible 75. Maj. W. B. Martin of New York was second with 68. Capt. Guy H. Emerson of Ohio won the Sea Girt championship match with a total of 190 out of a possible 200. It was an individual squadded competition open to everybody, the use of any military rifle and ammunition being permissible. The distances were 200, 600, 900 and 1,000 yards, each competitor having ten shots at each distance.

KING'S PRIZE AT BISLEY.

Private W. J. Clifford of the 19th Royal Grenadiers, Toronto, Canada, won the king's prize of \$1,250, the National Rifle association's gold medal and a gold badge at the Bisley (England) meeting July 10-22, 1911. He made a score of 319 out of a possible 355.

NEW WORLD'S RECORD.

In the annual New Jersey rifle championships at Jersey City, N. J., Feb. 22, 1911, Dr. Walter Hudson of New York made 922 points out of a possible 1,000 with 199 shots at a 200-yard standard American target. The best previous record was 917, made in 1903 by D. W. King of Denver, Col.

REVOLVER AND PISTOL SHOOTING.

CAMP PERRY TOURNAMENT.

The individual revolver matches shot at the National Rifle association's tournament at Camp Perry, O., Aug. 19, 1911, resulted as follows:

- No. 1, slow fire match, 75 yards—G. F. Hoffman, N. R. A.: score, 86.
- No. 2, timed fire match, 25 yards—LeRoy Lyon, 1st Colorado cavalry; score, 98.
- No. 3, timed fire, 50 yards—E. G. Reising, 1st Connecticut; score, 89.
- No. 4, rapid fire match, 15 yards—LeRoy Lyon, 1st Colorado cavalry; score, 99.
- No. 5, rapid fire match, 25 yards—E. G. Reising, 1st Connecticut; score, 96.

The national individual revolver match, included in the national matches at Camp Perry, O., was shot Aug. 30. Turret Captain E. B. Myrick of the United States navy was first with a score of 416 points.

NEW WORLD'S RECORD.

James E. Gorman of San Francisco, Cal., established a new world's revolver record June 4, 1911, by making a score of 467 for fifty shots at fifty yards on the Shell Mound range at San Francisco. The former record, 465, was made by Capt. Galkins at Springfield, Mass., in 1904.

TRAP SHOOTING.

GRAND AMERICAN HANDICAP.

The twelfth Grand American handicap shoot at inanimate targets took place at Columbus, O., June 20-23, 1911. The winner of the handicap was Harvey Dixon of Oronogo, Mo., who shot from the 20-yard mark and made a score of 99 out of a possible 100. Following were the high guns from 97 up:

	Yards.	Total.		Yards.	Total.
H. Dixon.....	20	99	W. H. Jones.....	18	97
T. Graham.....	18	98	C. D. Hunt, Jr.....	18	97
O. H. Nutt.....	18	93	J. T. Park.....	17	97
A. J. Hill.....	17	93	Bart Lewis.....	20	97
C. C. Irwin.....	16	98	J. F. Wulf.....	18	97
D. E. Hickey.....	19	97			

C. B. Eaton of Fayette, Mo., won the preliminary handicap from the 18-yard line with a score of 99. He was tied with Harry E. Buckwalter of Roversford, Pa., but in the shoot-off at 20 targets he made a clean score, while Buckwalter made two misses.

The national professional championship, calling for 200 single targets, 18 yards rise, was won by Lester S. German, Maryland, with a score of 198. The seven high guns were:

L. S. German.....	198	F. Gilbert.....	193
R. O. Helkes.....	196	H. D. Freeman.....	193
W. H. Heer.....	195	F. G. Bills.....	193
G. W. Maxwell.....	195		

The national amateur championship, 200 single targets, 18 yards rise, was taken by Clyde C. Collins of Aldine, Ind., with a score of 198. Other high guns were:

Allen Hell.....	194	J. R. Prechtel.....	193
William Ridley.....	194	J. E. Jennings.....	193
F. W. McNeil.....	193		

The double target championship, a new event, was won by Lester S. German, who made a score of 89, shooting at 50 pairs of targets at 16 yards rise. Allen Hell, L. A. Gates and James S. Day tied for second place with 88 each, and Rollo O. Helkes was third with 87.

Grand American handicap winners to date:

Year.	Winner.	Score.	Year.	Winner.	Score.
1900	R. O. Helkes.....	91	1906	S. E. Rogers.....	94
1901	E. C. Griffith.....	95	1907	J. J. Blanks.....	95
1902	-C. W. Floyd.....	94	1908	F. Harlow.....	92
1903	-M. Diefenderfer.....	94	1909	-Fred Shattuck.....	96
1904	-R. D. Guptill.....	96	1910	-R. Thompson.....	100
1905	-R. R. Barber.....	99	1911	-Harvey Dixon.....	99

WESTERN HANDICAP.

The sixth annual western handicap shooting tournament under the auspices of the Interstate association was held in Omaha, Neb., Aug. 8-10, 1911. The main event was won by William Ridley of What Cheer, Iowa, with a score of 98. Clyde Collins of Aldine, Ind., made the same score, but in shooting off the tie he missed two targets in the second string of twenty. Both men shot from the 19-yard mark. The high average men among the professionals were Homer Clark of Alton, Ill., and W. R. Crosby of O'Fallon, Ill., each having a score of 391. Potter White of Watertown, S. D., was first among the amateurs with a score of 392. Winners of western handicap to date:

Year.	Winner.	Score.	Year.	Winner.	Score.
1906	-W. R. Crosby.....	97	1909	-F. H. Bailey.....	97
1907	-T. E. Graham.....	99	1910	-J. E. Dickey.....	96
1908	-B. F. Elbert.....	96	1911	-William Ridley.....	99

EASTERN HANDICAP.

The sixth annual eastern handicap shooting tournament under the auspices of the Interstate association was held at Wilmington, Del., July 10-13, 1911. The conditions in the handicap called for five events at twenty targets each, handicap rise 16 to 23 yards, amateurs only eligible. Harry L. David of Philadelphia, Pa., and Harry E. Buckwalter of Rogersford, Pa., tied for first place with scores of 96 each out of 100. In the shoot-off at twenty targets David broke 19 and Buckwalter 17. David shot from the 19-yard mark and Buckwalter from the 20-yard line. Winners of eastern handicap to date:

Year.	Winner.	Score.	Year.	Winner.	Score.
1906	-H. McMurchee.....	93	1909	-H. E. Smith.....	93
1907	-H. R. Bowser.....	93	1910	-C. H. Newcomb.....	97
1908	-G. L. Lyon.....	91	1911	-H. L. David.....	96

ILLINOIS STATE TOURNAMENT.

Homer Clark of East Alton, Ill., won the Chicago board of trade diamond medal event at the Illinois State Sportsmen's annual tournament in Springfield April 11-12, 1911. He broke 84 out of a possible 100 targets. He shot as a professional. Bart Lewis of Auburn and J. Barto of Chicago, amateurs, tied for second place with 83. William Clancy, Chicago professional, won the L. C. Smith cup, emblematic of the two-shot championship of the state. He made a score of 24 from the 21-yard line.

GRAND CHICAGO HANDICAP.

The second Grand Chicago handicap shoot took place at the traps of the Chicago Gun club June 16-18, 1911. W. F. Riley of Chicago won with a score of 93. He shot from the 16-yard mark. Scores of the first ten men:

	H.	1.	2.	3.	4.	5.	Tl.
W. F. Riley.....	16	20	19	13	17	19	93

*Professional.

Grand Chicago handicap winners to date:

1910—Albert Southard, Pecatonica, Ill., 94.
1911—W. F. Riley, Chicago, Ill., 93.

INDIVIDUAL CHAMPIONSHIP.

W. R. Crosby of O'Fallon, Ill., retained possession of the E. C. trophy, emblematic of the world's championship at trap shooting, by defeating the

challenger, Lester German of Aberdeen, Md., 121 to 116, at the Chicago Gun club traps, Jan. 14, 1911. The contestants shot at 150 targets, fifty at known traps and unknown angles, fifty under expert rules and twenty-five doubles, from the 16-yard mark. Each scored 44 at the unknown angles, while Crosby made 41 to German's 37 under expert rules and 36 to 35 in the doubles. Crosby has won the trophy six times.

AMATEUR TRAP SHOOTING.

The national amateur trap shooting championship tournament of the United States took place at Travers Island, New York, March 23, 1911. The diamond medal and championship title were won by Harry W. Kahler of Philadelphia, who broke 173 out of 200 clay targets from the 16-yard line. Other leading scores were: F. B. Stephenson, Brooklyn, 170; Frank Hall, New York Athletic club, 170; C. T. Day, Jr., Newark, 168; C. H. Newcomb, Philadelphia, 168; W. P. Clarke, Boston, 166; G. G. McMurry, Jr., New York, 165; S. Scott, New York, 163, and John Martin, Brooklyn, 162.

MISCELLANEOUS TOURNAMENTS.

New York state tournament held at Syracuse, N. Y., June 13-15, 1911. High averages for 450 targets: F. S. Wright, 432, H. W. Kahler, 431; H. H. Schlicher, 423.

Maine state tournament held at Haines Landing, Me., June 8-10, 1911. E. A. Randall won gold medal for high average, he scoring 559 out of 600 targets. Frank Hall was second with 558 and C. S. Randall third with 557.

Vermont state tournament held at Montpelier June 14 and 15. The individual championship, 100 targets per man, was won by Dr. C. H. Durr with a score of 92.

Wisconsin and upper Michigan tournament was held in Milwaukee, Wis., June 10-11, 1911. F. J. Dreyfus won the state championship with a score of 95 out of 100. R. Winters was second with 94.

William M. Poord, champion of Delaware, retained the title by defeating Eugene Du Pont in a challenge match by a score of 97 to 91 at Wilmington, Del., Aug. 12, 1911.

ARCHERY.

[By Dr. Edward B. Weston, Chicago.]

The National Archery association of the United States held its thirty-third annual meeting in Washington park, Chicago, Aug. 15, 16, 17, 18, 1911.

The men's championship was won by Homer S. Taylor of Chicago and the women's by Mrs. John H. Taylor of Detroit, Mich. The leading scores:

FLIGHT SHOOTING.

Dr. R. P. Elmer.....	270	yards
Miss F. M. Patrick.....	139	yards

The national meeting for 1912 will be held in Boston. The officers are:

President—Henry B. Richardson, 224 Beacon street, Boston, Mass.

Vice-Presidents—Cyrus E. Dallen, Arlington Heights, Mass.; W. A. Clark, Wyoming, O.; Dr. R. P. Elmer, Wayne, Pa.

Secretary-Treasurer—Burton Payne Gray, Tremont building, Boston, Mass.

Executive Committee—The officers, with W. B. Gillette, Averil Park, N. Y.; W. J. Ghent, Washington, D. C.; Dr. E. B. Weston, Chicago.

FENCING

Cornell won the Intercollegiate fencing championship in New York, N. Y., April 1, 1911, with 35 points. Other scores were: West Point, 24; Naval academy, 22; Columbia, 18; Pennsylvania, 14; Harvard, 12.

In an invitation fencing meet held in the gymnasium of the Illinois Athletic club, Chicago, April 1, 1911, the University of Chicago won the event for junior teams by a score of 6 to 3, while the University of Michigan fencers were victorious in the novice foil event, 5 to 4.

The Harvard Fencing club won the New England fencing championship honors in Boston, Mass., April 6, 1911. J. A. MacLaughlin won in foils and C. A. Bliss in dueling swords.

C. Waldbott of the Chicago Turners won the Illinois state championship in foils at a tournament held in Chicago April 22, 1911. Oscar Lange won the dueling sword honors and the saber title went to A. E. Sauer.

BASKET BALL.

CONFERENCE CHAMPIONSHIP.

Minnesota and Purdue were tied in the conference basket ball championship series of 1911, each having won 8 and lost 4 games. Standing of the clubs at the close of the season, March 11:

Club.	W. L.	Pct.	Club.	W. L.	Pct.		
Minnesota.....	8	4	667	Wisconsin.....	6	5	500
Purdue.....	8	4	667	Indiana.....	5	5	500
Chicago.....	7	5	582	Northwestern.....	1	12	477
Illinois.....	6	5	545	Iowa*.....	2	2	500

*Eight games necessary to secure ranking.

EASTERN INTERCOLLEGIATE LEAGUE.

Columbia won the eastern intercollegiate league basket ball championship in 1911. Following was the standing of the clubs at the close of the season, March 4:

Club.	W. L.	Pct.	Club.	W. L.	Pct.		
Columbia.....	7	1	875	Yale.....	3	5	375
Pennsylvania.....	5	3	625	Princeton.....	1	7	125
Cornell.....	4	4	500				

MINOR COLLEGE CHAMPIONSHIP.

Lake Forest won the minor college conference basket ball championship of the middle west March 4, 1911, by defeating Beloit at Lake Forest. The final standing of the clubs was:

Club.	W. L.	Pct.	Club.	W. L.	Pct.		
Lake Forest.....	8	0	1,000	Armour.....	3	5	376
Knox.....	3	3	500	Monmouth.....	0	6	000
Beloit.....	2	2	500				

ROLLER SKATING.

AMERICAN RECORDS.

100 yards—10, Henry Becker, Chicago, 1910.
1/4 mile—36, Fred Tyrrell, Chicago, 1909.
1/2 mile—1:15, Allie Moore, Chicago, 1908.
1 mile—2:27 1/2, Clarence Hamilton, Chicago, 1909.
2 miles—5:04 1/2, John Flannery, Chicago, 1903.
3 miles—7:55 1/2, Allie Moore, Chicago, 1908.
10 miles—33:20, L. Bierwirth, San Francisco, 1909.

ROQUE.

The annual tournament of the National Roque association took place in Norwich, Conn., Aug. 14-19, 1911. The championship in the first division was won by Edward Clark of Springfield, Mass., who took eleven straight games.

Haold Bosworth of New London, Conn., is president and Frank H. Foss of Norwich, Conn., secretary-treasurer of the association.

AMATEUR ATHLETIC RECORDS.

CENTRAL WEST.

[Compiled by Martin B. Herbert, official handicapper Central association of the A. A. U.]

- 35-yard run—.04.* Clyde A. Blair, University of Chicago gymnasium, Feb. 22, 1902, and May 9, 1902; also University of Wisconsin gymnasium, Madison, Wis., March 16, 1902; also W. Hogenson, University of Chicago, and Frank Waller, University of Wisconsin, at University of Wisconsin gymnasium, Madison, Wis., March 18, 1905.
- 40-yard run—.04% L. Gertinrich, 1st regiment armory, Chicago, Jan. 22, 1898; James Wasson, Notre Dame, Ind., March 19, 1910 (equals world's record); .04%* C. Bell and E. C. English, Notre Dame, Ind., March 9, 1901; William Borden, 1st regiment armory, Chicago, March 30, 1901; Clyde A. Blair, 1st regiment armory, Chicago, Feb. 6, 1902; Walter Eckersall, at 1st regiment armory, Chicago, Feb. 28, 1903; Archie Hahn, at Ann Arbor, Mich., May 15, 1902; also E. D. Staples, Notre Dame, Ind., at Notre Dame university gymnasium, March 15, 1902.
- 45-yard run—.05% Clyde Blair and Victor Rice, at University of Chicago gymnasium, Feb. 13, 1904.
- 50-yard run—.05%* C. Bell, Coliseum, St. Louis, Mo., March 8, 1902; Walter Eckersall, Cincinnati, O., Feb. 26, 1903; Victor Rice, at University of Chicago gymnasium, Feb. 20, 1904.
- 60-yard run—.06% James Wasson, University of Notre Dame, Auditorium, Milwaukee, Wis., March 12, 1910.
- 75-yard run—.07% Archie Hahn, Milwaukee A. C., at Milwaukee Exposition building, March 11, 1905, in trial and final heats.
- 100 yards—.09% J. H. Rush, C. A. A., Parkside field, Chicago, June 18, 1898; C. W. Stage, Cleveland A. C., at Cleveland, O., Sept. 2, 1893; J. V. Crum, Chicago A. A., at Chicago, June 15, 1895.
- 150 yards—.17. C. S. Borden, Tattersall's, Chicago, March 5, 1898.
- 220-yard run—.21% G. C. Poage, University of Illinois field, straightaway path, Champaign, Ill., May 16, 1902.
- 300-yard run—.33% Harry H. Bascom, Chicago Hyde Park high school, Tattersall's, Chicago, March 5, 1898.
- 440-yard run—.49% G. C. Poage, University of Illinois field, third of a mile path, Champaign, Ill., May 16, 1902; .49% Ed Merrill, Marshall field, quarter of a mile path, Chicago, Ill., June 1, 1901.
- 600 yard run—1:15% G. C. Holland, Coliseum, 63d street, Chicago, May 12, 1897.
- 880-yard run—1:57. J. D. Lightbody, University of Chicago, at Ann Arbor, Mich., May 20, 1905.
- 1,000-yard run—2:36. C. McCully, University of Illinois, Champaign, Dec. 14, 1902.
- 1-mile run—4:25. J. D. Lightbody, University of Chicago, at Marshall field, Chicago, June 3, 1905.
- 2-mile run—9:50. F. A. Rowe, University of Michigan, at Marshall field, Chicago, June 3, 1905.
- 1-mile walk—6:46% W. B. Fetterman, Parkside field, Chicago, June 23, 1898; 7:00. J. Bredstein, Ravenswood field, Chicago, June 23, 1900.
- 40-yard hurdle race, 3 hurdles, 3 ft. 6 in. high—.05% Fred G. Moloney, University of Chicago, at University of Chicago old gymnasium, Feb. 15, 1902; also M. B. Herbert, First Regiment A. A., at 1st regiment armory, March 29, 1902 (world's record).
- 45-yard hurdle race, 4 hurdles, 2 ft. 6 in.—.06% Walter Steffen, at University of Chicago gymnasium, Feb. 27, 1904.
- 50-yard hurdle race, 3 hurdles, 3 ft. 6 in.—.06% Mark Catlin, University of Chicago, at Bartlett gymnasium, March 4, 1905, on rubber mat; L. C. Bailey, Chicago Y. M. C. A., Cincinnati, O., March 10, 1906.
- 50-yard low hurdle race, 2 hurdles, 2 ft. 6 in. high—.06. Sidney Fletcher, University of Notre Dame, at Bartlett gymnasium, March 20, 1909, on rubber mat.
- 60-yard low hurdle race, 4 hurdles, 2 ft. 6 in. high—.07. Mark Catlin, University of Chicago, at Chicago Coliseum, March 28, 1905; W. A. Draper, Chicago A. A., at Chicago Coliseum, March 28, 1905; Walter Steffen, First Regiment A. A., at Chicago Coliseum, March 28, 1905; Frank Waller,

- University of Wisconsin, at Chicago Coliseum, March 28, 1905.
- 60-yard high hurdle race, 4 hurdles, 3 ft. 6 in.—.10% Walter Steffen, First Regiment A. A., at Chicago Coliseum, March 28, 1905.
- 75-yard hurdle race, 3 hurdles, 2 ft. 6 in. high—.08%* Fred G. Moloney, Exposition building, Milwaukee, March 1, 1902.
- 75-yard hurdle race, 6 hurdles, 3 ft. 6 in. high—.09%* F. W. Schule, Milwaukee A. C., at Milwaukee Exposition building, March 6, 1904.
- 120-yard hurdle race, 10 hurdles, 2 ft. 6 in. high—.15%* A. C. Kraenzlein, Parkside field, Chicago, June 18, 1898; .15% F. Smithson, University of Notre Dame, Marshall field, Chicago, June 1, 1907, strong wind on back of runner.
- 220-yard hurdle race, 10 hurdles, 2 ft. 6 in. high—.24% Fred G. Moloney, University of Illinois field, Champaign, straightaway course, May 6, 1902; .25. M. Bockman, Marshall field, Chicago, around half circle at start, June 1, 1901.
- 300-yard hurdle race, 10 hurdles, 2 ft. 6 in. high—.36%* A. C. Kraenzlein, Coliseum, 63d street, Chicago, May 12, 1897.
- Pole vault for height—12 ft. 4% in.* Leroy Samae, University of Indiana, at conference meet, Evans-ton, Ill., June 2, 1906.
- Running high jump—6 ft. 1/4 in., I. K. Baxter, Parkside field, Chicago, June 18, 1898; J. Fuhrer, at Madison, Wis., May 21, 1904; 5 ft. 1 1/2 in., Otto Kaecke, First Regiment A. A., Milwaukee, March 7, 1903.
- Standing high jump—5 ft. 3 1/2 in., Raymond C. Ewry, Lafayette, Ind., May 29, 1896.
- Running broad jump—24 ft. 1 in., Frank Irons, Chicago A. A., Marshall field, Chicago, Aug. 7, 1909.
- Standing broad jump—11 ft., Roy Ewry, Coliseum, 63d street, Chicago, May 12, 1897.
- Putting 12-lb. shot, 7-ft. circle—56 ft. 2 1/2 in.* Ralph Rose, Ann Arbor, March 19, 1904.
- Putting 16-lb. shot, 7-ft. circle—48 ft. 7 in.,* Ralph Rose, at Chicago, May 21, 1904.
- Throwing 12-lb. hammer, 4-ft. handle over all, 7-ft. circle—185 ft. 5 1/2 in., Lee Talbot, manual training high school, Kansas City, Mo., at Marshall field, Chicago, June 9, 1906.
- Throwing 16-lb. hammer, 4-ft. handle over all, 7-ft. circle—163 ft., A. Plaw, Ravenswood field, Chicago, June 23, 1905; with one hand, 159 ft. 11 in., E. F. Barry, University of Chicago, at Marshall field, Chicago, June 30, 1906.
- Throwing 56-lb. weight, 7-ft. circle—32 ft. 2 3/4 in., J. S. Mitchell, New York Athletic club, Milwaukee, Sept. 1, 1903.

880-yard run—.204%, T. Timblin, McKinley, at Marshall field, June 15, 1907.

1-mile run—.443%, Robert Brown, Evanston, at Ravenswood, June 9, 1900.

½-mile walk—.338, L. J. Byrne, Englewood, at Marshall field, June 24, 1899.

120-yard high hurdles—.116, R. Deming, Oak Park, at Marshall field, June 20, 1908.

220-yard low hurdles—.226%, R. Deming, Oak Park, at Marshall field, June 20, 1908.

Pole vault—11 ft. 3 in., C. Morris, Englewood, at Marshall field, June 24, 1904.

Running high jump—5 ft. 8½ in., E. E. Quantrell, Northwest Division, at Ravenswood, June 15, 1901.

Running broad jump—21 ft. 9 in., Harrison, Crane, at Marshall field, May 27, 1905.

Putting 16-lb. shot—33 ft. 8½ in., W. L. Sheppard, Hyde Park, at 35th street and Wentworth avenue, June 16, 1894.

Putting 12-lb. shot—45 ft. 6 in., E. Wilson, University high, at Marshall field, June 20, 1908.

Throwing 12-lb. hammer—154 ft., W. Hales, Oak Park, at De Paul university field, June 5, 1909.

Throwing the discus—111 ft. 2 in., P. Luude, Lake View, at Marshall field, June 15, 1907.

½-mile relay (4 men)—1:36%, Wendell Phillips, at Marshall field, May 27, 1905.

1-mile relay (4 men)—3:39, North Division (A. Sheyning, X. Vigeant, H. Wallace, G. Vigeant), at Marshall field, June 15, 1907.

WESTERN INTERCOLLEGIATE CHAMPIONSHIPS.

Minneapolis, Minn., June 3, 1911.

100-yard dash—Wasson, Notre Dame, .10%.
220-yard dash—Wilson, Coe, .22%.
440-yard run—Davenport, Chicago, .49%.
880-yard run—Davenport, Chicago, 1:56%.
1-mile run—Johnson, Missouri, 4:27%.
2-mile run—Steele, Missouri, 9:50.
120-yard hurdles—Nicholson, Missouri, .15%.
220-yard hurdles—Kirksey, Missouri, .25%.
High jump—Nicholson, Missouri, and Beeson, California, 5 ft. 9¾ in.
Broad jump—Allen, California, 23 ft. 1 in.
Pole vault—Coyle, Chicago, and Murphy and Grabam, Illinois, 12 ft.
16-lb. hammer—Pierce, Wisconsin, 141 ft. 8 in.
16-lb. shot—Menaud, Chicago, 42 ft. 8 in.
1-mile relay—Illinois, 3:51.
Discus—Roberts, Missouri, 123 ft. 10¼ in.

Summary of points—Missouri, 35; Chicago, 25%; California, 20; Illinois, 19 5-12; Wisconsin, 19 1-12; Notre Dame, 16; Minnesota, 10 3/4; Coe, 8; Purdue, 5; Northwestern, 2; Morningside, 2; Kansas, 1 1-12; South Dakota, 1.

WESTERN INTERCOLLEGIATE RECORDS.

100-yard dash—109%, Blair, Chicago, 1903, and W. W. May, Illinois, 1907 and 1908.
 220-yard dash—215%, Hahn, Michigan, 1903.
 440-yard run—148%, Davenport, Chicago, 1910.
 880-yard run—156%, Davenport, Chicago, 1910-1911.
 1-mile run—4:20 1/4, Baker, Oberlin, 1910.
 2-mile run—9:50, Rowe, Michigan, 1905, and Earl Steele, Missouri, 1911.
 120-yard hurdles—15%, F. G. Moloney, Chicago, 1902.
 220-yard hurdles—24%, Fletcher, Notre Dame, 1910.
 High jump—6 ft. 5/8 in., French, Kansas, 1910.
 Broad jump—23 ft. 1 in., F. H. Allen, California, 1911.
 Pole vault—12 ft. 4 1/2 in., Samse, Indiana, 1906.
 16-lb. hammer—157 ft. 1 in., Thomas, Purdue, 1904.
 16-lb. shot—47 ft. 1/4 in., Rose, Michigan, 1904.
 Discus—140 ft. 2 3/4 in., Garreis, Michigan, 1905.

EASTERN INTERCOLLEGIATE CHAMPIONSHIPS.

Harvard stadium, Cambridge, May 27, 1911.
 100-yard dash—Craig, Michigan, 109%.
 220-yard dash—Craig, Michigan, 21%.
 440-yard run—Young, Amherst, 48%.
 880-yard run—Jones, Cornell, 1:54 1/4.
 1-mile run—Jones, Cornell, 4:15 3/4.
 2-mile run—Berna, Cornell, 9:25 1/2.
 120-yard hurdles—Chisholm, Yale, 1:57%.
 220-yard hurdles—Chisholm, Yale, 2:34%.
 High jump—Dairimple, M. I. T., and Burdick and Frazier, Pennsylvania, tied at 6 feet.
 Broad jump—Holden, Yale, 22 ft. 3 3/4 in.
 Pole vault—Babcock, Columbia, 12 ft. 8 3/4 in.
 16-lb. hammer—Tilley, Dartmouth, 145 ft. 1 1/2 in.
 16-lb. shot—Horner, Michigan, 46 ft. 7 1/2 in.

Summary of points—Cornell, 30%; Yale, 24%; Michigan, 24; Pennsylvania, 18%; Dartmouth, 9; Princeton, 8; Harvard, 6; Columbia, 5; Amherst, 5; M. I. T., 3 1/2; Williams, 3; Penn State, 2; Rutgers, 2; Brown, 2.

EASTERN INTERCOLLEGIATE RECORDS.

100-yard dash—109%, A. F. Duffey, Berkeley oval, New York, May 25, 1902.
 220-yard dash—121%, R. C. Craig, Michigan, 1910 and 1911.
 440-yard run—48%, Taylor, Pennsylvania, 1907, and Young, Amherst, 1911.
 880-yard run—1:54 1/4, J. P. Jones, Cornell, 1911.
 1-mile run—4:15 3/4, J. P. Jones, Cornell, 1911 (world's amateur record).
 2-mile run—9:25 1/2, T. S. Berna, Cornell, 1911.
 120-yard hurdles—15%, Garreis, Michigan, 1907, and Shaw, Dartmouth, 1908.
 220-yard hurdles—23%, A. C. Kraenzlein, Pennsylvania, 1898.
 High jump—6 ft. 3 in., J. D. Winsor, Jr., Pennsylvania, 1897.
 Broad jump—24 ft. 4 1/2 in., A. C. Kraenzlein, Pennsylvania, 1899.
 Pole vault—12 ft. 8 1/2 in., H. S. Babcock, Columbia, 1911.
 16-lb. hammer—173 ft. 6 in., Lee J. Talbot, Penn State, 1910.
 16-lb. shot—46 ft. 7 1/2 in., Horner, Michigan, 1911.
 1-mile walk—6:45%, W. B. Fetterman, Jr., Pennsylvania, 1898.

GYMNASTIC CHAMPIONSHIP.

The University of Illinois won the western intercollegiate gymnastic championship at the Bartlett gymnasium, Chicago, April 22, 1911, with 1,104 1/2 points. The University of Chicago was second with 1,016 1/2 points. Wisconsin was third with 970 and Minnesota fourth with 945 points.

UNIVERSITY OF CHICAGO INTERSCHOLASTIC.

The tenth annual interscholastic athletic tournament of the University of Chicago took place on Marshall field, June 10, 1911, and was won by Oak Park with 17 points. Central high of Toledo was second with 16 1/2 points and Oshkosh third with 11 points. Winners and records:
 100-yard dash—Lanyon, Morgan Park; 10%.
 220-yard dash—Wood, Omaha, 22%.

440-yard run (A)—Osborn, Kalamazoo, 52%.
 440-yard run (B)—Goelitz, Oak Park, 52%.
 880-yard run (A)—Souder, Toledo, 2:02%.
 880-yard run (B)—Osborn, Kalamazoo, 2:01.
 1-mile run—Miller, Muskegon, 4:41.
 2-mile run—Garrity, Beloit, 10:51%.
 120-yard high hurdles—Schobinger, Harvard school, 1:16.
 220-yard low hurdles—Smith, Bay City, 26%.
 High jump—Shrader of Iowa City, Honold of Paris and Emerson of Oregon tied for first place, 5 ft. 8 in.
 Running broad jump—Russell, Oak Park, 21 ft. 9 in.
 Discus throw—Mucks, Oshkosh, 136 ft. 5 in.
 12-lb. shot—Mucks, Oshkosh, 44 ft. 5 in.
 Pole vault—Schobinger, Harvard school, 11 ft. 1 1/2 in.
 Hammer throw—Berry, Beardstown, 165 ft. 11 in.
 1/4-mile relay—Bluet, Lane, 47.

ILLINOIS INTERSCHOLASTIC.

The University of Illinois annual interscholastic meet, held in Champaign, Ill., May 20, 1911, was won by the track team of the University high school, Chicago, with 23 points. Hyde Park was second with 13 1/2 points and Oak Park third with 17. Record of winning schools to date:

1894—Peoria.	1903—Hyde Park.
1894—Urbana.	1904—Pontiac.
1895—Englewood.	1905—Englewood.
1896—Rockford.	1906—Wendell Phillips-West Aurora, tied.
1897—Englewood.	1907—Oak Park.
1898—East Aurora.	1908—Oak Park.
1899—Biggsville.	1909—University high.
1900—Biggsville.	1910—University high.
1901—Englewood.	1911—University high.
1902—South Division.	

NATIONAL AMATEUR CHAMPIONSHIPS.

The annual championship contests of the Amateur Athletic Union of the United States took place in Pittsburgh, Pa., July 1-2, 1911. The Irish-American Athletic club of New York, N. Y., again won both the senior and junior championships, making 58 points in the senior and 37 in the junior event. The New York Athletic club was second in the junior contests with 27 points and the Boston Athletic association third with 23 points. Four junior Amateur Athletic union records were broken. In the pole vault, S. B. Wagoner of the Pittsburgh A. A. cleared the bar at 12 feet 5.64 inches. In the running high jump, O. Johnstone of the Boston A. A. made 6 feet 6.10 inches. In throwing the discus A. M. Mucks of Chicago covered 123 feet 5 inches. G. A. Dull of the Pittsburgh A. A. ran five miles in 26:08 3/4. The standing of the teams in the senior contests was:

Teams.	Points.
Irish-American Athletic club.....	58
New York Athletic club.....	28
Seattle Athletic club.....	12
Olympic Athletic club, San Francisco.....	11
Boston Athletic club.....	7
Cleveland Athletic club.....	7
Chicago Athletic association.....	6
Kansas City Athletic club.....	6
Unattached.....	5
Pittsburgh Athletic association.....	3
Aquinas Athletic club, Philadelphia.....	3
Brookline Athletic association.....	3
University of Chicago.....	3
South Boston Athletic association.....	3
Three records were broken in the senior events. Melville E. Sheppard of the Irish-Americans making the half mile in 1:54 1/4, A. R. Kiviat of the same club making the mile in 4:19 1/4, and O. F. Suedgier of the Olympic club, San Francisco, throwing the javelin 165.21 feet. Summary of the senior events:	
120-yard hurdles—Won by Shaw, Irish-American A. C.; Blanchard, Boston A. A., second; Griffith, Pittsburgh A. A., third. Time, 1:53. Eller, Irish-American A. C., finished third, but disqualified for knocking down three hurdles.	
Throwing 16-lb. hammer—Won by Walsh, New York A. C., 177 ft. 6 1/2 in.; McGrath, N. Y. A. C., second, 173 ft. 7 1/2 in.; Ryan, Irish-American A. C., third, 165 ft. 2 in.	
Putting 16-lb. shot—Won by McDonald, Irish-American A. C., 47 ft. 9 in.; Talbot, Kansas City A.	

C., second, 45 ft. 6 in.; Coe, Boston A. A., third, 45 ft. 4 in.

880-yard run—Won by Sheppard, Irish-American A. C.; Riley, Irish-American A. C., second; Frick, New York A. C., third. Time, 1:54½. (Previous A. A. U. record, 1:55½.)

100-yard dash—Won by Gwinn Henry, New York, unattached; Rosenberger, Irish-American A. C., second; Martin, Seattle A. C., third. Time, :10.

1-mile run—Won by Kivlat, Irish-American A. C.; Hedlund, Brockline G. A. A., second; Baker, Cleveland A. C., third. Time, 4:19½. (New A. A. U. record.)

Throwing the discus—Won by Martin J. Sheridan, Irish-American A. C., 133 ft. 9½ in.; Lee Talbot, Kansas City A. C., second, 133 ft. 1½ in.; A. M. Mucka, Chicago A. A., third, 131 ft. 5½ in.

440-yard run—Won by Lindberg, Chicago A. C.; Gish, Seattle A. A., second; Wyman, Olympic A. C., San Francisco, third. Time, :49.

5-mile run—Won by Boniag, Irish-American A. C.; Luruna, Aquinas C. C., Philadelphia, second; E. Fitzgerald, New York A. C., third. Time, 25:50½.

Running high jump—Won by Grampelt, New York A. C., 6 ft. 8 in.; Porter, Irish-American A. C., second, 6 ft. 3 in.; Burdick, Pittsburgh A. A., third, 6 ft. 1 in.

220-yard hurdle race—Won by Eller, Irish-American A. C.; Gutterson, Boston A. A., second; Meyers, Pittsburgh A. A., third. Time, :24½.

56-lb. weight—Won by McDonald, Irish-American A. C., 38 ft. 9½ in.; McGrath, New York A. C., second, 37 ft. 7½ in.; Walsh, New York A. C., third, 34 ft. ¾ in.

Running broad jump—Won by Adams, New York A. C., 23 ft. 4-10 in.; Ahearn, Irish-American A. C., second, 22 ft. 97-100 in.; Sneligar, Olympic club, San Francisco, third, 22 ft. 53-100 in.

220-yard run—Won by Nelson, Seattle A. C.; Cooke, Cleveland A. C., second; Drew, South Boston A. A., third. Time, :21½.

Pole vault—E. T. Cooke, Jr., Cleveland A. C., first; Coyle, Chicago A. A., second; Bellah, Olympic club, San Francisco, third. All tied at 12 ft. 6 in. In the draw-off they took above positions.

Throwing javelin—Won by Sneligar, Olympic club, San Francisco, 165.20 ft.; Gish, Seattle A. C., second, 154 ft. 1½ in.; Adams, New York A. C., third, 153 ft. ¾ in. (New A. A. U. record.)

Hop, step and jump—Won by D. Ahearn, Irish-American A. C., 48 16-100 ft.; T. Ahearn, New York A. C., second, 46 98-190 ft.; Sneligar, Olympic club, San Francisco, 42 98-100 ft.

FRANKLIN FIELD RELAY RACES.

The national championship relay races for college and high schools were run on Franklin field, Philadelphia, April 29, 1911, with the following results:

1-mile college championship of America—Chicago, first; Michigan, second; Cornell, third; Pennsylvania, fourth; Syracuse, fifth. Time, 3:21½. (Winning team, Menaul, Straube, Skinner, Davenport.)

2-mile college championship of America—Pennsylvania (Masters, Clinch, Bodley and Foster), first; Illinois (Barron, Herrick, Rohrer and Cope), second; Princeton (Gordon, Stickney, Chopin and McKinney), third. Time, 8:00½.

4-mile college championship of America—Cornell (Funger, Putnam, Berna, Jones), first; Pennsylvania (Boyle, Wolfe, Levering, Paul), second. Time, by miles, 4:31½, 9:01, 13:32½, 17:55, breaking the American record of 18:08½, made by the Irish-American A. C. in 1909.

1-mile freshman relay championship of America—Won by Dartmouth; Pennsylvania, second; Columbia, third. Time, 3:27½.

1-mile high school championship of America—Boston English high, first; Barringer high school, Newark, N. J., second; Brooklyn M. T. H. S., third; Philadelphia central high school, fourth. Time, 3:29½. This breaks the American high school record of 3:32½, made by Brooklyn M. T. H. S. in 1909.

INTERNATIONAL UNIVERSITY MEET.

Picked teams representing the universities of Oxford and Cambridge on the one hand and Yale and Harvard on the other met at the Queen's club, London, July 11, 1911, and engaged in an athletic con-

test which resulted in a victory for England by a score of 5 to 4. The Oxford-Cambridge athletes won the hammer throw, 100-yard dash, 440-yard, 1-mile and 2-mile runs. The Americans took the 120-yard hurdle race, the ½-mile race and the high and broad jumps. Four international meets have been held by the same universities, as follows:

1893—At Queen's club, London, July 22; won by England, 5 to 4.

1901—At Berkeley oval, New York, Sept. 25; America won, 6 to 3.

1904—At Queen's club, London, July 23; America won, 5 to 3.

1911—At Queen's club, London, July 11; England won, 5 to 4.

CONFERENCE INDOOR MEET.

Chicago university won the first annual indoor track and field meet of the Western Intercollegiate Athletic association, held in Patten gymnasium, Evanston, Ill., March 25, 1911, with 36 points. Illinois was second with 33, Minnesota third with 14, Purdue and Wisconsin were tied for fourth with 10 each, and Northwestern was fifth with 4. S. H. Whiting of Chicago won the 60-yard high hurdle race in 8 seconds, equaling the record of Forest Smithson, Hoffman of Purdue won the 60-yard dash in :06½, which equals the world's indoor record, but as the runners started on an incline the mark was not allowed.

INDOOR CHAMPIONSHIPS.

The Chicago Athletic association won the Central Amateur Athletic union track and field championships meet at Dexter Park pavilion, Chicago, March 11, 1911, with a score of 46 points. Notre Dame was second with 30 points. Unattached athletes and Ohio State university tied for third with 5 points each. The Illinois Athletic club had 4 points, the Chicago Irish Amateur Athletic club 3, the Sodality Athletic club of Milwaukee 1 and the Cincinnati Gymnastic and Athletic club, 1.

PRINCIPAL OLYMPIAN RECORDS.

Olympian records to date are as follows:

60-meter run—:04. A. C. Kraenzlein, Archie Hahn (1904), W. Hogenson (1904).

100-meter run—:10½. F. W. Jarvis; R. E. Walker (1908).

200-meter run—:21½. Archie Hahn (1904).

400-meter run—:49½. H. Hillman (1904).

1,500-meter run—4:03½. Melvin W. Sheppard (1908) and M. F. Hallows (1908).

800-meter run—1:52½. Melvin W. Sheppard (1908).

2,500-meter steeplechase—7:34. G. W. Orton.

4,000-meter steeplechase—12:58½. C. Reinmer, England.

110-meter hurdle race—:15. F. C. Smithson (1908).

200-meter hurdle race—:24½. H. Hillman (1904).

400-meter hurdle race—:55. C. J. Bacon (1908).

Running high jump—6 ft. 3 in., Harry F. Porter (1908).

Running broad jump—24 ft. 6½ in., F. C. Irons (1908).

Standing high jump—5 ft. 5 in., Ray C. Ewry.

Standing broad jump—11 ft. 4½ in., Ray C. Ewry (1904).

Standing triple jump—36 ft. 1 in., Peter O'Connor (1906).

Pole vault—12 ft. 2 in., A. C. Gilbert and E. T. Cooke (1908).

Running hop, skip and jump—48 ft. 11¼ in., Ahearne, England (1908).

Putting 16-lb. shot—48 ft. 7 in., Ralph Rose (1904).

Throwing 16-lb. hammer—170 ft. 4 in., John J. Flanagan (1908).

Throwing discus (Greek style)—128 ft. 8 in., M. J. Sheridan (1908).

Throwing javelin (free style)—178 ft. 7½ in., E. V. Lemming (1908).

Throwing javelin (middle)—179 ft. 10½ in., E. V. Lemming (1908).

OLYMPIAN GAMES OF 1912.

The next Olympic games will take place in Stockholm, Sweden, in 1912. The honorary president of the Swedish Olympic committee is Crown Prince

Gustaf Adolph, the president, Col. V. G. Balek, and the secretary, Kristian Hellstrom. The address of the committee is 6B, Norra Blasleholmshamnen, Stockholm, Sweden.

Robert M. Thompson of New York, N. Y., is the president of the American Olympic committee, and James E. Sullivan, 21 Warren street, New York, N. Y., is the secretary.

The games at the fifth Olympiad will include athletics, cycling, fencing, gymnastics, horse display, tennis, shooting, swimming, wrestling, yachting and probably football and rowing.

LONG DISTANCE RUNNING AND WALKING.

Following were the results in the more important Marathon (26 miles 385 yards) and other long distance foot races and walking matches in 1911. The date, place, distance, winner and time are given in the order named:

- Jan. 3—Edinburgh, Scotland; Marathon; Hans Holmer; 2:32:21.
- April 15—New York, N. Y.; 10 miles; William Queal; 51:53.
- April 15—St. Louis, Mo.; 6½ miles; Joseph Ehrenlen; 38:25½.
- April 15—Boston, Mass.; Marathon; Clarence F. De Mar; 2:21:39½.
- May 6—Chicago, Ill.; 5 miles; G. H. Davis; 28:56½.
- May 13—St. Louis, Mo.; Marathon; Sidney Hatch; 3:04:56.
- May 20—London, England; 25 miles, walking; S. C. Schofield; 3:37:06½.
- May 27—London, England; Marathon; Harry Green; 2:46:29½.
- May 30—New York, N. Y.; 25 miles, running; I. Kohlmieman; 1:57:35.
- Sept. 3—Chicago, Ill.; Marathon; John Kallos; 2:51:00.
- Sept. 4—Boston, Mass.; 12 miles; Alfred Shrubbs; 53:28½.
- Oct. 6—Brocton, Mass.; Marathon; Clarence F. De Mar; 2:29:55½.

John H. Mooney, a New York fireman, arrived at San Francisco, Cal., Sept. 4, 1911, claiming to have walked from New York, N. Y., in seventy-nine walking days, thus lowering Edward P. Weston's record of 105 days over the same route.

RECORD FOR ONE-SIXTH MILE.

In New Orleans, La., July 29, 1911, Harry Fitzpatrick, president of the Southern Amateur Athletic union walked one-sixth of a mile in :56½, lowering the world's record of :57½, held by G. D. Phillips of Jersey City, N. J.

ALL-AROUND CHAMPIONSHIP.

Fred C. Thompson of the Occidental college, Los Angeles, Cal., won the all-around athletic championship of the Amateur Athletic union on Marshall field, Chicago, Aug. 12, 1911. The ten events and the number of points he made in each were: 100-yard dash, 69; 16-lb. shot-put, 752; high jump, 640; 880-yard walk, 824; 16-lb. hammer throw, 577; 56-lb. weight, 552; 120-yard hurdles, 905; pole vault, 472; running broad jump, 704; 1-mile run, 584; total, 6,709.

J. W. Donahue of Los Angeles, Cal., was second with 6,209 points, and E. Schobinger of the Chicago Athletic association third with 6,166½ points.

Winners of event and points made by each.

1884—W. R. Thompson, Montreal.....	5,304
1885—M. W. Ford, New York.....	5,045
1886—M. W. Ford, New York.....	5,899
1887—A. A. Jordan, New York.....	5,236
1888—M. W. Ford, New York.....	5,161
1889—A. A. Jordan, New York.....	5,520
1890—A. A. Jordan, New York.....	5,358
1891—A. A. Jordan, New York.....	6,189
1892—E. W. Goff, New York.....	5,232
1893—E. W. Goff, New York.....	4,860
1894—E. W. Goff, New York.....	5,748
1895—J. Cosgrave, Albany.....	4,406½
1896—L. P. Sheldon, Yale.....	5,380
1897—E. H. Clark, Boston.....	6,244½
1898—E. C. White, New York.....	5,243
1899—F. Powers, Worcester.....	6,203
1900—Harry Gilj, Toronto.....	6,360½
1901—A. B. Gunn, Buffalo.....	5,739
1902—A. B. Gunn, Buffalo.....	6,260½
1903—E. H. Clark, Boston.....	6,318½

1904—Thomas Kieley, Ireland.....	6,086
1905—M. J. Sheridan, New York.....	6,820½
1906—Thomas F. Kieley, Ireland.....	6,274
1907—Martin J. Sheridan, New York.....	7,130½
1908—J. L. Brodemus, Princeton.....	5,839
1909—Martin J. Sheridan, New York.....	7,885
1910—F. C. Thompson, Los Angeles.....	6,991
1911—F. C. Thompson, Los Angeles.....	6,709

ATHLETIC RECORDS MADE IN 1911.

- Jan. 21—150-yard dash—:14, Jack Donaldson (professional), Kimberley, Africa.
- Feb. 18—Throwing 56-lb. weight for height over bar—15 ft. 1½ in., Cornellus E. Walsh, N. Y. A. C., New York, N. Y.
- Feb. 25—¼-mile run—1:57½, J. F. Devine, Notre Dame, Ind.
- March 25—40-yard high hurdles—.05½, Ralph Craig, Michigan, at Ann Arbor, Mich.
- April 1—50-yard dash—.05½, Frank Kuhns of Chicago, A. A. and Arthur May of University of Nebraska, at Omaha, Neb. (Equals American indoor record.)
- May 26—1-mile run—4:26½, J. D. Mackenzie, at Cambridge, Mass. (Intercollegiate record.)
- May 27—1-mile run—4:15½, John Paul Jones of Cornell, at Harvard stadium, Cambridge, Mass. (World's amateur record.)
- May 27—Pole vault—12 ft. 8¾ in., Harry S. Babcock of Columbia, at Harvard stadium, Cambridge, Mass., (Collegiate record.)
- May 27—220 yard dash—.21½, Ralph Craig, University of Michigan, at Harvard stadium, Cambridge.
- May 30—125-yard dash—.12½, Gwynn Henry of Eden, Tex., at Celtic park, New York, N. Y. (American amateur record.)
- May 30—250-yard hurdles—.29½, John Eller of New York, at Celtic park, New York, N. Y. (World's amateur record.)

*Amateur.

LACROSSE.

Vancouver won the world's lacrosse championship at Vancouver, B. C., Sept. 16, by defeating New Westminster in the second and final match for the Minto cup, 6-2.

Johns Hopkins university won the American intercollegiate lacrosse championship at Baltimore, Md., May 13, 1911, by defeating Stevens institute, 9 to 3.

MOTORING.

[Compiled by C. G. Sinsabaugh.]

The season of 1911 goes down into history as the most active of all and the most remarkable, too. The speed of the automobile has been demonstrated in a most sensational manner and marks established that would have been deemed impossible a year or so ago. Every one thought the speed limit was reached when Barney Oldfield in the Blitzen Benz traveled a mile over the sands at Daytona, Fla., at the rate of 131.28 miles an hour, yet the man who stepped into his shoes when he was dethroned, Bob Burman, took the same car and cut Oldfield's mile mark from :27.33 to :25.40, equal to 141.73 miles per hour. Both the speedway and the dirt track mile records also were lowered by this same Burman, but not to such an appreciable extent. The speedway mile was reduced from :35.62 to :35.35, and the dirt track mile from :48.92 to :48.62.

In the way of long distance performances there were two that stood out above all others—the 530 mile race on the Indianapolis speedway on May 30, and the twenty-four hour race on the Los Angeles speedway. The 500 mile race was remarkable from the fact that the first prize was \$10,000 in cash. Forty cars started and twelve finished, the winner being Ray Harroun of Chicago in the Marmon Wasp, who averaged 74.7 miles per hour; Mulford in the Lozier was second; David Bruce-Brown in the Fiat was third; Spencer Wishart, Mercedes, fourth; Joe Dawson, Marmon, fifth; Ralph de Palma, Simplex, sixth; Charles Merz, National, seventh; C. Turner, Amplex, eighth; F. Belcher, Knox, ninth; H. Cobe, Jackson, tenth; Gil Anderson, Stutz, eleventh; Hugh Hughes, Mercer, twelfth.

The twenty-four hour race at Los Angeles was the only twice around the clock race of the year, the Fiat winning with a mark of 1,491 miles, while the runner-up was a thirty horse power American car, the Cadillac, which covered 1,448 miles. This, by the way, is the only twenty-four hour race ever run on a speedway, the track itself being a one mile circular board affair.

More activity than ever was shown in a road racing way, there being twenty-seven of these events held on American roads in 1911. The big meet of the year was at Savannah, where the Grand Prix, Vanderbilt, Savannah cup and Tiedeman trophy events were contested. The national stock chassis road races again were run at Elgin, Ill., by the Chicago Motor club. Len Zengel in a National won the Elgin national trophy, Donald Herr in a National took the Illinois cup, Hugh Hughes in a Mercer the Kane county cup and Mortimer Roberts in an Abbott-Detroit the Aurora cup. Sensational speed was shown in the road races at Los Angeles, where the world's record was beaten twice. Charles Merz in a National first beat Nazzero's mark of 74.3 miles per hour, raising it to 74.42, while in the free for all that followed Harvey Herrick in a National jumped this to 74.62 miles per hour, the distance covered being 202 miles. The annual Fairmount park road race was run at Philadelphia and the winner was Erwin Bergdoll, a young millionaire who races for the fun of it, in a

Racing on circular tracks built for horse racing received more than one black eye during 1911, because of the fatalities that attended this sport. Among the prominent drivers who were killed on the dirt ovals were Marcel Basle at Chicago, Walter Donnelly at Milwaukee and W. H. Pearce at Sioux City, Iowa. At Syracuse, Lee Oldfield (no relation of Barney) plunged through the fence and twelve spectators were killed.

CHICAGO COMPETITIONS.

The competition season in Chicago started with the fuel economy test at Milwaukee and back, promoted by the Chicago Motor club, which returned as winners the Moline in the touring car class, the Grout in the roadster class, the Corbin in the development class and the Brush in the free for all, with 19.3, 18.5, 27.4 and 35.2 miles per gallon, respectively. Then came the Chicago Motor club's annual climb at Algonquin, June 9, in which the Algonquin cup was won by E. A. Hearne in a Benz, lowering the record on the morning hill to :16%.

The fourth annual reliability team match between the Chicago Athletic association and the Chicago Automobile club, to Janesville, Wis., and return, was run June 15-16 and was won by the Cherry circle with a score of 284.5 to 685, twenty-two cars representing the C. A. A. and thirteen the C. A. C. The Chicago Motor club followed with a team match on July 13-19 to St. Joseph, Mich., and return, the teams representing the amateurs and the tradesmen. The Banta trophy was won by the amateurs with a score of 225 against 329, the amateurs having fourteen cars and the tradesmen sixteen.

The national stock chassis road races were run at Elgin on Aug. 25-26 and returned as winners Zengel in the National, Herr in the National, Hughes in the Mercer and Roberts in the Abbott-Detroit. Following this the Chicago Motor club put on a three-day commercial motor vehicle demonstration Sept. 18-19-20, which proved a most successful affair. The season wound up with the Chicago Motor club's fifth annual reliability, which went 1,350 miles through five different states. The touring car class resulted in a tie between F. G. Salsbury in a Moline and E. Knudsen in a Staveland-Chicago, both with perfect scores. The Van Sickel cup in the roadster division was won for the second time by the Moline, J. A. Wicke driving. The fuel economy test for the Standard Oil trophy was won by the Grout and the team trophy by the Moline.

THE GLIDDEN TOUR.

Early in the spring of 1911 it looked as if there would be no more Glidden tours. Then it was arranged to run the classic from Washington, D. C., to Ottawa, the capital of Canada. Entries were scarce and after the trail had been laid a postponement was necessary. Then the good roads folk of the south got after the American Automobile association and induced it to change its plans and run the Glidden from New York city to Jacksonville, Fla. The rules were changed, the stock car proposition being abandoned. Instead of being an individual competition, as it was in 1910, when the Chalmers won it, it became a team event. There were sixty-four starters, and eighteen teams, representing various cities, took part. Forty-seven finished at Jacksonville, Fla., after a most strenuous run. The Tarrytown (N. Y.) team, made up of three Maxwell cars, won the Glidden trophy, while the Anderson trophy, put up for individual contest, went to No. 4 Maxwell. Class winners included the Ford, Flanders, Mitchell, Maxwell, Stevens-Duryea, Columbia and American. The tour was marred by an accident which resulted in the death of Samuel M. Butler, chairman of the contest board of the American Automobile association, who was killed when the car in which he was riding turned turtle.

VANDERBILT CUP RACE.

The conditions of the Vanderbilt cup race in 1909 were changed. Racing cars were barred and the event was open only to stock cars up to 600 cubic inches piston displacement. This race was run Oct. 30 over the Long Island motor parkway course. It was won by Harry F. Grant in a sixty-horse-power Alco car in 4:25.42, or an average speed for the 278.08 miles of 63.5 miles an hour. In 1910 Grant, in the Alco, again won. Conditions again were changed and the race was open to cars under 600 cubic inches piston displacement. It virtually was a free-for-all, although the first five to finish were stock cars. In 1911 the Vanderbilt was run at Savannah, Ga.

Year.	Winner and car.	Miles.	H. M. S.

1911—	R. K. Mulford, America, Lozier.	291.38	3:56:00%

FOREIGN ROAD RACES.

No longer do the foreigners support road racing on the gigantic scale of former years. Only two or three minor events were run in 1911, the contesting machines being mostly small cars. The James Gordon Bennett, the French Grand Prix,

the Florio cup, the Emperor's cup—they're all memories of the days when France reigned almost supreme in the speed world. Those classics are only history now and the records show the following winners of the two most important, the Bennett and the Grand Prix:

The circular-track twenty-four-hour record was raised to 1,253 miles by Patschke and Poole in a Stearns at Brighton Beach track, New York, Aug. 19-20, 1910. The former record was 1,196 miles, made by Patschke and Mulford, in a Lozier, in 1909. An American competitive speedway twenty-four hour record was created at Los Angeles, where a Flat covered 1,491 miles.

TRANS-CONTINENTAL RECORD.

A record of 10 days 18 hours 12 minutes from New York to San Francisco was made Aug. 8-18, 1910, by L. L. Whitman, driving a four-cylinder Reo, the fastest trip ever made across the continent in a motor car. The record from San Francisco to New York is 15 days 12 hours, made in a Franklin in 1906 by Whitman.

CHICAGO-NEW YORK RECORD.

The record by automobile between Chicago and New York is 23:53:00. It was made by a Franklin twenty-eight horsepower runabout Aug. 21-22, 1907. The route followed was via Elkhart, Cleveland, Erie, Buffalo, Rochester, Syracuse, Utica, Newburgh and along the east side of the Hudson to New York. The distance was 1,050 miles. The previous record was 56:58:00, also made by a Franklin, a six-cylinder car.

MOTORCYCLING.
HAWTHORNE RACES.

Winners and time in North Shore Motorcycling club races at Hawthorne race track, Chicago, May 29-30, 1911:
5 miles, novice, 4 horse power—W. E. Williamson, 6:13½.
10 miles, free for all, 7 horse power—W. J. Teubner, 10:51½.
10 miles, free for all—"Shorty" Matthews, 10:58½.
5 miles, trade riders—Leo Galitzki, 5:11½.
5 miles, free for all, private owners—J. A. Turner, 6:05½.
10 miles, free for all—R. Sporleder, 10:51½.
5 miles, free for all—W. J. Teubner, 5:04.
5 miles, private owners—W. E. Williamson, 6:15½.
10 miles, free for all—R. Sporleder, 10:26.
5 miles, free for all—W. E. Teubner, 5:03½.
10 miles, trade—Frank Hart, 11:26½.
10 miles, free for all—W. E. Teubner, 10:03½.
5 miles, trade riders, 61 class stock—Frank Hart, 5:00½.
5 miles, national championship, F. A. M.—Frank Hart, 4:54½.
20 miles, free for all—W. E. Teubner, 19:02½.

RECORDS BROKEN.

Charles Balke of Los Angeles, Cal., broke a world's motorcycle record when he won a 10 mile race on the Riverview (Chicago) motordrome July 22, 1911, in 7:14. The best previous record was 7:18, held by Morton Graves.
Joe Barbeau rode 100 miles on a one mile dirt track at Winnepig, Manitoba, Oct. 14, 1911, in 1:46:14½, lowering the world's record by nearly 20 minutes.

BALLOONING.

CONTEST FOR BENNETT CUP.

The sixth international race for the James Gordon Bennett cup started from Kansas City, Mo., Oct. 5, 1911. There were six entries as follows:
France—Condor, Emile Dubonnet, pilot; Pierre Dupont, aid.
Germany—Berlin I., Lieut. Leopold Vogt, pilot; Lieut. Schoeller, aid. Berlin II., Lieut. Hans Gerlicke, pilot; J. O. Dunker, aid.
United States—Buckeye, Lieut. Frank P. Lahm, pilot; J. H. Wade, Jr., aid. Million Population Club, William F. Assman, pilot; J. C. Hurlburt, aid. America II., John Berry, pilot; Paul McCullough, aid.

The contestants got away to a good start and were carried rapidly in a northerly direction by a strong breeze. Stormy weather was encountered later and all the balloons were compelled to come to the ground sooner than would otherwise have been the case. The race was won by Hans Gerlicke in the Berlin II., who landed near Ladysmith, Wis., Oct. 7, after traveling 471 miles. The other balloons in the contest landed Oct 6, as follows:

Condor, Mingo, Iowa, 200 miles.
America II., Emmetsburg, Iowa, 293 miles.
Million Population Club, Mason City, Iowa, 275 miles.
Berlin I., Austin, Minn., 350 miles.
Buckeye, Sparta, Wis., 408 miles.
Two balloons which contested for the Lahm cup landed as follows:
Topeka II., Dunnell, Minn., 325 miles.
Kansas City II., Kennan, Wis., 460 miles.

BENNETT CUP RECORD.

Year.	Winner.	Distance.
1906	America (American)	402 miles
1907	Pommern (German)	550 miles
1908	Helvetia (Swiss)	620 miles
1909	America I. (American)	685 miles
1910	America II. (American)	1,174 miles
1911	Berlin II. (German)	471 miles

ELIMINATION RACE.

In the national elimination balloon race which started from Kansas City, Mo., July 10, 1911, to select entries for the James Gordon Bennett cup race Oct. 4, six balloons competed. The two making the greatest distance were to represent America in the international contest, together with Alan R. Hawley of New York, winner of the 1910

race. The result as officially announced was as follows:

St. Louis IV.—Distance, 480 miles; time in air, 22 hours 26 minutes.
Million Population—415 miles, 16 hours 26 minutes.
Buckeye—288 miles, 21 hours, 38 minutes.
Topeka II.—210 miles, 14 hours 42 minutes.
Kansas City—193 miles, 8 hours 5 minutes.
New York—186 miles, 8 hours 56 minutes.
The St. Louis IV. landed near LaFaz Junction, Ind., and the Million Population at LaCrosse, Ind., July 11.

RECORD FOR DISTANCE.

The record for distance traveled in a balloon in continuous flight was gained by Count de la Vaulx in 1900, when he made a trip of 1,193 miles. He started in France and landed in Russia. The American record is held by Alan R. Hawley and Augustus Post, who made a 1,171 miles, Oct. 17-19, 1910, when competing for the James Gordon Bennett cup. They started at St. Louis, Mo., and landed near Lake Pisecama in the province of Quebec, Canada.

The record for distance traveled in a dirigible balloon is held by Walter Wellman, who, on Oct. 15-18, 1910, made approximately 1,000 miles in an attempt to cross the Atlantic in the America.

TRAVELED 800 MILES.

The balloon Miss Sophia, in charge of W. F. Assman and J. M. O'Reilly, St. Louis aeronauts, left San Antonio, Tex., at 6:47 p. m., Feb. 25, 1911, landed on a farm at Gower, Mo., at 5:15 p. m. the following day. The distance traveled was approximately 800 miles. Part of the trip was through a snowstorm.

BILLIARDS.

AMATEUR 18-2 CHAMPIONSHIP.

In the second international amateur billiard tournament, held in New York, N. Y., Feb. 7-16, 1911, Charles F. Conklin of Chicago was the winner. Final standing.

Player.	Games won.	Games lost.	Games run.	High average.	Grand average.
Conklin	4	1	95	16	12 46-62
Poggenburg	4	1	105	16-24	10 22-187
Gardner	3	2	67	13-10-30	10 4-82
Poensgen	3	2	95	11-15-35	9 30-183
Mial	1	4	82	13-10-30	8 72-144
Mayer	0	5	74	10-27-30	9 162-163

NATIONAL BILLIARD LEAGUE.

The first season of the National Billiard league, playing the three cushion game, closed in Boston, Mass., April 5, 1911. Following was the standing of the cities participating in the contests:

	W. L.	Pct.		W. L.	Pct.		
St. Louis	29	13	690	Brooklyn	21	21	500
Kansas City	26	16	619	Philadelphia	19	23	452
Pittsburgh	26	16	619	New York	15	27	341
Chicago	24	18	571	Boston	8	34	190

THREE CUSHION CHAMPIONSHIP.

John Daly, world's champion at three cushion billiards, retained his title by defeating George W. Moore in a three game series ending March 29, 1911, in New York, N. Y. The final score was 150 to 131. Alfred De Oro wrested the title from him in a three game series in New York, N. Y., Oct. 10-12, the final score being, De Oro, 150; Daly, 147.
Charles Morin of Chicago and Pierre Maupome of St. Louis played a three cushion series of best four out of seven games April 5, 6, 7, 8, 10, 11 and 13, 1911. Morin was the winner, taking one game in St. Louis and three in Chicago. Maupome won his three games in St. Louis. Each contest called for fifty points. Each player made a high run of seven. The match was for a purse of \$1,000.

POOL.

CHAMPIONSHIP GAMES.

Alfred De Oro, in a game for the world's pool championship, defeated William Clearwater of Pittsburgh in a 600 point match in New York, Jan. 18, 1911, by a score of 600 to 503.

In a match with Thomas Hueston of St. Louis at New York March 7-9 Alfred De Oro successfully defended his title as champion, winning by a score of 600 to 493.

Alfred De Oro defeated Jerome Keogh in a match for the pool championship in New York, April 18-20, by a score of 600 to 542 in three nights' play.

CHESS.
INTERNATIONAL.

Frank J. Marshall, champion of the United States at chess, won a national chess masters' tournament in New York, N. Y., ending Feb. 3, 1911. His score was ten points out of a possible twelve, or eight wins and four drawn games. Final standing of contestants in points:

Won.	Lost.	Smith	Won.	Lost.
Marshall	10	2	5	7
Capablanca	9½	2½	4½	7½
Chajes	9	3	4½	7½
Jaffe	9	3	3	9
Johner	6½	5½	3	9
Walcott	6½	5½	3	9
Black	5	7	2½	9½

M. Capablanca of Cuba won the first grand international chess masters' tournament in San Sebastian, Spain, Feb. 10-March 17, 1911. Final record:

Won.	Lost.	Spielmann	Won.	Lost.
Capablanca	9½	4½	7	7
Rubinstein	9	5	6½	7½
Vidmar	9	5	6	8
Marshall	8½	5½	6	8
Niemowitsch	7½	6½	5	9
Schlechter	7½	6½	5	9
Tarrasch	7½	6½	4	10
Bernstein	7	7		

In a chess masters' tournament at Carlsbad, Austria, Aug. 21-Sept. 25, 1911, Teichmann was the winner with eighteen games won. Record at close:

Teichmann	18	Cohn	11½
Rubinstein	17	Loewenfish	11½
Schlechter	17	Suechting	11½
Rotlewi	16	Burn	11
Marshall	15½	Salve	11
Niemowitsch	15½	Johner	10½
Vidmar	15	Kostic	10½
Alechine	13½	Rabinowitsch	10½
Duras	13½	Chtimirski	10
Leonhardt	13½	Alapin	8½
Tartakower	13½	Chajes	8½
Spielmann	13	Jaffe	8½
Perlis	12	Fabrnri	8½

WESTERN AMERICA.

C. Blake of Winnipeg, Canada, won the western chess championship at a tournament held at Excelsior, Lake Minnetonka, Minn., Aug. 21-28, 1911.

NEWNESS TROPHY.

The City of London Chess club won permanent possession of the Newness trophy, inaugurated in 1876, by winning the thirteenth international cable match, ending April 22, 1911, by a score of 6 games to 4.

WHIST.

TROPHY WINNERS SINCE 1901.

Trophy.	Winning club.
1901—A. W. L. Challenge	Minneapolis
Hamilton	Chicago
Minneapolis	Ypsilanti
1902—A. W. L. Challenge	Philadelphia
Hamilton	Cleveland
Minneapolis	Milwaukee
Brooklyn	New York
1903—A. W. L. Challenge	Baltimore
Hamilton	Cleveland
Minneapolis	Grand Rapids
Brooklyn	Michigan
1904—A. W. L. Challenge	Minneapolis and St. Paul
Hamilton	Bacone, Wis.
Minneapolis	Scranton, Pa.
Brooklyn	Minnesota
1905—Hamilton	Chicago
Minneapolis	Chicago
Brooklyn	Chicago
1906—Hamilton	Brookline, Mass.
Minneapolis	Providence, R. I.
Brooklyn	New England Whist league
1907—Hamilton	Grand Rapids
Minneapolis	Chicago
Brooklyn	New England
1908—Hamilton	Boston
Minneapolis	Albany
Brooklyn	New England Whist league
1909—Hamilton	Boston

Trophy.	Winning club.
Minneapolis	Boston
Brooklyn	New England Whist league
1910—Hamilton	Chicago Whist club
Minneapolis	
	Knickerbocker Whist club, New York
Brooklyn	New England Whist league
1911—Hamilton	Scranton
Minneapolis	Detroit
Brooklyn	Atlantic Whist association
A. W. L. Challenge	Grand Rapids

Officers of American Whist League—President, E. E. Elliott, Jr., New York, N. Y.; vice-president, F. C. Thwaites, Milwaukee, Wis.; secretary, J. C. Bearislee, Cleveland, O.; corresponding secretary, H. C. Wallace, Scranton, Pa.; treasurer, E. G. Comstock, Milwaukee, Wis.

WOMAN'S WHIST CONGRESS.

The fourteenth annual congress of the Woman's Whist league took place in Baltimore, Md., May 15-20, 1911. The Washington trophy, emblematic of the league championship, was won for the fourth time by the New Amsterdam club of New York. The Cavendish trophy was won by the Woman's club of Indianapolis, Ind.; the Omaha cup by the Howell Woman's Whist club of Boston, Mass.; the Boston trophy by the New Amsterdam and New Rochelle clubs; the St. Louis trophy by Mrs. C. S. Waterhouse of New York, N. Y., and the New Amsterdam trophy by Mrs. C. L. Matthews and Mrs. George A. Brook of Philadelphia.

Mrs. Byron P. Moulton of Philadelphia, Pa., was elected president; Mrs. Charles L. Taylor of Pittsburgh, Pa., recording secretary, and Miss M. H. Campbell of New York, N. Y., treasurer.

SKAT.

The fourteenth annual tournament of the North American Skat league took place in Pittsburgh, Pa., June 10-12, 1911. Max Worstmann of Chicago won the first prize of \$1,000 and Charles Sanders of Wausau, Wis., won the second prize, a player piano valued at \$500. Scores of first ten winners: Max Worstmann, Chicago, won 24, lost 1, net 22 games, scored 968 points.

Charles Sanders, Wausau, Wis., scored 899 points and won 21 games.
Louis Eiss, North Milwaukee, won club solo against 8 matadors, 108 points, scored 382 points.
M. Gernuth, Richmond Hill, N. Y., won 24, lost 1, net 23 games, scored 859 points.
Robert Schiller, Milwaukee, scored 832 points and won 16 games.
M. Niebling, Newark, N. J., made high play of 216 points and scored 351 points.
H. D. Meyer, Carver, Minn., won heart tourney against 10 matadores, 66 points, scored 551 points.
George Estenfelder, Wheaton, Ill., won 23, lost 1, net 22 games, scored 746 points.
A. Heuer, Altoona, Pa., scored 829 points and won 16 games.
L. Ziegler, Beaver Dam, Wis., won spade solo against 7 matadores, 88 points, scored 208 points.
The 1912 congress will be held in Chicago. Max Worstmann is president of the league for 1911-1912.

CHECKERS.

G. M. Tanner won the checker championship of Chicago in a tournament ending the third week in April, 1911. Final standing of competitors:

Points.	Points.		
Tanner	46	Oxley	23
Scott	42	Doran	24
McCooley	40	Orcutt	19
Wendemuth	39	Larner	19
Hartshorn	32		

HOCKEY.

Cornell won the intercollegiate hockey championship for 1911 by defeating Dartmouth at Boston, Mass., Feb. 18, by a score of 5 to 1.
Cornell defeated Yale at hockey in Chicago Dec. 30 and 31, 1910, and Jan. 2, 1911, by scores of 4 to 3, 3 to 1 and 4 to 2.
Harvard defeated Yale at hockey in New York, N. Y., Feb. 18, 1911, 3 to 2.
The Illinois Athletic club hockey team defeated

the All Niagaras of Canada in the first of a three-game series in Chicago, March 8, by a score of 7 to 4. The second and third games were also won by the I. A. C. by scores of 5 to 4 and 7 to 2. The Berlin (Ont.) hockey team played a series of three games with an all-star Chicago team March 16, 17 and 18, 1911. The Canadians lost the first contest by a score of 2 to 1, but took the other two by scores of 4 to 2 and 6 to 3.

RACQUETS.

NATIONAL CHAMPIONSHIP.

Reginald R. Fincke of New York won the national racquets tournament in New York city Feb. 22-25, 1911, defeating J. Gordon Douglas, also of New York, in the last match by a score of 7-15, 18-13, 15-3, 15-8. Championship record: 1901—Quincy A. Shaw, Boston. 1902—C. H. Mackay, New York. 1903—Payne Whitney, New York. 1904—George A. Brooke, Philadelphia. 1905—Lawrence Waterbury, New York. 1906—Percy D. Houghton, Boston. 1907—Reginald R. Fincke, New York. 1908—Quincy A. Shaw, Boston. 1909—Harold F. McCormick, Chicago. 1910—Quincy A. Shaw, Boston. 1911—Reginald R. Fincke, New York.

GOLD RACQUETS TOURNAMENT.

J. Gordon Douglas of New York won the gold racquets tournament at Tuxedo Park, N. Y., Feb. 11-13, 1911, defeating Harold F. McCormick of Chicago in the final match by a score of 15-8, 0-15, 18-13, 15-10.

DOUBLES CHAMPIONSHIPS.

George R. Fearing, Jr., and H. D. Scott of Boston won the national racquets championship in doubles Jan. 22, 1911, in Boston, Mass., defeating Payne Whitney and M. Barger of New York by the score of 15-5, 15-5, 15-8, 15-5.

WORLD'S CHAMPIONSHIP.

At the Queen's club, London, April 29 and May 13, 1911, Charles Williams of London defeated Parsee Jamsetji of Bombay for the world's championship at racquets and a side bet of \$2,000.

SQUASH RACQUETS.

Frank S. White of Philadelphia won the national squash racquet tournament in Philadelphia, Pa., Feb. 13, 1911, defeating G. W. Wales of Boston in the final round, 15-13, 15-7, 15-11.

GERMANY, FRANCE AND MOROCCO.

The conflicting interests of France and Germany in Morocco led to such strained relations between the two countries in 1911 that war seemed imminent on several occasions. The most critical time was July 1, when Germany notified France and the powers that it had sent the gunboat Panther to Agadir, the most southerly point of Morocco, on the plea that it might be necessary to land troops there for the protection of German merchants. This was accepted by France and its ally, Great Britain, as an act of defiance and the situation became critical. Premier Asquith made a statement in the house of commons July 27 in which he intimated that it might become the duty of the British government to intervene in defense of British interests.

The negotiations were conducted by Ambassador Cambon for France and by Herr Kiderlen-Waechter, foreign minister, for Germany. Slow progress was made on account of what France believed to be the extortionate demands of Germany, but an agreement was reached toward the end of October and the tension relieved. By the terms of the convention Germany recognized the existence of a French protectorate over Morocco. In return France gave Germany a portion of the French Congo in Africa and further guaranteed German commercial interests equally in Morocco. Both governments stipulated that difficulties arising out of the application of the agreement should be referred to the tribunal at The Hague for settlement.

The agreement caused great dissatisfaction in Germany among all parties and led to the resignation of a number of officials. Crown Prince Frederick William was among those who emphatically disapproved of the treaty.

CLIMATOLOGY OF THE UNITED STATES.

The following table of average rainfall, highest and lowest temperatures, based upon observations of thirty-five or fewer years at selected stations in the several states and territories of the United States, was compiled from the records of the weather bureau for The Chicago Daily News Almanac by the United States weather bureau, Washington, D. C.:

State. Stations.	Baromet. No. level (ft.)	Yrs.	Temp. Max.	Yr. Min.	Yr. Avg.	Pre- cipitation.

AERONAUTICAL PROGRESS IN 1911.

AERONAUTICAL PROGRESS IN 1911.

Many wonderful achievements were placed to the credit of aviators in 1911, but these were chiefly in the line of long cross country flights or of altitude and duration records. The main thing demonstrated, however, was the fact that heavier-than-air machines are unsafe and that until greater stability has been secured the cannot be put to practical use except, perhaps, for scouting in time of war. Their utility for this purpose was shown in the Tripoli campaign, where the Italians were able to observe the movements of the Turks and Arabs by means of aeroplanes. Toward the close of the year the Wright brothers, pioneers in the science of aviation, conducted a series of experiments which indicated that the desired stability was in a fair way of being secured. Another advance may be noted, namely, the invention of aeroplanes that can alight on or rise from the water. Below will be found accounts of some of the more remarkable performances of the year, with the latest available records on both sides of the Atlantic, a list of casualties and a chronological record of aeronautical events in 1911.

LONG-DISTANCE FLIGHTS.

FROM ST. LOUIS TO NEW YORK.

Harry N. Atwood of Boston broke the world's record (up to Aug. 25, 1911) for cross country flying in an aeroplane when he traveled from St. Louis, Mo., to New York city, via Chicago, a distance of 1,265 miles, in twelve days. He left the Missouri city Aug. 14, 1911, and arrived at Governor's island in New York harbor Aug. 25. His time in the air was 28 hours 9 minutes. For this feat he was given a prize of \$10,000, offered by Victor J. Evans of Washington, D. C. The previous world's record for cross country flying was 1,164 miles, made in 30 days by Benno Koellig in Germany, June 11-July 10, 1911. Atwood's best performance was on the first day of his aerial journey, when he made the distance of 282 miles in less than six hours of flying time in one day. He had but one serious mishap to his machine, a break in the propeller, which compelled him to land at Nyack, N. Y., when only twenty-five miles from his goal. Atwood used a Wright-Burgess biplane. In Chicago he arrived at and started from Grant park, on the lake front, where the great aviation meet was being held.

SUMMARY OF FLIGHT.

Monday, Aug. 14.

Station.	Arrives.	Leaves.	Miles.
St. Louis, Mo.	8:05 a. m.
Springfield, Ill.	10:34 a. m.	1:00 p. m.	97
Pontiac, Ill.	2:53 p. m.	4:30 p. m.	190
Chicago, Ill.	6:22 p. m.	282

Tuesday.

New York city.	2:18 p. m.	1,265

FROM NEW YORK CITY TO PASADENA, CAL.

Col. F. Rodgers eclipsed all records for long distance aeroplane flying when he crossed the American continent from Sheepshead Bay, N. Y., to Pasadena, Cal., between Sept. 17 and Nov. 5, 1911. The distance covered was approximately 4,231 miles, the total time occupied 49 days, the actual flying time 82 hours 4 minutes, and the average distance per hour, 51.7 miles. His machine, a baby Wright biplane, was damaged on a number of occasions, but was quickly repaired, either by himself or by the mechanics who followed him by train. Bad weather was responsible for most of the delay. His general route was by way of Chicago, Kansas City, San Antonio, El Paso, Maricopa and Imperial Junction. Further details of the record breaking journey may be obtained from the following daily record of the flight:

Sept. 17—Sheepshead Bay, N. Y., to Middletown, N. Y.; 80 miles.
Sept. 18—Middletown, N. Y.; aeroplane damaged.
Sept. 19—Middletown, N. Y.; repairing aeroplane.
Sept. 20—Middletown, N. Y.; repairing aeroplane.
Sept. 21—Middletown, N. Y., to Hancock, N. Y.; 95 miles.
Sept. 22—Hancock, N. Y., to Elmira, N. Y.; 173 miles.
Sept. 23—Elmira, N. Y., to Canistoe, N. Y.; 60 miles.
Sept. 24—Canistoe, N. Y., to Salamanca, N. Y.; 91 miles.
Sept. 25—Salamanca, N. Y.; aeroplane damaged.
Sept. 26—Salamanca, N. Y.; repairing aeroplane.
Sept. 27—Salamanca, N. Y.; repairing aeroplane.
Sept. 28—Salamanca, N. Y., to Kent, O.; 203 miles.
Sept. 29—Kent, O.; delayed by weather.
Sept. 30—Kent, O., to Rivere, Ind.; 213 miles.
Oct. 1—Rivere, Ind., to Huntington, Ind.; 36 miles.
Oct. 2—Huntington, Ind.; aeroplane damaged.
Oct. 3—Huntington, Ind.; repairing aeroplane.
Oct. 4—Huntington, Ind.; repairing aeroplane.
Oct. 5—Huntington, Ind., to Hammond, Ind.; 122 miles.
Oct. 6—Hammond, Ind.; bad weather.
Oct. 7—Hammond, Ind.; bad weather.
Oct. 8—Hammond, Ind.; to Joliet, Ill., via Chicago; 83 miles.
Oct. 9—Joliet, Ill., to Springfield, Ill.; 65 miles.
Oct. 10—Springfield, Ill., to Louisiana, Mo.; 134 miles.
Oct. 11—Louisiana, Mo., to Kansas City, Mo.; 103 miles.
Oct. 12—Kansas City, Mo.; bad weather.
Oct. 13—Kansas City, Mo.; bad weather.
Oct. 14—Kansas City, Mo., to Vinita, Okla.; 193 miles.
Oct. 15—Vinita, Okla., rested.
Oct. 16—Vinita, Okla., to McAlester, Okla.; 127 miles.
Oct. 17—McAlester, Okla., to Fort Worth, Tex.; 300 miles.
Oct. 18—Fort Worth, Tex., to Dallas, Tex.; 123 miles.
Oct. 19—Dallas, Tex., to Waco, Tex.; 100 miles.
Oct. 20—Waco, Tex., to Kyle, Tex.; 120 miles.
Oct. 21—Kyle, Tex.; aeroplane damaged.
Oct. 22—Kyle, Tex., to San Antonio, Tex.; 30 miles.
Oct. 23—San Antonio, Tex.; aeroplane damaged.
Oct. 24—San Antonio, Tex., to Spofford, Tex.; 133 miles.
Oct. 25—Spofford, Tex.; aeroplane damaged.
Oct. 26—Spofford, Tex., to Sanderson, Tex.; 174 miles.
Oct. 27—Sanderson, Tex.; aeroplane damaged.

Oct. 28—Sanderson, Tex., to Sierra Blanca, Tex.; 231 miles.
 Oct. 29—Sierra Blanca, Tex., to El Paso, Tex.; 92 miles.
 Oct. 30—El Paso, Tex.; aeroplane damaged.
 Oct. 31—El Paso, Tex., to Wilcox, Ariz.; 225 miles.
 Nov. 1—Wilcox, Ariz., to Maricopa, Ariz.; 130 miles.
 Nov. 2—Maricopa, Ariz., to Stovall, Ariz.; 225 miles.
 Nov. 3—Stovall, Ariz., to Imperial Junction; 135 miles.
 Nov. 4—Imperial Junction to Banning, Cal.; 77 miles.
 Nov. 5—Banning, Cal., to Pasadena, Cal.; 73 miles.

BOSTON TO WASHINGTON.

Harry N. Atwood started from Boston, Mass., June 29, 1911, for New London, Conn., 135 miles away, arriving there the same day. June 30 he gave exhibitions of flying at the intercollegiate boat races on the New London course. Saturday, July 1, he started at 7:05 a. m., and flew over Bridgeport, Conn., at a height of 1,500 feet. Then he steered out over Long Island sound, passing South Norwalk and Port Chester. At Larchmont, which was reached at 9:15 a. m., he steered inland over Mount Vernon and then flew over the city of New York. Partly circling the lofty Singer building tower, he hovered over Wall street for a few moments and then proceeded to Governor's island where he landed. The total distance traveled was 122 miles and the time was 3 hours 20 minutes.

July 4 Atwood left Governor's island at 8:49 a. m., and at 2:30 p. m. landed at Aldutic City, N. J., the distance covered being about 115 miles. After a delay of nearly a week, due to unfavorable weather, the Boston aviator left Atlantic City, July 10, at 5:04 a. m., and descended at Stemmer's Run, Md., a few miles from Baltimore, at 9:23 a. m., being unable to proceed farther on account of the great heat and humidity. The flight of forty miles to College Park, Md., the military aviation field near Washington, D. C., was completed early on the morning of July 11. The total distance covered was approximately 525 miles.

FROM KEY WEST TO HAVANA.

Jan. 30, 1911, an attempt was made by J. A. D. McCurdy to fly in a Curtiss biplane from Key West to Havana to win a prize of \$3,000. All the conditions were favorable and the flight was a success until a point some ten miles from Havana was reached, when something went wrong with the engine and the lubricating oil dropped out. McCurdy was compelled to descend to the water on which the biplane, which was supplied with pontoons, floated until a life boat from one of the accompanying torpedo boat destroyers came to the rescue. Neither man nor machine was injured in the least. The distance traveled was ninety-six miles and the time occupied 2 hours and 8 minutes. It broke the record for over water flights, but it only stood until March 5, when Lieut. Blague covered 140 miles over the Mediterranean sea, between Nice and Gorgona.

PARIS TO MADRID.

One of the most sensational aeroplane flights of 1911 was that from Paris, France, to Madrid, Spain, May 21-26. The Petit Parisien offered a prize of \$20,900 to the winner of a race between the two capitals and some twenty machines were entered. When the start was made from the Issy-les-Moulineux aviation field one of the aeroplanes fell, killing M. Berteaux, minister of war, and seriously wounding Premier Monis. This caused most of the contestants to withdraw and only Pierre Vedrine, M. Gilbert and M. Garros started. The first stage was from Paris to Angoulême, the second from Angoulême to San Sebastian and the third from San Sebastian to Madrid. The three airmen succeeded in reaching San Sebastian, but Gilbert and Garros failed to clear the mountains in the last stretch and only Vedrine succeeded in reaching Madrid, where he landed at 8:06 o'clock on the morning of May 26. The total distance traversed was 721 miles and Vedrine's official flying time was 37 hours 27 minutes. This, however, included time for repairs and other delays and the actual time in the air was only 12 hours and 18 minutes. While crossing the mountains Vedrine was attacked by a large eagle, and Gilbert had the same experience. Vedrine's total winnings were \$30,900, and he also received the cross of the Order of Alfonso XII.

PARIS TO ROME.

What was intended to be an aeroplane race from Paris to Turin by way of Rome was started May 23 with twenty-one entries, who were given until June 15 to reach the goal. Prizes aggregating \$300,000 were offered. Andre Beaumont and Roland Garros took the lead from the start, most of the other competitors dropping out early in the race. The route was by way of Avignon, Nice, Genoa and Pisa. Beaumont was ahead at Avignon and Nice, but Garros arrived at Genoa first. Beaumont, however, made a fine flight from Allassio to Rome, covering the distance in less than seven hours, including stops in Genoa and Pisa, and arrived in Rome on the afternoon of May 31. Garros arrived the following day, having met with a mishap near Pisa. Frey, a German aviator, reached Rome June 3 and Vidart arrived June 5. Unfavorable weather conditions and injuries received by the men and machines caused all but Herr Frey to abandon the race at this point, and he, after starting for Turin June 13, fell and was seriously injured at Lake Vico. Beaumont won the bulk of the prizes offered.

PARIS TO TOP OF PUY-DE-DOME.

M. Renaux, with M. Senouque as a passenger, flew from St. Cloud, a suburb of Paris, France, to the summit of Puy-de-Dome, 217 miles distant, March 7, 1911, in a Farman biplane. The start was made at 9:42 a. m., and in compliance with the conditions which had to be fulfilled in order to win the prize of \$20,000 offered by M. Michelin for the first aviator who should accomplish the feat, the Arc de Triomphe in Paris was first circled. Nevers, 132 miles from Paris, was reached at 11:50 a. m., and here a stop of seventeen minutes was made. When Clermont-Ferrand was reached the aviator made a turn about the spires of the cathedral and then flew to the top of the mountain Puy-de-Dome, 4,800 feet above the sea. The time occupied was 5 hours 8 minutes; the rules allowed six hours.

M. HELEN'S LONG FLIGHT.

Saturday, Aug. 26, 1911, M. Helen, a French aviator, contesting for the international Michelin cup, covered 1,126.4 kilometers (700 miles) in 13 hours 47 minutes 19 seconds with only three stops of 24, 28 and 15 minutes for rest. His course was from Betheny to Somme-Vesle (near Mourmelon), France, 102.4 kilometers in length, which he covered eleven times, stopping at the end of each third lap for a short rest.

1,000 MILE CIRCUIT RACE.

Lieut. Conneau, whose racing name is Andre Beaumont, won a 1,000 mile international circuit aviation race beginning and ending at Vincennes, near Paris. It was in all respects one of the most remarkable contests in the history of air racing. The course took the flyers from Paris across Belgium, Holland, over the English channel to London, and back to Paris. Fifty aeroplanists started June 13 and nine arrived at the goal July 7. Three of the competitors were killed just as the race began and others met with more or less serious mishaps. The principal stops were at Liege and Brussels, Belgium; Utrecht, Holland; Calais and Boulogne, France; and Dover and Hendon (near London), England. The English channel was crossed July 3 from Calais to Dover by no less than eleven of the airmen. The return trip from Dover to Calais was made July 6, both crossings being made easily and without mishap. Prizes aggregating about \$100,000 were given, of which Beaumont won \$26,500. Garros was second in the race and Vidart third. The flying time for the entire circuit of the three leaders was: Beaumont, 53:36:45; Garros, 62:18:34; Vidart, 73:32:00.

UNITED KINGDOM CIRCUIT.

Lieut. Conneau, flying under the name of Andre Beaumont, won a prize of \$50,000 offered by the London Daily Mail to the winner of an aviation race of 1,010 miles around the united kingdom. The course was from Brooklands to Edinburgh, Stirling, Glasgow, Manchester, Exeter, Brighton and back to Brooklands, with a number of intermediate stopping places or controlling stations. Neither machines nor parts of machines could be changed in the course of the contest. The start was made July 22 and the race was finished July 26. Conneau's flying time for the whole distance was 22:28:18.

Pierre Vedrines was second in 23:38:05. Both machines were intact, no changes of any kind having been made by their pilots. There were nineteen actual starters in the race, but most of them gave up before flying many miles.

GERMAN CIRCUIT RACE.

One of the most important aviation events of the year in Germany was a circuit race of about 1,140 miles, the route taking the contestants from Johannisthal, near Berlin to Magdeburg, Kiel, Cologne, Hanover and back to Johannisthal. Prizes aggregating \$25,000 were offered. Each aviator was required to carry a passenger over at least a part of the route. The start was made June 11 and the three chief prize winners finished July 10. Benno Koenig took first prize for the greatest mileage, Hans Volmueller took second and Bruno Buechner third. Koenig's record was 1,164 miles, the extra mileage being earned by passenger carrying.

CHICAGO AVIATION MEET.

Grant park, Chicago, was the scene of a highly successful international aviation meet Aug. 12-20, 1911. Financially it resulted in a deficit of about \$50,000, but the flights were thrilling, many new records were made and the attendance enormous. A large proportion of the seats were free and the opportunities for witnessing the feats of the airmen from the adjoining buildings and streets were almost unlimited. It was estimated that the average daily attendance was at least 250,000. The flights were held under the auspices of the Aero Club of Illinois and were managed by a committee of the International Aviation Meet association, of which James E. Plew was president, Frank F. Wentworth secretary and Bernard J. Mullaney general manager. Thirty-eight well known aviators, representing America, France, England, Ireland and Poland, and flying with the leading types of biplanes and monoplanes were entered, and all but eight or ten took an active part in the meet. The prizes offered aggregated \$80,000 and the aviators were guaranteed a minimum of \$2 per minute for time consumed in actual flying. The flying hours each day were from 3:30 to 7 p. m.

The meet was marred by two fatal accidents, both occurring on the afternoon of Aug. 15. William R. Badger of Pittsburgh, in a Baldwin biplane, was descending swiftly when his machine collapsed and came to the ground in the sunken arena of Grant park. The aviator was hit by the engine and died within half an hour after he had been brought to a hospital. St. Croix Johnstone of Chicago, in a Moisant monoplane, fell into Lake Michigan about a mile from shore and was killed. Whether death was caused by a blow from the engine or from drowning could not be positively determined. Two other aviators fell into the lake, but were rescued. There were several minor mishaps which were attended by damage to machines only.

One of the interesting features of the meeting was the arrival Aug. 14 of Harry N. Atwood of Boston after having flown from St. Louis in one day, and his departure Aug. 15 for New York city, on the longest biplane journey attempted up to that time.

SUMMARY.

Following is a summary of each day's events:

- Aug. 12—Twenty mile race for monoplanes; won by Earle L. Ovington in a Bleriot monoplane; time, 23:51.89.
Fifteen mile race over water; won by Earle L. Ovington in a Bleriot monoplane; time, 17:12.45. Altitude; won by Howard Gill in a Wright biplane; height, 4,980 feet.
Daily duration; won by C. P. Rodgers in a Wright biplane; time, 2:55:33.
Aug. 13—Twenty mile race for biplanes; won by Lincoln Beachey in a Curtiss biplane; time, 23:11.26.
Eight mile passenger carrying race for monoplanes; won by Tom Sopwith in a Bleriot monoplane; time, 9:30.34.
Climbing 500 meters (1,640 feet) from start; won by Tom Sopwith in a Bleriot monoplane; time, 4 minutes.

Daily duration; won by Rene Simon in a Bleriot monoplane; time, 3:05:32.

Altitude; won by Oscar A. Brindley in a Wright biplane; height, 4,442 feet.

Aug. 14—Twelve mile race for monoplanes; won by Earle L. Ovington in a Bleriot; time, 13:30.92. Starting from ground; won by J. J. Frisbie in a Frisbie biplane; distance, 88 feet 3 inches.

Fifteen mile race over water; won by Tom Sopwith in a Bleriot monoplane; time, 17:08.37.

Altitude; won by W. G. Beatty, in a Wright biplane; height, 7,703 feet.

Daily duration; won by A. L. Welsh in a Wright biplane; time, 3:50:00.

Aug. 15—Nine mile race for biplanes; won by J. A. D. McCurdy in a McCurdy biplane; time, 14:40.18.

Nine mile race for biplanes carrying passenger; won by Lincoln Beachey in a Curtiss biplane; time, 10:19.87.

Weight carrying, four miles; won by Tom Sopwith in a Wright-Farman biplane, with two passengers.

Climbing 400 meters from ground; won by Rene Simon in a Bleriot monoplane; time, 4:25.

Daily duration; won by A. L. Welsh in a Wright biplane; time, 3:30:00.

Aug. 16—Fifteen mile race over water; won by Tom Sopwith in a Bleriot monoplane; time, 17:02.3.

Nine mile race for all race; won by Lincoln Beachey in a Curtiss biplane; time, 9:28.2.

Altitude; won by Lincoln Beachey in a Curtiss biplane; height, 7,917 feet.

Daily duration; won by Lincoln Beachey in a Curtiss biplane; time, 2:22:48.

Aug. 17—Twelve mile race for biplanes; won by Lincoln Beachey in a Curtiss biplane; time, 13:34.80.

Twelve mile race for monoplanes carrying passengers; won by Tom Sopwith in a Bleriot; time, 13:44.82.

Quick starting; won by John J. Frisbie in a Curtiss biplane; distance, 151 feet 9 inches.

Bomb throwing; won by J. A. D. McCurdy in a McCurdy biplane; 3 points; one hit in 9 foot circle.

Climbing 50 meters (164 feet) from ground; won by Eugene Ely in a Curtiss biplane; time, 4:30.

Daily duration; won by W. G. Beatty in a Wright biplane; time, 3:30:00.

Aug. 18—Altitude; won by Phillip O. Parmelee in a Wright biplane; height, 10,837 feet.

Daily duration; won by A. L. Welsh in a Wright biplane; time, 3:29:26.

Twelve mile race for monoplanes; won by Tom Sopwith in a Bleriot monoplane; time, 13:52.60.

Sixteen mile race over land and water; won by Tom Sopwith in a Bleriot monoplane; time, 15:58.30.

Altitude; won by Tom Sopwith in Bleriot monoplane; distance from mark, 8 feet 8 inches.

Aug. 19—Twelve mile race for monoplanes; won by Tom Sopwith in Bleriot; time, 13:38.40.

Twelve mile race for biplanes; won by Eugene Ely in a Curtiss biplane; time, 13:47.20.

Weight carrying; won by Phillip O. Parmelee in a Wright biplane; total live weight carried, 458 pounds.

Daily duration; G. W. Beatty and C. P. Rodgers in Wright biplanes tied for first; time, 3:30:00.

Climbing 500 meters from ground; Tom Sopwith in a Bleriot and Rene Simon in a Moisant tied for first; time, 3:55.

Aug. 20—Altitude; won by Lincoln Beachey in Curtiss biplane; height, 11,642 feet.

Twelve mile race for biplanes; won by Eugene Ely in a Curtiss biplane; time, 13:17.

Twelve mile open race; won by Earle L. Ovington in a Bleriot monoplane; time, 12:48.

Bomb throwing; won by John J. Frisbie in a Frisbie biplane; distance from center of bull's eye, 3 feet 9 inches.

Daily duration; won by C. P. Rodgers in a Wright biplane; time, 2:20:00.

NEW RECORDS MADE.

The following list of new American and world's air records made at the Chicago aviation meet was

compiled by G. F. Campbell Wood, secretary of the Aero Club of America:

Speed.

Aviator and one passenger, 10 kilometers—Made Aug. 17 by Tom Sopwith in a Blériot monoplane; time, 7:50.

Aviator and two passengers, 5 kilometers—Made Aug. 15 by Tom Sopwith in a Wright biplane; time, 6:56½.

Greatest speed, whatever length of flight (aviator and one passenger)—Made Aug. 17 by Tom Sopwith in a Blériot monoplane; speed, 57.786 miles an hour.

Duration.

Aviator and one passenger—Made Aug. 19 by G. W. Beatty in a Wright biplane; time, 3:42:23½; a world's record.

Aviator and two passengers—Made Aug. 13 by G. W. Beatty in a Wright biplane; time, 1:18:22; also a world's record.

Climbing 500 Meters.

Aviator alone—Made Aug. 19 by Tom Sopwith in a Blériot monoplane and Rene Simon in a Moisant monoplane, time, 3:55; also a world's record.

Weight Carrying.

Pilot and passengers more than one minute—Made Aug. 19 by Phillip O. Parmalee in a Wright biplane; weight, 458 pounds.

Altitude.

Aviator alone—Made Aug. 20 by Lincoln Beachey in a Curtiss biplane; height, 11,642 feet; this is world's record (exceeded later).

PRIZE WINNERS.

Following is a list of the prize winners, the machines used and the amount of money received by each:

Aviator.	Machine.	Amount.
Thomas Sopwith.....	Blériot-Wright	\$13,520
Lincoln Beachey.....	Curtiss	11,162
C. P. Rodgers.....	Wright	10,785
G. W. Beatty.....	Wright	6,625
Earle Orvington.....	Blériot-Curtiss	5,621
A. L. Welsh.....	Wright	5,400
Rene Simon.....	Moisant	4,550
Eugene Ely.....	Curtiss	4,173
Phillip Parmalee.....	Wright	3,951
James Ward.....	Curtiss	2,913
O. A. Brindley.....	Wright	2,851
J. A. D. McCurdy.....	McCurdy	1,900
Howard Gill.....	Wright	1,970
John J. Frishie.....	Curtiss	1,500
Lee Hammond.....	Baldwin	550
George Mestach.....	Morane	450
J. C. Turpin.....	Wright	450
Paul W. Beck.....	Curtiss	400
J. V. Martin.....	Grahame-White	250
Frank T. Coffyn.....	Wright	150
Andrew Drew.....	Wright	150

Duration prize winners and what they won follow:

Aviator.	duration.	prize.	Machine.
Rodgers.....	27:00:16	\$6,875.00	Wright
Beatty.....	24:22:18	2,750.00	Wright
Brindley.....	23:44:50	1,375.00	Curtiss
Ward.....	20:36:43	687.50	Curtiss
Welsh.....	19:49:46	550.00	Wright
Beachey.....	14:33:05	475.25	Curtiss
Simon.....	9:55:47	412.50	Moisant
Sopwith.....	9:14:56	375.75	Blériot-Wright
Ely.....	7:29:53	245.00	Curtiss

Money offered in other events for which there was no winner was added to the duration purse.

FIRST WATER AEROPLANE.

Jan. 26, 1911. For the first time in the history of aviation an aeroplane rose from the surface of the water, made a flight in the air and, returning to the starting point, alighted on the water as easily as a gull. This feat was accomplished by Glenn H. Curtiss on San Diego bay, California. Equipped with hydroplanes and a new arrangement of front surfaces, the aeroplane sailed along the surface of the water at a forty mile clip for a quarter of a mile, then rose to a height of fifty feet, remained in the air for 1 minute and 22 seconds and alighted with perfect ease. The feat was repeated a second time with even greater success.

FLIGHT OVER NIAGARA FALLS.

Lincoln Beachey, a California aviator, flew across Niagara falls in a biplane June 27, 1911, ending the flight on the Canadian side after he had swooped under the arches of the upper steel bridge and had flown down the gorge almost as far as the whirlpool. The start was made from a baseball field on the American side and after rising to a height of 2,000 feet the aviator made a number of sweeping circles downward until he was only about 200 feet above the Horseshoe fall. Then dropping still farther he dipped under the arch of the bridge and flew down the river above the rapids. The daring feat was witnessed by 150,000 persons.

RECORD FOR ALTITUDE.

The record for height reached by aeroplane was broken a number of times in 1911. Up to Nov. 7 the greatest altitude ever reached by a heavier-than-air machine was 13,943 feet. The man who made this record was Roland G. Garros, a French aviator, and the place was Parame, France. The American record is held (Nov. 7, 1911) by Lincoln Beachey, who on Aug. 20, at the Chicago aviation meet, attained a height of 11,642 feet. Other aviators making notable altitude records include the following:

M. Legagneux, Pau, France, Dec. 9, 1910, 10,499 feet.

Arch Hoxsey, Los Angeles, Cal., Dec. 26, 1910, 11,474 feet (unofficial).

Capt. Felix, Etampes, France, Aug. 5, 1911, 11,330 feet.

DURATION RECORD.

Sept. 2, 1911, G. Fournay at Buc, France, flying a Farman biplane, remained in the air continuously for eleven hours one minute, covering a distance of 720 kilometers, or about 450 miles.

INTERNATIONAL AVIATION CUP.

Charles T. Weymann, American, won the international aviation cup, at Eastchurch, England, July 1, covering 93.2 miles in 1:11:34¾. His speed approximated 78 miles an hour. Winners of cup to date.

1909—Glenn H. Curtiss.

1910—Claude Grahame-White.

1911—Charles T. Weymann.

WINNERS OF MICHELIN CUP.

1908—Wilbur Wright, 77 miles in 2:20:23.

1909—Henry Farman, 126 miles in 4:15:00.

1910—Maurice Tabuteau, 367 miles in 7:45:00.

MISCELLANEOUS.

Cromwell Dixon, 19 years of age, crossed the Rocky mountain divide between Helena and Blossburg, Mont., Sept. 30, 1911. The highest altitude above sea level reached by him was 7,100 feet. Dixon was the first to cross the continental divide in an aeroplane. He was killed a few days later by a fall at Spokane, Wash.

James J. Ward left New York, N. Y., Sept. 13, 1911, to fly to San Francisco, Cal., in an attempt to win a prize of \$50,000 for the first aviator crossing the continent by aeroplane before a certain date. He met with several accidents to his machine and only got as far as Hornell, N. Y., where he gave up the race Sept. 22. The total distance covered was about 300 miles. In an effort to win the same prize Robert F. Fowler left San Francisco, Cal., Sept. 11, but he also met with mishaps and besides found that his machine was too light to carry him over the mountains. He gave up the attempt at Colfax, Cal.

Hugh Robinson undertook to fly along the Mississippi from Minneapolis to New Orleans, but financial obstacles compelled him to quit when he reached Rock Island, Ill., Oct. 23. He began the trip Oct. 17, using a hydro-aeroplane.

The first United States mail ever transported by aeroplane was carried Sept. 23, 1911, from the aviation field on Nassau boulevard, Long Island, to Garden City, a distance of five miles, by Earle L. Orvington in a Blériot machine.

FRENCH MINISTER OF WAR KILLED.

One of the worst accidents in the history of aviation took place at Issy-les-Moulineux, a suburb of

Paris, France, Sunday, May 21, 1911. A crowd of 200,000 persons, including several members of the cabinet, had gathered to witness the start of an aeroplane race from Paris to Madrid. A monoplane, piloted by M. Train, had just left the ground when it got out of control and plunged into a group of spectators. Henry Maurice Berteaux, minister of war, was killed instantly, his body being badly mangled by the swiftly revolving propeller blades. Antoine E. E. Monis, premier and minister of the interior, was buried under the wreckage of the machine and received a number of serious injuries. Antoine Monis, his son, and Henri Deutsch de la Meurthe, a patron of aeronautics, were also injured. The aviator and a passenger with him escaped injury. M. Train claimed that his motor gave out just as he was trying to avoid a body of eavraly galloping across the field, and the machine fell.

AVIATION FATALITIES.

Dec. 1, 1910, to Dec. 1, 1911.

Dec. 3, 1910—Sig. Cammarata and companion, Italy.
Dec. 3—Walter Archer, Salida, Col.
Dec. 22—Cecil Grace, England.
Dec. 26—Senhor Piccolo, Brazil.
Dec. 28—M. Laffort and M. Pola, France.
Dec. 30—Lient. de Caumont, France.
Dec. 31—John B. Moisant, New Orleans, La.
Dec. 31—Arch Hoxsey, Los Angeles, Cal.
Jan. 9, 1911—Roussijian, Belgrade, Servia.
Feb. 6—Lient. Stein, Doberitz, Germany.
Feb. 9—M. Noel and M. Delatorre, Douai, France.
March 28—M. Cei at Puteaux, France.
April 14—Lient. Byasson, Chevreuse, France.
April 18—Capt. Carron, Versailles, France.
April 20—Pierre Louis, Rheims, France.
April 24—William G. Purves, New Orleans, La.
May 1—M. Matievitch and brother, Sevastopol, Russia.
May 2—Lient. Roser, Mulhausen, Germany.
May 2—M. Marra, Luca, Italy.
May 4—Rene Vaillon, Shanghai, China.
May 10—Lient. George E. M. Kelly, San Antonio, Tex.
May 11—Herr Bekemuller, Berlin, Germany.
May 17—A. V. Hartle, Los Angeles, Cal.
May 18—Lient. Paul Dupuis, Rheims, France.
May 18—Pierre M. Bournique, Rheims, France.
May 21—M. Berteaux (spectator), Paris, France.
May 23—Herr Laemmlin, Strassburg, Germany.
May 25—Mr. Benson, Hendon, England.
May 27—Mr. Smith, St. Petersburg, Russia.
May 28—M. Cirri, Voghera, Italy.
June 1—Marcel Pernot, San Diego de los Baños, Cuba.
June 5—Lient. Bague, Mediterranean.
June 8—Sig. Barra, Rome, Italy.
June 9—Schenel and Voss, Johannisthal, Germany.
June 11—Herr Wiesenbach, Wiener-Neustadt, Austria.
June 18—Capt. Princetau, Vincennes, France.
June 18—M. Le Martin, Vincennes, France.
June 18—Lient. Legendre, Chateau Thierry, France.
June 29—Lient. Trochon, Chalons Sur Marne, France.
July 13—D. A. Kraemer, Chicago, Ill.
July 14—Edward Palliole, Algiers, Algeria.
July 21—Denise Moore, Mormalon, France.
July 23—M. Jolly, Juvisy, France.
July 25—M. Shlamsky, Tsarskoe-Selo, Russia.
Aug. 15—William R. Badger, Chicago, Ill.
Aug. 15—St. Croix Johnstone, Chicago, Ill.
Aug. 18—Lient. Theodore J. Ridge, Aldershot, England.
Aug. 29—Lient. Zolotchin, St. Petersburg, Russia.
Sept. 1—John J. Frisbie, Norton, Kas.
Sept. 2—Lient. de Grally, Troyes, France.
Sept. 2—Capt. de Camille, Nangis, France.
Sept. 2—M. Maron, Chartres, France.
Sept. 4—M. Le Porrestier, Huclva, Spain.
Sept. 7—Lient. Newmann and M. Leeonte, Mulhausen, Germany.
Sept. 9—Raimund Eyring, Esslingen, Germany.
Sept. 12—Lient. Chotard, Vaconblay, France.
Sept. 15—Edouard Newport, Verdun, France.
Sept. 17—Lient. R. A. Cammell, Hendon, England.
Sept. 19—John W. Eckenbaum, Dewitt, Iowa.
Sept. 22—Frank Miller, Dayton, O.
Sept. 22—Aviator Castellane, Mansfield, Pa.
Sept. 23—R. J. Raymond, St. Louis, Mo.
Sept. 25—Dr. J. C. Clarke, Nassau, N. Y.

Sept. 23—Capt. Engelhard, Johannisthal, Germany.
Oct. 2—Cromwell Dixon, Spokane, Wash.
Oct. 14—Hans Schmidt, Berne, Switzerland.
Oct. 19—Eugene Ely, Macon, Ga.
Oct. 27—Jean Desparmet, Rheims, France.
Oct. 31—Prof. John J. Montgomery, Evergreen, Cal.
Nov. 15—Herr Plotschker, Berlin, Germany.

CHRONOLOGICAL RECORD (1911).

Jan. 9—Rousijian, Croatian aviator, killed after making flight across River Save, near Belgrade, Servia, by falling with machine.
Jan. 16—German balloon Hildebrandt, with bodies of Dr. Roberts and another aeronaut, found in lake in Pomerania province; balloon ascended from Schmargendorf Dec. 29, 1910.
Jan. 18—Eugene B. Ely, in a Curtiss biplane, flies from Selfridge aviation field, San Francisco, to cruiser Pennsylvania, twelve miles distant, alights on deck and returns to field.
Jan. 19—Louis Breget at Douai, France, breaks world's record for speed with monoplane carrying a passenger; makes 50 kilometers (31 miles) in 34:54, and 100 kilometers (62 miles) in 1:09:28.
Jan. 22—Phillip O. Parmelee, in a Wright biplane, breaks American endurance record by remaining in the air 3 hours 39 minutes 49½ seconds, at San Francisco, Cal.
Jan. 26—Roger Sommer takes up six passengers in a large biplane at Douzy, France, and flies to Romilly and back, establishing a new world's record for a cross country flight with passengers and a new mark for total weight lifted.
Jan. 26—Glenn H. Curtiss rises from surface of San Diego bay in aeroplane, makes flight and alights on water; first feat of the kind in the history of aviation.
Jan. 30—J. A. D. McCurdy, in a Curtiss biplane, flies from Key West to within ten miles of Havana, a distance of 96 miles, breaking the over-water record.
Feb. 2—M. Le Martin, at Pau, France, carries seven passengers in a monoplane in a five minute flight.
Feb. 2—Capt. Ballenger of the French army completes aeroplane flight of 500 miles from Paris to Pau in 32:11:00.
Feb. 3—Aviator Say flies 63 kilometers (39 miles) in 22:00 over a circular track at Issy-les-Moulineux, France; biplane used.
Feb. 6—Lient. Stein of German military aviation service killed by a fall of sixty-five feet with aeroplane at Doberitz, Germany.
Feb. 9—Aviators Noel and Delatorre killed while experimenting with military aeroplane at Douai, France.
March 2—Roland G. Garros in Moisant monoplane reaches height of 4,758 feet above valley of Mexico at Mexico City, giving him altitude above sea level of 12,052 feet.
March 3—Lient. Benjamin D. Foulois, U. S. A., and Aviator Phillip C. Parmelee drive an army aeroplane 106 miles, between Eagle Pass and Laredo, Tex., in 2:47:00.
March 4—William G. Purves of Chicago badly injured by fall with Gates biplane at Baton Rouge, La.; died April 24.
March 5—Lient. Bague flies in a Bleriot monoplane from Antibes to island of Gorgona, near Leghorn, a distance of 140 miles, breaking oversea record.
March 7—M. Renux, with a passenger, flies from St. Cloud to the summit of Puy-de-Dome, 217 miles, in 5:08:00, winning Michelin prize of \$20,000.
March 23—Aviator Louis Breguet carries eleven passengers in a two mile monoplane flight at Douai, France.
March 24—Roger Sommer carries twelve passengers in a biplane flight at Monzon, France; distance covered, three-fourths of a mile.
March 28—M. Cei, Italian aviator, killed at Puteaux, France, by falling 1,000 feet with biplane.
April 12—Pierre Priou flies in monoplane from Hendon, a suburb of London, to Paris, a distance of about 290 miles, without a stop; channel crossed at a height of 3,200 feet.
April 14—Lient. Byasson of French navy killed by fall with aeroplane at Chevreuse, France.
April 16—Four men thrown from a balloon car at Kiel, Germany, and seriously injured.
April 18—Capt. Carroa of French army killed by

- fall of 250 feet while making aeroplane flight from Orleans to Versailles, France.
- April 20—Pierre-Louis, aviation pupil, dies from injuries received in fall with aeroplane at Rheims, France.
- May 1—M. Matievitch and brother, military aviators, killed while making aeroplane flight at Sevastopol, Russia.
- May 2—Lieut. Roser of German army falls with aeroplane from height of 150 feet at Mulhausen, Germany, and is fatally injured.
- May 2—M. Marra, while operating a biplane at Lucce, Italy, falls a distance of 300 feet and is fatally injured.
- May 6—René Vallon, French aviator, killed by fall with Sommer biplane at Shanghai, China.
- May 8—Aviator See badly injured while trying a new style of Voisin aeroplane at Issy-les-Moulineux, France; crashes into telegraph pole on top of house.
- May 10—Lieut. George E. M. Kelly, 30th infantry, U. S. A., is killed by fall from aeroplane while trying to make a landing at Fort Sam Houston, Tex.; was using Curtiss machine.
- May 11—Herr Bekemuller, aviation pupil, is killed at Berlin, his aeroplane crashing against a house hidden by mist.
- May 15—Henry Weymann, at Rheims, France, flies at the rate of 160 kilometers (99.5 miles) an hour, carrying passenger in monoplane.
- May 15—Lieut. Fequant, at Rheims, France, flies in monoplane (alone) at rate of 162 kilometers (100.7 miles) an hour.
- May 16—Count Zeppelin's Deutschland, dirigible balloon, wrecked by a gust of wind at Dusseldorf, Prussia.
- May 17—A. V. Hartle falls from aeroplane at height of fifty feet at Los Angeles, Cal., and is killed.
- May 17—German dirigible Parseval II, wrecked at Bitterfeld, Saxony.
- May 18—Lieut. Paul Dupuis killed and Pierre M. Rounique badly injured by fall of monoplane at Rheims, France.
- May 19—M. Grandseigne, French aviator, severely injured by falling with his machine from height of fifty feet at Salsburg Plain, England.
- May 21—Henri M. Berteaux, minister of war, killed by plunge of an aeroplane into a group of spectators at Issy-les-Moulineux, France; Premier Mynis, his son Antoine and Henri Deutsch injured by same machine.
- May 22—M. Vedrine flies from Paris to Angouleme, 230 miles, in 3:39:00, breaking world's record for distance in cross-country flight.
- May 22—Aviator Bardot severely injured by fall at Rheims, France.
- May 22—One person killed and two fatally injured by fall of aeroplane among spectators on aviation course at Augsburg, Germany.
- May 23—Herr Laennin falls 200 feet with aeroplane at Strasburg, Germany, and is killed.
- May 25—Benson, a novice, killed by falling 100 feet while trying volplane at Hendon, England.
- May 26—Perry Vedrine, French aviator, arrives in Madrid after flying from Paris; left Paris May 21; wins prize of \$20,000 offered by Le Petit Parisien and other special prizes.
- May 27—Smith, a British aviator, killed by falling 125 feet at St. Petersburg, Russia.
- May 28—Cirri, Italian aviator, killed at Voghera, Italy, by falling from a height of 650 feet; motor exploded.
- June 1—Marcel Pennot, French aviator, fatally injured by fall of fifty feet at San Diego de los Banos, Cuba (died June 5).
- June 5—Lieut. Eague lost while on a flight from Nice to Corsica.
- June 6—Hirth, with passenger, reaches a height of 5,182 feet at Johannisthal, Germany, making new world's record.
- June 8—Sig. Rara killed by falling from height of 300 feet in Rome, Italy.
- June 9—Herr Schendel falls with his mechanic, Voss, while trying to establish altitude record at Johannisthal, Germany, and both are killed.
- June 11—Herr Wlesenbach killed by fall of fifty feet at Wierer-Neustadt, Austria.
- June 11—German national aviation race started at Johannisthal
- June 13—Herr Frey, a competitor in Paris-Rome-Turin aeroplane race, badly injured while making a landing at Lake Vico, Italy.
- June 18—European circuit race, calling for flight from Paris to London and return, with stops going and returning, begun; fifty starters; Capt. Princetau burned to death in midair through explosion of motor; M. Le Martin dashed to death against tree near starting point; M. Lendron burned to death near Chateau Thierry through explosion of benzine in reservoir.
- June 27—Lincoln Beachey circles over Niagara falls, flies under arches of upper steel bridge and over the rapids as far as the whirlpool.
- June 29—Lieut. Trochon killed by fall with biplane at Chalons Sur Marne, France.
- June 30—Harry N. Atwood flies from Boston to New London, Conn., a distance of 136 miles, carrying a mechanician.
- July 1—Harry N. Atwood flies from New London to Governor's island, passing over New York city and partly circling the Singer tower.
- July 1—Charles T. Weymann, American, wins the international cup at Eastchurch, England.
- July 7—Andre Beaumont wins 1,000 mile international circuit aviation race.
- July 13—D. A. Kraemer, amateur, killed by fall with biplane on aviation field in Chicago.
- July 14—Edward Pailleole killed by fall with aeroplane at Algiers, Algeria.
- July 14—James C. ("Bud") Mars severely injured by fall with aeroplane at Erie, Pa.
- July 15—Belgian aviator Ollieslagers in a monoplane makes a flight of 626 kilometers (388 miles) at the Berlin aerodrome without a stop, breaking the world's record.
- July 21—M. Lordan flies in a biplane at aerodrome in Mourmelon, France, a distance of 465 1/2 miles, remaining in air 11 hours 45 minutes, breaking Ollieslagers' record.
- July 21—Denise Moore, American woman, killed by fall of 120 feet at aviation school at Mourmelon, France.
- July 23—M. Jolly killed by falling with monoplane 100 feet at Juvisy, France.
- July 25—M. Susarenkos, aviator, and M. Shmansky, passenger, fell with aeroplane near Tbarskoe-Selo, Russia; passenger killed and both legs of aviator broken.
- July 26—Andre Beaumont (Lieut. Conneau) wins London Daily Mail \$50,000 prize in 1,010 mile flight around the united kingdom.
- July 27—St. Croix Johnstone breaks American endurance record by remaining in air 4 hours 1 minute 53 1/2 seconds at Mincola, N. Y.
- Aug. 5—Capt. Felix ascends 11,330 feet at Etampes, France, breaking the official record for height.
- Aug. 5—Lincoln Beachey wins aeroplane race from New York to Philadelphia in 2:00:22 1/2.
- Aug. 9—Julius Verlines makes 800 kilometers (496.8 miles) in continuous flight in 7:56:36, breaking record; flight made at Paris, France.
- Aug. 12-20—International aviation meet held in Chicago.
- Aug. 14—H. N. Atwood starts on flight from St. Louis to Boston via Chicago and New York; reaches Chicago same day; arrives in New York Aug. 25.
- Aug. 15—William R. Badger and St. Croix Johnstone killed at international aviation meet in Chicago.
- Aug. 18—Lieut. Theodore J. Ridge killed by falling with an army biplane at Aldershot, England.
- Aug. 20—Lincoln Beachey in a Curtiss biplane reaches an altitude of 11,642 feet at Chicago aviation meet.
- Aug. 26—M. Helen makes 1,126.4 kilometers (700 miles) near Mourmelon, France, in 13:47:19.
- Aug. 29—Lieut. Zolotnebin, military aviator, falls with his aeroplane in St. Petersburg, Russia, and is killed.
- Aug. 30—Fred Heegle severely injured by fall with biplane at Freeport, Ill.
- Sept. 1—John J. Frisbie killed by fall of 100 feet with Curtiss aeroplane at Norton, Kus.
- Sept. 2—Lieut. De Grailly burned to death in midair at Troyes, France, while making an aeroplane flight, the fuel tank exploding.

Sept. 2—Capt. De Camille killed by fall with monoplane at Nangis, France.
 Sept. 2—M. Maron killed by fall with aeroplane near Chartres, France.
 Sept. 4—Alexander McCloud, instructor at the Chicago School of Aviation, falls eighty feet with his biplane at West Pullman, sustaining severe injuries.
 Sept. 4—Roland C. Garros ascends 4,250 meters (13,943 feet) at Parame, France, breaking world's record, held by Lincoln Beachey.
 Sept. 4—M. Le Forrester, a French aviator, killed by falling with aeroplane at Huelva, Spain; accident caused by explosion of motor.
 Sept. 4—Earle L. Ovington wins cross country flight of 160 miles at Harvard-Boston aero meet in 186 minutes 22½ seconds.
 Sept. 7—Lieut. Newmann and M. Leconte killed by fall with aeroplane at Mulhausen, Germany; gasoline tank exploded.
 Sept. 7—Paul Selge falls with aeroplane at Karlsruhe, Germany, and suffers fractured skull.
 Sept. 9—Aviator Rahnund Eyring killed while flying at night at Esslingen, Germany, his machine colliding with a mast used as a marker.
 Sept. 11—Aviator Hubert, carrying mail between Hendon and Windsor castle, England, falls with aeroplane near Hendon and has both legs broken.
 Sept. 11—Robert F. Fowler starts from San Francisco, Cal., in attempt to fly to New York.
 Sept. 12—Lieut. Chotard, aviation pupil, killed while making flight at Villacoublay, France.
 Sept. 15—Edouard Nieuport falls with his aeroplane at Verdun, France; dies from his injuries Sept. 16.
 Sept. 17—Lieut. R. A. Cammell, while flying in a Valkyrie military monoplane at Hendon, England, falls from a great altitude and is instantly killed.
 Sept. 19—John W. Rosenbaum killed by a fall with aeroplane at Dewitt, Iowa.

Sept. 19—Eugene Godet severely injured by fall of sixty feet with aeroplane at Ogdensburg, N. Y.
 Sept. 22—Frank Miller burned to death by explosion of gasoline tank of aeroplane in flight at Troy, O.
 Sept. 22—Aviator Castellane killed at Mansfield, Pa., while making a flight, his aeroplane turning over.
 Sept. 23—R. J. Raymond dies from injuries received while cranking aeroplane at St. Louis, Mo.
 Sept. 25—Dr. J. C. Clarke killed by fall of 260 feet with aeroplane at Nassau, Long Island.
 Sept. 29—Capt. Engelhard, pioneer German aviator, killed on Johannisthal aviation field, near Berlin, Germany.
 Oct. 2—Cromwell Dixon killed at Spokane, Wash., by fall of 100 feet with aeroplane.
 Oct. 11—Andre Germain badly hurt by fall at Rheims, France.
 Oct. 12—M. Level severely injured at Rheims, France, by a fall of 250 feet.
 Oct. 12—M. Horta, aviation student, severely injured by fall of thirty feet at Charleville, France.
 Oct. 14—Hans Schmidt killed while making an exhibition flight at Berne, Switzerland; gasoline exploded.
 Oct. 19—Eugene Ely killed by fall of fifty feet with aeroplane at Mason, Ga.
 Oct. 19—Howard W. Gill in a biplane establishes new American duration record by remaining in air 4 hours 16 minutes 35 seconds at Kinloch field, St. Louis, Mo.
 Oct. 27—Jean Desparmet killed at Rheims, France, by fall of 600 feet.
 Oct. 31—Prof. John J. Montgomery dies from injuries received by falling from aeroplane glider near Evergreen, Cal.
 Nov. 5—Calbraith P. Rodgers ends his transcontinental aeroplane journey at Pasadena, Cal.

RAILROAD ACCIDENTS.

For years ended June 30. Reported by interstate-commerce commission.

POPULATION OF THE UNITED STATES (1910).

The thirteenth census of the United States was taken by the bureau of the census as of April 15, 1910. The total area enumerated included continental United States, the territories of Alaska and Hawaii and Porto Rico. It also included persons in the military and naval service of the government who were stationed abroad. The population according to this division, compared with that in 1900, was:

	1910.	1900.
Alaska	64,356	63,592
Hawaii	191,909	154,001
Porto Rico	1,118,012	*953,243
Soldiers and sailors abroad	55,608	91,219
Noncontiguous territory	1,429,885	1,262,055
Continental United States	91,972,266	75,994,575
United States (area of enumeration)	93,402,151	†77,256,630

DECENNIAL INCREASE OF POPULATION.

	Population.	Increase.	Per cent.
1910.	91,972,266	15,977,691	21.0
1900.	75,994,575	13,046,861	20.7

Census.	Population.	Increase.	Per cent.
1890	62,947,714	12,791,981	25.5
1880	50,155,783	11,597,412	30.1

CENTER OF POPULATION AND MEDIAN LINES

[From bulletin of the bureau of the census, 1911.]

The center of population, according to the bureau of the census, may be said to represent the center of the gravity of the population. If the surface of the United States be considered as a rigid plane without weight, capable of sustaining the population distributed thereon, individuals being assumed to be of equal weight, and each, therefore, to exert a pressure on any supporting pivotal point directly proportional to his distance from the point, the pivotal point on which the plane balances would, of course, be its center of gravity, and this is the point referred to by the term "center of population" as used by the census bureau in its reports.

The median point, which may be described as the numerical center of population, is in no sense a center of gravity. In determining the median point distance is not taken into account, and the location of the units of population is considered only in relation to the intersecting median lines—as being north or south of the median parallel and east and west of the meridian.

The position of the center of population and its movement during each decade since 1790 is shown in the following table:

Census year.	North latitude.			West longitude.			Approximate location by important towns.
	D.	M.	S.	D.	M.	S.	
1790.....	39	16	30	76	11	1223 miles east of Baltimore, Md.....
1800.....	39	16	6	76	56	3018 miles west of Baltimore, Md.....
1810.....	39	11	30	77	37	1240 miles northwest by west of Washington, D. C.....

*West Virginia formed part of Virginia until 1860.

lation has been noted, involving the location of median lines. A parallel of latitude is determined which evenly divides the population so that the population north of that parallel is the same as that south. Similarly, a meridian of longitude is determined which divides the population evenly as between east and west. In calculating these median lines it is necessary, in the case of the square degrees of latitude and longitude which are traversed by the lines themselves, to assume that the population is evenly distributed through these square degrees or to make an estimated adjustment where this is obviously not the case.

The eastern terminus of the median parallel, according to the census of 1910, is on the New Jersey coast near Seagirt. In its course west this line passes through central New Jersey, leaving the state near Burlington and entering Pennsylvania a few miles north of Philadelphia, thence passing through Norris town and continuing through southern Pennsylvania and across the northern extremity of West Virginia, leaving the latter state at a point a few miles north of Wheeling. It nearly bisects Ohio, Indiana and Illinois, crossing about

MEDIAN LINES.
In connection with the definition of the median point another method of presenting facts with regard to the geographical distribution of the popu-

ten miles north of Columbus, O.; twenty-five miles north of Indianapolis, Ind., and about twenty miles north of Springfield, Ill. Through Missouri it runs about thirty miles south of the Iowa and Missouri

Direct	Movement in miles during preceding decade.

line, thence passing through Nebraska about ten miles north of its southern boundary, and across the northern part of Colorado, passing about five miles north of Boulder City. Its location in Utah is about forty-five miles south of Salt Lake City. There are no large towns near its course across the northern part of Nevada and California. The western terminus of the median parallel is on the Pacific coast, in Humboldt county, California, about five miles north of Point Delgada and twenty miles south of Cape Mendocino, the point of continental United States extending farthest west.

The median meridian starts at Whitefish point, on the northern peninsula of Michigan, near the eastern end of Lake Superior, thence passing south about twenty-five miles west of Lansing and through Indiana about ten miles west of the Indiana-Ohio boundary and twenty-five miles west of Cincinnati. South of the Ohio river it bisects Kentucky, crosses eastern Tennessee and leaves that state twenty miles east of Chattanooga. Through Georgia it passes close to the Georgia-Alabama line, about two miles west of Columbus, Ga., leaving the state near the intersection of the Alabama, Georgia and

Florida boundary lines. It then crosses—the north-western part of Florida and terminates in the Gulf of Mexico at the city of Apalachicola. The following table shows the movement of the median lines from 1880 to 1910, inclusive:

Census year.	Median parallel.			Median meridian, west longitude.			Movement in miles	
	D.	M.	S.	D.	M.	S.	Northward.	Westward.
1880.....	39	57	00	84	7	12

MEANIAN POINT.

The exact location of the median point is indicated by the median lines already shown; in the following table its approximate location with reference to certain towns is described.

APPROXIMATE LOCATION BY IMPORTANT TOWNS.

1880.....	16 miles nearly due west of Springfield, O.
1890.....	5 miles southwest of Greenville, O.
1900.....	In Spartanburg, Ind.
1910.....	3 miles south of Winchester, Ind.

PERSONS OF FOREIGN PARENTAGE IN THE UNITED STATES.

[Twelfth census, 1900.]

By persons of foreign parentage are meant all persons, whether of native or foreign birth, who have one or both parents foreign born.

LARGEST TREE IN THE WORLD.

What is claimed to be the largest tree in the world is the "Gen. Sherman" tree in Sequoia National park, California. It belongs to the pine family and the mammoth or "big tree" species, growing at an elevation of 7,210 feet above sea

level. It is 118 feet in circumference, 36 feet in diameter and 280 feet high. The tree stands about two miles northeast of the Giant Forest and is reached by a horse trail.

POPULATION OF THE UNITED STATES AT EACH CENSUS (1850-1910).

NOTE—The narrow column under each census year shows the order of the states and territories when arranged according to magnitude of population.

URBAN POPULATION OF THE UNITED STATES.

[Twelfth census, 1900.]

YEAR.	Total.	Urban.	Pr. ct.	YEAR.	Total.	Urban.	Pr. ct.	YEAR.	Total.	Urban.	Pr. ct.
1900.....	75,468,039	24,592,199	33.1	1860.....	31,443,321	5,072,256	16.1	1820.....	9,638,453	475,135	4.9
1890.....	62,622,250	18,272,503	29.2	1850.....	23,191,876	2,897,586	12.5	1810.....	7,239,881	356,920	4.9
1880.....	50,155,783	11,318,547	22.6	1840.....	17,069,453	1,453,994	8.5	1800.....	5,308,483	210,873	4.0
1870.....	38,558,371	8,071,875	20.9	1830.....	12,866,020	864,500	6.7	1790.....	3,929,214	131,472	3.4

In the above table the total population for 1900 is exclusive of residents on Indian lands and of Hawaii. The urban population in all cases includes persons living in cities and towns of 8,000 or more inhabitants. On the basis of places of 4,000 or more inhabitants the urban population of the United States in 1900 was 23,411,698, or 31.3 per cent.

CONSERVATION OF THE NATIONAL RESOURCES.

NATIONAL CONSERVATION ASSOCIATION.

The National Conservation association, with headquarters in the Colorado building, Washington, D. C., is now the organized head of the conservation movement in the United States. The association came into existence because of an urgent need for an organization open to every man and woman who stood for conservation, which would give them immediate opportunity for united and effective work.

On July 29, 1909, the first step was taken. A group of the men who had led in the fight for conservation met and organized the National Conservation association. Dr. Charles W. Elliot, president emeritus of Harvard university, was made president of the association. Soon after Gifford Pinchot was removed from the government service by President Taft, Dr. Elliot presented his resignation and nominated Mr. Pinchot as his successor. Mr. Pinchot's election as president of the National Conservation association followed, the honorary presidency being accepted by Dr. Elliot.

In a booklet explaining the objects of the association, it is the following:

"The National Conservation association is fighting for the prompt and orderly development of our natural resources, for the welfare of ourselves and our children, and for the rights of the plain people. The association is found neither by political considerations nor official connections. It is free to speak the whole truth.

"That conservation means the use of our natural resources for the benefit of us all and not merely for the profit of a few is already household knowledge. The task which the National Conservation association has set itself is to get this principle put into practical effect."

The association is maintained by annual dues

from membership, which is divided into the following classes:

Members	\$2.00
Active members.....	5.00
Contributing members.....	25.00
Patrons	100.00
Life membership.....	1,000.00

The organization of the National Conservation association is as follows:

Gifford Pinchot, president, Washington, D. C.
Charles W. Elliot, honorary president, Cambridge, Mass.

Overton W. Price, vice-president and treasurer, Washington, D. C.; Thomas R. Shipp, secretary, Washington, D. C.; James R. Garfield, Cleveland, O., and Amos E. R. Pinchot, New York, N. Y., counsel.

NATIONAL CONSERVATION CONGRESS.

The third national conservation congress was held in Kansas City, Mo., Sept. 26-27, 1911. Addresses were made by Dr. Henry Wallace, Dr. Warren H. Wilson, Dr. Harvey W. Wiley, Secretary of the Interior Walter L. Fisher, William J. Bryan and others. Among the resolutions adopted was one recommending the bringing together as a department of health the various human health activities of the United States government as a co-ordinate branch of its administrative work. Another resolution recommended the early opening of the coal lands and other resources of Alaska on a leasing system, national ownership to be retained pending the creation of states within its area.

Officers for 1911-1912: President, J. B. White, Kansas City, Mo.; secretary, Thomas R. Shipp, Colorado building, Washington, D. C.; treasurer, D. Austin Latshaw, Kansas City, Mo.; recording secretary, James C. Gape, Clark, La.

DISTANCE OF VISIBILITY OF OBJECTS ON THE LAKES.

[From "List of Lights and Fog Signals" issued by the United States lighthouse board.]

Height, feet.	Dist., miles.	Height, feet.	Dist., miles.	Height, feet.	Dist., miles.	Height, feet.	Dist., miles.	Height, feet.	Dist., miles.	Height, feet.	Dist., miles.
5.....	2.96	55.....	9.81	110.....	13.87	450.....	28.06	600.....	32.40	800.....	37.42
10.....	4.18	60.....	10.25	120.....	14.49	500.....	29.58	650.....	33.73	900.....	39.69
15.....	5.12	65.....	10.67	130.....	15.08	550.....	31.02	700.....	35.00	1,000.....	41.83
20.....	5.92	70.....	11.07	140.....	15.65						
25.....	6.61	75.....	11.46	150.....	16.20						
30.....	7.25	80.....	11.83	200.....	18.71						
35.....	7.83	85.....	12.20	250.....	20.92						
40.....	8.37	90.....	12.55	300.....	22.91						
45.....	8.87	95.....	12.89	350.....	24.75						
50.....	9.35	100.....	13.23	400.....	26.46						

The distances of visibility given in the above table are those from which an object may be seen by an observer whose eye is at the lake level; in practice, therefore, it is necessary to add to these a distance of visibility corresponding to the height of the observer's eye above lake level.

THE UNITED STATES CENSUS BUREAU.

The bureau of the census in the department of commerce and labor, Washington, D. C., is charged with the duty of taking the periodical censuses of the United States and of collecting such special statistics as are required by congress, including statistics of births and deaths in registration areas, statistics of the cotton production of the country as returned by the ginners, the consumption of cotton and statistics of cities having 30,000 or more inhabitants.

The act passed at the extra session of the 61st

congress and approved July 2, 1909, for the taking of the thirteenth and subsequent censuses provided that a census should be taken of the population, agriculture, manufactures and mines and quarries of the United States in 1910 and every ten years thereafter, and that it should include each state and territory on the mainland, the District of Columbia, Alaska, Hawaii and Porto Rico. An assistant director, a geographer, a chief statistician and other officers and clerks in addition to the regular force in the census office were provided for.

STATISTICS OF CRIME IN THE UNITED STATES.

[From special reports by census bureau.]

June 30, 1904, there were in the United States 1,337 prisons of all kinds receiving persons sentenced for crime. The total number of inmates on the same date was 81,772, or 100.6 per 100,000 of

estimated population. Distributed by sex, color, nativity and race they were as follows for the main geographical divisions:

DIVISION AND SEX.	Aggregate.	WHITE.				COLORED.

PRISONERS COMMITTED IN 1904.

During 1904 a total of 149,691 prisoners were committed in the United States on term sentences. Assuming that those enumerated on June 30, 1904—namely, 81,772—represent the average number in prisons on any given date, it will be seen that the prison population on a fixed date constitutes about 54.6 per cent of the number committed on term sentences during a year.

Of the prisoners committed in 1904 244 were for homicide, 1,484 for robbery and 7,161 for burglary. The distribution by color, sex, race and nativity was as follows:

	Total.	Male.	Female.
White—Native.....	86,833	80,967	5,866
Native parentage.....	51,930	48,565	3,365

FLOOD AT BLACK RIVER FALLS, WIS.

Black River Falls, Wis., a city of about 2,000 inhabitants, was visited by a disastrous flood Oct. 6 and 7, 1911. The Black river, on the banks of which the town stands, overflowed its banks after a period of heavy rains and washed away business houses and residences. Most of the structures stood on sandy foundations and were undermined, caus-

ing them to topple over and disappear in the rushing waters. Practically all of the inhabitants had to pass a night and a day without shelter and almost without food, but fortunately no lives were lost. The damage to property was estimated at \$1,200,000.

The cost of maintenance by classes of all institutions included in the above table was in 1903: Orphanages, \$10,050,587; hospitals, \$23,200,869; permanent homes, \$9,916,180; temporary

homes, \$3,030,035; institutions for deaf and blind, \$3,523,683; nurseries, \$327,650; dispensaries, \$519,620; total, \$55,577,633.

FAMINE IN CHINA.

Famine conditions prevailed in the Anhui and Hupeh provinces of China in the spring and summer of 1911. The harvests in the fall of 1910 were almost complete failures on account of heavy rains and floods and before the winter was over the greater part of the population was on the verge of starvation. Missionaries and local officials did what they could to alleviate the suffering, distributing supplies of flour and other articles received from America and Japan, but thousands of the people

had to subsist on roots and grasses. At Shayank in Hupeh province twenty-one persons were trampled to death while the missionaries were trying to distribute food. The Rev. E. C. Lebenstine, who made a trip of inspection through the famine district in Anhui province, estimated that 2,500,000 persons were practically starving. How many died from want was not reported, but the number was thought to be very large.

DESTRUCTION OF BATTLE SHIP LIBERTE.

Fire followed by a series of explosions destroyed the first class French battle ship Liberte in the harbor of Toulon, France, Sept. 25, 1911, with a loss of 235 lives. The fire was discovered at 5 o'clock in the morning and at first was not thought to be serious, but it made rapid progress and soon penetrated to the accumulation magazines, which had

not been flooded. Several terrific explosions occurred which opened up fissures in the armor and framework of the vessel, which soon sank. The Liberte carried a crew of 733 officers and men, and of these many were killed in their berths. Besides the 235 who were lost, eighty-eight were wounded. The cost of the vessel was about \$7,000,000.

UNITED STATES MORTALITY STATISTICS.

[From census bureau report, 1910.]

Deaths per 1,000 of population in the registration areas of the United States:

	Annual av.						
	1901 to 1905.	1904.	1905.	1906.	1907.	1908.	1908.
Registration area.....	16.6	16.2	16.1	16.1	16.5	16.4	16.4
Registration cities.....	17.2	17.5	16.9	17.2	17.6	17.2	17.2
Registration states.....	15.9	16.4	15.9	16.1	16.4	16.3	16.3
Cities in registration states.....	17.4	17.9	17.2	17.8	18.0	16.5	16.5
Rural part of registration states.....	11.1	14.4	14.3	14.1	14.5	14.0	14.0
Other states.....	16.9	17.1	16.6	15.9	16.6	15.5	15.5

The registration area includes seventeen states and the District of Columbia, containing 51.8 per cent of the total estimated population of continental United States. The total number of deaths reported in this area in 1908 was 691,574. The estimated population of the area was 45,028,767 and the death rate was consequently 15.4 per 1,000 of population.

*Decrease. †Inclusive of Indian Territory, not separately stated.

NOTE—Owing to imperfect data the above figures are only approximately correct, but being based on the same method of enumeration they are of some

value for comparative purposes. The true annual birth rate for the whole of the United States, as shown by the natural increase of population between 1890 and 1900, is within 2 per cent either way of 35.1 per 1,000 of mean population.

DEATHS AND BIRTHS BY DIVISIONS OF TIME.

Assuming that the total population of the world is 1,600,000,000 and the average annual death rate 20 per 1,000 of population, the total number of deaths in a year is about 32,000,000. This is at the rate of 87,671 per day, 3,653 per hour, 61 per minute and 1 per second.

As the population of the world increases by about 7,000,000 per year, the total births must be that number in excess of the deaths, or about 39,000,000. This is at the rate of 106,849 births per day, 4,462 per hour, 74 per minute and 1.2 per second.

Assuming that the population of the United States is 87,000,000 and the death rate 16 per 1,000, the total number of deaths in a year is 1,392,000. This is at the rate of 3,814 per day, 159 per hour and 2.6 per minute. With a birth rate of 34 per 1,000, the total number of births in a year in the United States will approximate 2,958,000, or at the rate of 8,104 per day, 338 per hour and 5.6 per minute.

DEATH ROLL OF THE YEAR 1911.

From Dec. 1, 1910, to Dec. 1, 1911.

Allen, Amos L. (1837), congressman, in Washington, D. C., Feb. 20.	Carleton, Henry Guy (1846), playwright, at Hot Springs, Ark., Dec. 10.
Allen, Mrs. Elizabeth (1832), author, in Tuckahoe, N. Y., Aug. 7.	Carrere, John M. (1858), architect, in New York, N. Y., Feb. 28.
Allen, Herbert M., missionary, in Constantinople, Turkey, Jan. 25.	Carroll, John Lee (1830), former governor of Maryland, in Washington, D. C., Feb. 27.
Ashurst, Richard L. (1838), postmaster in Philadelphia, at Atlantic City, N. J., Jan. 30.	Carter, Thomas H. (1854), former senator from Montana, in Washington, D. C., Sept. 17.
Baker, William B. (1840), former congressman, at Aberdeen, Md., May 17.	Casaday, W. L. (1864), manufacturer, at Los Angeles, Cal., Dec. 10.
Barker, John H. (1844), manufacturer, in Michigan City, Ind., Dec. 3, 1910.	Chadbourne, Thomas L. (1841), capitalist, at Palm Beach, Fla., April 18.
Barr, Charles, American yachtsman, in Southampton, England, Jan. 24.	Chamberlain, Henry R. (1859), correspondent, in London, England, Feb. 15.

 Ziem, Felix (1821), artist, in Paris, France, Nov. 10.

BATTLE SHIP MAINE SUNK BY A MINE.

The wreck of the battle ship Maine, sunk in the harbor of Havana, Cuba, on the night of Feb. 15, 1908, was almost completely uncovered in 1911, though lack of a sufficient appropriation hampered the work. A large cofferdam was built around the vessel and the water pumped out gradually. Much of the hull was sunk deep in the mud and this was cleared away with considerable difficulty. The double bottom of the ship with parts of the keel was found standing in an upright position and some twenty-eight feet higher than the natural position. Experts expressed the belief that such a tearing of the vessel could not have been produced by an interior explosion, but that some unusually large mine must have been used. Rear-Admiral W. L. Capps, formerly constructor of the navy, submitted a report to the secretary of the navy, which tended to confirm the opinion of the court of inquiry that the battle ship was destroyed by an external explosion.

The remains of sixteen of the victims of the disaster were found in the wreckage, but could not be identified.

THE JOHN R. WALSH CASE.

John R. Walsh, Chicago banker, was released on parole from the Leavenworth federal penitentiary Oct. 14, 1911, after serving one year eight months and twenty-six days of the five-year sentence which he was given by Judge Albert B. Anderson in the United States District court in Chicago, March 13, 1908. He began serving his term Jan. 19, 1910, and died Oct. 23, 1911, a few days after his return home on parole. The Chicago National bank, of which he was president, was closed Dec. 16, 1905, and it was charged that his failure was caused by Mr. Walsh's illegal transference of \$2,000,000 to his railroad enterprises.

CARNEGIE CORPORATION OF NEW YORK.

Andrew Carnegie announced Nov. 10, 1911, that he had given \$25,000,000 to the Carnegie Corporation of New York, organized in that city on the date named under a charter granted by the state legislature of New York in June, 1911, "to promote the advancement and diffusion of knowledge and understanding among the people of the United States." The following official statement of the organization of the corporation was issued:

"The Carnegie Corporation of New York, incorporated by an act passed by the New York legislature June 9, 1911, was organized Nov. 10, 1911. The purposes of the corporation, as stated in the charter, are as follows:

"Section 1. Andrew Carnegie, Ellihu Root, Henry S. Pritchett, William N. Frew, Robert S. Woodward, Charles L. Taylor, Robert A. Franks, James Bertram and their successors are hereby constituted a body corporate by the name of Carnegie Corporation of New York for the purpose of receiving and maintaining a fund or funds and applying the income thereof to promote the advancement and diffusion of knowledge and understanding among the people of the United States by aiding technical schools, institutions of higher learning, libraries, scientific research, Lero funds, useful publications and by such other agencies and means as shall from time to time be found appropriate therefor."

"The incorporators met at Mr. Carnegie's house Friday afternoon, Nov. 10, 1911, accepted the charter, adopted the constitution and by-laws and elected the following officers: President, Andrew Carnegie; vice-president, Ellihu Root; treasurer, Robert A. Franks; secretary, James Bertram.

"Mr. Carnegie transferred to the corporation, for its corporate purposes, \$25,000,000 par value first mortgage gold bonds of the United States Steel corporation. It is intended that the business of founding and aiding libraries and educational institutions, which had been carried on by Mr. Carnegie as an individual for many years, will be turned over to the corporation at an early date and carried on by the corporation."

STEPHENSON INVESTIGATION.

Aug. 15, 1911, the United States senate adopted the following resolution reported from the committee on privileges and elections:

"That the senate committee on privileges and elections, or any subcommittee thereof, be authorized and directed to investigate certain charges preferred by the legislature of Wisconsin against Isaac Stephenson, a senator of the United States from the state of Wisconsin, and to report to the senate whether in the election of said Isaac Stephenson as a senator of the United States from the said state of Wisconsin there were used or employed corrupt methods or practices; that said committee or subcommittee be authorized to sit during the recess of the senate, to hold its session at such place or places as it shall deem most convenient for the purposes of the investigation, to employ stenographers, to send for persons and papers and to administer oaths; and that the expenses of the inquiry shall be paid from the contingent fund of the senate upon vouchers to be approved by the chairman of the committee or chairman of the subcommittee."

Senators Heyburn, Sutherland, Pomerene, Bradley and Paynter were appointed a special committee to conduct the investigation, which began in Milwaukee, Wis., Oct. 2 and continued until Nov. 1. Senator Stephenson testified that he had spent \$107,793 in the primary campaign of 1908 to secure the nomination. He said he had not handled the money himself, but had given most of it to his campaign manager, E. A. Edmonds, to use as he saw fit. He denied that any of the money had been corruptly used to secure his nomination. Mr. Edmonds declared that the money was spent legitimately for brass bands, lithographs, buttons, advertising and other customary campaign expenses. No detailed accounts were kept. State Senator John J. Blaine, the senator's principal accuser, admitted on the stand that he had relied chiefly upon newspaper reports, political speeches and rumors in formulating his charges.

 Washington, D. C.—Norman A. Merritt.

UNITED STATES POSTAL SAVINGS LAW.

The act of congress, approved June 25, 1910, authorizes the establishment of postal savings depository offices and creates a board of trustees, consisting of the postmaster-general, the secretary of the treasury and the attorney-general, severally, acting ex officio, with power to designate such post-offices as it may select to be postal savings depository offices. This board has control and supervision of all postal savings offices and of the funds deposited in them, and has authority to make all necessary regulations for the receipt, custody, deposit, investment and repayment of such funds.

Any person, 16 years of age or over, may open an account, in his or her own name, in any postal savings depository, but no person can have more than one such account in his or her own right. Deposit accounts may be opened, first, by the deposit of \$1 or a larger amount in multiples thereof; second, by purchasing for 10 cents a postal savings card and attaching thereto 10 cent postal saving stamps and depositing the card and the stamps in the amount of \$1, or any multiple thereof. Additional deposits may be made in cash in amounts of \$1 or multiples thereof, or by card and 10 cent stamps in corresponding amounts, but no person is permitted to deposit more than \$100 in any calendar month, and the balance to the credit of any person can never exceed \$500.

Interest at the rate of 2 per cent per annum is

allowed on all deposits, and any person may withdraw the whole or any part of his or her deposit, with accrued interest, upon demand and under such rules as the board of trustees prescribe.

Of the postal savings bank fund, 5 per cent is deposited as a reserve with the treasurer of the United States. The remaining funds are deposited in national or state banks at a rate of interest of not less than 2½ per cent.

The faith of the United States is pledged to the payment of any deposit made in postal savings bank depository offices.

The banks were a success from the start. During the period from Jan. 3 to Feb. 28, 1911, the number of accounts opened in the forty-eight depositories first established was 3,923 and the net amount on deposit was \$138,869. Many additional postal savings banks were established in the course of the year and the pressure of work incident to the extension of the system delayed the compilation of statistics for the fiscal year 1911, so that the figures were not available in time for publication in this edition of The Daily News Almanac and Year-Book.

The first postal savings bank in Chicago was opened in the main office Aug. 1. The number of depositors on the first day was 461 and the total amount deposited \$9,421. Postal banks were also opened Aug. 1 in New York, Boston and St. Louis.

LOCATION OF FIRST POSTAL BANKS.

One city in each state was selected by the post-office authorities for the opening of the first postal savings banks in the United States Jan. 3, 1911. The cities were:

Alabama—Bessemer.
 Arizona—Globe.
 Arkansas—Stuttgart.
 California—Oroville.
 Colorado—Leadville.
 Connecticut—Ansonia.
 Delaware—Dover.
 Florida—Key West.
 Georgia—Brunswick.
 Idaho—Coeur d'Alene.
 Illinois—Pekin.
 Indiana—Princeton.
 Iowa—Decorah.
 Kansas—Pittsburg.
 Kentucky—Middleburg.
 Louisiana—New Iberia.
 Maine—Rumford.
 Maryland—Frostburg.
 Massachusetts—Norwood.
 Michigan—Houghton.

Minnesota—Bemidji.
 Mississippi—Gulfport.
 Missouri—Carthage.
 Montana—Anaconda.
 Nebraska—Nebraska City.
 Nevada—Carson City.
 New Hampshire—Berlin.
 New Jersey—Rutherford.
 New Mexico—Raton.
 New York—Cohoes.
 N. Carolina—Salisbury.
 N. Dakota—Wahpeton.
 Ohio—Ashtabula.
 Oklahoma—Guymon.

Oregon—Klamath Falls.
 Pennsylvania—DuBois.
 Rhode Island—Bristol.
 S. Carolina—Newberry.
 S. Dakota—Deadwood.
 Tennessee—Johnson City.
 Texas—Port Arthur.
 Utah—Provo.
 Vermont—Montpelier.
 Virginia—Clifton Forge.
 Washington—Olympia.
 West Virginia—Grafton.
 Wisconsin—Manitowoc.
 Wyoming—Laramie.

WILLIAM LORIMER'S ELECTION AS UNITED STATES SENATOR.

The right of William Lorimer, republican, of Chicago, to hold his seat in the United States senate to which he was elected May 26, 1909, by a combination of democrats and republicans in the Illinois legislature, was challenged in the upper house of congress Jun. 9, 1911. Two resolutions were introduced, both declaring his election illegal. One, presented by Senator Albert J. Beveridge of Indiana, was as follows:

"Resolved, That William Lorimer was not duly and legally elected to a seat in the senate of the United States by the legislature of Illinois."

The other, which was introduced by Senator Robert L. Owen of Oklahoma, was as follows:

"Resolved, That the so-called election of William Lorimer on May 26, 1909, by the legislature of the state of Illinois was illegal and void."

Senator Beveridge, as a member of the committee on privileges and elections submitted a report dissenting from the views of the majority of the committee, which, in December, 1910, had declared that the charges of bribery in connection with Mr. Lorimer's election were not sustained. [See The Daily News Almanac and Year-Book for 1911, page 404.] Senator Beveridge contended that if only one case of bribery had been established it invalidated the whole election. "The testimony is overwhelming," he declared, "not only that four members of the general assembly were bribed, but that three of their fellow members paid them their money. But these seven votes were not all of the tainted votes cast in this purling transaction. The testimony shows that at least three additional corrupt votes were cast—those of Clark, Shepard and Linke."

In the course of the long and acrimonious debate which followed and lasted until March 1 speeches against the legality of Mr. Lorimer's election were made by Senators Root, Borah, Crawford, Cummins and others, while among those championing the Illinois Senator's cause were most ardently Senators Bailey, Burrows, Payner and Heyburn. Mr. Lorimer made a lengthy speech in his own defense, alleging that he was elected in part through his personal popularity among democrats. Senator Cullom spoke in defense of the honor of Illinois generally, though he said nothing about the case pending before the senate. The final vote was taken March 1 and resulted in the defeat of the Beveridge resolution by forty-six nays to forty yeas, as follows:

NAYS (FOR LORIMER).

REPUBLICANS.

Bradley, Ky.	Dick, O.	Nixon, Nev.
Brandegee, Conn.	Dillingham, Vt.	Oliver, Pa.

Smith, S. C.		

Not voting—Fraser (Tenn.), Terrell (Ga.), Aldrich (R. I.), Tallaferro (Fla.), Lorimer (Ill.).

SENATE'S ACTION RESENTED.

The action of the senate in affirming the legality of Mr. Lorimer's election was followed immediately by criticism and protest in various parts of the country. March 2 the Missouri senate adopted a resolution commending Senators Stone and Warner for voting against Lorimer. March 4 the California senate rebuked Senators Flint and Perkins for "humiliating" the nation by voting for William Lorimer. March 10 the Wisconsin assembly adopted a resolution deploring the action of the United States senate in refusing to unseat Lorimer, commending Senator LaFollette for voting against him and censuring Senator Stephenson for voting for him. The senate concurred in the resolution April 11. Similar action was taken or attempted in Kansas, Connecticut, New Hampshire and Rhode Island. Ministers in many places, collectively or individually, condemned the action of the senate.

In Illinois the citizens of many towns united in showing their disapproval of the manner of Lorimer's election by holding mass meetings and passing resolutions denouncing the action of the senate and demanding the resignation of both Senators Lorimer and Cullom. Such meetings were held in Rockford, March 5; in Elgin, Lincoln, Lake Forest and Galena, March 7; in Charleston, March 9, and in Hoopston, March 11. Similar action was taken at public meetings or by representative associations in numerous other places in the state.

LEGISLATIVE INVESTIGATION.

In the Illinois state senate a committee, of which Douglas W. Helm of Metropolis was made chairman, was appointed Jan. 17, 1911, to inquire into corruption in the 66th general assembly. It began taking testimony March 28, but nothing new was developed until H. H. Kohlsaat, editor of the Chicago Record-Herald, was called to the stand March 29. Mr. Kohlsaat testified that a friend had told him in confidence that a fund of \$100,000 had been raised to bring about the election of Lorimer as United States senator. The name of this friend he declined to give to the committee. However, the man, who was Clarence S. Funk, general manager of the International Harvester company, voluntarily released Mr. Kohlsaat from the pledge of secrecy and appeared before the committee in Springfield April 5. The substance of his story was as follows: Shortly after Lorimer's election in May, 1909, the witness met Edward Hines, the lumberman, at the Union League club in Chicago.

"He (Hines) said that I was just the fellow he had been looking for and trying to see," continued Mr. Funk, "and he said he wanted to talk to me a minute. We went away and sat down on one of the leather couches at the side of the room. Without any preliminaries and quite as a matter of course, he said: 'Well, we put Lorimer over down there at Springfield, but it cost us about \$100,000 to do it.' He went on to say that they had had to act quickly when the time came, that they had no chance to consult anybody beforehand, and I think his words were these: 'We had to act quickly when the time came, so we put up the money.'

"He (Hines) said: 'Now we are seeing some of our friends so as to get it fixed up.' We had some discussion back and forth and finally I asked him how much he (Hines) was getting from his different friends and he said: 'Well, of course, we can only go to a few big people, and if about ten of us will put up \$10,000 apiece that will clean it up.' Edward Tilden, connected with the stockyards in Chicago, is the man to whom I was told to send the money."

Mr. Funk said he had promptly declined to give the money asked for and had informed Cyrus H. McCormick, president, and Edgar A. Bancroft, general counsel of the International Harvester company, of the occurrence. He added that shortly after an editorial had appeared in the Record-

Herald (Feb. 15, 1911) referring to the \$100,000 fund, Mr. Hines had called on him for the purpose of "refreshing his recollection" about the Union League club interview. Mr. Hines said no mention had been made of the use of money in connection with the Lorimer case. Mr. Funk said he was unable to "refresh" his memory in that way.

April 20 William Burgess of Duluth, Minn., appeared before the committee and testified that a few days after Mr. Lorimer had been exculpated by the United States senate he had had a conversation, on a train between Duluth and Virginia, Minn., with C. F. Wiehe, secretary and director of the Edward Hines Lumber company. "Wiehe," continued the witness, "said Lorimer had not spent a dollar of his own money, but that a check got was raised for his election. Wiehe added: 'I know what I am talking about, for I subscribed \$10,000 myself.'"

Wirt H. Cook, also of Duluth and a lumberman, formerly associated with Mr. Hines, testified April 26 that shortly before the senatorial election in May, 1909, he had a talk in the Grand Pacific hotel, Chicago, with Mr. Hines in which the latter said it had been all fixed up to elect Lorimer senator, as he had agreed to "stand pat" on the lumber duty. Mr. Cook further testified that he and one William O'Brien of St. Paul, Minn., met Mr. Hines by appointment in the latter part of May in the same hotel and that while they were together Mr. Hines called up Springfield, Ill., by long distance telephone and talked with a man whom he addressed as "governor." He said, according to the witness: "Is this you, governor. Well, I just left President Taft and Senator Aldrich last night in Washington. Now, they tell me that under no consideration shall Hopkins be returned to the senate. Now, I will be down on the next train. Don't leave anything undone. I will be down prepared to furnish all the money that is required." The witness thought Mr. Wiehe was present in the room when this telephone conversation took place.

Mr. Cook also testified that about a year later, in May or June, 1910, when the grand jury was in session in Chicago investigating the legislative scandal, C. F. Wiehe came to his room in the hotel along about midnight and asked him and O'Brien, who was with him again, to get out of town at once or the grand jury would summon them. Wiehe said that Mr. Hines had called him up and asked him to get the witness and O'Brien out of the city.

Mr. Wiehe, on being called before the committee, denied the alleged conversation with Mr. Burgess. He admitted he had been present in the hotel room when Mr. Hines had his telephone conversation with the "governor" in Springfield, but had heard nothing about the use of money. He further admitted that he had paid a midnight visit at the request of Hines to the hotel to get Cook and O'Brien out of town. Hines, he said, did not want his reference to Aldrich and Taft to become known.

In pursuance of the information obtained from Mr. Funk, the committee asked Edward Tilden to appear before the committee with certain books and documents that might throw light upon the alleged Lorimer fund. George M. Benedict and William C. Cummings were asked to produce certain bank accounts kept by Mr. Tilden at the time the fund was supposed to have been collected. These men refused to appear or to produce the documentary proofs sought, whereupon the committee ordered their arrest. Warrants were served upon them, but they were immediately released upon their writs of habeas corpus issued by Judge Adolr Petit of the Circuit court of Cook county, who, after a hearing, denied the right of the senate or a committee thereof to require the attendance of these witnesses or the production of the proof demanded. In effect, Judge Petit held that the committee had no power or authority to take proof or to subpoena witnesses because of the fact that the scope of the inquiry under the resolution creating the committee included not only members of the senate but of the house as well, the senate thereby seeking to embark upon an inquiry over which it had no jurisdiction.

Finding its further progress blocked the committee concluded its examination of witnesses and May 17 made a report to the senate, reciting the

foregoing and other facts. The essence of its finding was expressed in the following words:

"Your committee has reached the conclusion that the election of William Lorimer before the last general assembly would not have occurred had it not been for bribery and corruption."

May 18 the following resolutions were adopted by the senate by a vote of thirty-nine to ten:

"Whereas, under senate resolution number 17 a committee was appointed to investigate charges of corruption and official misconduct against members of this senate, and

"Whereas, said committee has reported the result of its investigation to this senate, from which it appears that there were important and material witnesses without the state of Illinois whose attendance it could not legally compel and which witnesses refused voluntarily to appear, and

"Whereas, said committee was seriously impeded in the performance of its duties by what we believe to be the unwarranted action of a certain judge, and

"Whereas, it appears from the report of said committee that, despite its inability to compel the attendance of such foreign witnesses and the adverse action of said judge, sufficient evidence was procured to show that without bribery and corruption, and by reason of the failure of certain senators and representatives during the different roll calls to carry out the will of the people, as expressed at the polls, in the choice of a United States senator, which action we deem most reprehensible, and which should be condemned, and which we hereby condemn, the election of William Lorimer to the United States senate would not have occurred."

"Resolved, That it is the opinion of this senate, based upon the report and findings of the said committee, that the election of William Lorimer to a seat in the United States senate was brought about by bribery and corruption, and

"Resolved, That the gravity of the situation, involving as it does the integrity and good name of this state and the welfare of the nation, demands a further investigation and determination of this matter by a body possessing broader jurisdiction and greater powers than does this senate, and be it further

"Resolved, That the secretary of this senate be and he is hereby authorized and directed to transmit to the senate of the United States a copy of the evidence taken by the said committee, together with the report and findings of that committee and a copy of this resolution, for such action as the senate of the United States may deem proper."

"Resolved, That the findings of said committee, as set forth in the report heretofore filed, be and the same are hereby ratified and approved."

The vote in detail on the adoption of the resolutions was as follows:

CASE REOPENED IN UNITED STATES SENATE.

Senator Robert M. LaFollette of Wisconsin reopened the Lorimer election case in the United States senate April 6 by introducing a resolution providing for the appointment of a special committee to make a new investigation of the whole matter. This resolution, after citing the fact that the Illinois senate had undertaken a new inquiry from which it appeared that witnesses who were not called by the United States senate committee had appeared and given important testimony tending to show that \$100,000 was corruptly expended to secure the election of William Lorimer to the United States senate, provided for the appointment of Senators John D. Works, Charles E. Townsend, George P. McLean, John W. Kern and Atlee Pomerene as a special committee to investigate and report to the senate whether in the election of William Lorimer there were used corrupt methods and practices.

Senator LaFollette supported his resolution with a long argument, but June 1, by a vote of forty-eight to twenty, the senate adopted a substitute offered by Senator Thomas S. Martin of Virginia. The vote for making a new inquiry was unanimous. The Martin resolution was as follows:

"Whereas, the senate adopted a resolution on June 20, 1910, directing the committee on privileges and elections to investigate the charges relating to the election of William Lorimer to the senate of the United States, and

"Whereas, since the senate voted on the report of that committee it is represented that new material testimony has been discovered in reference to such matter; and

"Whereas, the senate of the state of Illinois on May 13, 1911, adopted a resolution, for the reasons therein stated, requesting the senate of the United States to institute further investigation of the election of William Lorimer to the senate, it is therefore

Resolved, That the committee on privileges and elections sitting en banc be and are hereby authorized and directed forthwith to investigate whether in the election of William Lorimer as a senator of the United States from the state of Illinois there were used and employed corrupt methods and practices; that said committee be authorized to sit during the sessions of the senate and during any recess of the senate or of congress; to hold

sessions at such place or places as it should deem most convenient for the purposes of the investigation; to employ stenographers, counsel and accountants; to send for persons and papers, to administer oaths, and as early as practicable to report the results of its investigation, including all testimony taken by it, and that the expenses of the inquiry shall be paid from the contingent fund of the senate upon vouchers to be approved by the chairman of the committee.

"The committee is further and specially instructed to inquire fully into and report upon the alleged 'jack pot' fund in its relation to and effect, if any, upon, the election of William Lorimer to the senate."

The following subcommittee was named by the committee on privileges and elections June 5 to conduct the investigation: Republicans—Dillingham, Vermont, chairman; Gamble, South Dakota; Jones, Washington; Keroy, Iowa. Democrats—Johnston, Alabama; Kern, Indiana; Lea, Tennessee; Fletcher, Florida.

The selection of the subcommittee was approved by a resolution in the senate June 7 and that body was clothed with the same powers as those conferred by the Martin resolution upon the committee on privileges and elections.

The examination of witnesses was begun June 20 in room 301 of the senate office building in Washington. Those who appeared before the committee included, among others, Cyrus H. McCormick, president of the International Harvester company; Herman H. Kohlsaat, editor of the Chicago Record-Herald; Clarence S. Fuok, general manager of the International Harvester company; Wirt H. Cook, Edward Tilden, Edward Hines, Gov. Charles S. Deneen, Christian F. Wiehe, Nelson W. Aldrich and Boies Penrose. The testimony was substantially the same as that given before the Illinois senate committee, except that additional information was given John H. Marble and John J. Healy were counsel for the committee while Mr. Lorimer was represented by Elbridge Hancey and William J. Hynes. The committee did not, as at the first hearing, adhere to the strict rules of evidence, but permitted great latitude in the investigation. The hearing continued in Washington until Aug. 9, when a recess was taken until Oct. 10. The committee then met in the federal building in Chicago and resumed the examination of witnesses. It adjourned Nov. 22 to meet in Washington, D. C.

WAR BETWEEN ITALY AND TURKEY.

Italy declared war upon Turkey Sept. 29, 1911. Its reasons for this step were given in an ultimatum sent by Sig. di San Giuliani, the foreign minister, to the government in Constantinople Sept. 26. This was as follows:

"Throughout a long series of years the Italian government has never ceased to represent to the porte the absolute necessity that the state of disorder and neglect in which Tripoli and Cyrenaica are left by Turkey should come to an end, and that these regions should be allowed to enjoy the same progress as that attained by other parts of northern Africa. This transformation, which is required by the general exigencies of civilization, constitutes, so far as Italy is concerned, a vital interest of the very first order, by reason of the small distance separating these countries from the coasts of Italy.

"Notwithstanding the attitude maintained by the Italian government, which has always loyally accorded its support to the imperial government on the different political questions of recent times, notwithstanding the moderation and patience displayed by the Italian government hitherto, not only have its views in regard to Tripoli been misunderstood by the imperial government, but, what is more, all enterprises on the part of Italians, in the aforesaid regions, constantly encounter a systematic opposition of the most obstinate and unwarranted kind.

"The imperial government, which has thus up to now displayed constant hostility toward all legitimate Italian activity in Tripoli and Cyrenaica, quite recently, at the eleventh hour, proposed to the royal government to come to an understanding, declaring itself disposed to grant any economic con-

cession compatible with the treaties in force and with the higher dignity and interests of Turkey; but the royal government does not now feel itself in a position to enter upon such negotiations, the uselessness of which is demonstrated by past experience, and which, far from constituting a guaranty for the future, could but afford a permanent cause of friction and conflict.

"On the other hand, information received by the royal government from its consular agents in Tripoli and Cyrenaica represents the situation there as extremely dangerous on account of the agitation prevailing against Italian subjects, which is very obviously fomented by officers and other organs of the authorities. This agitation constitutes an imminent danger not only to Italian subjects but also to foreigners of any nationality who, justly perturbed and anxious for their safety, have begun to embark and are leaving Tripoli without delay. The arrival at Tripoli of Ottoman military transports, the serious consequences of the sending of which the royal government had not failed to point out previously to the Ottoman government, cannot but aggravate the situation and impress on the royal government the strict and absolute obligation of providing against the perils resulting therefrom.

"The Italian government, therefore, finding itself forced to think of the guardianship of its dignity and its interests, has decided to proceed to the military occupation of Tripoli and Cyrenaica. This solution is the only one Italy can decide upon, and the royal government expects that the imperial government will in consequence give orders so that it may meet with no opposition from the present Otto-

man representatives, and that the measures which will be the necessary consequence may be effected without difficulty. Subsequent agreements would be made between the two governments to settle the definite situation arising therefrom. The royal ambassador in Constantinople has orders to ask for a peremptory reply on this matter from the Ottoman government within twenty-four hours from the presentation of the present document, in default of which the Italian government will be obliged to proceed to the immediate execution of the measures destined to insure the occupation.

"Pray add that the reply of the porté within the aforesaid limit of twenty-four hours must be communicated to us through the intermediary of the Turkish embassy in Rome also.

"SAN GIULIANO."

DECLARATION OF WAR.

The ultimatum was officially delivered to the porté Sept. 23. On the following day the Italian charge in Constantinople handed the following communication to the porté:

"The Italian embassy, carrying out the orders of the king, has the honor to notify you that the delay accorded by the royal government to the porté, with a view to the realization of certain necessary measures, has expired without a satisfactory reply reaching the Italian government. The lack of this reply only confirms the bad will, or want of power, of which the Turkish government and authorities have given such frequent proof, especially with regard to the rights and interests of Italians in Tripoli and Cyrenaca.

"The royal government consequently is obliged itself to safeguard its rights and interests, as well as its honor and dignity, by all means at its disposal. Events which will follow can only be regarded as the necessary consequence of conduct followed so long by the Turkish authorities. The relations of peace and friendship being therefore interrupted between the two countries, Italy considers herself from this moment in a state of war with Turkey.

"I have, therefore, the honor to make known to your highness that passports will be placed at the disposal of the charge d'affaires at Rome, and I beg your highness to hand passports to the representative of the royal government. Ottoman subjects may continue to reside in Italy without fear of an attack upon their persons, property or affairs."

In further explanation of the situation which led to the declaration of war it may be said the differences between the Italians and Turks in Tripoli were of long standing. A large proportion of the 6,000 or 7,000 foreigners in the Turkish vilayet are Italians and these for many years had been subjected to systematic annoyances of the worst kind. Diplomatic protests were of no avail, being answered simply with promises which never were fulfilled. In addition to this, Italy had made no secret of its desire to possess Tripoli in the event that the Ottoman empire should be dissolved.

The European press generally criticised Italy for its sudden action, calling it piracy and robbery, but this opinion was changed in a measure when the facts in the case became better known. Besides, it was pointed out that Austria-Hungary had seized Bosnia-Herzegovina, Germany, France and Spain had invaded Morocco and England had often engaged in similar enterprises, so that Italy could claim that it had plenty of precedents for its course. The efforts of the great powers were immediately directed toward localizing the war and preventing its spread, especially to the Balkan states. In this they were successful, and in spite of Turkish appeals for intervention they maintained a neutral attitude.

Before declaring war Italy had made all preparations, naval and military, for prompt and energetic action, so that no time was lost. It immediately established a blockade on the Tripolitan coast and proceeded to clear the Mediterranean and Adriatic seas of Turkish warships, particularly destroyers, which might do damage to Italian commerce. The blockade was entrusted to a strong fleet under Vice-Admiral Favarioli, while Vice-Admiral the Duke of the Abruzzi had charge of the operations

designed to checkmate such naval operations as the Turks might undertake with their few war vessels. Both performed their tasks successfully. On the same afternoon when war was declared the duke of the Abruzzi, with a squadron of torpedo boats, attacked some Turkish gunboats and torpedo boats in the harbor of Prevesa and soon put them out of commission. He moved with equal energy at other points, and whatever semblance of Turkish naval power there had been on the Adriatic and Mediterranean speedily disappeared.

The fleet on the Tripolitan coast had a harder task, but performed it with equal success. The city of Tripoli, which was held by a garrison of Turkish soldiers, was called upon to surrender within twenty-four hours. It refused to do so and when the time limit expired at 2 p. m., Oct. 3, twelve Italian war vessels, headed by the flagship Benedetto Brin, began to bombard the forts. The latter returned the fire without effect, the Turkish cannon being antiquated and the ammunition defective. The bombardment continued until the morning of Oct. 5, by which time the forts were in ruins and the garrison had retired into the interior. Twelve Turks were killed and twenty-three wounded by the shell fire. Troops were lauded without opposition and the city was taken possession of by Vice-Admiral Borea d'Olmo, who had been appointed governor of Tripoli in advance. Chiefs of the Arab tribes adjacent to the city offered their submission to the Italians.

Within a few days the Italians had occupied the seaports along the coast of Tripoli. These included Benghazi, Derna, Cyrene and Tobruk. The last named place was shelled by the first Italian squadron under Rear-Admiral Aubrey on the morning of Oct. 8, and after a brief resistance by a small Turkish force surrendered.

Meanwhile the mobilization of troops in Italy was quickly effected and an expeditionary force of some 35,000 men organized for the conquest and occupation of the interior of Tripoli. These troops, which were commanded by Gen. Caneva, left Naples and other ports Oct. 5 and on succeeding days. The first detachment, consisting of infantry, cavalry and engineers, landed at Tobruk Oct. 10. The next day a large force landed in Tripoli, where they relieved the marines who had been on duty since the capture of the city.

The Italians were not permitted to retain possession of Tripoli without severe fighting. The Turkish forces, with the aid of hostile Arabs, made constant attacks on the outposts and in some of these engagements many men on both sides were killed or wounded. One of the most serious of these battles occurred Oct. 30, when the Italians were assailed in force by the Turks. At the same time armed Arabs in the city opened fire upon them from the rear, causing many casualties and much confusion. The Italian troops beat off the enemy and summarily shot all the treacherous Arabs within the city on whom they could lay their hands. It was reported that they spared neither women nor children and the affair was described by English correspondents as a massacre. Turkey, in a note addressed to the American secretary of state Nov. 5, called the attention of the government to the alleged atrocities in Tripoli and asked for "prompt and efficacious intervention." The Italian authorities emphatically denied all stories of inhumanity, declaring that only Arabs found with arms in their possession were shot.

Fighting of a more or less serious character also occurred at Derna and Benghazi, the Turks claiming victories.

NEW TUNNEL UNDER THE ALPS.

The Loetschberg railway tunnel through the Bernese Alps was completed in 1911 after five and a half years' work and the expenditure of \$20,000,000. It is the third longest in Europe, measuring approximately 16 miles. It gives the Simplon Tunnel railway a direct connection with railways which traverse Switzerland from north to south and shortens the route from Milan to Calais by about eighty miles.

GREAT EARTHQUAKES IN MODERN TIMES.

SAN FRANCISCO, CAL.
 Date—April 18, 1906.
 Lives lost—452.
 Persons injured—1,500.
 Persons made homeless—265,000.
 Property loss—\$350,000,000 (estimated).
 Loss of insurance companies—\$132,823,067.21.
 Buildings destroyed—60,000.
 Blocks or squares burned—453.
 Area of burned district—3.96 square miles.
 Relief appropriation by congress—\$2,500,000.
 Relief subscription—\$11,000,000.

VALPARAISO, CHILE.
 Date—Aug. 16, 1906.
 Lives lost—1,500.
 Property loss—\$100,000,000.

KINGSTON, JAMAICA.
 Date—Jan. 14, 1907.
 Lives lost—1,100.
 Persons injured—2,000.
 Property loss—\$25,000,000.
 Buildings destroyed—6,000.
 Area of ruined district—50 acres.

Area affected by earthquake—300 acres.
 Duration of first shock—38 seconds.
 Duration of fire after earthquake—40 hours.

SICILY AND CALABRIA.

Date—Dec. 28, 1908.
 Day of week—Monday.
 Hour—5:23 a. m.
 Duration of shock—35 seconds.
 Lives lost—76,483.
 Persons injured—95,470.
 Persons made homeless—1,100,000.
 Property destroyed—(No estimate attempted).
 Region affected—Northeastern Sicily and southwestern Calabria.
 Chief cities and towns destroyed or damaged—In Sicily: Messina, Faro, Santa Teresa, Scalleta. In Calabria: Reggio, Gallio, San Giovanni, San Eufemia, Pellaro, Palmi, Caunitello.

CARTAGO, COSTA RICA.

Date—May 5, 1910.
 Hour—7 p. m.
 Lives lost—1,509.

*Ratified the constitution. †Organized as territory. ‡Delegate. §Signing of protocol relinquishing sovereignty. **Yielding sovereignty. ††Commissioner.

Historians do not all agree as to some of the

dates in the above table. The dates given are from the statistical abstract of the United States published by the government and are well supported in all disputed cases.

IRRIGATED AREAS IN THE UNITED STATES.

Region.	Farms.	Acres.	Cost.
Arid states and ter's	152,000	9,700,000	\$125,000,000
Semiarid states and territories	7,800	425,000	5,600,000
Rice states	7,400	875,000	17,600,000
Total	167,200	11,000,000	142,200,000

Location and name.	Acres.	Cost.*
Sun river	276,000	722,000
Montana and North Dakota—		
Lower Yellowstone	63,780	2,945,000
Nebraska and Wyoming—		
North Platte	261,000	5,135,000
Nevada—Truckee-Carson	132,000	4,213,000
New Mexico—Carlsbad	20,245	707,000
Hondo	10,000	359,000
New Mexico and Texas—		
Rio Grande	180,000	800,000
North Dakota—Missouri pumping	38,575	983,000
Oregon—Umatilla	74,924	1,325,000
Oregon and California—Klamath	162,009	2,334,000
Utah—Belle Fourche	100,000	2,670,000
South Dakota—Belle Fourche	60,000	1,135,000
Washington—Okanagan	8,113	608,000
Yakima	311,000	4,711,000
Wyoming—Shoshone	164,122	3,828,000

NOTE—The above figures are for 1907.

IRRIGATION PROJECTS (JAN. 1, 1911).

Location and name.	Acres.	Cost.*
Arizona—Salt river	230,000	\$9,170,000
Arizona and California—Yuma	130,000	4,120,000
California—Orland	64,000	608,000
Colorado—Grand valley	61,800	225,000
Uncompacted	140,000	4,455,000
Idaho—Minidoka	124,000	4,068,000
Payette-Boise	164,000	4,267,000
Kansas—Garden City	10,656	419,000
Montana—Huntley	32,600	955,000
St. Mary-Munk	152,000	941,000

*Expended to Jan. 1, 1911.

Electoral Returns.

QUESTIONS OF PUBLIC POLICY.

No. 1.—Shall the next general assembly submit to the voters of the state of Illinois, at the next following state election, an amendment to the state constitution, providing for the control of legislation by the people, by means of the initiative and referendum, said amendment to provide for the initiation of legislation upon a petition of 8 per cent of the voters, and for the reference of legislation upon a petition of 5 per cent of the voters, the action of the majority of the electors voting to be final?

Yes447,908
No128,308

No. 2.—Shall the next general assembly extend the merit system by the enactment of a comprehensive and adequate state civil service law?

Yes411,676
No121,132

No. 3.—Shall the next general assembly enact a corrupt practices act, limiting the amount a candidate and his supporters may spend in seeking office, and providing for an itemized statement under oath showing all expenditures so made, for what purpose made and from what source or sources received?

Yes422,437
No122,689

VOTE FOR GOVERNOR IN 1908.

FOR REPRESENTATIVES IN CONGRESS, 1910.

- 1. The counties of Gibson, Pike, Posey, Spencer, Vanderburg and Warrick.
J. W. Boehne, Dem. 22,420
Frank B. Posey, Rep. 18,606
- 2. The counties of Daviess, Greene, Knox, Lawrence, Martin, Monroe, Owen and Sullivan.
W. A. Cullop, Dem. 22,960
Oscar E. Bland, Rep. 21,419
- 3. The counties of Clark, Crawford, Dubois, Floyd, Harrison, Perry, Orange, Scott and Washington.
W. E. Cox, Dem. 21,670
J. H. Camman, Rep. 14,969
- 4. The counties of Bartholomew, Brown, Dearborn, Jackson, Jefferson, Jennings, Johnson, Ohio, Ripley and Switzerland.
Lincoln Dixon, Dem. 22,001
Harry Polndexter, Rep. 17,721
- 5. The counties of Clay, Hendricks, Morgan, Parke, Putnam, Vermillion and Vigo.
Ralph W. Moss, Dem. 25,917
Frank J. Tilley, Rep. 21,267
- 6. The counties of Decatur, Fayette, Franklin, Hancock, Henry, Rush, Shelby, Union and Wayne.
Finley Gray, Dem. 23,740
William O. Barnard, Rep. 22,248
- 7. The county of Marion.
C. A. Korbly, Dem. 30,330
Linton A. Cox, Rep. 26,968
- 8. The counties of Adams, Delaware, Jay, Madison, Randolph and Wells.
J. A. M. Adair, Dem. 25,455
Rollin Warner, Rep. 19,309

- 9. The counties of Boone, Carroll, Clinton, Fountain, Hamilton, Howard, Montgomery and Tipton.
Martin A. Morrison, Dem. 24,434
Edward E. Neal, Rep. 23,841
- 10. The counties of Benton, Jasper, Lake, Laporte, Newton, Porter, Tippecanoe, Warren and White.
E. D. Crumpacker, Rep. 27,772
John B. Peterson, Dem. 25,742
- 11. The counties of Blackford, Cass, Grant, Huntington, Miami and Wabash.
G. W. Ranch, Dem. 22,528
John L. Thompson, Rep. 21,282
- 12. The counties of Allen, Dekalb, Lagrange, Noble, Steuben and Whitley.
Cyrus Cline, Dem. 19,754
Owen N. Heaton, Rep. 17,937
- 13. The counties of Elkhart, Fulton, Kosciusko, Marshall, Pulaski, St. Joseph and Starke.
H. A. Earnhart, Dem. 25,253
John L. Moorman, Rep. 24,153

LEGISLATURE.		Senate.		House.		J. B.

VOTE ON PROPOSITIONS.

April 4, 1911.

Shall bonds of the city of Chicago for the purpose of paying and discharging judgments against the city of Chicago in the sum of \$900,000 be issued by the city council?

Yes—164,919.

No—68,830.

Shall bonds of the city of Chicago for the purpose of constructing bridges in the city of Chicago in the sum of \$4,655,000 be issued by the city council?

Yes—211,427.

No—65,104.

Shall the following be adopted? Proposition to issue bonds of Lincoln park to the amount of \$875,000 for the purpose of enlarging and improving Lincoln park and for the completion of work already begun.

Yes—37,921.

No—17,388.

Shall an ordinance be passed authorizing the issuing of drayshop licenses within the territory described as follows:

"All that part of the city of Chicago bounded on the north by the Illinois and Michigan canal, on the east by South Western avenue and on the south by West 35th street and on the west by South 40th avenue produced from the north.

"And all that part of the city of Chicago bounded on the north by West North avenue and on the west by North and South 4th avenue and on the south by West 12th street and on the east by North and South 40th avenue.

"And all that part of the city of Chicago bounded on the north by West 12th street, on the east by South 40th avenue, on the south by West 39th street and the Illinois and Michigan canal and on the west by the Chicago and Western Indiana railroad right of way, formerly South 46th avenue."

Yes—5,586.

No—4,773.

For the annexation of the village of Morgan Park.

For—167,588.

Against—64,569.

(The voters of Morgan Park approved the proposition by a vote of 441 for to 410 against, so the village was annexed.)

For the annexation of the town of Cicero to the city of Chicago.

For—168,026.

Against—62,442.

(The voters of the town of Cicero rejected the proposition by a vote of 1,466 against to 620 for, so the town was not annexed.)

For the annexation of the village of Oak Park to the city of Chicago.

For—211,662.

Against—32,598.

(The voters of Oak Park rejected the proposition by a vote of 3,025 against to 1,055 for, so the village was not annexed.)

FOREST FIRES IN ONTARIO.

Forest fires swept over a large district in the northern part of Ontario, Canada, the second week in July, 1911, causing the loss of more than 100 lives and a large amount of property. The greater part of the casualties occurred at South Porcupine, where many miners were surrounded by flames and perished in the mine shafts where they took refuge. The townships of Langmuir, Eldorado, Shaw, Deloro, Ogden, McArthur and Cripple Creek were swept clean, and the towns of Cochrane, South Porcupine and Pottsville destroyed.

Forest fires also did much damage in July in northern Michigan and in parts of Maine and New Hampshire. The towns of Au Sable and Oscoda in Michigan suffered severely.

NORTHWESTERN GAME AND FISH LAWS.

Revised to Oct. 1, 1911.

NOTE—The laws as given below are necessarily very much condensed and many of the restrictions as to modes of hunting and fishing and as to the transportation, export and sale of game are omitted. Copies of the state laws may usually be obtained by writing to the commissioners and wardens. The dates are for the open season except where it is otherwise specified.

ILLINOIS.

GAME—Bobwhite quail, Nov. 10 to Dec. 10; prairie chicken, Nov. 12-17; partridge, Mexican blue quail, California quail, heath grouse and woodcock protected until 1915; mourning doves, Aug. 2 to Nov. 20; snipe and plover, Sept. 1 to May 1; squirrels, June 1 to Nov. 15; wild geese, ducks, brant or other waterfowl, Sept. 1 to April 15. One person is limited to fifteen ducks, twelve quail, ten geese, ten brant and fifteen other game birds in one day. The killing of wild birds other than sparrows, hawks, crows, blackbirds and crow-blackbirds is forbidden.

FISH—Fishing with nets and seines, July 1 to May 1; fishing with hook and line, all the year. Black bass, pike, pickerel, whitefish and trout may be taken only with hook and line. The meshes of seines must be at least $1\frac{1}{2}$ inches square. Minimum length or weight of fishes allowed to be sold: Black bass, 11 inches; white or striped bass, 8; rock bass, 6; croppie, 5; yellow perch, 3; wall eyed pike 15; pike or pickerel, 15; buffalo, 15; German carp, 15; sunfish, 8; white perch, 10; common whitefish, $1\frac{1}{2}$ pounds; lake trout, $1\frac{1}{2}$ pounds.

LICENSES—Issued by county, city and village clerks; hunting license, for nonresidents, \$25.50; residents, \$1. Fishing licenses for residents: For each 100 yards of seine, \$5; 100 yards of net, \$1.25; dip net, 25 cents; steam tug, \$25; gasoline launch, \$15; sail or row boat, \$10. Nonresident fishing licenses: 100 yards of seine, \$10; 100 yards of net, \$5; dip net, \$1; steam tug, \$200; gasoline launch, \$50; sail or row boat, \$30.

State Game Commissioner—J. H. Wheeler, Springfield, Ill.

Headquarters Fish Commission—Havana.

WISCONSIN.

GAME ANIMALS—Beaver, protected at all times; deer, Nov. 10 to Nov. 30 (protected in certain counties); kill limit, one deer in one season; fawn, in spotted or red coat, protected; fisher, marten and mink, Nov. 15 to March 15; muskrat, Nov. 15 to June 1; moose, protected at all times; otter, Sept. 15 to March 1; rabbit, Oct. 10 to Feb. 1; coon, Oct. 1 to Jan. 1; squirrel, Oct. 10 to Feb. 1.

GAME BIRDS—Grouse (protected in certain counties), Sept. 10 to Oct. 1; partridge, plover, Sept. 10 to Dec. 1; prairie chicken and hen, Sept. 10 to Oct. 1 (protected in certain counties); pheasants and quail, protected until 1915; duck of all varieties and rail or rice hen, Sept. 1 to Jan. 1; wild goose or brant, Sept. 10 to May 1; swan, protected at all times. Bag limits: Grouse, prairie chicken or woodcock, 5; geese or brant, 10; partridge, 10; wild duck, mud hen, plover, rail or rice hen, 15; mixed bag of game birds, 20.

GAME FISH—Catfish, June 1 to March 1; black bass, June 1 to March 15 (special in certain waters and as to size); brook trout, April 15 to Sept. 1; bass (green, silver, rock and white), biddler, pickerel, pike and muskellunge, June 1 to March 1 succeeding.

LICENSES—Nonresidents, for all kinds of game, \$25; for all kinds except deer, \$10; license for residents, \$1.

State Fish and Game Warden—John A. Sholtz, Madison, Wis.

MICHIGAN.

GAME ANIMALS—Moose, elk and caribou protected until 1913; elk, unlawful to kill until 1915 on Bois Blanc island; deer, open season from Oct. 15 to Nov. 30, inclusive; unlawful for any person to kill more than two or to use dogs or artificial lights in hunting; unlawful to kill deer in water; unlawful to kill until 1912 in Arenac, Benzie, Cheboygan, Emmet and Leelanau counties; until 1920 in Berrien, Calhoun, Genesee, Ingham, Jackson, Kalamazoo, Oakland and St. Clair counties, and until

1915 on Bois Blanc island; rabbits, Oct. 15 to March 1; unlawful to use ferrets in certain counties; squirrel protected until 1914; beaver, unlawful to kill until 1913; bear, otter, fisher, marten, fox, mink, raccoon and skunk, unlawful to kill from May 1 to Nov. 1; muskrat, unlawful to kill from April 15 to Nov. 1; bounties paid for killing wolf, lynx and wildcat.

GAME BIRDS—Unlawful to kill Mongolian or English pheasants, wild turkey, hazel grouse and bark fowl until 1915; quail, Oct. 15 to Nov. 30; prairie chicken, protected until 1915 and spruce hen, open season Oct. 15 to Nov. 30; European partridge, unlawful to kill until 1912; homing pigeons and mourning doves, unlawful to kill or capture at any time; ducks, snipe, plover, woodcock, geese, brant, shore birds, rails and coots, open season, Oct. 15 to Dec. 31; bluebill, canvasback, redhead, widgeon, pintail, whistler, spoonbill, butter ball and sawbill ducks may also be hunted March to April 10; teal and mallard, open season Sept. 15 to Dec. 31.

FISH—Landlocked salmon, grayling and speckled, California, Loch Leven and steelhead trout, open season from May 1 to Sept. 1; sturgeon or black, strawberry, green or white bass, unlawful to take from inland waters except with hook and line; bass, unlawful to take in any manner from Feb. 1 to June 15.

LICENSES—Nonresidents (for deer), \$25; residents, \$1.50; nonresidents for all game except deer, \$10.

State Game, Fish and Forestry Warden—William R. Oates, Lansing, Mich.

MINNESOTA.

GAME—Deer and male moose, Nov. 10 to 30; kill limit for moose and deer, one of each; no open season for caribou, elk, beaver or pheasants; doves, snipe, prairie chicken, grouse, woodcock and plover, Sept. 7 to Nov. 7; quail, ruffed grouse or partridge and pheasant, Oct. 1 to Dec. 1; wild ducks, geese, brant and other aquatic fowls, Sept. 7 to Dec. 1; kill limit, fifteen birds a day; mink and muskrat, Nov. 15 to April 15.

FISH—Trout, April 15 to Sept. 1; black, gray or Oswego bass, May 29 to March 1; pike, muskellunge, whitefish, croppie, perch, sunfish, sturgeon, lake trout and catfish, May 1 to March 1; pickerel, suckers, bullheads, red horse and carp may be taken at any time with spear.

LICENSES—Nonresidents, \$25 for all game animals and \$10 for game birds; licenses obtained from state commissioners; resident's license, obtained from county auditors, \$1.

Executive Agent of Game and Fish Commissioners—H. A. Rider, St. Paul, Minn.; superintendent of fisheries, E. W. Cobb, St. Paul.

IOWA.

GAME—Pinnated grouse and prairie chicken, Sept. 1 to Dec. 1; woodcock, July 10 to Jan. 1; ruffed grouse, pheasants, wild turkey and quail, Nov. 1 to Dec. 15; wild duck, geese and brant, Sept. 1 to April 15; squirrel, Sept. 1 to Jan. 1; beaver, mink, otter, muskrat, Nov. 15 to April 15; Mongolian, ring neck or Chinese pheasant protected until Oct. 1, 1915.

FISH—Trout and salmon, April 15 to Oct. 1; bass, pike, croppies and other game fish, May 15 to Nov. 15.

LICENSES—Nonresidents, \$10.50; residents, \$1. Warden—George A. Lincoln, Cedar Rapids, Iowa.

INDIANA.

GAME—Quail, ruffed and pinnated grouse, Nov. 10 to Jan. 1; squirrels, July 1 to Oct. 1; wild geese, ducks, brant and other wild waterfowl, Sept. 1 to April 15; wild deer, turkeys, prairie chicken, Hungarian partridge and Mongolian pheasants, protected. There is an entirely closed season on all hunting except of wild duck and other waterfowl from Oct. 1 to Nov. 10 of each year.

FISH—Fishing with hook and line lawful during whole year.

LICENSES—Hunting license for nonresident, \$15.50 (covers fishing also); nonresident fishing license alone, \$1; resident license, \$1.

Game Commissioner—George W. Miles, room 119, statehouse, Indianapolis, Ind.

NEBRASKA.

GAME—Deer, antelope and beaver protected; prairie chicken and grouse. Sept. 1 to Nov. 30; quail, Nov. 1 to Nov. 15; wild ducks and geese, Sept. 1 to April 6; snipe and yellowlegs, Sept. 1 to April 30; plover and doves, July 15 to Aug. 31; squirrels, Oct. 1 to Nov. 30.

FISH—Trout, April 1 to Sept. 30; bass, April 1 to Nov. 15; all other fish April 1 to Nov. 15.

LICENSES—For residents, \$1; nonresidents, to fish, \$2; to hunt and fish, \$10; issued by county clerks, Chief Deputy Game and Fish Commissioner—Henry N. Miller, Lincoln, Neb.

COLORADO.

GAME—Deer, Oct. 1 to Oct. 6 (limit, one deer); mountain sheep, antelope and elk protected; prairie chickens, Aug. 15 to Oct. 10; sage chickens, Aug. 1 to Sept. 1; grouse, Aug. 15 to Oct. 10; wild waterfowl, Oct. 1 to March 1; doves, Aug. 1 to Sept. 1; quail protected.

FISH—Trout not less than seven inches long, May 25 to Oct. 31.

LICENSES—Hunting license for nonresidents, \$10; fishing license for nonresidents, \$2; no license required by residents.

Commissioner—John A. Shinn, Denver, Col.

NORTH DAKOTA.

GAME—Prairie chicken, turtle dove, snipe, plover, pinnated grouse, sharp tailed grouse, ruffed grouse, woodcock, Sept. 7 to Nov. 1; quail and pheasant protected; wild duck, Sept. 1 to May 1; wild geese, cranes and brant, Sept. 7 to Dec. 15; buffalo, moose, elk, caribou, mountain sheep, permanently protected; deer, Nov. 10 to Dec. 1; mink and muskrat, Nov. 15 to April 15; beaver and otter protected; antelope protected until 1920.

FISH—Trout and salmon, May 1 to Oct. 1; bass, June 1 to Oct. 15; pike, croppie and perch, May 1 to Oct. 15; fishing with hook and line alone allowed.

LICENSES—Nonresidents, \$25; residents, \$1.

Secretary Fish and Game Commission—T. D. Casey, Grafton, N. D.

SOUTH DAKOTA.

GAME—Buffalo, elk, deer, mountain sheep, Nov. 1 to Dec. 1; prairie chicken, grouse, protected to 1911; woodcock, wild duck, geese, brant, plover and curlew, Sept. 10 to April 10; beaver and otter Sept. 1 to May 1.

FISH—Bass, carp, shad and croppies, May 1 to Oct. 1; trout, May 1 to Sept. 1.

LICENSES—For nonresidents, who must be accompanied by a warden as guide, \$25; for small game only, \$10; issued by county treasurers.

Wardens—Each county has a fish and game warden.

MONTANA.

GAME—Elk, mountain goat and sheep, deer, Oct. 1 to Dec. 1; prairie chickens, sage hens and part-

ridge, Oct. 1 to Nov. 1; wild waterfowl, Sept. 1 to Jan. 1.

FISH—No restrictions.

LICENSES—General allens, for big and small game and feathered game, \$25; limited allens, for feathered game, \$10; allens, fishing, \$1; resident's license, \$1.

Warden—Henry Avare, Helena, Mont.

IDAHO.

GAME—Deer, elk, mountain sheep and goat, Sept. 1 to Dec. 1, except that elk may be killed in Fremont and Bingham counties Sept. 1 to Dec. 31, and except that deer may be killed in Bonner, Kootenai, Shoshone, Latah, Nez Perce, Clearwater and Idaho counties from Sept. 20 to Dec. 20; deer protected in last named counties for five years; moose, caribou, antelope, buffalo and beaver protected, quail, Nov. 1 to Dec. 1; sage hen or turtle dove, July 15 to Dec. 1; Mongolian and English pheasant, prairie chicken or pinnated grouse, protected; partridge, pheasant or grouse, Aug. 15 to Dec. 1, except north of Salmon river, Sept. 1 to Dec. 1; snipe, plover, duck and goose, Sept. 1 to March 1.

LICENSES—Nonresidents, fishing, \$2; bird, \$5; big game, \$25; all, \$32. Resident, fishing and hunting, \$1.

FISH—Fishing with hook and line only permitted all the year.

Warden—Ben R. Gray, Boise, Idaho.

WYOMING.

GAME—Deer, elk, male mountain sheep, Sept. 1 to Nov. 30 (elk and mountain sheep may be killed only in the counties of Fremont, Uinta, Carbon and those parts of Big Horn and Park west of the Big Horn river); unlawful to kill beaver and moose until 1915; antelope, 1915; ducks and geese, Sept. 1 to April 30; sage grouse, Aug. 1 to Sept. 30 (cannot be killed in counties of Natrona and Sheridan); grouse, other than sage grouse, Sept. 25 to Nov. 30; in Albany, Carbon, Laramie and Sweetwater counties all grouse may be shot only from Aug. 1 to Sept. 15; unlawful to kill quail and Mongolian pheasant until 1912.

FISH—Fishing open the year round with hook and line.

LICENSES—For nonresidents, for birds only, \$5; for big game, \$50; *each nonresident must be accompanied by a licensed guide, but one guide can accompany one man and one woman; nonresident not allowed to have gun in his possession without a license. Residents, bird license, \$1.50; residents, big game license, \$2.50; for one additional elk, \$5; allens, bird license, \$20. †Licenses issued by any justice of the peace or assistant game warden.

Warden—D. F. Hudson, Lander, Wyoming.

*For bear, \$10. Nonresident cannot secure additional big game license. †Allens cannot secure big game license.

PANAMA-PACIFIC EXPOSITION IN SAN FRANCISCO.

The opening of the Panama canal and the 400th anniversary of the discovery of the Pacific ocean will be celebrated by an international exposition in San Francisco, Cal., in 1915. Sites with that end in view were taken in 1910, when a guaranty fund of \$17,500,000 was raised. Of this amount \$5,000,000 is provided by a special tax levied by the legislature upon all the property in California, an additional \$5,000,000 through the issuance of bonds by the city of San Francisco and the balance of \$7,500,000 by popular subscriptions. No government aid was asked. New Orleans was also a contender for the honor of holding the canal celebration and a fund of \$7,500,000 was authorized to be raised, \$6,500,000 through a state tax and \$1,000,000 through subscription in New Orleans. The matter came before congress and the following joint resolution was passed by the house Jan. 31 and by the senate Feb. 11, and was signed by the president Feb. 15, 1911.

Resolved, etc., That whenever it shall be shown to the satisfaction of the president of the United States that a suitable site has been selected and that the sum of not less than \$15,000,000 will be available to enable the Panama-Pacific International Exposition company, a corporation organized and existing under and by virtue of the laws of the state of California for the purpose of inaugurating, carrying forward and holding an exposition at

the city and county of San Francisco, Cal., on or about the 1st day of January, 1915, to celebrate the completion and opening of the Panama canal, and also the 400th anniversary of the discovery of the Pacific ocean, the president of the United States be, and he is hereby authorized and respectfully requested, by proclamation or in such manner as he may deem proper, to invite all foreign countries and nations to such proposed exposition, with a request that they participate therein."

Charles G. Moore is president of the exposition company.

PANAMA-CALIFORNIA EXPOSITION IN SAN DIEGO.

Ground was broken July 19, 1911, for the Panama-California exposition which is to be held in San Diego, Cal., during the entire year 1915. The buildings, which are to be of the Spanish-Colonial type of architecture and to be known collectively as the Mission City, will be erected on a site of 1,400 acres in Balboa park. The city has raised by subscription \$2,500,000 for the promotion of the plan. Following are the chief officers: President, U. S. Grant, Jr.; first vice-president, John D. Spreckels; director-general, Col. D. C. Collier; director of publicity, Joseph W. Sefton, Jr.; secretary, Levi G. Moore.

LOS ANGELES TIMES DYNAMITE CASE.

John J. McNamara, secretary and treasurer of the International Bridge and Structural Ironworkers' union, was arrested in Indianapolis, Ind., April 22, 1911, on the charge of being implicated in the dynamiting of the Los Angeles Times building Oct. 1, 1910. His arrest followed that of Ortie E. McManigal and James B. McNamara in Detroit, Mich., April 12, for the same offense. It was not until April 23, however, that the facts were made known by William J. Burns, head of the Bureau of Investigation, who for many months had been investigating not only the Los Angeles Times affair, but many other mysterious explosions in widely separated localities. These in practically all instances occurred where nonunion or open shop labor had been employed in the construction of buildings, bridges and other structures. The same kind of dynamite bombs and the same methods were used as a rule and the conclusion was reached that they were the work of the same men. Before the arrests were made more than 100 lives had been lost and some \$3,000,000 worth of property destroyed through the explosions.

For the discovery and apprehension of the men who blew up the Los Angeles Times building, with the loss of twenty-one lives and \$500,000 worth of property, rewards aggregating \$500,000 were offered. The grand jury of Los Angeles county examined many witnesses and returned indictments against twenty-three persons alleged to have been implicated in the affair. These included one "J. B. Bryce," Harry Kaplan and Matt Schmidt. "Bryce," it was subsequently alleged, was an alias assumed by James B. McNamara, who was supposed to be the man who bought the dynamite from the Clant Powder company in Los Angeles with which the Times building was blown up. McNamara is a brother of John J. McNamara and his home was in Cincinnati, O. He and Ortie E. McManigal, an ironworker in Chicago, were accused of being the "wrecking crew" of the Iron Workers' union. Kaplan and Schmidt, who were said to have assisted them, were classed by the detectives as anarchists. It was further asserted that John J. McNamara furnished the funds for the dynamite and other expenses of the wreckers.

Following clues given, it was reported, by Ortie McManigal, the detectives found materials for the manufacture of bombs in several places. In the room occupied by James B. McNamara and McManigal in Detroit were a number of small alarm clocks, batteries and dynamite. In a barn a mile west of Indianapolis were seventeen sticks of dynamite and two quarts of nitroglycerin. In the basement of the Central Life building, Indianapolis, occupied in part as the headquarters of the Iron Workers' union, were sixty-four sticks of dynamite, 200 feet of fuse, 500 dynamite caps and a dozen small alarm clocks. In a shed in the rear of the home of James McManigal, father of Ortie E. McManigal, in Tiffin, O., were 400 pounds of dynamite. It was also reported that a considerable quantity of electric wire and an electric battery tester were found in the home of Mrs. J. A. McNamara, mother of John J. and James B. McNamara, in Cincinnati, O. A suitcase belonging to J. B. McNamara was seized in the union station at Columbus, O., and was found to contain twine and wrapping paper similar to that used in wrapping up the dynamite found in Indianapolis. Most of the dynamite discovered was reported to have been stolen. Through the arrest of John J. McNamara was made upon a warrant and requisition papers from the governor of California were honored by Gov. Marshall of Indiana, it was charged by the defendant's friends and the labor leaders in Indianapolis that McNamara had been given no opportunity to resist extradition and that he had been "railroaded" out of the state. Warrants were sworn out charging Detective William J. Burns, Walter Drew, W. J. Ford and Frank Fox with kidnaping. Mr. Drew was attorney for the National Erectors' association, which had been investigating the dynamiting of many structures in which its members were interested. W. J. Ford was assistant district attorney of Los Angeles county and Frank Fox was a chauffeur who had assisted the officers in getting McNamara out of the city. The arrests were made

and the men were held in bonds to await the action of the grand jury.

The two McNamaras and McManigal were taken at once to Los Angeles, where they arrived April 26. Great precautions were taken to prevent their escape or rescue by legal or other means while making the journey.

The case came up in court Oct. 11 and James B. McNamara was the first of the defendants to be placed on trial. The chief counsel for the defense was Clarence Darrow of Chicago.

Weeks were spent in efforts to secure a jury to try the case and the necessary number of men had not yet been secured when, on the afternoon of Dec. 1, it was suddenly announced that the two principal defendants, James Boyd McNamara and his brother, John J. McNamara, had decided to plead guilty. They were called into court and both confirmed the announcement. James B. McNamara pleaded guilty to murder in the first degree in having caused the explosion in the Los Angeles Times office. His brother pleaded guilty to having caused the explosion in the Llewellyn iron works. Judge Walter Bordwell, who presided in the case, fixed Dec. 5 as the day on which he would pronounce sentence, and on the date named he fixed the punishment of James B. McNamara at imprisonment for life in St. Quentin prison. To John J. McNamara he gave fifteen years in the same prison.

Prior to being sentenced James B. McNamara made a written statement in which he said that on the night of Sept. 30, 1910, he placed in "ink alley," a portion of the Times building, a suitcase containing sixteen sticks of 80 per cent dynamite, set to explode at 1 o'clock the next morning. It was, he declared, his intention to injure the building and scare the owners, but not to take the life of any one.

The cases against the McNamaras were prosecuted by District Attorney John D. Fredericks. Sensational charges of attempts at jury bribing were made just prior to the entering of pleas of guilty by the defendants.

Between May 31, 1906, and April 5, 1911, sixty-seven dynamite explosions occurred which were believed to be due to the wrecking crews of structural iron workers. Among those for which the McNamaras and McManigal were thought to be responsible were the following:

Oct. 24, 1909—New telephone exchange, saw mill and garage destroyed in Indianapolis, Ind.

March 23, 1910—Corthouse in Omaha, Neb., and plant of Caldwell & Drake at Columbus, Ind., partly destroyed. Caldwell & Drake were contractors for the Omaha building.

Sept. 4, 1910—Plant of Lucas & Sons iron works in Peoria, Ill., and bridge under construction wrecked.

Oct. 1, 1910—Los Angeles Times building wrecked and twenty-one persons killed. Attempt made to blow up home of publisher, Gen. Harrison Gray Otis.

Dec. 18, 1910—Plant of Llewellyn Iron company in Los Angeles damaged.

Feb. 24, 1911—Iroquois iron works in South Chicago damaged.

March 25, 1911—Coal hoisting plant in Milwaukee being erected by the Hyle & Patterson Construction company of Pittsburgh, Pa., damaged to the extent of \$200,000.

April 5, 1911—Tower of municipal building in Springfield, Mass., wrecked.

FORESTS AND FORESTRY.

[By Herbert A. Smith of the United States Forest Service.]

Our forests now cover 550,000,000 acres, or about one-fourth of the United States. Forests publicly owned contain one-fifth of all timber standing. Forests privately owned contain at least four-fifths of the standing timber. The timber privately owned is not only four times that publicly owned, but it is generally more valuable. Forestry is now practiced on 70 per cent of the forests publicly owned and on less than 10 per cent of the forests privately owned, or on only 18 per cent of the total area of forests.

The original forests of the United States contained timber in quantity and variety far beyond that upon any other area of similar size in the world. They covered 850,000,000 acres, with a stand of not less than 5,200,000,000 board feet of merchantable timber, according to present standards of use. There were five great forest regions—the northern, the southern, the central, the Rocky mountain and the Pacific.

The present rate of cutting is three times the annual growth of the forests of the United States. The great pineries of the lake states are nearing exhaustion, and heavy inroads have been made upon the supply of valuable timber throughout all parts of the country. The heavy demands for timber have been rapidly pushing the great centers of lumber industry toward the south and west. In consequence, the State of Washington has led for several years in lumber production, now followed in order by Louisiana, Mississippi and Oregon. In 1910 the production of yellow pine lumber amounted to fourteen and one-eighth billion feet; the Douglas fir of the northwest held second place with four and three-fourths billion feet, while oak came third with four and one-half billion feet. We take from our forests yearly, including waste in logging and in manufacture, 20,000,000,000 cubic feet of wood.

We use in a normal year 90,000,000 cords of firewood, 45,000,000 board feet of lumber, 148,500,000 ties, 1,750,000,000 staves, over 125,000,000 sets of heading, nearly 300,000,000 barrel hoops, 3,200,000 cords of native pulp wood, 165,000,000 cubic feet of round mine timbers and 1,500,000 cords of wood for distillation.

In 1910 about 4,002,000 cords of wood were used in the manufacture of paper, of which 948,000 cords were imported from Canada. The demand for pulp wood is making a severe drain on the spruce forests which furnish the principal supply. The forest service of the United States department of agriculture is conducting investigations to determine what other woods, such as scrub pine, white fir, tupelo and the like, can be successfully used.

A larger drain upon our forest resources is made by the demand for railroad ties, of which 148,231,000, equivalent to nearly five billion board feet, were used in 1910. White oak, hitherto the chief source of supply, is not plentiful enough to meet this demand indefinitely, and in many parts of the country the supply of chestnut, cedar and cypress is dwindling; however, seasoning and treating methods are being found, largely through the work of the forest service, by which cheaper and more plentiful woods, such as lodgepole pine in the northwest and loblolly pine in the south, are made fit for use as ties. A great saving has been effected in the naval stores industry, also largely through the work of the forest service, by the introduction of the so-called "cup" systems of turpentine in place of the old destructive system of "boxing." The new systems insure a larger product of better quality, and prolong the life of the longleaf pine forests upon which the industry depends.

UNITED STATES FOREST SERVICE.

The forest service is one of the bureaus of the department of agriculture. It has charge of the administration and protection of the national forests, and also promotes the practice of forestry generally through investigations and the diffusion of information.

The work of the government in forestry was initiated by the appointment of Dr. Franklin Hough in 1875 as special agent in the department of agriculture. In 1881 a division of forestry was created

in that department. In 1901 this division became the bureau of forestry, and in 1905, when the care of the national forests was given to this bureau, its name became the forest service.

Previously the care of the national forests had been in the hands of the department of the interior. A law authorizing the president to set apart forest reserves was passed in 1891, but no provision for their administration and use was made until 1897. Previous to 1905 the bureau of forestry merely gave expert advice, on request, to the department of the interior concerning the application of forestry to the forest reserves. The change of name from "forest reserves" to "national forests" was made in 1906, to correct the impression that the forests were, as "reserves," withdrawn from use. Since the forest service took charge of them the fundamental aim has been to open them to the widest use consistent with their proper protection.

The reserves were set aside as follows: By President Harrison, 13,416,710 acres; by President Cleveland, 25,686,320 acres; by President McKinley, 7,050,089 acres; by President Roosevelt, 148,346,924 acres.

During the administration of President Taft 3,891,800 acres have been eliminated from the national forests, making their area at the close of the fiscal year 1911 190,608,243 acres. The eliminations threw out land which was found to be better suited for agricultural and other purposes than for forestry. An act of congress, passed in 1907, prohibits any additions by the president to the national forest area in Washington, Oregon, Idaho, Montana, Wyoming and Colorado.

The following tables show the national forest expenditures and receipts for the fiscal year 1911, compared with those of the fiscal year 1910:

Expenditures and Permanent Improvements				
	Administration		Protection	
	Total.	Per acre.	Total.	Per acre.
1910.....	\$3,752,316.91	\$0.01945	\$598,835.64	\$0.00310
1911.....	5,335,856.97	0.02800	273,634.42	0.00143

Comparison of receipts from the several sources for the fiscal years 1910 and 1911:

Fiscal year.		Grazing.		Timber.	
	Total.	Per acre.	Total.	Per acre.	
1910.....	\$986,909.38	\$0.00512	\$1,043,428.20	\$0.00541	
1911.....	935,490.38	0.00490	1,015,125.39	0.00532	

Fiscal year.		Special uses.		All sources.	
	Total.	Per acre.	Total.	Per acre.	
1910.....	\$59,810.50	\$0.00031	\$2,090,148.08	\$0.01084	
1911.....	76,290.18	0.00040	2,026,906.15	0.01063	

Under the law 25 per cent of the gross receipts are paid to the states in which the national forests are located, to be expended for roads and schools. The amount to be paid to the states in this way from the receipts in 1911 is about \$506,000.

The grazing receipts for 1911 were paid by the holders of 20,499 permits to graze 1,351,922 cattle, horses and hogs, and of 5,105 permits to graze 7,449,415 sheep and goats. The receipts from timber sales were paid by approximately 5,000 purchasers, who cut the equivalent of 374,678,000 board feet of timber. The receipts from special uses were paid by the holders of about 5,000 permits. In other words, these receipts represent profitable use of the forests by some 30,000 individuals or concerns. To the use for which payment was made must be added the heavy free use of the forests by the public. Figures for free use of timber are as follows:

	Number of permittees.	Cnt (board feet).	Value.
1910.....	35,364	104,796,000	\$176,166.51
1911.....	40,660	123,488,000	196,930.24

In issuing permits for reservoirs, conduits, power lines and transmission lines for commercial power development, the forest service has steadfastly insisted on conditions designed to prevent speculative or perpetual holdings and to secure the full development of available power and the payment of reasonable charges for the use of land.

The total stand of timber on the national forests, exclusive of Alaska, is estimated at over five hundred billion board feet.

The following table shows the total-cut of timber from the national forests in the fiscal year 1911:

State or territory.	Cut under sale (ft.).	Cut under free use (ft.).	Total cut (ft.).
Alaska	23,148,000	100,000	23,248,000
Arizona	37,858,000	4,729,000	42,587,000
Arkansas	4,817,000	480,000	5,297,000
California	37,899,000	9,197,000	47,096,000
Colorado	47,647,000	12,246,000	59,893,000
Florida	32,000	29,000	61,000
Idaho	49,597,000	21,523,000	71,120,000
Michigan	12,000	12,000
Minnesota	647,000	87,000	734,000
Montana	57,642,000	19,403,000	77,045,000
Nevada	2,539,000	1,799,000	4,338,000
New Mexico	20,096,000	15,149,000	35,245,000
North Dakota	1,000	52,000	53,000
Oklahoma	37,000	137,000	174,000
Oregon	22,446,000	11,331,000	33,777,000
South Dakota	10,056,000	5,855,000	15,911,000
Utah	12,275,000	11,656,000	23,931,000
Washington	25,343,000	2,851,000	28,194,000
Wyoming	17,598,000	6,852,000	24,450,000
Total	374,678,000	123,488,000	498,166,000

The average price on the stump for the timber sold in 1911 was \$2.56 per thousand board feet.

The value of the public property administered by the forest service is estimated at over \$2,000,000,000.

The great areas contained in the national forests have now been brought to a condition where they are beginning to serve the purposes of the west. The conservation of timber and forage through wise use and the protection of stream flow are the means of sustaining many industries which have contributed materially to the prosperity of the country.

At the head of the forest service are Forester Henry S. Graves and Associate Forester A. F. Potter. The work is organized under the following branches: Operation, and also lands, James B. Adams, in charge; silviculture, W. B. Greeley, in charge; grazing, A. F. Potter, in charge; products, laboratory, McGarvey Cline, in charge; acquisition of land under the Weeks law, William L. Hall, in charge.

The 153 national forests are distributed in six districts, with a district forester in charge of each, and headquarters as follows: District 1 (Montana, northeastern Washington, northern Idaho, northwestern South Dakota, northern Michigan, northern Minnesota and southern North Dakota), Missoula, Mont. F. A. Silcox, district forester; district 2 (Colorado, Wyoming, the remainder of South Dakota, Nebraska and western Kansas), Denver, Col. Smith Riley, district forester; district 3 (most of Arizona, Arkansas, Florida, New Mexico and Oklahoma), Albuquerque, N. M., A. C. Ringland, district forester; district 4 (Utah, southern Idaho, western Wyoming, eastern and central Nevada and a small portion of northwestern Arizona), Ogden, Utah, E. A. Sherman, district forester; district 5 (California and southwestern Nevada), San Francisco, Cal., Coert DuBois, district forester, and district 6 (Washington, Oregon and Alaska), Portland, Ore., George H. Ceell, district forester.

On July 1, 1911, the force employed by the forest service numbered 3,366. Of these 2,696 were employed upon the national forests and 670 were engaged in administrative, scientific and clerical work at the Washington and district headquarters. Of the employees on the national forests the force engaged principally in protective work numbered 1,952 men, as follows: Forest rangers, 250; assistant forest rangers, 1,174; forest guards, 626; game wardens, 2; hunters and trappers, 8. The protective force was therefore about one man for every 104,000 acres, or 163 square miles. (Prussia has one man for every 1,700 acres and Baden one for every 750.)

BRANCH OF SILVICULTURE.

The branch of silviculture directs the management of the national forests as regards both the systems of cutting mature timber and the work of forest planting, supervises their protection, co-operates with states in developing forest policies adapted to their requirements, co-operates with

private forest owners who desire to practice forestry on their lands, and carries on silvicultural investigations of the important tree species of the United States. Its most important work is in connection with the management of the national forests, where the chief problem, after fire protection, is to replace the mature timber as it is sold and cut by young growth of valuable species.

In planting within the national forests, the primary object is to produce commercial timber, although in a number of cases planting has been done chiefly with the view of reforesting denuded watersheds, in order to control and regulate the flow of streams directly supplying cities and towns. During the season ended June 30, 1911, 25,230 acres in national forests were sown or planted to trees, chiefly Douglas fir, western yellow pine, Austrian pine and Engelmann spruce, in comparison with 7,400 acres the previous year; in fact, the areas planted in 1911 exceeded, by 10,000 acres, all the planting that previously had been done since the forests were created. There are forty-six government nurseries which supply the national forests. These have a present stock of about 38,800,000 plants and are capable of supplying 22,700,000 a year. In the east forest planting has been done mainly in co-operation with states and private owners, though experiments have been made with the French maritime pine for turpentine production, and with cork oak and Australian eucalyptus, in the Florida national forest.

At the request of the states the forest service makes examinations of their forest conditions, makes silvicultural studies of practical importance, suggests remedial legislation for giving the states a wise forest policy, etc. The cost of such work is shared by the states and the service. The service co-operates with private owners by sending its experts to examine timber tracts and report on the proper methods for managing and protecting them. The cost of such an examination is borne by the owner. During 1911 examinations were made of timber tracts aggregating 370,000 acres.

BRANCH OF GRAZING.

The branch of grazing supervises the grazing of live stock upon the national forests, the principal lines of work being: The allotment of grazing privileges, the issuance of grazing permits, the division of the ranges between different classes of stock or their owners and the regulation of the stock grazed under permit upon the ranges, and the development of the forage-producing capacity of the national forests by the restoration of depleted areas through systematic control of the stock grazed upon them or by artificial means, through the eradication of noxious range-destroying rodents and through the institution of new methods of range control. By co-operation with federal and state authorities in the enforcement of quarantine regulations, the national forests have been practically freed from infectious or contagious diseases fatal to live stock, and by an active campaign against predaceous animals destructive to live stock the annual loss from this source within the national forests has been reduced by several hundred thousand dollars.

The number of stock grazed during the last season (1911), under permit, and by settlers without permit was 1,347,933 head of cattle, horses and swine and 7,449,415 head of sheep and goats. The annual productive value of this number of stock is more than \$20,000,000. The number of persons holding permits to graze live stock during the last year was in excess of 20,000.

BRANCH OF PRODUCTS.

The branch of products carries on studies, tests and demonstrations to further the more complete utilization of the products of the forest. A forest products laboratory is operated at the University of Wisconsin, where experiments are made to determine the properties of American woods, to ascertain cheap and effective treatments to prevent decay, to test the adaptability of untried woods for specific uses such as paper pulp, to develop uses for the material wasted in sawmill operations and to discover processes of obtaining valuable chemical by-products from the waste which cannot be otherwise utilized. An office of wood utilization is maintained at Chicago to promote the

economic use of wood among the timber-consuming industries. Studies are made to find the kind, quantity and cost of timber consumed in different states and regions and also where the material comes from and what amount is lost through waste. The wood-consuming industries are aided in finding the most suitable raw material and in developing methods of utilizing their waste product. In the western states all products work centers in the district offices at Denver, San Francisco and Portland.

DENDROLOGICAL STUDIES.

An important part of the dendrological studies which are carried on by the service is the making of an accurate forest map of the distribution of tree species in the United States, to show the extent, composition and economic possibilities of our forest resources. Others of these studies concern the cedar forests of Texas and important but little known trees indigenous to the United States, the growth of which may profitably extend to new localities for economic purposes. Prominent among the latter are the desert pines of California. An investigation is being made of the present and probable future supply of western tanbark oak, as well as of other trees the barks of which are used to adulterate tanbark, and the tannin contents of the barks are being determined by the bureau of chemistry. Included also is a study of basket willows. Attention is given especially to the conditions under which high-grade basket rods may be produced. Approved basket willow cuttings are distributed free each spring to applicants interested in willow culture.

The dendrologist also gives technical information about trees, in response to inquiries, including the identification of the wood, seeds, foliage, etc., of native and exotic trees.

EASTERN NATIONAL FORESTS.

The act of March 1, 1911, commonly known as the Weeks law, provides for the acquisition of forest lands on the watersheds of navigable streams. Its purpose is to promote and protect the navigability of the streams by preserving the forest on the upland portions of their watersheds. Through this act means is afforded of extending the national forest system to regions where the government has hitherto owned no forest lands and taken no direct part in forest preservation.

The act imposes upon the forest service new duties in the selection, examination and valuation of areas for purchase, and this work required a new unit of organization. Immediate control was placed in charge of an assistant forester.

From April 1 to June 30, 1911, proposals were received covering 1,250,641 acres, of which 832,464 acres were within the general areas in the White mountains and the Southern Appalachians, which had been selected for purchase.

The examinations of the forest service prior to June 30, 1911, covered 140,787 acres. The service was ready to submit reports to the National Forest Reservation commission on this area of lands, but since the law requires reports also from the geological survey, and since the geological survey succeeded in examining only 89,590 acres, the commission could consider reports on only that area. The purchase of one tract of 31,377 acres was authorized.

At the beginning of the year 1912 the service has

a force of thirty-five examiners working and will undoubtedly be able to complete reports and recommend purchase of lands to the full amount of the \$2,000,000 available.

FOREST POLICY OF THE STATES.

New York has purchased and set aside 1,642,000 acres in the Adirondack and Catskill mountains as forest preserves, under the control of the forest, fish and game commission of the state. These lands and private lands in the preserve counties are protected from fire by an adequate system of wardens. Unfortunately, the constitution of the state prohibits the cutting of timber from state lands. In 1909 the commission distributed at cost to private owners 1,005,325 forest tree seedlings, and the waste and open land on the preserve is being gradually planted to trees under the supervision of trained foresters.

Pennsylvania has purchased more than 921,000 acres of land for state forest reserves, and the forestry commission has the right to purchase additional forest lands at a price not to exceed \$5 an acre. The reserves are situated chiefly on the mountains of the central part of the state and located with special reference to protecting the water supply of cities and towns. The state forest reserves are not only protected from fire, but are managed according to forestry principles, the mature timber being cut and sold. A school for training forest rangers for the reserves is maintained at Mont Alto. There is a well-organized forest fire protective system in the state. The state distributes forest trees for planting and gives advice in the management of forest lands to private owners.

Minnesota, Wisconsin and Michigan have well-organized state forest departments. Minnesota has 61,000 acres reserved; Wisconsin, 355,000 acres, and Michigan, 232,000. These are protected from fire and the open land is being planted and the mature timber cut and sold. Each of these states protects the forest land of private owners as well as that of the state forest reserves from fire and distributes tree seedlings for planting to land owners at cost. Ohio, New Hampshire and Vermont also distribute planting material to private owners and give them advice in regard to methods of forest management. The following states have forestry departments which seek to protect from fire by means of an organized warden system all or the greater portion of the forest lands of the state: Maine, New Hampshire, Vermont, Massachusetts, Connecticut, New Jersey, Maryland, Oregon and California, while Washington and Idaho provide for such protection through legal associations of land owners. Maine supports a very efficient forest fire service covering the unorganized townships in the northern part of the state. In the remaining townships the selectmen are ex officio wardens. Most of these states also have small state forests, that of New Jersey being 14,000 acres. Other states which have forest officers charged with forest interests are Rhode Island, Indiana, Kansas, Montana, North Carolina and West Virginia. South Carolina, Alabama and Louisiana have recently passed or have under consideration advanced forestry legislation. The recently adopted law of Louisiana is especially noteworthy in that it provides for a forest fire protective organization by means of a tax of 3/4 of a cent on every 1,000 board feet of lumber sawed in the state.

WINNERS OF THE NOBEL PRIZES.

PHYSICS.

- 1901—William Conrad Roentgen, professor of physics at the University of Munich.
- 1902—Divided equally between Henrik Anton Lorentz, professor of physics at the University of Leyden, and Peter Zeeman, professor of physics at the University of Amsterdam.
- 1903—Half to Antoine Henri Becquerel, professor of physics at the Ecole Polytechnique and at the Museum d'Histoire Naturelle, Paris, France, member Institut Francaise, and half to Pierre Curie, professor of physics at the University of Paris (Sorbonne) and teacher in physics at the Paris Municipal School of Industrial Physics and Chemistry, and his wife, Marie Sklodowska Curie, preceptress at the Higher Normal School for Young Girls at Sevres.
- 1904—Lord Rayleigh, professor of natural philosophy, Royal Institution of Great Britain, London.
- 1905—Philippe Lenard, professor of physics at the Physical Institute of Kiel.
- 1906—J. J. Thomson, professor of experimental physics at the University of Cambridge.
- 1907—Albert A. Michelson, professor of physics at the University of Chicago.
- 1908—Prof. Gabriel Lippman of the University of Paris.
- 1909—G. Marconi, Italy, and Prof. Ferdinand Braun of Strassburg.
- 1910—Johannes Diderik van der Waals, professor of experimental physics in the University of Amsterdam, Holland.
- 1911—Prof. Wilhelm Wien, University of Wurzburg.

MEDICINE.

- 1901—Emil Adolf von Behring, professor of hygiene and medical history at the University of Marburg, Prussia.
- 1902—Donald Ross, professor of tropical medicine at the University college of Liverpool.
- 1903—Niels Ryberg Finsen, professor of medicine, Copenhagen, Denmark.
- 1904—Ivan Petrovich Pawlow, professor of physiology in the Military Academy of Medicine, St. Petersburg.
- 1905—Robert Koch, member of the Royal Academy of Science, Berlin.
- 1906—Profs. Ramon y Cajal and Camillo Golgi of the Pavlia university, Italy.
- 1907—Charles L. A. Laveran of the Pasteur Institute in Paris.
- 1908—Dr. Paul Ehrlich of Berlin and Prof. Elle Metchnikoff of the Pasteur Institute, Paris.
- 1909—Prof. E. T. Kocher, Switzerland.
- 1910—Dr. Albrecht Kossel, professor of physiology, Heidelberg university, Germany.
- 1911—Allvar Gullstrand, professor of diseases of the eye, Upsala university, Sweden.

CHEMISTRY.

- 1901—Jakob Hendrik van't Hoff, professor of chemistry in the University of Berlin.
- 1902—Emil Fischer, professor of chemistry in the University of Berlin.
- 1903—Svante August Arrhenius, professor at the University of Stockholm.
- 1904—Sir William Ramsay, professor of chemistry in the University college, London.

PORTO RICO.

Forest.	Latest proclamation.	Acres.
Luquillo	Jan. 17, 1903	65,950

Grand total 149 national forests.....192,931,197

Following is the total acreage of each national forest which extends over a state boundary line:

Ashley	952,086	LaSala	474,130
Beaverhead	1,810,820	Minidoka	639,085
Coechoc	533,840	Mono	1,349,126
Caribou	706,846	Pocatello	276,542
Chiricahua	466,437	Stoux	249,653
Crater	1,119,834	Siskiyou	1,302,333
Dixie	1,102,665	Tahoe	1,932,127
Hayden	454,911	Targhee	1,479,320
Inyo	1,521,017	Wenaha	813,946
Kaniksu	942,156	Zuni	670,981

WINNERS OF THE NOBEL PRIZES.

- 1905—Adolf von Baeyer, professor of chemistry at Munich.
 - 1906—H. Moissan, professor of chemistry at the Sorbonne, Paris.
 - 1907—Eduard Buchner, professor of chemistry in the agricultural high school of Berlin.
 - 1908—Prof. Ernest Rutherford of the University of Manchester, England.
 - 1909—Prof. W. Ostwald of Leipsic.
 - 1910—Otto Wallach, professor of chemistry in the University of Gottingen.
 - 1911—Mme. Marie S. Curie, professor of sciences, University of Paris.
- LITERATURE.**
- 1901—Rene Francois Armand Sully-Prudhomme, member of the French academy.
 - 1902—Theodor Mommsen, a professor of history at the University of Berlin.
 - 1903—Bjornstjerne Bjornson, author, Norway.
 - 1904—Half to Frederic Mistral of France and half to Jose Echegaray of Spain.
 - 1905—Henryk Sienkiewicz, author of "Quo Vadis?"
 - 1906—Prof. Giosue Carducci of Bologna, Italy.
 - 1907—Rudyard Kipling of England.
 - 1908—Prof. Rudolf Eucken, University of Java.
 - 1909—Selma Lagerlof, Sweden.
 - 1910—Paul Johann Ludwig Heyse, Germany.
 - 1911—Maurice Maeterlucck, Belgium.

PEACE.

- 1901—Divided equally between Henri Dunant, founder of the International Red Cross Society of Geneva, and Frederic Passay, founder of the first French peace association, the "Societe Francaise pour l'Arbitrage Entre Nations."
 - 1902—Divided equally between Elle Ducommun, secretary of the International peace bureau at Bern, and Albert Gobat, chief of the Interparliamentary peace bureau at Bern.
 - 1903—William Randal Cremer, M. P., secretary of the International Arbitration League, London.
 - 1904—The Institute of International Right, a scientific association founded in 1873 in Ghent, Belgium.
 - 1905—Baroness Bertha von Suttner for her literary work written in the interest of the world's peace movement.
 - 1906—Theodore Roosevelt, president of the United States, for the part he took in bringing the Russo-Japanese war to an end. Money set apart by the president for the establishment of a permanent industrial peace commission.
 - 1907—Divided equally between Ernesto T. Moneta, president of the Lombardy Peace union, and Louis Renault, professor of international law at the University of Paris.
 - 1908—K. P. Arnlodsen of Sweden and M. F. Bajer of Denmark.
 - 1909—Baron d'Estournelles de Constant, Paris, and M. Beernaert, Holland.
 - 1910—International Permanent Peace Bureau, Bern.
 - 1911—Prof. T. C. M. Asser, Holland, and Alfred Fried, Austria.
- The prizes are awarded on the 10th of December of each year. They amount to nearly \$38,000 each. An official account of the origin of the Nobel prize fund will be found on page 108 of The Chicago Daily News Almanac and Year-Book for 1912.

INTERNATIONAL ARBITRATION TREATIES.

What was regarded as a long step toward the goal of universal peace was taken Aug. 3, 1911, when representatives of the United States, Great Britain and France signed arbitration treaties providing for the peaceful settlement of all questions arising between them, including those affecting the "vital interest, independence and honor" of the contracting parties. This important exception in former arbitration treaties was ignored in the new conventions, which were so broad as to cover practically all contingencies.

The proposal to remove the old limitations to arbitration treaties was first made by President William H. Taft in a speech at a dinner of the American Society for the Judicial Settlement of International Disputes, in Washington, Dec. 17, 1910. He later reiterated his belief in the possibility of arbitrating all kinds of questions, and March 13, 1911, Sir Edward Grey, minister of foreign affairs in the British cabinet, made a speech in the house of commons, strongly commending the stand taken by President Taft. The utterances of the statesmen met with public approval on both sides of the Atlantic and the work of embodying the idea in actual treaties was at once begun. France assented to the general proposition from the start and the negotiations included that country as well as Britain and the United States. The original draft of the new form of arbitration treaty was drawn by Secretary of State Knox, but in perfecting the document he had the assistance of Ambassador James Bryce of Great Britain and Ambassador Jusserand of France.

The text of the treaty with Great Britain is herewith given in full, that with France being identical in terms except as to names of contracting parties and plenipotentiaries:

"The United States of America and his majesty the king of the United Kingdom of Great Britain and Ireland and of the British dominions beyond the seas, emperor of India, being equally desirous of perpetuating the peace, which has happily existed between the two nations, as established in 1814 by the treaty of Ghent, and has never since been interrupted by an appeal to arms, and which has been confirmed and strengthened in recent years by a number of treaties whereby pending controversies have been adjusted by agreement or settled by arbitration or otherwise provided for so that now for the first time there are no important questions of difference outstanding between them, and being resolved that no future differences shall be a cause of hostilities between them or interrupt their good relations and friendship;

"The high contracting parties have, therefore, determined, in furtherance of these ends, to conclude a treaty extending the scope and obligations of the policy of arbitration adopted in their present arbitration treaty of April 4, 1908, so as to exclude certain exceptions contained in that treaty and to provide means for the peaceful solution of all questions of difference which it shall be found impossible in future to settle by diplomacy.

"For that purpose they have appointed as their respective plenipotentiaries:

"The president of the United States of America, the Hon. Philander C. Knox, secretary of state of the United States, and

"His Britannic majesty, the Rt.-Hon. James Bryce, O. M., his ambassador extraordinary and plenipotentiary at Washington,

"Who, having communicated to one another their full powers, found in good and due form, have agreed upon the following articles:

ARTICLE I.

"All differences hereafter arising between the high contracting parties, which it has not been possible to adjust by diplomacy, relating to international matters in which the high contracting parties are concerned by virtue of a claim of right made by one against the other under treaty or otherwise, and which are justiciable in their nature by reason of being susceptible of decision by the application of the principles of law or equity, shall be submitted to the permanent court of arbitration established at The Hague by the convention of Oct. 18, 1907, or to some other arbitral

tribunal as may be decided in each case by special agreement, which special agreement shall provide for the organization of such tribunal if necessary, define the scope of the powers of the arbitrators, the question or questions at issue, and settle the terms of reference and the procedure thereunder.

"The provisions of articles 37 to 90, inclusive, of the convention for the pacific settlement of international disputes concluded at the second peace conference at The Hague on Oct. 18, 1907, so far as applicable, and unless they are inconsistent with or modified by the provisions of the special agreement, to be concluded in each case, and excepting articles 53 and 54 of such convention, shall govern the arbitration proceedings to be taken under this treaty.

"The special agreement in each case shall be made on the part of the United States by the president of the United States, by and with the advice and consent of the senate thereof, his majesty's government preserving the right before concluding a special agreement in any matter affecting the interests of a self-governing dominion of the British empire to obtain the concurrence therein of the government of that dominion.

"Such agreement shall be binding when confirmed by the two governments by an exchange of notes.

ARTICLE II.

"The high contracting parties further agree to institute, as occasion arises, and as hereinafter provided, a joint high commission of inquiry, to which, upon the request of either party, shall be referred for impartial and conscientious investigation any controversy between the parties within the scope of article I., before such controversy has been submitted to arbitration, and also any other controversy hereafter arising between them, even if they are not agreed that it falls within the scope of article I.; provided, however, that such reference may be postponed until the expiration of one year after the date of the formal request therefor in order to afford an opportunity for diplomatic discussion and adjustment of the questions in controversy, if either party desires such postponement.

"Whenever a question or matter of difference is referred to the joint high commission of inquiry, as herein provided, each of the high contracting parties shall designate three of its nationals to act as members of the commission of inquiry for the purposes of such reference, or the commission may be otherwise constituted in any particular case by the terms of reference, the membership of the commission and the terms of reference to be determined in each case by an exchange of notes.

"The provisions of articles 9 to 26, inclusive, of the convention for the pacific settlement of international disputes concluded at The Hague Oct. 18, 1907, so far as applicable, and unless they are inconsistent with the provisions of this treaty, or modified by the terms of reference agreed upon in any particular case, shall govern the organization and procedure of the commission.

ARTICLE III.

"The joint high commission of inquiry, instituted in each case as provided for in article II., is authorized to examine into and report upon the particular questions or matters referred to it for the purpose of facilitating the solution of disputes by elucidating the facts and to define the issues presented by such questions, and also to include in its report such recommendations and conclusions as may be appropriate.

"The reports of the commission shall not be regarded as decisions of the questions or matters so submitted, either on the facts or on the law, and shall in no way have the character of an arbitral award.

"It is further agreed, however, that in cases in which the parties disagree as to whether or not a difference is subject to arbitration under article I. of this treaty, that question shall be submitted to the joint high commission of inquiry, and if all or all but one of the members of the commission agree and report that such difference is within

the scope of article I, it shall be referred to arbitration in accordance with the provisions of this treaty.

ARTICLE IV.

"The commission shall have power to administer oaths to witnesses and take evidence on oath whenever deemed necessary in any proceeding, or inquiry, or matter within its jurisdiction under this treaty; and the high contracting parties agree to adopt such legislation as may be appropriate and necessary to give the commission the powers above mentioned, and to provide for the issue of subpoenas and for compelling the attendance of witnesses in the proceedings before the commission.

On the inquiry both sides must be heard, and each party is entitled to appoint an agent, whose duty it shall be to represent his government before the commission and to present to the commission, either personally or through counsel retained for that purpose, such evidence and arguments as he may deem necessary and appropriate for the information of the commission.

ARTICLE V.

"The commission shall meet whenever called upon to make an examination and report under the terms of this treaty, and the commission may fix such times and places for its meetings as may be necessary, subject at all times to special call or direction of the two governments. Each commissioner, upon the first joint meeting of the commission after his appointment, shall, before proceeding with the work of the commission, make and subscribe a solemn declaration in writing that he will faithfully and impartially perform the duties imposed upon him under this treaty, and such declaration shall be entered on the records of the proceedings of the commission.

The United States and British sections of the commission may each appoint a secretary, and these shall act as joint secretaries of the commission at its joint sessions, and the commission may employ experts and clerical assistants from time to time as it may deem advisable. The salaries and personal expenses of the commission and of the agents and of counsel and of the secretaries shall be paid by their respective governments and all reasonable and necessary joint expenses of the commission incurred by it shall be paid in equal moieties by the high contracting parties.

ARTICLE VI.

"This treaty shall supersede the arbitration treaty concluded between the high contracting parties on April 4, 1903, but all agreements, awards and proceedings under that treaty shall continue in force and effect and this treaty shall not affect in any way the provisions of the treaty of Jan. 11, 1909, relating to questions arising between the United States and the Dominion of Canada.

ARTICLE VII.

"The present treaty shall be ratified by the president of the United States of America, by and with the advice and consent of the senate thereof, and by his Britannic majesty. The ratifications shall be exchanged at Washington as soon as possible, and the treaty shall take effect on the date of the exchange of its ratifications. It shall thereafter remain in force continuously, unless and until terminated by twenty-four months' written notice given by either high contracting party to the other.

"In faith whereof, the respective plenipotentiaries have signed this treaty in duplicate and have hereto affixed their seals.

"Done at Washington, the third day of August, in the year of our Lord one thousand nine hundred and eleven."

OPPOSITION IN SENATE.

The treaties were, immediately upon their conclusion, transmitted to the United States senate for ratification. The committee on foreign relations, to which it was referred, submitted a majority and a minority report. The majority report, presented by Senator Lodge, recommended that the treaties be ratified only with certain amendments safeguarding the prerogatives of the senate. The most important amendment proposed striking out of article 3 the stipulation to refer to a joint commission the question whether a difference is arbitrable. The minority report, presented by Senator Root for himself and Senators Culom and Burton, recommended that the treaties be ratified with an accompanying express declaration that they did not embrace questions of governmental policy.

Up to the time this edition of The Daily News Almanac and Year-Book went to press the treaties had not been ratified.

THE BOY SCOUT MOVEMENT.

The boy scout movement was started in England by Lieut.-Gen. Sir Robert S. S. Baden-Powell in 1908. Boys were enrolled in a uniform corps, properly officered, for the purpose of training them in patriotism, chivalry, self-reliance, woodcraft, tracking, healthful exercises and good citizenship. The

plan was successful from the start and thousands of boys in all parts of the British empire belong to the organization. Similar corps have been started in the United States, Germany, Argentina, Chile, Smyrna, China and other countries. The movement is nonmilitary.

GENERAL NATIONAL AND INTERNATIONAL ASSOCIATIONS.

American Association for the Study and Prevention of Infant Mortality—Miss Gertrude B. Knipp, Cathedral street, Baltimore, Md.

American Bankers' Association—President, F. O. Watts, Nashville, Tenn.; secretary, F. E. Farnsworth, New York, N. Y.

National Academy of Design—President, John W. Alexander, New York, N. Y.

National Children's Home Society—President, Dr. C. R. Henderson, Chicago, Ill.; secretary, Dr. H. H. Hart, 105 East 22d street, New York, N. Y.

National Civic Federation—President, Seth Low, New York, N. Y.; chairman executive council, Ralph M. Easley, New York, N. Y.

National Conference of Charities and Correction—President, Judge Julian W. Mack, Washington, D. C.; secretary, Alexander Johnson, Fort Wayne, Ind.

National Conservation Association—President, Gifford Pinchot; secretary, Thomas R. Shipp, Indianapolis, Ind.

National Board of Trade—President, Frank D. La Lanne, Philadelphia, Pa.; secretary-treasurer, William R. Tucker, Philadelphia, Pa.

National Council of Women Voters—President, Mrs. Emma Smith Devoe, Washington, D. C.; corresponding secretary, Mrs. Bertia K. Kittleson, Tacoma, Wash.

National League for the Protection of the Family—President, Seth Low, New York, N. Y.; corresponding secretary, Rev. Samuel W. Dike, Auburndale, Mass.

National Mothers' Congress—President, Mrs. Frederick Schoff, Philadelphia, Pa.; corresponding secretary, Mrs. James H. McGill, Washington, D. C.

National Municipal League—President, William Dudley Foulke, Richmond, Ind.; secretary, Clinton R. Woodruff, Philadelphia, Pa.

Universal Peace Union—President, Alfred H. Love, Philadelphia, Pa.; secretary, Mrs. Arthur A. Birney, Washington, D. C.

American Prison Association—President, Frederick G. Pettigrove, Boston, Mass.; secretary, Joseph P. Byers, 43 Central avenue, Newark, N. J.

National Soil Fertility League—President, Howard H. Gross, Chicago, Ill.; office, 1328 First National bank building, Chicago, Ill.

National Woman's Suffrage Association—President, Anna Howard Shaw, Moylan, Pa.; first vice-president, Jane Addams, Chicago, Ill.; corresponding secretary, Mrs. Mary W. Dennett, New York, N. Y.

National Woman's Christian Temperance Union—President, Mrs. Lillian M. N. Stevens, Portland, Me.; corresponding secretary, Mrs. Frances P. Parks, Evanston, Ill.

Playground Association of America—President, Joseph Lee, Boston, Mass.; secretary, E. S. Braucher, New York, N. Y.

RAILWAY STRIKES IN ENGLAND AND IRELAND.

Dissatisfied with the scale of wages paid and working conditions generally, the railway employes of the united kingdom went on a strike Aug. 15, 1911. For a time the passenger and freight traffic on many of the lines was seriously affected and business generally was much disturbed. Riots attended by bloodshed and loss of life occurred in a number of places. In Liverpool troops had to be called out to restore order. It was estimated that between 150,000 and 200,000 men obeyed the order of the Amalgamated Society of Railway Servants to quit work. The strike continued for four days and food supplies were beginning to get scarce and dear in London and other large cities when on Aug. 19 a compromise was reached and peace restored. The settlement was made at a conference between

Chancellor Lloyd-George and representatives of the railroad employes and was consented to by the railway managers. It was agreed that a committee should be appointed to look into the workings of the conciliation act of 1907, which the men claimed to be the root of all their grievances. The government also promised to help the men and the railroads so that more adequate wages would be possible.

In Ireland, Sept. 22, the railway employes' union attempted to bring about a general strike, but it proved a fizzle and lasted only a few days. Some of the lines in the southern part of the country were tied up, but most of the roads continued business about as usual.

STRIKE OF SEAMEN IN EUROPE.

The International Seamen's union called a strike at the principal ports of Europe June 14, 1911. The order was generally obeyed and shipping experienced considerable delay, particularly as the coal porters were on strike at the same time. Many steamers were temporarily tied up in English,

Dutch and German ports and sailing schedules were disarranged to some extent, but in the course of a few weeks new men were secured and business proceeded as usual. The strike, which was for better wages and working conditions, proved a failure.

REVOLUTIONARY MOVEMENTS IN CHINA.

Aug. 27, 1908, an imperial decree was issued in Peking, China, announcing the convocation of a parliament and the proclamation of a constitution in the ninth year from that date. Oct. 31, 1909, a decree was issued fixing the classes from which the upper house of parliament or the senate was to be elected and Oct. 3, 1910, this body met for the first time. It was composed of 262 members, ninety-eight of whom were nominated by the emperor, the remainder representing the provincial assemblies, the grand council and various boards. The provincial assemblies were instituted in 1908 with purely consultative functions. The senate continued in session until Jan. 11, 1911, when it was dissolved.

May 8 an edict was issued providing for a cabinet and a privy council. The cabinet consisted of a president and ministers of foreign affairs, finance, interior, war, navy, justice, agriculture, commerce, and dependencies. The duty of the cabinet was to assist the emperor in the responsibilities of government, but as the president was given the right of veto over the other members and was the direct means of communication with the throne the ministry possessed but little real power. The privy council was made up of forty-four personal advisers of the emperor. Prince Ching was made president or premier and minister of foreign affairs.

These measures did not have the effect intended. The delay in establishing a real constitutional government on modern lines and the general hatred of Manchu rule, with its corruption, inefficiency and tyranny, caused great dissatisfaction among progressive Chinamen. Disturbances in various parts of the empire increased in number and seriousness. The enemies of the government began to organize, first secretly and then openly, and they found sympathizers not only among the common people, but among merchants, statesmen and non-Manchu officials. Even soldiers from the imperial regiments joined their ranks. While not entirely agreed upon any policy except, possibly, that of overthrowing the dynasty, many of the revolutionaries declared themselves in favor of establishing a republic modeled after that in the United States.

The first outbreaks were mainly confined to the provinces of Szechuan, Hupeh and Hunan, but they spread rapidly to nearly every part of the empire. One large city after another fell into the hands of the rebels, and by the middle of October the government was in a panic and was preparing to abandon the struggle. Then Prince Chun, the regent, summoned to the assistance of the throne Yuan Shih-kai, an influential statesman whom he had stripped of power in 1909 because of his efforts on behalf of popular government. At the same time the government announced that it would grant the Chinese a parliament not dominated by Manchu princes and also a responsible ministry without further delay. This had the effect of postponing, if not preventing, the fall of the dynasty, though the fighting between the imperialist troops and the rebels continued with undiminished energy.

Following is a brief chronological summary of the principal events in the rebellion up to the time this edition of The Daily News Almanac and Year-Book goes to press:

April—Rebellion in Kwangtung province; residence of viceroy of Canton burned and Li, taotai of same city, assassinated; rebellion suppressed by loyal troops.

Sept. 7—Tromble breaks out in Szechuan province, the immediate cause being opposition to the construction of railroads by foreigners. Mob attacks official residence of viceroy in Chengtu; forty rioters killed.

Sept. 21—Siege of Chengtu by rebels raised after two weeks of fighting, the government troops being victorious.

Oct. 10—Revolution breaks out at Wuchang, province of Hupeh; city captured by rebels and viceroy compelled to flee; regular troops assassinate their commander, Gen. Chang Piao, burn their barracks and join the revolutionists.

Oct. 12—Native city of Hankow, opposite Wuchang, captured by rebels, who kill 300 Manchus. City of Hanyang also taken, with large arsenal and powder factory. Foreigners not molested. Provin-

cial assembly of Hupeh secedes from imperial government.

Oct. 14—Yuan Shih-kai, former grand councillor and commander in chief of the army and navy, recalled and appointed viceroy of Hupeh and Hunan provinces.

Oct. 17—Detachment from German war ships, landing at Hankow, attacked by a mob.

Oct. 18—Rebels and loyal troops fighting for possession of Hankow.

Oct. 19—Six steamers packed with refugees arrive at Shanghai from Hankow. Massacre of Manchus in Wuchang, Hankow and Hanyang described as appalling.

Oct. 20—Rebels win victory over loyalist soldiers at Hankow.

Oct. 23—Occupation by rebels of Changsha, capital of Hunan, and Nanchang, capital of Kiangsi, announced. Provinces of Szechuan, Hupeh, Hunan and Kiangsi practically in control of rebels.

Oct. 25—National assembly impeaches Sheng Hsuan Hual, president of the ministry of posts and communications, demanding his dismissal. Imperial family reported ready for flight. Tartar general, Fung Sen, assassinated in Canton.

Oct. 26—Throne dismisses Sheng Hsuan Hual, orders Prince Ching before a board of inquiry, and orders released from custody the president of the Szechuan provincial assembly and other leaders of the revolt at Chengtu.

Oct. 27—Provincial assembly asks for the immediate institution of a popular parliament, the reconstruction of the cabinet with the nobles excluded and the pardon of political offenders.

Oct. 28—Imperial edict issued granting demands of national assembly in full. Emperor apologizes abjectly for his faults and promises reforms.

Nov. 1—Yuan Shih-kai appointed premier. Gen. Yin Tchang made chief of general staff.

Nov. 2—Hankow retaken by imperialist troops and hundreds of Chinese massacred.

Nov. 3—Throne issues edict accepting preliminary constitution drawn up by the national assembly.

Nov. 4—Large part of Hankow destroyed by fire. Rebels capture Hangshou, capital of Chekiang; Suchow in Kiangsi, Kashing and Ningpo.

Nov. 6—Revolutionaries in Shanghai form a local cabinet with Wu Ting-fang as minister of foreign affairs.

Nov. 5—Loss by fire in Hankow estimated at \$50,000,000.

Nov. 7—Provinces north of the Yangtsekwang reported to be declaring for a republic. Gen. Wu Lu-Cheng assassinated by Manchu troops for treason.

Nov. 9—Canton declares its independence and lowers the dragon flag. Fuchow in the hands of the revolutionists.

Nov. 10—General massacre of men, women and children begun by imperialist troops in Nanking.

Nov. 11—Chinese behead Tartar general in Fuchow.

Nov. 13—Yuan Shih-kai enters Peking.

Nov. 14—Thirteen vessels of the imperial fleet at Shanghai go over to the rebels.

Nov. 16—Yuan Shih-kai accepts the post of premier in imperial government; appoints new cabinet. Provincial assembly of Chihli memorializes the throne to establish a republic. Wu Ting-fang asks the emperor to abdicate.

Nov. 17—Fighting begins at Nanking.

Nov. 19—Massacre of nine white missionaries at Hsianfu in province of Shensi.

Nov. 28—Imperial troops take Wuchang and Han-

yang.

Nov. 29—Rebels besieging Nanking.

Dec. 6—Prince Chun, the regent and father of the child emperor, abdicates. His place as guardian of the throne is taken jointly by Shih-Hsu, a Manchu prince and former president of the national assembly, and Hsu-Shi Chang, vice-president of the privy council. Prince Chun's mind reported to have failed under strain of revolution. Negotiations for \$50,000,000 foreign loan for the reorganization of the currency broken off and not to be resumed until after a stable government has been established; Russia and Japan to demand representation in future loans.

EVENTS OF THE YEAR 1911.

FIRE LOSSES AND CASUALTIES.

Albany, N. Y., March 29—Capitol building partly burned; loss, \$5,000,000.
 Antwerp, Holland, Aug. 11—Fire in warehouse district; loss, \$1,500,000.
 Aurora, Mo., March 27—Family of five burned to death.
 Bangor, Me., April 30—Part of city destroyed by fire; loss, \$3,000,000.
 Bologoe, Russia, March 6—More than 100 lives lost by burning of moving picture theater.
 Bombay, India, April 9—Two hundred persons burned to death at a festival.
 Buenos Aires, Argentina, March 22—Merchandise valued at \$3,000,000 in customs warehouses burned.
 Chicago, Jan. 12—Plant of Northwestern Terra Cotta company burned; loss, \$150,000.
 Chicago, Jan. 30—Fire at 2403 West North avenue caused loss of \$100,000.
 Chicago, Feb. 20—Building at 1619-1621 Michigan avenue destroyed by fire; loss, \$100,000.
 Chicago, March 19—Monarch Refrigerating company's warehouse "B" burned; loss, \$378,000.
 Chicago, May 14—Fireman killed in blaze at 2221-2225 Rice street.
 Chicago, May 22—Property valued at \$100,000 burned at 330 Orleans street.
 Chicago, July 9—Dixon Transfer company's barn at 1333-1339 South State street burned; loss, \$500,000; many horses burned.
 Chicago, Aug. 5—Four firemen hurt and property valued at \$250,000 destroyed at fire in Chicago Produce Exchange building.
 Chicago, Sept. 25—Four lives lost at a fire at 1336 South Sangamon street.
 Chicago, Oct. 14—Property worth \$125,000 burned at 2410 West 15th street.
 Chicago, Nov. 9—Plant of Chicago Flour Mills company burned; loss, \$500,000.
 Cincinnati, O., Jan. 10—Chamber of Commerce building burned; loss, \$1,000,000.
 Coney Island, N. Y., May 27—"Dreamland" burned; loss, \$2,000,000.
 Councilville, Pa., Jan. 12—Five persons killed and twelve injured by fire and explosion in store.
 Constantinople, Turkey, July 23-24—More than 6,000 houses burned in the Stamboul section of the city.
 Donaldsville, La., Feb. 23—Business section burned; three lives lost; property loss, \$500,000.
 Edinburgh, Scotland, May 9—Seven lives lost through burning of Empire Music hall.
 Fort Worth, Tex., June 25—Loss of \$100,000 caused by fire in stockyards.
 Granville, N. Y., Jan. 3—Greater part of town burned; loss, \$250,000.
 Hamilton, Ont., Aug. 1—Eight lives lost in fire in insane asylum.
 Indiana, Pa., Oct. 1—Eight children burned to death in family residence.
 Jefferson City, Mo., Feb. 5—State capitol burned; loss, \$1,000,000.
 Juneau, Alaska, Sept. 4—Nine persons burned to death in a hotel fire.
 Kansas City, Mo., Jan. 6—Plant of Kansas City bolt and nut works damaged by fire; loss, \$200,000.
 Kirin, Manchuria, May 9—Half of city destroyed by fire; more than 12,000 houses destroyed; loss, \$20,000,000.
 Leavenworth, Kas., March 22—County courthouse burned; loss, \$1,000,000.
 Little Rock, Ark., Jan. 3—Square of buildings burned; loss, \$500,000.
 London, England, Aug. 9—Hotel Carlton badly damaged by fire.
 Milwaukee, Wis., March 24—Middleton Manufacturing plant burned; four firemen killed; loss, \$1,000,000.
 Minneapolis, Minn., March 5—Syndicate block burned; loss, \$1,000,000.
 Minneapolis, Minn., March 25—Several apartment houses burned; loss, \$1,000,000.
 New York, N. Y., Feb. 8—Bischoff chocolate factory in Brooklyn burned; loss, \$500,000.

New York, N. Y., March 11-13—Pratt oil works burned; loss, \$500,000.
 New York, N. Y., March 25—Fire in Asch building causes loss of 141 lives.
 Ogden, Utah, Nov. 15—Business buildings burned; loss, \$750,000.
 Peoria, Ill., Oct. 17—Feedhouse of Atlas distillery burned; loss, \$150,000.
 Philadelphia, Pa., Dec. 22, 1910—Twenty-three lives lost in fire in Friedlander leather factory.
 Portland, Me., April 17—High school building burned; loss, \$100,000.
 Quebec Canada, May 27—Several factories and dwellings burned; loss, \$250,000.
 Roanoke, Va., April 23—Widow and seven children burned to death.
 San Luis Potosi, Mexico, Jan. 3—Fire in church causes panic; seventeen persons killed and eighty injured.
 The Dalles, Ore., July 31—Flour mill burned; loss, \$200,000.
 Tokyo, Japan, April 9—Yoshiwari district burned; 5,000 houses in ruins.
 Utica, N. Y., May 20—Five girls burned to death in residence.
 White Plains, N. Y., Feb. 23—Business buildings burned; loss, \$200,000.
 Whitewright, Tex., June 13—Many business buildings and residences burned; loss, \$300,000.
 Yamagata, Japan, May 8—One thousand houses destroyed by fire.

MARINE DISASTERS.

Asia, Pacific Mail steamship, sunk off Finger Rock, Southern China, April 24—No lives lost.
 Bruce, steamer, sunk off Breton coast, March 23—Three lives lost.
 Charles Pozal, steamer, founders in typhoon, near Manila, April 23—Fifteen lives lost.
 Eclipse, Norwegian steamer, founders north of Iceland, about July 1—Fifty-six lives reported lost.
 Emir, French steamer, sunk near Tarifa, Spain, Aug. 9—Ninety-three persons drowned.
 Empress of China, steamer, stranded on rock off coast of Japan, July 27—No lives lost.
 Fisher, steel steamer, sunk in lower Detroit river, May 5—Three lives lost.
 German submarine, U3, wrecked in Kiel harbor, Jan. 17—Three lives lost.
 Glenbank, Russian bark, wrecked off West Australian coast, Feb. 10—Twenty-nine lives lost.
 Irma, steamer, sunk in collision in estuary of San Juan river, Nicaragua, about July 14—Fifty-two lives lost.
 Iroquois, steamer, capsized in Gulf of Georgia, April 10—Twenty lives lost.
 Ivernia, steamship, runs on rock on Irish coast—No lives lost.
 John L. Lowry, steamer, burned in Ohio river, June 15—No lives lost.
 John Mitchell, steamer, sunk in collision on Lake Superior, July 10—No lives lost.
 Liberte, French battle ship, sunk by explosion in Toulon harbor, Sept. 25—235 lives lost.
 Lusitania, steamer, wrecked near Cape of Good Hope, April 19—Eight lives lost.
 Muraviev Amurski, river steamer, burned near Blagovestchensk, Russia, June 8—Sixty lives lost.
 Nemo, launch, sunk in collision in Maumee river at Toledo, O., Sept. 2—Seven lives lost.
 Northwest, steamer, badly damaged by fire at Buffalo, N. Y., June 3—No lives lost.
 Olympic, steamship, rammed by cruiser Hawke, near Southampton, England, Sept. 20—No lives lost.
 Queen, steamer, lost in Gulf of Mexico, May 8—Five lives lost.
 Santa Rosa, steamer, wrecked on coast of California, July 7—Four lives lost.
 Scheldt, steamer, wrecked off Beachey Head, B. C., March 24—Twenty-eight lives lost.
 Taboga, steamer, wrecked off coast of Panama, May 23—Twenty lives lost.
 Tennyson, steamship, burned at dock in New York, N. Y., Oct. 5—No lives lost.

Treverton, Corbin and Pine Forest, barges, lost off Massachusetts coast, Jan. 10—Seventeen lives lost. Tuacapel, steamer, wrecked off coast of Peru, Sept. 5—Eighty-one persons drowned. Whipsper, schooner, sunk off coast of Nicaragua, Sept. 10—Fourteen men drowned.

RAILROAD WRECKS.

Atlantic Coast line, March 25—Eight persons killed and a dozen injured in wreck at Ocilla, Ga. Bangor & Aroostook road, July 23—Eight persons killed and fourteen injured in collision at Grindstone, Me. Burlington road, May 29—Fourteen persons killed and twenty injured in collision near McCook, Neb. Denver & Rio Grande road, May 10—Two men killed and twenty-seven persons injured by derailling of train near Minturn, Col. Erie & Pittsburgh road, Sept. 4—Four persons killed and many injured in collision at Docks Junction, Pa. Lehigh Valley road, Aug. 25—Twenty-seven persons killed and seventy-six injured by plunge of train through trestle near Canadanauga, N. Y. New York, New Haven & Hartford road, July 11—Twelve persons killed and forty-four injured by derailling of train in Bridgeport, Conn. New York, New Haven & Hartford road, Aug. 28—One killed and sixty injured in wreck near Middletown, Conn. New York Central line, Jan. 13—Five men killed and more than a score hurt in collision at Batavia, N. Y. Oregon Trunk line, July 11—Five persons killed in wreck near The Dalles, Ore. Pennsylvania road, April 23—Eleven persons killed and many injured in wreck at Martin's Creek, N. J. Pennsylvania road, Aug. 13—Four persons killed and thirty injured in wreck at Fort Wayne, Ind. Soo line, Sept. 5—Three killed and twenty injured in wreck near Neenah, Wis. Southern Pacific road, Feb. 21—Fifteen persons injured in derailling of train near Palisade, Nev. Union Pacific road, Sept. 3—Twelve persons injured in wreck at Kersey, Col. Union Pacific road, Oct. 28—Four persons killed and twenty injured in collision at Rock River, Wyo. Valencia, Spain, Feb. 1—Thirty persons killed in railway wreck. Valparaiso, Chile, Feb. 24—Eighteen men killed by fall of train into gorge.

STORMS AND FLOODS.

Ablene, Tex., July 31—Two persons killed and much damage to property done by storm of wind and hail. Antler, N. D., Aug. 20—Twenty-four persons injured by tornado. Charleston, S. C., Aug. 27—Fifteen persons killed and property worth \$1,000,000 destroyed by heavy gale. Chicago, Sept. 7—Two yachts sunk in harbor by violent storm; other damage done. Chicago, Nov. 12—Two lives lost in sudden blizzard. Chile, June 23—Cyclone sweeps the coast; more than 200 lives reported lost. China, July and September—Great destruction of life and property caused by floods in Yangtze river. Easton, Ill., Nov. 12—Two persons killed and seven injured in storm. Holland, Oct. 3—Much damage done by great storm throughout country. Iquique, Chile, June 23—Cyclone causes loss of \$10,000,000. Japan, June 20—Hundreds of lives lost in great storm on coast. Japan, July 26—More than 500 lives lost in typhoon and tidal wave in vicinity of Yokohama and Tokyo. Janesville, Wis., Nov. 12—Storm in Rock county kills nine persons and causes property loss estimated at nearly \$1,000,000. Mediterranean—Many lives lost in heavy storm at sea.

Minot, N. D., Aug. 20—Five persons killed and 125 injured by tornado. New York, N. Y., June 11-12—Five deaths and property loss of \$1,000,000 caused by storm. North sea, Oct. 3—Great damage done to shipping by heavy gale on North sea; many crews drowned. Oklahoma and Kansas, April 12—Twenty-four persons killed and much property destroyed in various towns in Oklahoma and Kansas by heavy wind storm. Trieste, Austria, June 15—Many lives lost and great damage done by hurricane and heavy tide.

MINE DISASTERS.

Bolton, England, Dec. 21, 1910—More than 300 miners killed in explosion in Little Hulton colliery. East Canonsburg, Pa., March 22—Nine men killed by fall of rock in coal mine. Elk Garden, W. Va., April 24—Twenty-three men killed by an explosion in coal mine. Harrisburg, Ill., Oct. 23—Eight men killed by powder explosion in O'Gara coal mine. Hibernia, N. J., Oct. 20—Eight men drowned in iron mines by inrush of subterranean stream. Larksville, Pa., May 11—Five men suffocated by smoke in Boston colliery. Littleton, Ala., April 8—Explosion causes death of 123 miners, most of them convicts. Radersburg, Mont., Jan. 18—Six miners killed in an explosion in Keating mine. Scranton, Pa., April 7—Fire in Pancoast mine causes death of seventy-three men. Shannon, W. Va., Aug. 2—Four miners killed by an explosion in coal mine. Sosnowice, Russia, Jan. 20—Forty miners killed in a mine fire. Sykesville, Pa., July 16—Twenty-one miners killed in a coal mine explosion. Trinidad, Col., Feb. 10—Fifteen men killed in an explosion in Coakdale mine. Virginia, Minn., March 11—Twenty-six men killed by fall of rock in Norman mine.

MISCELLANEOUS CASUALTIES.

Aibge, Russia, Feb. 25—School overwhelmed by avalanche; sixteen lives lost. Austin, Pa., Sept. 30—About seventy-five lives lost and property worth \$6,000,000 destroyed by breaking of dam. Black River Falls, Wis., Oct. 6—Damage estimated at \$1,200,000 caused by breaking of dam and sweeping away of business houses and residences; no lives lost. Delaware, U. S. battle ship, Jan. 17—Eight men killed by boiler explosion. Neenah, Wis., Sept. 24—Thirteen members of picnic party killed by train striking hayrack on which they were riding. Syracuse, N. Y., Sept. 16—Nine persons killed in automobile accident at state fair. Uglitch, Russia, June 12—Thirty persons drowned by sinking of ferryboat on the Volga.

ASSASSINATION OF PRESIDENT CACERES.

Ramon Caceres, president of the republic of Santo Domingo, was assassinated by Luis Telera and Jaime Mote, Jr., in Santo Domingo city, Nov. 20, 1911. He had made a call at the residence of Leonte Vasquez when he was shot by the two men, dying half an hour later in the American legation, to which he was taken. The killing was the result of personal enmity and not of politics. Caceres was elected president in June, 1908, to serve six years. Dec. 2 Senator Eladio was elected to fill the vacancy.

NUMBER OF WORDS IN THE BIBLE.

According to Prof. Albert S. Cook of Yale university only about 6,000 words are used in the authorized version of the bible. Milton used about 13,000 and Shakespeare something like 21,000 words. These facts were brought out in connection with the bible tercentenary, which was celebrated in 1911. It was generally supposed in view of its great influence upon literature that the bible contained many more words.

OCCUPATIONS IN THE UNITED STATES.

[Census of 1900.]

Actors	8,392	Elevator tenders.....	12,691	Oil well and works em- ployes	24,628

FIRE CALAMITY IN NEW YORK CITY.

One hundred and forty-one persons were killed in a fire which burned out a ten story factory building at the northwest corner of Washington place and Greene street, New York, N. Y., Saturday afternoon, March 25, 1911. Most of the victims were girls or young women employed by the Triangle Waist company, which occupied the three upper floors of the structure. The fire started on the eighth floor in a scrap heap under a cutting table and was probably caused by a lighted cigarette thrown into the waste. It was 5:30 o'clock and some of the 700 employes were at the cashier's window waiting for their pay checks when the flames caused an instant panic. Some escaped by the elevators, which were kept running as long as possible, and others got away by climbing to the roof, whence they succeeded in reaching the adjoining building. Several of these were helped by members of a law class. Some came down the narrow stairways or by a fire escape in an interior court. The flames made rapid headway and the three

floors were filled with black smoke, making it impossible for those who remained to find their way to safety. Many of these were found dead on the floor near the sewing machines at which they had been working. Finding escape by stairways and elevators cut off, bewildered by the smoke and made frantic by the heat, scores of the young women and some of the male employes rushed for the windows opening to the street. One after another, and sometimes two or three together, they jumped and were dashed to death on iron and glass canopies and stone sidewalks below. A few were saved by means of life nets, but the strands were weak and most of those who jumped into them broke through and were killed. A large number of the victims were of foreign birth and could speak only Yiddish or Italian. The bodies of those who were burned to death were so badly charred or disfigured that in many cases they could not be identified.

INTERNAL REVENUE RECEIPTS.

Comparative statement showing the receipts from the several objects of internal taxation in the United States during the fiscal years ended June 30, 1910 and 1911:

OBJECTS OF TAXATION.	1910.	1911.	Increase.	Decrease.
SPIRITS.				
Spirits distilled from apples, peaches, grapes, pears, pineapples, oranges, apricots, berries, prunes, figs and cherries....	\$2,424,616.06	\$2,677,506.77	\$252,906.91	
Spirits distilled from materials other than apples, peaches, grapes, pears, pineapples, oranges, apricots, berries, prunes, figs and cherries.....	139,098,938.00	145,382,705.57	6,283,754.37

Hamburg to New York, 5 days 11 hours 54 minutes, by the Deutschland, Sept. 2-3, 1903.

Cherbourg to New York, 5 days 11 hours 9 minutes, by the Kronprinzessin Cecilie, Aug. 19-25, 1908.

New York to Cherbourg, 5 days 16 hours, by the Kaiser Wilhelm der Grosse, Jan. 4-10, 1900.

Southampton to New York, 5 days 20 hours, by the Kaiser Wilhelm der Grosse, March 30-April 5, 1898.

Havre to New York, 6 days 1 hour 12 minutes, by La Provence, Sept. 6-13, 1907.

New York to Southampton, 5 days 17 hours 8 minutes, by the Kaiser Wilhelm der Grosse, Nov. 23-29, 1897.

New York to Havre, 6 days 2 hours 48 minutes, by La Provence, May 31-June 6, 1906.

New York to Plymouth, short course, 2,962 miles, 5 days 7 hours 28 minutes, by the Deutschland, Sept. 5-10, 1900; long course, 3,080 miles, 5 days 9 hours 55 minutes, Kaiser Wilhelm II., Aug. 18-24, 1908.

Plymouth to New York, 5 days 15 hours 46 minutes, by the Deutschland, July 7-12, 1900.

Moville, Ireland, to Cape Race, N. F., 4 days 10 hours, by the Virginian (turbine), June 9-13, 1905.

The best days run by any steamer was 671 miles, made by the Mauretania, February, 1905.

Distances: New York to Southampton, 3,100 miles; to Plymouth, 2,962 miles; to Queenstown, 2,800 miles; to Cherbourg, 3,047 miles; to Havre, 3,170 miles; to Hamburg, 3,820 miles.

LAKE FRONT SITE FOR FIELD MUSEUM.

At the meeting of the city council held Dec. 11, 1911, it was announced by Mayor Harrison that an agreement had been reached between the south park commissioners and the Illinois Central company by which the people of the city regained possession of the lake front from Park row to 51st street, making it possible to erect the permanent buildings of the Field Museum of Natural History on the lake front between Park row and 12th street. The railroad corporation agreed to abandon the Park row station and build a new one on the south side of the widened 12th street, facing north and abutting on Michigan avenue. The plan fur-

ther provided for the building of a boulevard by the park commissioners connecting Jackson park with Grant park, and the construction of bathing beaches and pleasure islands. In return for surrendering its riparian rights and turning over the land occupied by the passenger station and other property to the east of it, the Illinois Central company, it was agreed, should be permitted to widen and straighten its right of way between 12th and 50th streets.

The whole plan, which was made in accordance with the "city beautiful" scheme, was submitted to the city council for approval.

REPUBLICAN NATIONAL CONVENTION IN 1912.

At a meeting of the republican national committee, held in Washington, D. C., Dec. 12, 1911, it was decided to hold the national nominating convention in Chicago, beginning Tuesday, June 13,

1912. The vote in favor of Chicago was almost unanimous. Ex-Gov. John F. Hill of Maine was chosen chairman of the national committee to act until the time of the convention.

THE PRESIDENT'S MESSAGE (NO. 1).

To the Senate and House of Representatives: This message is the first of several which I shall send to congress during the interval between the opening of its regular session and its adjournment for the Christmas holidays. The amount of information to be communicated as to the operations of the government, the number of important subjects calling for comment by the executive and the transmission to congress of exhaustive reports of special commissions make it impossible to include in one message of a reasonable length a discussion of the topics that ought to be brought to the attention of the national legislature at its first regular session.

THE ANTITRUST LAW—THE SUPREME COURT DECISIONS.

In May last the Supreme court handed down decisions in the suits in equity brought by the United States to enjoin the further maintenance of the Standard Oil trust and of the American Tobacco trust and to secure their dissolution. The decisions are epoch making and serve to advise the business world authoritatively of the scope and operation of the antitrust act of 1890. The decisions do not depart in any substantial way from the previous decisions of the court in construing and applying this important statute, but they clarify those decisions by further defining the already admitted exceptions to the literal construction of the act. By the decrees they furnish a useful precedent as to the proper method of dealing with the capital and property of illegal trusts. These decisions suggest the need and wisdom of additional or supplementary legislation to make it easier for the entire business community to square with the rule of action and legality thus finally established and to preserve the benefit, freedom and spur of reasonable competition without loss of real efficiency or progress.

The statute in its first section declares to be illegal "every contract, combination in the form of trust or otherwise, or conspiracy, in restraint of trade or commerce among the several states or with foreign nations," and in the second declares guilty of a misdemeanor "every person who shall monopolize or attempt to monopolize or combine or conspire with any other person to monopolize any part of the trade or commerce of the several states or with foreign nations."

In two early cases, where the statute was invoked to enjoin a transportation rate agreement between interstate railroad companies, it was held that it was no defense to show that the agreement was for rates complained of were reasonable and common law, because it was said that the statute was directed against all contracts and combinations in restraint of trade, whether reasonable at common law or not. It was plain from the record, however, that the contracts complained of in those cases would not have been deemed reasonable at common law. In subsequent cases the court said that the statute should be given a reasonable construction and refused to include within its inhibition certain contractual restraints of trade which it denominated as incidental or as indirect.

These cases of restraint of trade that the court excepted from the operation of the statute were instances which, at common law, would have been called reasonable. In the Standard Oil and Tobacco cases, therefore, the court merely adopted the tests of the common law, and in defining exceptions to the literal application of the statute only substituted for the test of being incidental or indirect that of being reasonable, and this without varying in the slightest the actual scope and effect of the statute. In other words, all the cases under the statute which have now been decided would have been decided the same way if the court had originally accepted in its construction the rule at common law.

It has been said that the court, by introducing into the construction of the statute common law distinctions, has emasculated it. This is obviously untrue. By its judgment every contract and combination in restraint of interstate trade made with the purpose or necessary effect of controlling prices, by stifling competition, or of establishing

in whole or in part a monopoly of such trade, is condemned by the statute. The most extreme critics cannot instance a case that ought to be condemned under the statute which is not brought within its terms as thus construed.

The suggestion is also made that the Supreme court by its decision in the last two cases has committed to the court the undefined and unlimited discretion to determine whether a case of restraint of trade is within the terms of the statute. This is wholly untrue. A reasonable restraint of trade at common law is well understood and is clearly defined. It does not rest in the discretion of the court. It must be limited to accomplish the purpose of a lawful main contract, to which, in order that it shall be enforceable at all, it must be incidental. If it exceed the needs of that contract it is void.

The test of reasonableness was never applied by the court at common law to contracts or combinations or conspiracies in restraint of trade whose purpose was or whose necessary effect would be to stifle competition, to control prices or to establish monopolies. The courts never assumed power to say that such contracts or combinations or conspiracies might be lawful if the parties to them were only moderate in the use of the power thus secured and did not exact from the public too great and exorbitant prices. It is true that many theorists, and others engaged in business violating the statute, have hoped that some such line could be drawn by courts; but no court of authority has ever attempted it. Certainly there is nothing in the decisions of the latest two cases from which such a dangerous theory of judicial discretion in enforcing this statute can derive the slightest sanction.

We have been twenty-one years making this statute effective for the purposes for which it was enacted. The Knight case was discouraging and seemed to remit to the states the whole available power to attack and suppress the evils of the trusts. Slowly, however, the error of that judgment was corrected, and only in the last three or four years has the heavy hand of the law been laid upon the great illegal combinations that have exercised such an absolute dominion over many of our industries. Criminal prosecutions have been brought and a number are pending, but juries have felt averse to convicting for jail sentences, and juries have been most reluctant to impose such sentences on men of respectable standing in society whose offense has been regarded as merely statutory. Still, as the offense becomes better understood and the committing of it partakes more of studied and deliberate defiance of the law, we can be confident that juries will convict individuals and that jail sentences will be imposed.

THE REMEDY IN EQUITY BY DISSOLUTION.

In the Standard Oil case the Supreme and Circuit courts found the combination to be a monopoly of the interstate business of refining, transporting and marketing petroleum and its products, effected and maintained through thirty-seven different corporations, the stock of which was held by a New Jersey company. It, in effect, commanded the dissolution of this combination, directed the transfer and pro rata distribution by the New Jersey company of the stock held by it in the thirty-seven corporations to and among its stockholders; and the corporations and individual defendants were enjoined from conspiring or combining to restore such monopoly; and all agreements between the subsidiary corporations tending to produce or bring about further violations of the act were enjoined.

In the Tobacco case the court found that the individual defendants, twenty-nine in number, had been engaged in a successful effort to acquire complete dominion over the manufacture, sale and distribution of tobacco in this country and abroad, and that this had been done by combinations made with a purpose and effect to stifle competition, control prices and establish a monopoly, not only in the manufacture of tobacco, but also of tinfol and licorice used in its manufacture and of its products of cigars, cigarettes and snuffs. The Tobacco suit

presented a far more complicated and difficult case than the Standard Oil suit for a decree which would effectuate the will of the court and end the violation of the statute. There was here no single holding company as in the case of the Standard Oil trust. The main company was the American Tobacco company, a manufacturing, selling and holding company. The plan adopted to destroy the combination and restore competition involved the re-division of the capital and plants of the whole trust between some of the companies constituting the trust and new companies organized for the purposes of the decree and made parties to it, and numbering, new and old, fourteen.

SITUATION AFTER READJUSTMENT.

The American Tobacco company (old), readjusted capital, \$92,000,000; the Liggett & Meyers Tobacco company (new), capital, \$67,000,000; the P. Lorillard company (new), capital, \$47,000,000, and the R. J. Reynolds Tobacco company (old), capital, \$7,525,000, are chiefly engaged in the manufacture and sale of chewing and smoking tobacco and cigars. The former, one tinloft company is divided into two, one of \$825,000 capital and the other of \$400,000. The one snuff company is divided into three companies, one with a capital of \$15,000,000, another with a capital of \$8,000,000 and a third with a capital of \$8,000,000. The licorice companies are two, one with a capital of \$5,758,300 and another with a capital of \$2,000,000. There is also the British-American Tobacco company, a British corporation, doing business abroad with a capital of \$26,000,000; the Porto Rican Tobacco company, with a capital of \$1,800,000, and the corporation of United Cigar Stores, with a capital of \$9,000,000.

Under this arrangement each of the different kinds of business will be distributed between two or more companies, with a division of the prominent brands in the same tobacco products, so as to make competition not only possible but necessary. Thus the smoking tobacco business of the country is divided so that the present independent companies have 21.33 per cent while the American Tobacco company will have 33.08 per cent, the Liggett & Meyers 20.05 per cent, the Lorillard company 22.82 per cent and the Reynolds company 2.66 per cent.

The stock of the other thirteen companies, both preferred and common, has been taken from the defendant American Tobacco company and has been distributed among its stockholders. All covenants restricting competition have been declared null and further performance of them has been enjoined. The preferred stock of the different companies has now been given voting power, which was denied it under the old organization. The ratio of the preferred stock to the common was as 78 to 40. This constitutes a very decided change in the character of the ownership and control of each company.

In the original suit there were twenty-nine defendants who were charged with being the conspirators through whom the illegal combination acquired and exercised its unlawful dominion. Under the decree these defendants will hold amounts of stock in the various distributee companies ranging from 41 per cent as a maximum to 2 3/4 per cent as a minimum, except in the case of one small company, the Porto Rican Tobacco company, in which they will hold 45 per cent. The twenty-nine individual defendants are enjoined for three years from buying any stock except from each other, and the group is thus prevented from extending its control during that period. All parties to the suit, and the new companies who are made parties, are enjoined perpetually from in any way effecting any combination between any of the companies in violation of the statute by way of resumption of the old trust. Each of the fourteen companies is enjoined from acquiring stock in any of the others. All these companies are enjoined from having common directors or officers, or common buying or selling agents, or common offices, or lending money to each other.

SIZE OF NEW COMPANIES.

Objection was made by certain independent tobacco companies that this settlement was unjust because it left companies with very large capital in active business, and that the settlement that would be effective to put all on an equality would

be a division of the capital and plant of the trust into small fractions, in amount more nearly equal to that of each of the independent companies. This contention results from a misunderstanding of the antitrust law and its purpose. It is not intended thereby to prevent the accumulation of large capital in business enterprises in which such a combination can secure reduced cost of production, sale and distribution. It is directed against such an aggregation of capital only when its purpose is that of stifling competition, enhancing or controlling prices and establishing a monopoly. If we shall have by decree defeated these purposes and restored competition between the large units into which the capital and plant have been divided, we shall have accomplished the useful purpose of the statute.

CONFISCATION NOT THE PURPOSE OF THE STATUTE.

It is not the purpose of the statute to confiscate the property and capital of the offending trusts. Methods of punishment by fine or imprisonment of the individual offenders, by fine of the corporation or by forfeiture of its goods in transportation, are provided, but the proceeding in equity is a specific remedy to stop the operation of the trust by injunction and prevent the future use of the plant and capital in violation of the statute.

EFFECTIVENESS OF DECREE.

I venture to say that not in the history of American law has a decree more effective for such a purpose been entered by a court than that against the Tobacco trust. As Circuit Judge Noyes said in his judgment approving the decree:

"The extent to which it has been necessary to tear apart this combination and force it into new forms, with the attendant burdens, ought to demonstrate that the federal antitrust statute is a drastic statute, which accomplishes effective results; which, so long as it stands on the statute books, must be obeyed, and which cannot be disobeyed without incurring far reaching penalties. And, on the other hand, the successful reconstruction of this organization should teach that the effect of enforcing this statute is not to destroy, but to reconstruct—not to demolish, but to recreate in accordance with the conditions which the congress has declared shall exist among the people of the United States."

COMMON STOCK OWNERSHIP.

It has been assumed that the present pro rata and common ownership in all these companies by former stockholders of the trust would insure a continuance of the same old single control of all the companies into which the trust has by decree been disintegrated. This is erroneous and is based upon the assumed inefficacy and innocuousness of judicial injunctions. The companies they have different co-operation or combination and have different managers, directors, purchasing and sales agents. If all or many of the numerous stockholders, reaching into the thousands, attempt to secure concerted action of the companies with a view to the control of the market, their number is so large that such an attempt could not well be concealed, and its prime movers and all its participants would be at once subject to contempt proceedings and imprisonment of a summary character. The immediate result of the present situation will necessarily be activity by all the companies under different managers, and then competition must follow, or there will be activity by one company and stagnation by another. Only a short time will inevitably lead to a change in ownership of the stock, as all opportunity for continued co-operation must disappear. Those critics who speak of this disintegration in the trust as a mere change of garments have not given consideration to the inevitable working of the decree and understand little the personal danger of an attempt to evade or get at naught the solemn injunction of a court whose object is made plain by the decree and whose inhibitions are set forth with a detail and comprehensiveness unexampled in the history of equity jurisprudence.

The effect of these two decisions has led to decrees dissolving the combination of manufacturers of electric lamps and a southern wholesale grocers' association, an interlocutory decree against the powder trust, with directions by the Circuit court

compelling dissolution, and other combinations of a similar history are now negotiating with the department of justice looking to a disintegration by decree and reorganization in accordance with law. It seems possible to bring about these reorganizations without general business disturbance.

MOVEMENT FOR REPEAL OF THE ANTITRUST LAW.

But now that the antitrust act is seen to be effective for the accomplishment of the purpose of its enactment, we are met by a cry from many different quarters for its repeal. It is said to be obstructive of business progress, to be an attempt to restore old fashioned methods of destructive competition between small units and to make impossible those useful combinations of capital and the reduction of the cost of production that are essential to continued prosperity and normal growth.

In the recent decisions the Supreme court makes clear that there is nothing in the statute which condemns combinations of capital or mere bigness of plant organized to secure economy in production and a reduction of its cost. It is only when the purpose or necessary effect of the organization and maintenance of the combination or the aggregation of immense size are the stifling of competition, actual and potential, and the enhancing of prices and establishing a monopoly that the statute is violated. Mere size is no sin against the law. The merging of two or more business plants necessarily eliminates competition between the units thus combined, but this elimination is in contravention of the statute only when the combination is made for the purpose of ending this particular competition in order to secure control and enhance prices and create a monopoly.

The complaint is made of the statute that it is not sufficiently definite in its description of that which is forbidden to enable business men to avoid its violation. The suggestion is that we may have a combination of two corporations, which may run on for years, and that subsequently the attorney-general may conclude that it was a violation of the statute, and that which was supposed by the combiners to be innocent then turns out to be a combination in violation of the statute. The answer to this hypothetical case is that when men attempt to amass superfluous capital as will enable them to suppress competition, control prices and establish a monopoly, they know the purpose of their acts. Men do not do such a thing without having it clearly in mind. If what they do is merely for the purpose of reducing the cost of production, without the thought of suppressing competition by use of the bigness of the plant they are creating, then they cannot be convicted at the time the union is made, nor can they be convicted later, unless it happen that later on they conclude to suppress competition and take the usual methods for doing so, and thus establish for themselves a monopoly. They can, in such a case, hardly complain if the motive which subsequently is disclosed is attributed by the court to the original combination.

NEW REMEDIES SUGGESTED.

Much is said of the repeal of this statute and of constructive legislation intended to accomplish the purpose and blaze a clear path for honest merchants and business men to follow. It may be that such a plan will be evolved, but I submit that the discussions which have been brought out in recent days by the fear of the continued execution of the antitrust law have produced nothing but glittering generalities and have offered no line of distinction or rule of action as definite and as clear as that which the Supreme court itself lays down in enforcing the statute.

I see no objection—and indeed I can see decided advantages—in the enactment of a law which shall describe and denounce methods of competition which are unfair and are badges of the unlawful purpose denounced in the antitrust law. The attempt and purpose to suppress a competitor by underselling him at a price so unprofitable as to drive him out of business, or the making of exclusive contracts with customers under which they are required to give up association with other manufacturers, and numerous kindred methods for stifling competition and effecting monopoly, should

be described with sufficient accuracy in a criminal statute on the one hand to enable the government to shorten its task by prosecuting single misdoers instead of an entire conspiracy, and, on the other hand, to serve the purpose of pointing out more in detail to the business community what must be avoided.

FEDERAL INCORPORATION RECOMMENDED.

In a special message to congress on Jan. 7, 1910, I ventured to point out the disturbance to business that would probably attend the dissolution of these offending trusts. I said:

"But such an investigation and possible prosecution of corporations whose prosperity or destruction affects the comfort not only of stockholders but of millions of wage earners, employees and associated tradesmen, must necessarily tend to disturb the confidence of the business community, to dry up the now flowing sources of capital from its places of hoarding and produce a halt in our present prosperity that will cause suffering and strained circumstances among the innocent many for the faults of the guilty few. The question which I wish in this message to bring clearly to the consideration and discussion of congress is whether, in order to avoid such a possible business danger, something cannot be done by which these business combinations may be offered a means, without great financial disturbance of changing the character, organization and extent of their business into one within the lines of the law under federal control and supervision, securing compliance with the antitrust statute.

"Generally, in the industrial combinations called 'trusts,' the principal business is the sale of goods in many states and in foreign markets; in other words, the interstate and foreign business far exceeds the business done in any one state. This fact will justify the federal government in granting a federal charter to such a combination to make and sell in interstate and foreign commerce the products of useful manufacture under such limitations as will secure a compliance with the antitrust law. It is possible so to frame a statute that while it offers protection to a federal company against harmful, vexatious and unnecessary invasion by the states, it shall subject it to reasonable taxation and control by the states with respect to its purely local business.

"Corporations organized under this act should be prohibited from acquiring and holding stock in other corporations (except for special reasons, upon approval by the proper federal authority), thus avoiding the creation under national auspices of the holding company with subordinate corporations in different states, which has been such an effective agency in the creation of the great trusts and monopolies.

"If the prohibition of the antitrust act against combinations in restraint of trade is to be effectively enforced, it is essential that the national government shall provide for the creation of national corporations to carry on a legitimate business throughout the United States. The conflicting laws of the different states of the union with respect to foreign corporations make it difficult, if not impossible, for one corporation to comply with their requirements so as to carry on business in a number of different states."

I renew the recommendation of the enactment of a general law providing for the voluntary formation of corporations to engage in trade and commerce among the states and with foreign nations. Every argument which was then advanced for such a law and every explanation which was at that time offered to possible objections have been confirmed by our experience since the enforcement of the antitrust statute has resulted in the actual dissolution of active commercial organizations.

It is even more manifest now than it was then that the denunciation of conspiracies in restraint of trade should not and does not mean the denial of organizations large enough to be intrusted with our interstate and foreign trade. It has been made more clear now than it was then that a purely negative statute like the antitrust law may well be supplemented by specific provisions for the building up and regulation of legitimate national and foreign commerce.

The drafting of the decrees in the dissolution of the present trusts, with a view to their reorganization into legitimate corporations, has made it especially apparent that the courts are not provided with the administrative machinery to make the necessary inquiries preparatory to reorganization, or to pursue such inquiries, and they should be empowered to invoke the aid of the bureau of corporations in determining the suitable reorganization of the disintegrated parts. The Circuit court and the attorney-general were greatly aided in framing the decree in the Tobacco trust dissolution by an expert from the bureau of corporations.

FEDERAL CORPORATION COMMISSION PROPOSED.

I do not set forth in detail the terms and sections of a statute which might supply the constructive legislation permitting and aiding the formation of combinations of capital into federal corporations. They should be subject to rigid rules as to their organization and procedure, including effective publicity, and to the closest supervision as to the issue of stock and bonds by an executive bureau or commission in the department of commerce and labor, to which in times of doubt they might well submit their proposed plans for future business. It must be distinctly understood that incorporation under a federal law could not exempt the company thus formed and its incorporators and managers from prosecution under the antitrust law for subsequent illegal conduct, but the publicity of its procedure and the opportunity for frequent consultation with the bureau or commission in charge of the incorporation as to the legitimate purpose of its transactions would offer it as great security against successful prosecutions for violations of the law as would be practical or wise.

Such a bureau or commission might well be invested also with the duty already referred to, of aiding courts in the dissolution and re-creation of trusts within the law. It should be an executive tribunal of the dignity and power of the comptroller of the currency or the interstate commerce commission, which now exercise supervisory power over important classes of corporations under federal regulation.

The drafting of such a federal incorporation law would offer ample opportunity to prevent many manifest evils in corporate management to-day, including irresponsibility of control in the hands of the few who are not the real owners.

INCORPORATION VOLUNTARY.

I recommend that the federal charters thus to be granted shall be voluntary, at least until experience justifies mandatory provisions. The benefit to be derived from the operation of great businesses under the protection of such a charter would attract all who are anxious to keep within the lines of the law. Other large combinations that fail to take advantage of the federal incorporation will not have a right to complain if their failure is ascribed to unwillingness to submit their transactions to the careful official scrutiny, compe-

tent supervision and publicity attendant upon the enjoyment of such a charter.

ONLY SUPPLEMENTAL LEGISLATION NEEDED.

The opportunity thus suggested for federal incorporation, it seems to me, is suitable constructive legislation needed to facilitate the squaring of great industrial enterprises to the rule of action laid down by the antitrust law. This statute as construed by the Supreme court must continue to be the line of distinction for legitimate business. It must be enforced, unless we are to banish individualism from all business and reduce it to one common system of regulation or control of prices like that which now prevails with respect to public utilities, and which when applied to all business would be a long step toward state socialism. The antitrust act is the expression of the effort of a freedom loving people to preserve equality of opportunity. It is the result of the confident determination of such a people to maintain their future growth by preserving uncontrolled and unrestricted the enterprise of the individual, his industry, his ingenuity, his intelligence and his independent courage.

For twenty years or more this statute has been upon the statute book. All knew its general purpose and approved. Many of its violators were cynical over its assumed impotence. It seemed impossible of enforcement. Slowly the mills of the courts ground, and only gradually did the majesty of the law assert itself. Many of its statesmen-authors died before it became a living force, and they and others saw the evil grow which they had hoped to destroy. Now its efficacy is seen; now its power is heavy; now its object is near achievement. Now we hear the call for its repeal on the plea that it interferes with business prosperity, and we are advised, in most general terms, how by some other statute and in some other way the evil we are just stamping out can be cured, if we only abandon this work of twenty years and try another experiment for another term of years.

It is said that the act has not done good. Can this be said in the face of the effect of the Northern Securities decree? That decree was in no way so drastic or inhibitive in detail as either the Standard Oil decree or the Tobacco decree, but did it not stop for all time the then powerful movement toward the control of all the railroads of the country in a single hand? Such a one-man power could not have been a healthful influence in the republic, even though exercised under the general supervision of an interstate commission.

Do we desire to make such ruthless combinations and monopolies lawful? When all energies are directed, not toward the reduction of the cost of production for the public benefit by a healthful competition, but toward new ways and means for making permanent in a few hands the absolute control of the conditions and prices prevailing in the whole field of industry, then individual enterprise and effort will be paralyzed and the spirit of commercial freedom will be dead.

WILLIAM H. TAFT.
The White House, Dec. 5, 1911.

THE PRESIDENT'S MESSAGE (NO. 2).

To the Senate and House of Representatives: The relations of the United States with other countries have continued during the last twelve months upon a basis of the usual good will and friendly intercourse.

ARBITRATION.

The year just past marks an important general movement on the part of the powers for broader arbitration. In the recognition of the manifold benefits to mankind in the extension of the policy of the settlement of international disputes by arbitration rather than by war, and in response to a widespread demand for an advance in that direction on the part of the people of the United States and of Great Britain and of France, new arbitration treaties were negotiated last spring with Great Britain and France, the terms of which were designed, as expressed in the preamble of these treaties, to extend the scope and obligations of the policy of arbitration adopted in our present treaties

with those governments. To pave the way for this treaty with the United States, Great Britain negotiated an important modification in its alliance with Japan, and the French government also expedited the negotiations with signal good will. The new treaties have been submitted to the senate and are awaiting its advice and consent to their ratification. All the essentials of these important treaties have long been known, and it is my earnest hope that they will receive prompt and favorable action.

CLAIM OF ALSOP & CO. SETTLED.

I am glad to report that on July 5 last the American claim of Alsop & Co. against the government of Chile was finally disposed of by the decision of his Britannic majesty George V., to whom, as amiable compositeur, the matter had been referred for determination. His majesty made an award of nearly \$1,000,000 to the claimants, which

was promptly paid by Chile. The settlement of this controversy has happily eliminated from the relations between the republic of Chile and the United States the only question which for two decades had given the two foreign offices any serious concern and makes possible the unobstructed development of the relations of friendship which it has been the aim of this government in every possible way to further and cultivate.

In further illustration of the practical and beneficial application of the principle of arbitration and the underlying broad spirit of conciliation, I am happy to advert to the part of the United States in facilitating amicable settlement of disputes which menaced the peace between Panama and Costa Rica and between Haiti and the Dominican republic.

Since the date of their independence Colombia and Costa Rica had been seeking a solution of a boundary dispute, which came as an heritage from Colombia to the new republic of Panama upon its beginning life as an independent nation. Although the disputants had submitted this question for decision to the president of France under the terms of an arbitration treaty, the exact interpretation of the provisions of the award rendered had been a matter of serious disagreement between the two countries, each contending for widely different lines even under the terms of the decision. Subsequently and since 1903 this boundary question had been the subject of fruitless diplomatic negotiations between the parties. In January, 1910, at the request of both governments, the agents representing them met in conference at the department of state and subsequently concluded a protocol submitting this long pending controversy to the arbitral judgment of the chief justice of the United States, who consented to act in this capacity. A boundary commission, according to the international agreement, has now been appointed, and it is expected that the arguments will shortly proceed and that this long standing dispute will be honorably and satisfactorily terminated.

Again, a few months ago it appeared that the Dominican republic and Haiti were about to enter upon hostilities because of complications growing out of an acrimonious boundary dispute which the efforts of many years had failed to solve. The government of the United States, by a friendly interposition of good offices, succeeded in prevailing upon the parties to place their reliance upon some form of pacific settlement. Accordingly, on the friendly suggestion of his government, the two government-empowered commissioners to meet at Washington in conference at the state department in order to arrange the terms of submission to arbitration of the boundary controversy.

CHAMIZAL ARBITRATION NOT SATISFACTORY.

Our arbitration of the Chamizal boundary question with Mexico was unfortunately abortive, but with the earnest efforts on the part of both governments which its importance commands, it is felt that an early practical adjustment should prove possible.

During the past year the republic of Venezuela celebrated the one hundredth anniversary of its independence. The United States sent, in honor of this event, a special embassy to Caracas, where the cordial reception and generous hospitality shown it were most gratifying as a further proof of the good relations and friendship existing between that country and the United States.

The recent political events in Mexico received attention from this government because of the exceedingly delicate and difficult situation created along our southern border and the necessity for taking measures properly to safeguard American interests. The government of the United States, in its desire to secure a proper observance and enforcement of the so-called neutrality statutes of the federal government, issued directions to the appropriate officers to exercise a diligent and vigilant regard for the requirements of such rules and laws. Although a condition of actual armed conflict existed, there was no official recognition of belligerence involving the technical neutrality obligations of international law.

On the 6th of March last, in the absence of the

secretary of state, I had a personal interview with Mr. Wilson, the ambassador of the United States to Mexico, in which he reported to me that the conditions in Mexico were much more critical than the press dispatches disclosed; that President Diaz was on a volcano of popular uprising; that the small outbreaks which had occurred were only symptomatic of the whole condition; that a very large per cent of the people were in sympathy with the insurrection; that a general explosion was probable at any time, in which case he feared that the 40,000 or more American residents in Mexico might be assailed, and that the very large American investments might be injured or destroyed.

After a conference with the secretary of war and the secretary of the navy, I thought it was wise to assemble an army division of full strength at San Antonio, Tex., a brigade of three regiments at Galveston, a brigade of infantry in the Los Angeles district of southern California, together with a squadron of battle ships and cruisers and transports at Galveston and a small squadron of ships at San Diego. At the same time, through our representative at the City of Mexico, I expressed to President Diaz the hope that no apprehensions might result from unfounded conjecture as to these military maneuvers, and assured him that they had no significance which should cause concern to his government.

The mobilization was effected with great promptness, and on the 15th of March, through the secretary of war and the secretary of the navy, in a letter addressed to the chief of staff, I issued the following instructions:

"It seems my duty as commander in chief to place troops in sufficient number where, if congress shall direct that they enter Mexico to save American lives and property, an effective movement may be promptly made. Meantime the movement of the troops to Texas and elsewhere near the boundary, accompanied with sincere assurances of the utmost good will toward the present Mexican government and with larger and more frequent patrols along the border to prevent insurrectionary expeditions from American soil, will hold up the hands of the existing government and will have a healthy moral effect to prevent attacks upon Americans and their property in any subsequent general internecine strife. Again, the sudden mobilization of a division of troops has been a great test of our army and full of useful instruction, while the maneuvers that are thus made possible can occupy the troops and their officers to great advantage.

"The assumption by the press that I contemplate intervention on Mexican soil to protect American lives or property is of course gratuitous, because I seriously doubt whether I have such authority under any circumstances, and if I had I would not exercise it without express congressional approval. Indeed, as you know, I have already declined, without Mexican consent, to order a troop of cavalry to protect the breakwater we are constructing just across the border in Mexico at the mouth of the Colorado river to save the Imperial valley, although the insurgents had scattered the Mexican troops and were taking our horses and supplies and frightening our workmen away. My determined purpose, however, is to be in a position so that when danger to American lives and property in Mexico threatens and the existing government is rendered helpless by the insurrection, I can promptly execute congressional orders to protect them, with effect.

"Meantime I send you this letter, through the secretary, to call your attention to some things in connection with the presence of the division in the southwest which have doubtless occurred to you, but which I wish to emphasize.

"In the first place, I want to make the mobilization a first-class training for the army, and I wish you would give your time and that of the war college to advising and carrying out maneuvers of a useful character, and plan to continue to do this during the next three months. By that time we may expect that either Ambassador Wilson's fears will have been realized and chaos and its consequences have ensued, or that the present government of Mexico will have so readjusted matters as to secure tranquility—a result devoutly to be

wished. The troops can then be returned to their posts. I understood from you in Washington that Gen. Aleshire said that you could probably meet all the additional expense of this whole movement out of the present appropriations if the troops continue in Texas for three months. I sincerely hope this is so. I observe from the newspapers that you have no blank cartridges, but I presume that this is an error, or that it will be easy to procure those for use as soon as your maneuvers begin.

"Second, Texas is a state ordinarily peaceful, but you cannot put 20,000 troops into it without running some risk of a collision between the people of the state, and especially the Mexicans who live in Texas near the border and who sympathize with the insurgents, and the federal soldiers. For that reason I beg you to be as careful as you can to prevent friction of any kind. We were able in Cuba, with the army of pacification there of something more than 5,000 troops, to maintain them for a year without any trouble, and I hope you can do the same thing in Texas. Please give your attention to this and advise all the officers in command of the necessity for very great circumspection in this regard.

"Third, one of the great troubles in the concentration of troops is the danger of disease, and I suppose that you have adopted the most modern methods for the preventing and, if necessary, for stamping out epidemics. That is so much a part of a campaign that it hardly seems necessary for me to call attention to it.

"Finally, I wish you to examine the question of the patrol of the border and put as many troops on that work as is practicable, and more than are now engaged in it, in order to prevent the use of our borderland for the carrying on of the insurrection. I have given assurances to the Mexican ambassador on this point.

"I sincerely hope that this experience will always be remembered by the army and navy as a useful means of education, and I should be greatly disappointed if it resulted in any injury or disaster to our forces from any cause. I have taken a good deal of responsibility in ordering this mobilization, but I am ready to answer for it if only you and those under you use the utmost care to avoid the difficulties which I have pointed out.

"You may have a copy of this letter made and left with Gen. Carter and such other generals in command as you may think wise and necessary to guide them in their course, but to be regarded as confidential."

I am more than happy to record here the fact that all apprehensions as to the effect of the presence of so large a military force in Texas proved groundless; no disturbances occurred; the conduct of the troops was exemplary and the public reception and treatment of them was all that could have been desired, and this notwithstanding the presence of a large number of Mexican refugees in the border territory.

From time to time communications were received from Ambassador Wilson, who had returned to Mexico, confirming the view that the massing of American troops in the neighborhood had had good effect. By dispatch of April 3, 1911, the ambassador said:

"The continuing gravity of the situation here and the chaos that would ensue should the constitutional authorities be eventually overthrown, thus greatly increasing the danger to which American lives and property are already subject, confirm the wisdom of the president in taking those military precautions which, making every allowance for the dignity and the sovereignty of a friendly state, are due to our nationals abroad.

"Charged as I am with the responsibility of safeguarding these lives and property, I am bound to say to the department that our military dispositions on the frontier have produced an effective impression on the Mexican mind, and may, at any moment, prove to be the only guarantees for the safety of our nationals and their property. If it should eventuate that conditions here require more active measures by the president and congress, sporadic attacks might be made upon the lives and property of our nationals, but the ultimate result would be order and adequate protection."

The insurrection continued and resulted in en-

gagements between the regular Mexican troops and the insurgents, and this along the border, so that in several instances bullets from the contending forces struck American citizens engaged in their lawful occupations on American soil.

Proper protests were made against these invasions of American rights to the Mexican authorities. On April 17, 1911, I received the following telegram from the governor of Arizona:

"As a result of to-day's fighting across the international line, but within gunshot range of the heart of Douglas, five Americans wounded on this side of the line. Everything points to repetition of these casualties on to-morrow, and while the federals seem disposed to keep their agreement not to fire into Douglas, the position of the insurrectionists is such that when fighting occurs on the east and southeast of the intrenchments people living in Douglas are put in danger of their lives. In my judgment radical measures are needed to protect our innocent people, and if anything can be done to stop the fighting at Agua Prieta the situation calls for such action. It is impossible to safeguard the people of Douglas unless the town be vacated. Can anything be done to relieve situation, now acute?"

After a conference with the secretary of state, the following telegram was sent to Gov. Sloan, on April 18, 1911, and made public:

"Your dispatch received. Have made urgent demand upon Mexican government to issue instructions to prevent firing across border by Mexican federal troops, and am awaiting reply. Meantime I have sent direct warning to the Mexican and insurgent forces near Douglas. I infer from your dispatch that both parties attempt to heed the warning, but that in the strain and exigency of the contest wild bullets still find their way into Douglas. The situation might justify me in ordering our troops to cross the border and attempt to stop the fighting, or to fire upon both combatants from the American side. But if I take this step I must face the possibility of resistance and greater bloodshed, and also the danger of having our motives misconstrued and misrepresented, and of thus inflaming Mexican popular indignation against many thousands of Americans now in Mexico and jeopardizing their lives and property. The pressure for general intervention under such conditions it might not be practicable to resist. It is impossible to foresee or reckon the consequences of such a course, and we must use the greatest self-restraint to avoid it. Pending my urgent representation to the Mexican government, I cannot therefore order the troops at Douglas to cross the border, but I must ask you and the local authorities, in case the same danger recurs, to direct the people of Douglas to place themselves where bullets cannot reach them and thus avoid casualty. I am loath to endanger Americans in Mexico, where they are necessarily exposed, by taking a radical step to prevent injury to Americans on our side of the border who can avoid it by a temporary inconvenience."

I am glad to say that no further invasion of American rights of any substantial character occurred.

The presence of a large military and naval force available for prompt action near the Mexican border proved to be most fortunate under the somewhat trying conditions presented by this invasion of American rights. Had no movement theretofore taken place and because of these events it had been necessary then to bring about the mobilization, it must have had sinister significance. On the other hand, the presence of the troops before and at the time of the unfortunate killing and wounding of American citizens at Douglas made clear that the restraint exercised by our government in regard to this occurrence was not due to a lack of force or power to deal with it promptly and aggressively, but was due to a real desire to use every means possible to avoid direct intervention in the affairs of our neighbor, whose friendship we valued and were most anxious to retain.

The policy and action of this government were based upon an earnest friendliness for the Mexican people as a whole, and it is a matter of gratification to note that this attitude of strict impartiality as to all factions in Mexico and of sincere friendship

for the neighboring nation, without regard for party allegiance, has been generally recognized and has resulted in an even closer and more sympathetic understanding between the two republics and a warmer regard one for the other. Action to suppress violence and restore tranquility throughout the Mexican republic was of peculiar interest to this government, in that it concerned the safeguarding of American life and property in that country. The government of the United States had occasion to accord permission for the passage of a body of Mexican rurales through Douglas, Ariz., to Tia Juana, Mexico, for the suppression of general lawlessness which had for some time existed in the region of northern Lower California.

On May 25, 1911, President Diaz resigned and Senor de la Barra was chosen provisional president. Elections for president and vice-president were thereafter held throughout the republic, and Senor Francisco I. Madero was formally declared elected on Oct. 15 to the chief magistracy. On Nov. 6 President Madero entered upon the duties of his office.

Since the inauguration of President Madero a plot has been unearthed against the present government, to begin a new insurrection. Pursuing the same consistent policy which this administration has adopted from the beginning, it directed an investigation into the conspiracy charged, and this investigation has resulted in the indictment of Gen. Bernardo Reyes and others and the seizure of a number of officers and men and horses and accoutrements assembled upon the soil of Texas for the purpose of invading Mexico. Similar proceedings have been taken during the insurrection against the Diaz government, resulting in the indictment and prosecution of persons found to be engaged in violating the neutrality laws of the United States in aid of that uprising.

The record of this government in respect of the recognition of constituted authority in Mexico therefore is clear.

As to the situation in Central America, I have taken occasion in the past to emphasize most strongly the importance that should be attributed to the consummation of the conventions between the republics of Nicaragua and of Honduras and this country, and I again earnestly recommend that the necessary advice and consent of the senate be accorded to these treaties, which will make it possible for these Central American republics to enter upon an era of genuine economic national development. The government of Nicaragua, which has already taken favorable action on the convention, has found it necessary, pending the exchange of final ratifications, to enter into negotiations with American bankers for the purpose of securing a temporary loan to relieve the present financial tension. In connection with this temporary loan and in the hope of concluding, through the financial cooperation of the convention, a complete and lasting economic regeneration, the government of Nicaragua has also decided to engage an American citizen as collector-general of customs.

The claims commission, on which the services of two American citizens have been sought, and the work of the American financial adviser should accomplish a lasting good of inestimable benefit to the prosperity, commerce and peace of the republic. In considering the ratification of the conventions with Nicaragua and Honduras, there rests with the United States the heavy responsibility of the fact that their rejection here might destroy the progress made and consign the republics concerned to still deeper submergence in bankruptcy, revolution and national jeopardy.

Our relations with the republic of Panama, peculiarly important, due to mutual obligations and the vast interests created by the canal, have continued in the usual friendly manner, and we have been glad to make appropriate expressions of our attitude of sympathetic interest in the endeavors of our neighbor in undertaking the development of the rich resources of the country. With reference to the internal political affairs of the republic, our obvious concern is in the maintenance of public peace and constitutional order and the fostering of the general interests created by the actual relations of the two countries, without the manifestation of

any preference for the success of either of the political parties.

THE PAN AMERICAN UNION.

The Pan American union, formerly known as the bureau of American republics, maintained by the joint contributions of all the American nations, has during the last year enlarged its practical work as an international organization and continued to prove its usefulness as an agency for the mutual development of commerce, better acquaintance and closer intercourse between the United States and her sister American republics.

THE FAR EAST.

THE CHINESE LOANS.

The past year has been marked in our relations with China by the conclusion of two important international loans, one for the construction of the Hukuang railways, the other for the carrying out of the currency reform to which China was pledged by treaties with the United States, Great Britain and Japan, of which mention was made in my last annual message.

It will be remembered that early in 1909 an agreement was consummated among British, French and German financial groups whereby they proposed to lend the Chinese government funds for the construction of railways in the provinces of Hunan and Hupeh, reserving for their nationals the privilege of engineering the construction of the lines and of furnishing the materials required for the work. After negotiations with the governments and groups concerned an agreement was reached whereby American, British, French and German nationals should participate upon equal terms in this important and useful undertaking. Thereupon the financial groups, supported by their respective governments, began negotiations with the Chinese government which terminated in a loan to China of \$30,000,000, with the privilege of increasing the amount to \$50,000,000. The co-operative construction of these trunk lines should be of immense advantage, materially and otherwise, to China and should greatly facilitate the development of the bountiful resources of the empire. On the other hand, a large portion of these funds is to be expended for materials, American products having equal preference with those of the other three lending nations, and as the contract provides for branches and extensions subsequently to be built on the same terms, the opportunities for American materials will reach considerable proportions.

Knowing the interest of the United States in the reform of Chinese currency, the Chinese government, in the autumn of 1910, sought the assistance of the American government to procure funds with which to accomplish that all important reform. In the course of the subsequent negotiations there was combined with the proposed currency loan one for certain industrial developments in Manchuria, the two loans aggregating the sum of \$50,000,000. While this was originally to be solely an American enterprise, the American government, consistently with its desire to secure a sympathetic and practical cooperation of the great powers toward maintaining the principle of equality of opportunity and the administrative integrity of China, urged the Chinese government to admit to participation in the currency loan the associates of the American group in the Hukuang loan. While of immense importance in itself, the reform contemplated in making this loan is but preliminary to other and more comprehensive fiscal reforms which will be of incalculable benefit to China and foreign interests alike, since they will strengthen the Chinese empire and promote the rapid development of international trade.

When these negotiations were begun it was understood that a financial adviser was to be employed by China in connection with the reform, and in order that absolute equality in all respects among the lending nations might be scrupulously observed, the American government proposed the nomination of a neutral adviser, which was agreed to by China and the other governments concerned. On Sept. 28, 1911, Dr. Vissering, president of the Dutch Java bank and a financier of wide experience in the orient, was recommended to the Chinese government for the post of monetary adviser.

Especially important at the present, when the ancient Chinese empire is shaken by civil war incidental to its awakening to the many influences and activities of modernization, are the co-operative policy of good understanding which has been fostered by the international projects referred to above and the general sympathy of view among all the powers interested in the far east. While safeguarding the interests of our nationals, this government is using its best efforts in continuance of its traditional policy of sympathy and friendship toward the Chinese empire and its people, with the confident hope for their economic and administrative development, and with the constant disposition to contribute to their welfare in all proper ways consistent with an attitude of strict impartiality as between contending factions.

For the first time in the history of the two countries, a Chinese cruiser, the Haichi, under the command of Admiral Ching, recently visited New York, where the officers and men were given a cordial welcome.

NEW JAPANESE TREATY.

The treaty of commerce and navigation between the United States and Japan, signed in 1894, would by a strict interpretation of its provisions have terminated on July 17, 1912. Japan's general treaties with the other powers, however, terminated in 1911, and the Japanese government expressed an earnest desire to conduct the negotiations for a new treaty with the United States simultaneously with its negotiations with the other powers. There were a number of important questions involved in the treaty, including the immigration of laborers, revision of the customs tariff and the right of Americans to hold real estate in Japan. The United States consented to waive all technicalities and to enter at once upon negotiations for a new treaty on the understanding that there should be a continuance throughout the life of the treaty of the same effective measures for the restriction of immigration of laborers to American territory which had been in operation with entire satisfaction to both governments since 1908. The Japanese government accepted this basis of negotiation, and a new treaty was quickly concluded, resulting in a highly satisfactory settlement of the other questions referred to.

A satisfactory adjustment has also been effected of the questions growing out of the annexation of Korea by Japan.

The recent visit of Admiral Count Togo to the United States as the nation's guest afforded a welcome opportunity to demonstrate the friendly feeling so happily existing between the two countries.

SIAM.

There has been a change of sovereigns in Siam and the American minister at Bangkok was accredited in a special capacity to represent the United States at the coronation ceremony of the new king.

EUROPE AND THE NEAR EAST.

In Europe and the near east, during the past twelvemonth, there has been at times considerable political unrest. The Moroccan question, which for some months was the cause of great anxiety, happily appears to have reached a stage at which it need no longer be regarded with concern. The Ottoman empire was occupied for a period by strife in Albania and is now at war with Italy. In Greece and the Balkan countries the disquieting potentialities of this situation have been more or less felt. Persia has been the scene of a long internal struggle. These conditions have been the cause of uneasiness in European diplomacy, but thus far without direct political concern to the United States.

In the war which unhappily exists between Italy and Turkey this government has no direct political interest, and I took occasion at the suitable time to issue a proclamation of neutrality in that conflict. At the same time all necessary steps have been taken to safeguard the personal interests of American citizens and organizations in so far as affected by the war.

COMMERCE WITH THE NEAR EAST.

In spite of the attendant economic uncertainties and detriments to commerce, the United States has

gained markedly in its commercial standing with certain of the nations of the near east. Turkey, especially, is beginning to come into closer relations with the United States through the new interest of American manufacturers and exporters in the possibilities of those regions, and it is hoped that foundations are being laid for a large and mutually beneficial exchange of commodities between the two countries. This new interest of Turkey in American goods is indicated by the fact that a party of prominent merchants from a large city in Turkey recently visited the United States to study conditions of manufacture and export here and to get into personal touch with American merchants, with a view to co-operating more intelligently in opening up the markets of Turkey. Another indication of this new interest of America in the commerce of the near east is the recent visit of a large party of American merchants and manufacturers to central and eastern Europe, where they were entertained by prominent officials and organizations of the large cities, and new bonds of friendship and understanding were established which cannot but lead to closer and greater commercial interchange.

CORONATION OF KING GEORGE V.

The 22d of June of the present year marked the coronation of His Britannic Majesty King George V. In honor of this auspicious occasion I sent a special embassy to London. The courteous and cordial welcome extended to this government's representatives by his majesty and the people of Great Britain has further emphasized the strong bonds of friendship happily existing between the two nations.

SETTLEMENT WITH GREAT BRITAIN.

As the result of a determined effort on the part of both Great Britain and the United States to settle all of their outstanding differences a number of treaties have been entered into between the two countries in recent years, by which nearly all of the unsettled questions between them of any importance have either been adjusted by agreement or arrangements made for their settlement by arbitration. A number of the unsettled questions referred to consist of pecuniary claims presented by each country against the other, and in order that as many of these claims as possible should be settled by arbitration a special agreement for that purpose was entered into between the two governments on the 15th day of August, 1910, in accordance with article II. of the general arbitration treaty with Great Britain of April 4, 1903. Pursuant to the provisions of this special agreement a schedule of claims has already been agreed upon, and the special agreement, together with this schedule, received the approval of the senate when submitted to it for that purpose at the last session of congress. Negotiations between the two governments for the preparation of an additional schedule of claims are already well advanced, and it is my intention to submit such schedule as soon as it is agreed upon to the senate for its approval, in order that the arbitration proceedings may be undertaken at an early date. In this connection the attention of congress is particularly called to the necessity for an appropriation to cover the expense incurred in submitting these claims to arbitration.

PRESENTATION OF VON STEUBEN STATUE.

In pursuance of the act of congress, approved June 23, 1910, the secretary of state and the joint committee on the library entered into a contract with the sculptor, Albert Jaegers, for the execution of a bronze replica of the statue of Gen. von Steuben erected in Washington, for presentation to his majesty the German emperor and the German nation in recognition of the gift of the statue of Frederick the Great made by the emperor to the people of the United States.

The presentation was made on Sept. 2 last by representatives whom I commissioned as the special mission of this government for the purpose.

The German emperor has conveyed to me by telegraph, on his own behalf and that of the German people, an expression of appreciative thanks for this action of congress.

RUSSIA AND AMERICA.

By direction of the state department our ambassador to Russia has recently been having a series of conferences with the minister of foreign affairs of Russia with a view to securing a clearer understanding and construction of the treaty of 1832 between Russia and the United States and the modification of any existing Russian regulations which may be found to interfere in any way with the full recognition of the rights of American citizens under this treaty. I believe that the government of Russia is addressing itself seriously to the need of changing the present practice under the treaty and that sufficient progress has been made to warrant the continuance of those conferences in the hope that there may soon be removed any justification of the complaints of treaty violation now prevalent in this country.

I expect that immediately after the Christmas recess I shall be able to make a further communication to congress on this subject.

LIBERIA.

Negotiations for the amelioration of conditions found to exist in Liberia by the American commission, undertaken through the department of state, have been concluded and it is only necessary for certain formalities to be arranged in securing the loan which it is hoped will place that republic on a practical financial and economic footing.

RECOGNITION OF PORTUGUESE REPUBLIC.

The national constituent assembly, regularly elected by the vote of the Portuguese people, having on June 19 last unanimously proclaimed a republican form of government, the official recognition of the government of the United States was given to the new republic in the afternoon of the same day.

SPITZBERGEN ISLANDS.

Negotiations for the betterment of conditions existing in the Spitzbergen islands and the adjustment of conflicting claims of American citizens and Norwegian subjects to lands in that archipelago are still in progress.

The supplementary protocol to The Hague convention for the establishment of an international prize court, mentioned in my last annual message, embodying stipulations providing for an alternative procedure which would remove the constitutional objection to that part of The Hague convention which provides that there may be an appeal to the proposed court from the decisions of national courts, has received the signature of the governments parties to the original convention and has been ratified by the government of the United States, together with the prize court convention.

The deposit of the ratifications with the government of the Netherlands awaits action by the powers on the declaration, signed at London on Feb. 25, 1909, of the rules of international law to be recognized within the meaning of article VII. of The Hague convention for the establishment of an international prize court.

The fur seal controversy, which for nearly twenty-five years has been the source of serious friction between the United States and the powers bordering upon the north Pacific ocean, whose subjects have been permitted to engage in pelagic sealing against the fur seal herds having their breeding grounds within the jurisdiction of the United States, has at last been satisfactorily adjusted by the conclusion of the north Pacific sealing convention entered into between the United States, Great Britain, Japan and Russia on the 7th of July last. This convention is a conservation measure of very great importance, and if it is carried out in the spirit of reciprocal concession and advantage upon which it is based there is every reason to believe that not only will it result in preserving the fur seal herds of the north Pacific ocean and restoring them to their former value for the purposes of commerce, but also that it will afford a permanently satisfactory settlement of a question the only other solution of which seemed to be the total destruction of the fur seals. In another aspect, also, this convention is of importance in that it furnishes an illustration of the feasibility of securing a general international game law for the protection of other

mammals of the sea, the preservation of which is of importance to all the nations of the world.

The attention of congress is especially called to the necessity for legislation on the part of the United States for the purpose of fulfilling the obligations assumed under this convention, to which the senate gave its advice and consent on the 24th day of July last.

INDUSTRIAL PROPERTY UNION.

The conference of the International Union for the Protection of Industrial Property, which, under the authority of congress, convened at Washington on May 16, 1911, closed its labors on June 2, 1911, by the signature of three acts, as follows:

(1) A convention revising the Paris convention of March 20, 1883, for the protection of industrial property, as modified by the additional act signed at Brussels on Dec. 14, 1900;

(2) An arrangement to replace the arrangement signed at Madrid on April 14, 1891, for the international registration of trade marks, and the additional act with regard thereto signed at Brussels on Dec. 14, 1900; and

(3) An arrangement to replace the arrangement signed at Madrid on April 14, 1891, relating to the repression of false indication of production of merchandise.

The United States is a signatory of the first convention only, and this will be promptly submitted to the senate.

INTERNATIONAL OPIUM COMMISSION.

In a special message transmitted to the congress on the 7th of January, 1911, in which I concurred in the recommendations made by the secretary of state in regard to certain needful legislation for the control of our interstate and foreign traffic in opium and other menacing drugs, I quoted from my annual message of Dec. 7, 1909, in which I announced that the results of the international opium commission held at Shanghai in February, 1909, at the invitation of the United States, had been laid before this government; that the report of that commission showed that China was making remarkable progress and admirable efforts toward the eradication of the opium evil; that the interested governments had not permitted their commercial interests to prevent their co-operation in this reform; and, as a result of collateral investigations of the opium question in this country, I recommended that the manufacture, sale and use of opium in the United States should be more rigorously controlled by legislation.

Prior to that time and in continuation of the policy of this government to secure the co-operation of the interested nations the United States proposed an international opium conference with full powers for the purpose of clothing with the force of international law the resolutions adopted by the above mentioned commission, together with their essential corollaries. The other powers concerned cordially responded to the proposal of this government, and, I am glad to be able to announce, representatives of all the powers assembled in conference at The Hague on the first of this month.

Since the passage of the opium exclusion act more than twenty states have been animated to modify their pharmacy laws and bring them in accord with the spirit of that act, thus stamping out, to a measure, the intrastate traffic in opium and other habit forming drugs. But, although I have urged on the congress the passage of certain measures for federal control of the interstate and foreign traffic in these drugs, no action has yet been taken. In view of the fact that there is now sitting at The Hague so important a conference, which has under review the municipal laws of the different nations for the mitigation of their opium and other allied evils, a conference which will certainly deal with the international aspects of these evils, it seems to me most essential that the congress should take immediate action on the antinarcotic legislation to which I have already called attention by a special message.

BUENOS AIRES CONVENTIONS.

The four important conventions signed at the fourth Pan American conference at Buenos Aires, providing for the regulation of trade marks, patents and copyrights, and for the arbitration of pecuniary

claims, have, with the advice and consent of the senate, been ratified on the part of the United States and the ratifications have been deposited with the government of the Argentine republic in accordance with the requirements of the conventions. I am not advised that similar action has been taken by any other of the signatory governments.

One of the notable advances in international morality accomplished in recent years was an arrangement entered into on April 13 of the present year between the United States and other powers for the repression of the circulation of obscene publications.

In my last annual message I referred to the tariff negotiations of the department of state with foreign countries in connection with the application, by a series of proclamations, of the minimum tariff of the United States to importations from the several countries, and I stated that, in its general operation, section 2 of the new tariff law had proved a guaranty of continued commercial peace, although there were, unfortunately, instances where foreign governments dealt arbitrarily with American interests within their jurisdiction in a manner injurious and inequitable. During the past year some instances of discriminatory treatment have been removed, but I regret to say that there remain a few cases of differential treatment adverse to the commerce of the United States. While none of these instances now appears to amount to undue discrimination in the sense of section 2 of the tariff law of Aug. 5, 1909, they are all exceptions to that complete degree of equality of tariff treatment that the department of state has consistently sought to obtain for American commerce abroad.

While the double tariff feature of the tariff law of 1909 has been amply justified by the results achieved in removing former and preventing new undue discriminations against American commerce, it is believed that the time has come for the amendment of this feature of the law in such way as to provide a graduated means of meeting varying degrees of discriminatory treatment of American commerce in foreign countries as well as to protect the financial interests abroad of American citizens against arbitrary and injurious treatment on the part of foreign governments through either legislative or administrative measures.

It would also seem desirable that the maximum tariff of the United States should embrace within its purview the free list, which is not the case at the present time in order that it might have reasonable significance to the governments of those countries from which the importations into the United States are confined virtually to articles on the free list.

The fiscal year ended June 30, 1911, shows great progress in the development of American trade. It was noteworthy as marking the highest record of exports of American products to foreign countries, the valuation being in excess of \$2,000,000,000. These exports showed a gain over the preceding year of more than \$300,000,000.

FACILITIES FOR FOREIGN TRADE.

There is widespread appreciation expressed by the business interests of the country as regards the practical value of the facilities now offered by the department of state and the department of commerce and labor for the furtherance of American commerce. Conferences with their officers at Washington who have an expert knowledge of trade conditions in foreign countries and with consular officers and commercial agents of the department of commerce and labor who, while on leave of absence, visit the principal industrial centers of the United States, have been found of great value. These trade conferences are regarded as a particularly promising method of governmental aid in foreign trade promotion. The department of commerce and labor has arranged to give publicity to the expected arrival and the itinerary of consular officers and commercial agents while on leave in the United States, in order that trade organizations may arrange for conferences with them.

As I have indicated, it is increasingly clear that to obtain and maintain that equity and substantial equality of treatment essential to the flourishing

foreign trade, which becomes year by year more important to the industrial and commercial welfare of the United States, we should have a flexibility of tariff sufficient for the give and take of negotiation by the department of state on behalf of our commerce and industry.

NEED FOR AMERICAN MERCHANT MARINE.

I need hardly reiterate the conviction that there should speedily be built up an American merchant marine. This is necessary to assure favorable transportation facilities to our great ocean borne commerce as well as to supplement the navy with an adequate reserve of ships and men. It would have the economic advantage of keeping at home part of the vast sums now paid foreign shipping for carrying American goods. All the great commercial nations pay heavy subsidies to their merchant marine, so that it is obvious that without some wise aid from the congress the United States must lag behind in the matter of merchant marine in its present anomalous position.

Legislation to facilitate the extension of American banks to foreign countries is another matter in which our foreign trade needs assistance.

CHAMBERS OF FOREIGN COMMERCE.

The interests of our foreign commerce are non-partisan, and as a factor in prosperity are as broad as the land. In the dissemination of useful information and in the co-ordination of effort certain unofficial associations have done good work toward the promotion of foreign commerce. It is cause for regret, however, that the great number of such associations and the comparative lack of co-operation between them fails to secure an efficiency commensurate with the public interest. Through the agency of the department of commerce and labor, and in some cases directly, the department of state transmits to reputable business interests information of commercial opportunities, supplementing the regular published consular reports. Some central organization in touch with associations and chambers of commerce throughout the country and able to keep purely American interests in closer touch with different phases of commercial affairs would, I believe, be of great value. Such organization might be managed by a committee composed of a small number of those now actively carrying on the work of some of the larger associations, and there might be added to the committee, as members ex officio, one or two officials of the department of state and one or two officials from the department of commerce and labor and representatives of the appropriate committees of congress. The authority and success of such an organization would evidently be enhanced if the congress should see fit to prescribe its scope and organization through legislation which would give to it some such official standing as that, for example, of the National Red Cross.

With these factors and the continuance of the foreign service establishment (departmental, diplomatic and consular) upon the high plane where it has been placed by the recent reorganization, this government would be abreast of the times in fostering the interests of its foreign trade, and the rest must be left to the energy and enterprise of our business men.

IMPROVEMENT OF THE FOREIGN SERVICE.

The entire foreign service organization is being improved and developed with especial regard to the requirements of the commercial interests of the country. The rapid growth of our foreign trade makes it of the utmost importance that governmental agencies through which that trade is to be aided and protected should possess a high degree of efficiency. Not only should the foreign representatives be maintained upon a generous scale in so far as salaries and establishments are concerned, but the selection and advancement of officers should be definitely and permanently regulated by law so that the service shall not fall to attract men of high character and ability. The experience of the past few years with a partial application of civil service rules to the diplomatic and consular service leaves no doubt in my mind of the wisdom of a wider and more permanent extension of those principles to both branches of the foreign service. The

men selected for appointment by means of the existing executive regulations have been of a far higher average of intelligence and ability than the men appointed before the regulations were promulgated. Moreover, the feeling that under the existing rules there is reasonable hope for permanence of tenure during good behavior and for promotion for meritorious service has served to bring about a zealous activity in the interests of the country, which never before existed or could exist.

It is my earnest conviction that the enactment into law of the general principles of the existing regulations cannot fail to effect further improvement in both branches of the foreign service by providing greater inducement for young men of character and ability to seek a career abroad in the service of the government, and an incentive to those already in the service to put forth greater efforts to attain the high standards which the successful conduct of our international relations and commerce require.

I therefore again commend to the favorable action of the congress the enactment of a law applying to the diplomatic and consular service the principles

embodied in section 1753 of the revised statutes of the United States, in the civil service act of Jan. 16, 1883, and the executive orders of June 27, 1906, and of Nov. 26, 1909. In its consideration of this important subject I desire to recall to the attention of the congress the very favorable report made on the Lowden bill for the improvement of the foreign service by the foreign affairs committee of the house of representatives. Available statistics show the strictness with which the merit system has been applied to the foreign service during recent years and the absolute nonpartisan selection of consuls and diplomatic service secretaries, who, indeed, far from being selected with any view to political consideration, have actually been chosen to a disproportionate extent from states which would have been unrepresented in the foreign service under the system which it is to be hoped is now permanently obsolete. Some legislation for the perpetuation of the present system of examinations and promotions upon merit and efficiency would be of great value to our commercial and international interests. WILLIAM H. TAFT.

The White House, Dec. 7, 1911.

MINE DISASTER AT BRICEVILLE, TENN.

More than 100 men were entombed by an explosion in the Cross Mountain coal mine at Briceville, Tenn., Dec. 9, 1911. Rescue work was made extremely dangerous by gas, but heroic efforts were

made, and on the 11th five men were taken out alive while twenty-two dead bodies had been recovered.

PROHIBITION PARTY CONVENTION.

At a meeting of the prohibition party national committee in Chicago, Dec. 6, 1911, it was decided to hold the national nominating convention of 1912

in Atlantic City, N. J., between June 20 and July 20, the exact date to be fixed by the national chairman.

ILLINOIS PRIMARY ELECTIONS.

(For full outline of the Illinois primary law of March 9, 1910, see The Daily News Almanac and Year-Book for 1911, page 47.)

DATES OF PRIMARIES.

A primary shall be held on the second Tuesday in April in every year in which officers are to be voted for on the first Tuesday after the first Monday in November of such year, for the nomination of candidates for such offices as are to be voted for at such November election, and shall be known as the April primary. This includes the nomination of candidates for members of the general assembly.

A primary shall be held on the second Tuesday in April in any year in which the judges of the Supreme court, judges of the Circuit court and judges of the Superior court of Cook county are to be elected on the first Monday in June of such year for the nomination of candidates for such offices, respectively.

A primary shall be held on the last Tuesday in February in each year for the nomination of such officers as are to be voted for on the first Tuesday in April of such year.

A primary shall be held on the second Tuesday in March in each year for the nomination of such officers as are to be voted for on the third Tuesday in April of such year.

A primary for the nomination of all other officers, nominations for which are required to be made under the provisions of the act, shall be held three weeks preceding the date of the general election for such offices, respectively.

The polls shall be open from 6 o'clock a. m. to 5 o'clock p. m.

Any person entitled to vote at such primary shall be entitled to absent himself from his work for two hours between the opening and closing of the polls without incurring loss of wages or salary, providing application shall have been made on the preceding day. The employer may specify the hours.

PETITIONS.

Petitions for nomination shall be signed:

For a state office, by not less than 1,000 nor more than 2,000 primary electors of his party.

For a state senator or assemblyman, by at least one-half of 1 per cent of the qualified primary electors of his district.

For a congressional office, by at least one-half of 1 per cent of the qualified primary electors of his party in his congressional district.

For a judicial office, by at least one-half of 1 per cent of the qualified electors in the district.

For a county office, by at least one-half of 1 per cent of the qualified primary electors of his party cast at the last preceding general election in his county; if for the nomination for county commissioner of Cook county, then by at least one-half of 1 per cent of the qualified primary electors of his party in his county in the division in which such person is a candidate for nomination.

For a city or village office, to be filled by the electors of the entire village, by at least one-half of 1 per cent of the qualified primary electors of

his party in his city or village; if for alderman, by at least one-half of 1 per cent of the voters of his party in his ward.

For state central committee, by at least 100 of the primary electors of his party of his congressional district.

For a candidate for trustee of a sanitary district, by at least one-half of 1 per cent of the primary electors of his party from such sanitary district.

For a candidate for clerk of the Appellate court, by at least one-half of 1 per cent of the primary electors of his party of the district.

For any other office, by at least ten primary electors of his party of the district or division for which nomination is made.

Any candidate for United States senator may have his name printed upon the primary ballot of his party by filing with the secretary of state not less than thirty days prior to the April primary a petition signed by not less than 3,000 primary electors, nor more than 5,000 members of the party of which he is a candidate. The vote upon candidates for United States senator, however, is for the sole purpose of ascertaining the sentiment of the voters of the respective parties in the state as a whole and not by senatorial districts.

CONVENTIONS.

On the first Monday after the April primary the county central committee of each political party shall meet at the county seat and organize, such meeting to be called the county convention. The county convention of each political party shall choose delegates to the congressional and state conventions of its party. Only precinct committeemen residing within a congressional district shall take part in the selection of delegates to a congressional convention. Each delegate to the county convention shall have one vote and one additional vote for each fifty or major fraction thereof of his party as cast in his precinct at the last general election.

All congressional conventions shall be held on the first Wednesday after the first Monday next succeeding the April primary. The congressional convention of each political party shall have power to select delegates to national nominating conventions and to recommend to the state convention of its party the nomination of candidate or candidates from such congressional district for elector or electors of president and vice-president of the United States.

All state conventions shall be held on the first Friday after the first Monday next succeeding the April primary. The state convention of each political party shall have power to make nominations of candidates for the electors of president and vice-president of the United States, and for trustees of the University of Illinois, to adopt any party platform and to select delegates and alternates to the national nominating conventions.

GOVERNMENT OF ILLINOIS.

Legislative power is vested in a general assembly, consisting of a senate and house of representatives, both elected by the people. The state is divided into fifty-one senatorial districts, each of which elects a senator and three representatives. The general assembly makes laws and appropriates money for the government of the state, elects United States senators and represents the state and in general stands in the same relation to the state as congress does to all the states as a whole. The powers and duties of the chief executive officers are as follows:

Governor—The governor is vested with the chief executive power of the state. He is the commander in chief of the military and naval forces and may call out the militia to maintain the peace. He is required to inform the general assembly, by message, of the condition of affairs of the state and to recommend needed legislation. He may, by proclamation, call a special session of the assembly or adjourn it in case of disagreement between the two houses. He has the power to appoint certain officers and during a recess of the senate may fill vacancies or remove certain officers and may call special elections to fill vacancies in certain offices. He may make regulations upon the governors of other states for the return of fugitives from justice or offer rewards for the arrest of offenders against the laws of the state. He exercises a general supervision over the penitentiaries and may grant reprieves, commutations and pardons and may restore the rights of citizenship to ex-convicts. He may approve acts of the legislature and exercise the veto power.

Lieutenant-Governor—This officer is ex-officio president of the senate and has the power to cast the deciding vote in case of a tie. In case of the death, conviction on impeachment, failure to qualify, resignation, absence from the state or other disability on the part of the governor, the lieutenant-governor succeeds to the office to the close of the term.

Secretary of State—The secretary of state is charged with the safekeeping of the original laws and resolutions of the general assembly, with all books, bills and documents deposited with him by either house, and with all bonds, records and papers filed in his office. He keeps a record of the official acts of the governor, furnishes certified copies of the same to the assembly on request and certified copies of any of the records of his office on the payment of the statutory fees. He

countersigns and affixes the seal of the state to all proclamations and commissions issued by the governor; issues licenses for incorporations and certificates of organization to cities and villages and incorporated towns. He has charge of most of the buildings and grounds belonging to the state in Springfield, furnishes supplies for the general assembly and supervises the printing and distribution of all the public documents of the state. He calls the house of representatives to order at the beginning of each general assembly and presides over the same until the election of a speaker. He is the keeper of the great seal of the state and is the custodian and sealer of weights and measures.

Auditor—The auditor is required to keep all the accounts of the state; to audit the accounts of all officers or other persons authorized to receive moneys from the state treasury; to personally sign all warrants drawn on the treasury; to institute suits wherein the state is a plaintiff, and to make a biennial report of the business of his office to the governor. With the governor and treasurer he determines the state tax rate. He exercises a general supervision over state banks, building, loan and honested associations.

State Treasurer—The state treasurer is custodian of the revenues and public moneys of the state. He must make monthly settlements with the auditor and a biennial report to the governor.

Superintendent of Public Instruction—The superintendent exercises a general supervision over all the public schools of the state. He is the general and legal adviser of the county superintendents and must report biennially to the governor the general condition of all the schools of the state, the amount raised by taxation for school purposes and the manner of its expenditure and the general condition of all the school funds. He may grant state certificates to teachers or cause them to be withheld and must visit charitable institutions which are educational in character.

Attorney-General—It is the duty of the attorney-general to represent the state in the Supreme court in all cases in which the state is interested; to act as counsel for all state officials; to be the legal adviser of the governor and other state officers in matters relating to their official duties, and, on request, to furnish them, as well as either branch of the general assembly, with written opinions upon constitutional or legal questions.

GOVERNORS OF ILLINOIS.

Shadrach Bond, Dem.....1818-1822
Edward Coles, Dem.....1822-1826
Ninian Edwards, Dem.....1826-1820
John Reynolds, Dem.....1830-1834
Wm. L. D. Ewing,* Dem.....1834-1834
Joseph Duncan, Whig.....1834-1838
Thomas Carlin, Dem.....1838-1842
Thomas Ford, Dem.....1842-1846
Augustus C. French, Dem.....1846-1853
Joel A. Matteson, Dem.....1853-1857
Wm. H. Bissell,† Rep.....1857-1860

John Wood, Rep.....1860-1861
Richard Yates, Rep.....1861-1865
Richard J. Oglesby, Rep.....1865-1869
John M. Palmer,‡ Rep.....1869-1873
Richard J. Oglesby, Rep.....1873-1873
John L. Beveridge, Rep.....1873-1877
Shelby M. Cullom, Rep.....1877-1883
John M. Hamilton, Rep.....1883-1885
Richard J. Oglesby, Rep.....1885-1889
Joseph W. Fifer, Rep.....1889-1893
John P. Altgeld, Dem.....1893-1897

John R. Tanner, Rep.....1897-1901
Richard Yates, Jr., Rep.....1901-1905
Charles S. Deneen, Rep.....1905-1909
Charles S. Deneen, Rep.....1909-1913
*Served only fifteen days, completing Reynolds' term. †Died in office; succeeded by John Wood. ‡Democrat after 1872. §Elected United States senator; succeeded by John M. Hamilton.

POPULAR VOTE OF ILLINOIS (1890-1908).

Year.	Office.	Rep.	Dem.	Pro.	Peo.	Soc.	Total.
1880	President	318,037	277,321	440	26,338	622,306
1882	Treasurer	250,722	244,555	11,330	15,511	521,948
1884	President	237,469	312,351	12,074	10,776	672,670
1886	Treasurer	276,680	240,664	19,766	34,821	572,986
1888	President	370,475	348,371	21,703	7,134	747,653
1890	Treasurer	321,991	331,929	32,236	677,139
1892	President	399,288	426,281	25,871	22,207	873,647
1894	Treasurer	455,738	321,551	19,460	60,067	858,551
1896	President	607,130	464,523	9,796	1,000	1,090,766
1898	Treasurer	448,940	405,490	11,753	7,886	1,373,597
1900	President	597,985	503,061	17,626	1,141	1,106,807
1902	Treasurer	450,695	360,925	18,434	1,521	839,975
1904	President	632,645	327,606	34,770	6,725	1,076,499
1906	Treasurer	417,544	271,984	89,293	824,583
1908	President	629,932	450,810	29,364	633	1,155,254
1910	Treasurer	436,484	376,046	20,013	832,230

NOTE—In the above table the total vote includes the scattering vote for minor party candidates. The vote in the people's party column prior to 1890 is that cast for the greenback party and in

1888 for the labor party. The sociallist vote as given includes that of the social labor and social democrat parties.

COAL INDUSTRY OF ILLINOIS.

Summary for year ended June 30, 1910.

Counties producing coal.....	55	Tons undercut by machines.....	18,176,254
Mines of all kinds.....	881	Tons mined by hand.....	30,541,599
New mines open or mines reopened.....	86	Miners employed during year.....	39,069
Mines closed or abandoned.....	91	Other employes underground.....	28,137
Total output (tons of 2,000 lbs.).....	48,717,853	Boys employed underground.....	1,154
Shipping or commercial mines.....	390	Employes above ground.....	6,227
Output of shipping mines, tons.....	47,225,201	Total number employes.....	74,634
Mines in local trade.....	491	Men employed at shipping mines.....	71,520
Output of local mines, tons.....	1,492,652	Persons at work underground.....	68,360
Total tons of mine run coal.....	10,220,456	Persons at work on surface.....	6,274
Total tons of lump coal.....	20,769,930	Average price paid per gross ton for hand mining.....	\$0.597
Total tons of egg coal.....	3,334,059	For machine mining.....	\$0.46
Total tons of nut coal.....	2,846,693	Kegs of powder used.....	1,254,095
Total tons of pea coal.....	10,174,677	Men accidentally killed.....	406
Total tons of slack coal.....	1,372,038	Killed inside mines.....	395
Total tons shipped.....	43,007,015	Killed outside mines.....	11
Tons supplied locomotives at mines.....	886,217	Wives made widows.....	246
Tons sold to local trade.....	2,867,871	Children left fatherless.....	675
Tons consumed at plant.....	1,956,750	Men injured.....	742
Average days active operation.....	179	Gross tons mined to each life lost.....	120,000
Average value per ton, all grades, at shipping mines.....	\$1.01	Number employes to each life lost.....	184
Aggregate home value total product.....	\$50,204,207	Deaths per 1,000 men employed.....	5.44
Average value per ton, all grades, at all mines.....	\$1.03	Tons mined to each man hurt.....	65,657
Mines using mining machinery.....	114	Number employes to each man hurt.....	101
Mining machines in use.....	1,289	Number injured to 1,000 employed.....	9.9

ILLINOIS TAX COMMISSION.

Appointed by governor March 11, 1910.

John P. Wilson, Chicago; Charles E. Merriam, Chicago; Alfred M. Craig, Galesburg; Ben F. Caldwell, Springfield; Prof. David Felmley, Urbana; A. P. Grout, Winchester; B. L. Winchell, Chicago.

Duties of the commission:

1. To make a careful compilation of all state laws relating to taxation and Supreme court decisions thereon.
2. To classify and tabulate statistics relating to the totals raised by taxation in state, counties and municipalities.
3. To investigate all complaints which may be made to them of illegal, unjust or excessive taxation.
4. To secure information as to taxing methods in other states.

5. To formulate a report "which shall be as plain, concise and comprehensive as possible."

The commission met nine times and gave three public hearings, at which numerous suggestions for changes in the laws were urged. A compilation of the tax laws and judicial decisions of Illinois

thereon was made by Prof. Albert M. Kales of the Northwestern university and Elmer M. Leissman and published by the commission. At its request Prof. John M. Fairlie of the University of Illinois published a descriptive and statistical report on the "Taxation and Revenue System of Illinois." The report of the commission was presented to the general assembly in January, 1911, but no action was taken by that body with reference to the recommendations made. One of these proposed the submission of an amendment to the state constitution removing from the general assembly the present restrictions in regard to the taxation of personal property. It provided that any tax levied upon personal property must be uniform as to persons and property of the same class within the jurisdiction of the body imposing the same, and that all exemptions should be by general law, revocable by the general assembly at will. The commission also recommended bills for important changes in the machinery of the tax administration, such, for example, as the establishment of a permanent state tax commission in place of the present state board of equalization.

NOTE—In 1800 and 1810 the territory of Illinois contained but two organized counties, Randolph and St. Clair. In 1800 the population of Randolph county was 1,103 and of St. Clair 1,255, total 2,358; in 1810 Randolph 7,275 and St. Clair 5,007, total 12,282.

FACTS ABOUT ILLINOIS COUNTIES.

Date of organization, area in square miles and origin of names.

- Adams—Jan. 13, 1825—830—John Quincy Adams.
 Alexander—March 4, 1819—220—Wm. M. Alexander.
 Bond—Jan. 4, 1817—380—Gov. Shadrach Bond.
 Boone—March 4, 1837—238—Daniel Boone.
 Brown—Feb. 1, 1839—306—Gen. Jacob Brown.
 Bureau—Feb. 28, 1837—846—Pierre de Buero (Indian trader).
 Calhoun—Jan. 10, 1825—251—John C. Calhoun.
 Carroll—Feb. 22, 1839—450—Charles Carroll of Carrollton.
 Cass—March 3, 1837—460—Gen. Lewis Cass.
 Champaign—Feb. 20, 1832—1,008—County in Ohio.
 Christian—Feb. 15, 1839—702—County in Kentucky.
 Clark—March 22, 1819—513—George Rogers Clark.
 Clay—Dec. 23, 1824—466—Henry Clay.
 Clinton—Dec. 27, 1824—487—DeWitt Clinton.
 Coles—Dec. 25, 1830—520—Gov. Edward Coles.
 Cook—Jan. 15, 1831—890—Daniel P. Cook.*
 Crawford—Dec. 31, 1816—470—Wm. H. Crawford of Georgia.
 Cumberland—March 2, 1843—350—Cumberland road.
 DeKalb—March 4, 1837—650—Baron DeKalb.
 DeWitt—March 1, 1839—440—DeWitt Clinton.
 Douglas—Feb. 8, 1859—410—Stephen A. Douglas.
 DuPage—Feb. 9, 1839—340—DuPage river.
 Edgar—Jan. 3, 1823—640—John Edgar (merchant).
 Edwards—Nov. 28, 1814—220—Gov. Ninian Edwards.
 Effingham—Feb. 15, 1831—486—Gov. Edw. Effingham.
 Fayette—Feb. 14, 1821—720—Marquis de Lafayette.
 Ford—Feb. 17, 1859—580—Gov. Thomas Ford.
 Franklin—Jan. 2, 1818—430—Benjamin Franklin.
 Fulton—Jan. 28, 1823—864—Robert Fulton.
 Gallatin—Sept. 14, 1812—340—Albert Gallatin.
 Greene—Jan. 20, 1821—540—Gen. Nathanael Greene.
 Grundy—Feb. 17, 1841—440—Felix Grundy of Tennessee.
 Hamilton—Feb. 8, 1821—440—Alexander Hamilton.
 Hancock—Jan. 13, 1825—780—John Hancock.
 Hardin—March 2, 1839—180—County in Kentucky.
 Henderson—Jan. 30, 1841—350—Henderson river.
 Henry—Jan. 13, 1825—325—Patrick Henry.
 Iroquois—Feb. 26, 1823—1,100—Indian name.
 Jackson—Jan. 10, 1816—580—Andrew Jackson.
 Jasper—Feb. 15, 1831—484—Sergt. Wm. Jasper.
 Jefferson—March 26, 1819—466—Thomas Jefferson.
 Jersey—Feb. 28, 1839—360—New Jersey.
 Jo Daviess—Feb. 17, 1827—650—Col. Jo Daviess of Kentucky.
 Johnson—Sept. 14, 1812—340—Col. Richard M. Johnson.
 Kane—Jan. 16, 1836—540—Senator Elias K. Kane.
 Kankakee—Feb. 11, 1853—680—Indian name.
 Kendall—Feb. 19, 1841—321—Amos Kendall (post-master-general).
 Knox—Jan. 13, 1829—720—Gen. Henry Knox.
 Lake—March 1, 1839—394—Lake Michigan.
 LaSalle—Jan. 15, 1831—1,152—Explorer LaSalle.
 Lawrence—Jan. 16, 1821—362—Exp. Jas. Lawrence.
 Lee—Feb. 27, 1839—728—Richard Henry Lee.
 Livingston—Feb. 27, 1837—1,026—Edward Livingston.
 Logan—Feb. 15, 1839—620—Dr. John Logan.†
 Macon—Jan. 19, 1829—580—Nathaniel Macon of North Carolina.
 Macoupin—Jan. 17, 1829—864—Indian name.
 Madison—Sept. 14, 1812—740—James Madison.
 Marion—Jan. 24, 1823—576—Gen. Francis Marion.
 Marshall—Jan. 19, 1839—350—John Marshall.
 Mason—Jan. 20, 1841—518—County in Kentucky.
 Massac—Feb. 8, 1843—240—Fort Massac.
 McDonough—Jan. 25, 1826—576—Gen. Thomas McDonough.
 McHenry—Jan. 16, 1836—612—Gen. Wm. McHenry.
 McLean—Dec. 25, 1830—1,161—John McLean (congressman).
 Menard—Feb. 15, 1839—311—Lieut.-Gov. Pierre Menard.
 Mercer—Jan. 13, 1825—550—Gen. Hugh Mercer.
 Monroe—Jan. 6, 1816—380—James Monroe.
 Montgomery—Feb. 12, 1821—740—Gen. R. Montgomery.
 Morgan—Jan. 31, 1823—563—Gen. Daniel Morgan.
 Moultrie—Feb. 16, 1843—340—Gen. Wm. Moultrie.
 Ogle—Jan. 16, 1836—773—Lieut. Joseph Ogle.
 Peoria—Jan. 13, 1825—630—Indian name.
 Perry—Jan. 29, 1827—432—Com. Oliver H. Perry.
 Piatt—Jan. 27, 1841—440—Benj. Piatt (atty.-gen.).
 Pike—Jan. 31, 1821—756—Zebulon M. Pike.
 Pope—Jan. 10, 1816—360—Nathaniel Pope.
 Pulaski—March 3, 1843—190—Count Casimir Pulaski.
 Putnam—Jan. 13, 1825—170—Gen. Israel Putnam.
 Randolph—Oct. 5, 1795—560—Edmund Randolph.
 Richland—Feb. 24, 1841—380—County in Ohio.
 Rock Island—Feb. 9, 1839—420—Island same name.
 Saline—Feb. 25, 1847—396—Saline creek.
 Sangamon—Jan. 30, 1821—875—Indian name.
 Schuyler—Jan. 13, 1825—414—Gen. Philip Schuyler.
 Scott—Feb. 16, 1839—252—County in Kentucky.
 Shelby—Jan. 23, 1827—760—Gov. Isaac Shelby.
 Stark—May 2, 1839—290—Gen. John Stark.
 St. Clair—April 27, 1790—Gen. Arthur St. Clair.
 Stephenson—March 4, 1837—573—Col. Benjamin Stephenson.
 Tazewell—Jan. 31, 1827—650—Gov. L. W. Tazewell.
 Union—Jan. 2, 1818—400—Union of states.
 Vermilion—Jan. 18, 1826—882—Vermilion river.
 Wabash—Dec. 27, 1824—220—Indian name.
 Warren—Jan. 13, 1825—540—Gen. Joseph Warren.
 Washington—Jan. 2, 1818—557—George Washington.
 Wayne—March 26, 1819—720—Gen. Anthony Wayne.
 White—Dec. 9, 1815—500—Capt. Leonard White.
 Whiteside—Jan. 16, 1836—676—Col. Sam Whiteside.
 Will—Jan. 12, 1836—850—Conrad Will.‡
 Williamson—Feb. 28, 1839—440—County in Tennessee.
 Winnebago—Jan. 16, 1836—540—Indian name.
 Woodford—Feb. 27, 1841—556—County in Kentucky.

*Lawyer and first attorney-general of Illinois. †Father of Gen. John A. Logan. ‡Member of constitutional convention of 1818.

REVENUE FROM THE ILLINOIS CENTRAL.

Since March 24, 1855, the Illinois Central Railroad company, in accordance with the terms of its charter, accepted March 15, 1851, has been paying into the Illinois state treasury semiannually a certain percentage of the gross receipts from its charter lines. This percentage up to 1857 was 5 and since then has been 7. The total amount paid by the road to the state up to April 30, 1911, was \$30,321,894.68. The gross receipts and the semi-annual payments to the state since April 30, 1905, have been:

Time.	Receipts.	Payments.
April 30, 1905.....	\$7,635,116.74	\$534,458.17
Oct. 31, 1905.....	7,868,214.35	550,775.00
April 30, 1906.....	8,461,749.42	592,322.46
Oct. 31, 1906.....	8,572,893.57	600,102.55
April 30, 1907.....	8,517,289.72	596,210.23
Oct. 31, 1907.....	9,176,083.43	642,325.84
April 30, 1908.....	7,619,184.14	533,342.89
Oct. 31, 1908.....	7,996,765.05	559,773.55

In 1905, under the administration of Gov. Charles S. Deneen, an investigation of the accuracy of the semiannual statements made by the Illinois Central Railroad company to the state of Illinois was begun and as a result a suit for an accounting was brought by the state against the corporation at the February term of the state Supreme court. It was, however, dismissed for want of jurisdiction, the state being given leave to withdraw its bill without prejudice. It was thereupon filed in the Circuit court of LaSalle county, to the June term, 1907. After various legal processes and arguments the court dismissed the bill for want of equity and from that decree the state appealed to the state Supreme court. Oct. 28, 1910, that tribunal handed down a decision reversing the decision of the Circuit court and remanding the case.

The opinion of the Supreme court, which was delivered by Chief Justice Carter, held that the accounts between the state and the railroad company prior to the year 1905, having been either expressly approved by the governor or accepted by him without objection, were closed or stated accounts which could not be opened up; that the state had no just cause for complaint on account of the diversion of traffic from charter to noncharter lines, and that interest received by the railroad company upon bank deposits and loans formed no part of the gross receipts of the charter lines upon which it must pay a percentage to the state. On the other hand the opinion sustained many of the contentions of the state. Among some of the more important of these were:

That the accounts between the state and the company are open for the years 1905, 1906, 1907, 1908 and 1909 and that the burden of proof is upon the company to show that the semiannual statements furnished to the governor since 1904 are just and true.

That in the division of earnings and payment of expenses, charter and noncharter lines must be treated as distinct and independent.

That the company must pay into the state treasury 7 per cent of the charter line receipts from interstate traffic.

That all joint earnings of charter and noncharter lines must be divided upon such an equitable basis that the state shall receive the full percentage to which it is entitled under the charter. That where switching or drayage charges incurred by the company in Chicago are paid by the company in the performance of its duty as a common carrier, they cannot be deducted from the charter lines' gross receipts before the state's per centum is computed.

That the income derived from hotels, restaurants and dining cars is part of the gross income of the company and must be accounted for in the semi-annual statements to the state.

That unlawful rebates cannot be deducted from charter line receipts, and that whenever a rebate

is so deducted the burden of proving its lawfulness is upon the company.

That whenever traffic moves between points on noncharter lines south of the Ohio river and Cairo and Mounds in Illinois, the charter lines must be awarded their just proportionate share of the joint earnings.

That the railroad company is entitled to deduct a reasonable charge or bridge arbitrary for the use of the Cairo bridge, but that whenever the total amount so deducted in any one year shall exceed \$180,000 (the annual rental stipulated in the company's lease) that fact shall tend to prove that the bridge arbitraries are unreasonable.

That the company must answer the seventy-four interrogatories attached to the bill and furnish to the state the information called for as to all the years since 1904.

When the time for filing a petition for a rehearing had expired, a remanding order was filed in the Circuit court of LaSalle county. Nov. 26, 1910, Attorney-General W. H. Stead entered a motion in the Circuit court of LaSalle county for a rule on the Illinois Central company to answer the amended bill of the state and the seventy-four interrogatories propounded therein. The court entered a rule and required it to answer the amended bill and the interrogatories by June 1, 1911.

Shortly prior to June 1 the attorney-general was notified by the attorneys of the company that an application would be made for a further extension of time to answer the bill and interrogatories, and on June 12 the matter of granting such further extension of time was heard before Judge Stough of the Circuit court of LaSalle county. Upon this hearing the attorneys for the company represented to Judge Stough that a force of between eighty and ninety accountants had been at work upon the books continuously since June 1, 1911, and had only been able to obtain about 10 per cent of the information essential to answer the amended bill and the seventy-four interrogatories contained therein. They further represented that they had recently increased their force, but that it would be impossible to obtain all the necessary information before Jan. 1, 1912. Judge Stough agreed with them and entered an order allowing the defendant until Jan. 1, 1912, to answer the amended bill and interrogatories, the understanding being that no further extension of time would be asked.

When the bill and interrogatories are fully answered a special master will be appointed by the court and the work of an accounting will be entered upon at once.

In his official message to the general assembly, Jan. 4, 1911, Gov. Deneen called attention to the fact that since the beginning of the investigation the amounts due to the state, as shown by the semiannual accounts of the Illinois Central Railroad company, had shown a marked increase and that the increase so far received greatly exceeded the total expenses so far incurred of the investigation.

As against an expenditure up to Dec. 15, 1910, of \$68,709.06, the increased revenue accruing to the state as shown by the reports of the certified public accountants employed was as follows:

Proportion of freight tolls over Dubuque bridge in excess of \$150,000 per annum (of which not one cent was paid into the state treasury by the railroad company prior to the six months' period ending April 30, 1906) from 1906 down to and including Oct. 31, 1910, \$792,796.24, of which there has been paid into the state treasury 7 per cent, or \$53,489.43.

Increased revenue from express earnings as shown by increase of receipts for:

The period ending Oct. 31, 1887, over the preceding period.....	\$70,536.50
The period ending April 30, 1892, over preceding period.....	71,470.12
The period ending April 30, 1896, over preceding period.....	150,980.60
The period ending April 30, 1901, diminished revenues over preceding period.....	7,682.84
The period ending Oct. 31, 1905, increase over preceding period.....	235,982.20
The period ending April 30, 1910, increase over preceding period.....	973,862.29

The largest percentage of increase prior to the period between 1905 and 1910, was 29.43 per cent. Using this as a basis of calculation, the revenue for the period between 1905 and 1910, estimated in advance, would have been \$1,343,352.19, whereas it was in fact \$2,011,768.85, a gain of over \$668,000 on which the state treasury received an additional payment of \$48,000.

Still another increase of revenue resulted from the payment into the state treasury of additional sums since the discontinuance by the railroad company of arbitrary deductions from charter line earnings on account of allowances made to the Big Muddy Coal company. These wrongful deductions, made prior to the beginning of the investigation, had amounted to \$13,362.33, 7 per cent of which, or \$935, was paid into the state treasury by the railroad company for the first time in April, 1907.

If, therefore, the expenses of the investigation

were set off against this increase in revenue due to the investigation, the account would stand:

Amount recovered on account of Dubuque bridge tolls.....	\$53,458.48
Increased revenue from express earnings.....	48,600.00
Amount recovered on account of Big Muddy Coal company.....	935.00
	<hr/>
	102,424.48
From which deducting the total cost of investigation to Dec. 15, 1910.....	68,709.06

Leaves a net gain to the credit of the state of..... 33,715.42

Of the appropriation of \$100,000 made to the executive department for the conduct of this investigation, there was still in the state treasury Jan. 4, 1911, an unexpended balance of \$70,623.05.

GARNISHMENT LAW OF ILLINOIS.

Section 14 of the act of 1872 as amended in 1897 and 1901 declares: "The wages for services of a wage earner who is the head of a family and residing with the same, to the amount of fifteen (\$15) dollars per week, shall be exempt from garnishment. All above the sum of fifteen (\$15)

dollars per week shall be liable to garnishment." Employers are obliged to pay wages amounting to \$15 or less, notwithstanding the service of a writ of garnishment, providing the person to whom wages are due makes affidavit that he is the head of a family and is living with the same.

*Appointed to serve unexpired term of McLean—one month.
†Anti-Nebraska democrat.

COOK COUNTY OFFICIALS.

Hours 9 a. m. to 5 p. m.

BOARD OF COMMISSIONERS.

Room 537 courthouse.

President—Peter Bartzan, D., 523 courthouse.
 Clerk of County Board—Robert M. Sweitzer, D., 600 courthouse.

Commissioners—Peter Bartzan, D.; Joseph Mendel, D.; Lawrence J. Coffey, D.; Frank Ragan, D.; Charles Glennon, D.; George Sultan, D.; Joseph M. Fitzgerald, D.; Bartley Burg, D.; Daniel J. Harris, D.; Stanley Kulewiski, D., city districts. William Busse, R.; Joseph Carolan, R.; William C. Hartray, R.; Alfred Van Steenberg, R., country districts. (One vacancy.)

Committee Clerk—Peter Elliott, 527 courthouse.
 Meetings—The regular meetings of the board of commissioners are held on the first Monday of December, January, February, March, June and September of each year.

Duties—The commissioners are charged with the management of the county affairs of Cook county, as provided by law, having the same powers as the boards of supervisors in other counties. They make all appropriations and contracts and authorize all expenditures. The president appoints, with the approval of the board, the superintendent of public service and other officers and employes whose election or appointment is not otherwise provided for by law.

COUNTY CLERK'S OFFICE.

Courthouse, 2d floor, south end.

County Clerk—Robert M. Sweitzer, D.
 Deputies—James A. Long, chief deputy; Frank S. Ryan, deputy comptroller.

Duties—The county clerk is clerk of the county board and ex officio comptroller of county financial affairs. As such he has charge of all deeds, mortgages, contracts, bonds, notes and similar papers belonging to the county, settles all accounts, keeps books showing appropriations and expenditures, makes out report for fiscal year and submits estimates for the expenses of all the departments of the county organization.

COUNTY TREASURER'S OFFICE.

Courthouse, 1st and 2d floors, north end.

County Treasurer—William L. O'Connell, D.
 Assistant Treasurer—Marcus Jacobowsky.
 Duties—The county treasurer receives and disburses, pursuant to law, all the revenues and other public moneys belonging to the county. He personally countersigns county orders and renders accounts to the board of commissioners.

COMPTROLLER'S OFFICE.

511 courthouse.

Comptroller—Robert M. Sweitzer, D.
 Deputy Comptroller—Frank S. Ryan, D.
 Chief Clerk—Edward J. McCarthy.
 Duties—See County Clerk.

SUPERINTENDENT OF PUBLIC SERVICE.

519 courthouse.

Superintendent of Public Service—James M. Slatery, D.
 Duties—Purchases all supplies for the county institutions, advertising for bids at specified times and entering into yearly or quarterly contracts and making tests from time to time of the articles furnished to determine if they are up to contract requirements.

RECORDER'S OFFICE.

Courthouse, 1st floor, south end.

Recorder of Deeds—Abel Davis, R.
 Chief Deputy—John V. Chinnin.
 Chief Clerk—Lee A. Dunne.
 Duties—The recorder is the keeper of the records and upon the filing of any instrument in writing in his office entitled to be recorded he must spread the same on the record books provided for that purpose, in the order of the time of filing. He is also the official abstract maker for Cook county.

REGISTRAR OF TITLES.

Courthouse, 1st floor, south end.

Registrar—Abel Davis, R.
 Examiners—Edgar H. Parnell, Charles T. Farson.
 Advisory Examiners—John S. Miller and Augustus S. Peabody.
 Duties—The registrar of titles under the Torrens system of land registration directs the procedure by which title is confirmed by decree of court which does away with the need of an abstract and the certificate of title which is issued is guaranteed by the county.

CIVIL-SERVICE COMMISSION.

547 courthouse.

Commissioners—Fredric Greer, Ballard Dunn, John H. Fichter.
 Duties—The commissioners examine applicants for positions in the county service. Before an examination is held fourteen days' notice is given by advertisement. The rules are practically the same as those governing other bodies of the kind.

JURY COMMISSION.

824 courthouse.

Commissioners—William A. Amberg, president; Joseph H. Barnett, secretary; Richard J. Finegan.
 Clerk—Roswell H. Mason.
 Duties—The commissioners are required to prepare a list of electors qualified to act as jurors, to select names from such list and place them in a jury box and a grand jury box, and to be present when the names of jurors needed at each term of court are drawn.

BOARD OF ASSESSORS.

Courthouse, 3d floor, north end.

Members of the Board—Walter E. Schmidt, R., president; William H. Weber, R., secretary; A. W. Miller, R.; Adam Wolf, R., and F. W. Koraleski, D.
 Chief Clerk—William Kingsley.
 Duties—Fix the amount of assessment on all real and personal property according to the rate required by law.

BOARD OF REVIEW.

Courthouse, third floor, south end.

Members of Board—T. J. Webb, D.; Fred W. Upham, R.; Roy O. West, R.
 Chief Clerk—Frank A. Vogler.
 Duties—The board of review takes the place of the old town board in revising and correcting the findings of the assessors and in hearing and adjusting complaints of property owners. The decisions of the board of review are final.

COUNTY INSTITUTIONS.

AT DUNNING.

Superintendent—Dr. Stephen R. Pietrowicz, D.
 Duties—Has the general management of the insane asylum and consumptive hospital.

AT OAK FOREST.

Superintendent—Edward N. Stein, D.
 Duties—Has general management of infirmary or poor house and poor farm.

COUNTY ARCHITECT.

Room 1303, 64 West Randolph street.

County Architect—Paul Gerhard.
 Duties—The county architect makes designs for new buildings, alterations in old ones, etc., as required by the county board. (Paid in fees.)

SUPERINTENDENT OF SCHOOLS.

546 courthouse.

Superintendent—Edward J. Tobin, D.
 Duties—He is required to visit each school in his district at least once a year, to see that the teachers are qualified for the performance of their duties and to do all in his power to increase the efficiency and elevate the standards of the schools.

COUNTY HOSPITAL.

Harrison and Honore streets.

Warden—Henry L. Bailey, D.

Duties—Exercises general supervision over the county hospital.

COUNTY SURVEYOR.

1020 courthouse.

County Surveyor—Edgar A. Rossiter, R.

Duties—The surveyor is required to make all official surveys in the county. (Paid in fees.)

COUNTY PHYSICIAN.

Office in detention hospital.

County Physician—Dr. George F. Butler.

Duties—The county physician resides at the detention hospital and gives medical attention to the patients in that institution.

COUNTY AGENT'S OFFICE.

213-215 South Peoria street.

County Agent—Joseph Meyer, D.

Duties—The county agent is responsible to the president and board of county commissioners in the carrying out of the plans for the relief of the poor in the city of Chicago. He undertakes the return of all nonresident and alien paupers to their legal place of residence; is the medium whereby all defective children are sent to the Lincoln State School and Colony and the blind and deaf and dumb children to the state schools at Jacksonville, Ill.; keeps a record of and closely scrutinizes all cases passed upon at the detention hospital; passes on all applications for institutional care or infirmary cases; interests himself in any wrong existing or being perpetrated on any family to which his attention may be called.

CORONER'S OFFICE.

500 courthouse.

Coroner—Peter M. Hoffman, R.

Chief Physician—Dr. Warren H. Hunter.

Chief Deputy—David E. Jones.

Deputies—Matt Conrad, David J. Gillespie, Michael E. Hartney, Adolph Herrmann, George Hitzman, Charles E. Julian, Charles F. Kennedy, William Ostrom, Michael G. Walsh, Henry Spears, Samuel L. Davis.

Physicians—E. R. Le Count, Joseph Springer.

Duties—The coroner is required to take charge of bodies of all persons in the county supposed to have come to their deaths through other than natural causes, to summon a jury of six men and to inquire into the cause of death. If any person is implicated by the inquest as the slayer of the deceased, or as an accessory, the coroner shall cause his arrest if not already in custody.

SHERIFF'S OFFICE.

Courthouse, 4th floor, center.

Sheriff—Michael Zimmer, D.

Assistant Sheriff—William H. Ehemann, D.

Chief Deputy—Charles W. Peters.

Jailer—William T. Davies, R.

Duties—The sheriff serves and returns all writs, warrants, processes, orders and decrees legally directed to him. He is the conservator of peace in his county and may arrest offenders on view. He is the keeper of the jail and has the custody of prisoners. It is also his duty to attend the courts of record of the county and obey their orders.

STATE'S ATTORNEY'S OFFICE.

Criminal court building, 2d floor.

State's Attorney—John E. W. Wayman, R.

Assistants—B. J. Short, William H. Feindt, George H. Gunther, D. M. Brothers, Ed S. Day, John E. Northrup, E. H. Taylor, John Fleming, Charles D. Barrett, Thomas Marshall, Victor P. Arnold, William R. Fetzer, Zach Hofheimer, F. L. Fairbank, Robert E. Crowe, Frederick Burnham, Jeremiah Sullivan, Claude F. Smith, Joseph C. Pisha, Otto B. Schram, George J. Crane, John A. Barnes, Alfred O. Erickson, Francis M. Lowes, W. W. Witly, Harry F. Thompson, Julius Jaffe, James A. Scott, Joseph A. Smejkal, Louis Pinderski.

Duties—The state's attorney begins and prosecutes all actions, civil and criminal, in any court of record in the county, in which the people of the state or county may be interested, prosecutes forfeited bonds and actions for the recovery of debts due the state or county and acts as adviser to county officers.

COUNTY ATTORNEY'S OFFICE.

507 courthouse.

County Attorney—Francis S. Wilson.

Assistant County Attorneys—William F. Struckmann, Charles L. Daly, Louis B. Anderson, David W. Taylor.

Manager Tax Department—P. H. Schmitz.

Duties—The county attorney is the legal adviser of the county board and has charge of all suits at law or in equity for or against the county.

PUBLIC ADMINISTRATOR.

1034 First National Bank building.

John F. Devine, R.

Duties—The public administrator is appointed by the governor to administer the estates of deceased persons under certain contingencies regulated by the statutes of the state of Illinois.

CUSTODIAN COUNTY BUILDING.

Robert E. Burke, D.

EQUALIZED ASSESSMENT OF ILLINOIS PROPERTY.

COURTS IN COOK COUNTY.

APPELLATE COURT, FIRST DISTRICT, ILLINOIS.

Ashland block, 7th floor.

A—Edward O. Brown, presiding judge; Ben M. Smith, Frank Baker.

B (Branch)—Jesse A. Baldwin, presiding judge;

Thomas C. Clark, Frederick A. Smith.

C (Branch)—James S. Baume, presiding judge; Warren W. Duncan, Emery C. Graves.

Clerk—A. R. Porter, R.; chief deputy, Roy S. Gaskill.

Jurisdiction—The Appellate court has jurisdiction of all matters of appeal or writs of error from the Superior, Circuit and County courts, and from the Municipal court of Chicago, except in criminal cases and those affecting a franchise or freehold or the validity of a statute. Decisions are final except that an appeal may be granted on a certificate of importance, or a review may be allowed on a writ of certiorari from the Supreme court.

Terms of Court—First Tuesdays in March and October of each year.

SUPERIOR COURT.

Courthouse, 4th floor.

Judges—W. H. McSurely, R.; term expires 1917; Theodore Brentano, R., 1915; Marcus A. Kavanagh, R., 1917; Joseph F. Fitch, D., 1917; William E. Dever, D., 1916; Richard E. Burke, D., 1916;

Martin M. Gridley, D., 1916; Thomas C. Clark, D., 1916; Charles A. McDonald, D., 1916; W. F. Cooper, D., 1916; Henry V. Freeman, R., 1917; Albert C. Barnes, R., 1917; Hugo Pam, R., 1917; M. L. McKinley, D., 1917; Clarence N. Goodwin, D., 1917; Charles M. Foell, R., 1917; Denis E. Sullivan, D., 1917.

Clerk—Charles W. Vail, R.; courthouse, 4th floor, south end. Chief deputy, Charles E. Shearman.

Jurisdiction—The Superior court has concurrent jurisdiction with the Circuit court in all cases of law and equity and in appeals from inferior courts.

Terms of Court—Begin on the first Monday of every month.

CIRCUIT COURT.

Courthouse, 4th floor.

Terms of judges all expire in June, 1915.

Judges—Edward O. Brown, D.; Thomas G. Windes, D.; Merritt W. Pinckney, R.; R. S. Tutthill, R.; Frank Baker, D.; John Gibbons, R.; C. M. Walker, D.; Lockwood Honore, D.; John P. McGoorty, D.; George Kersten, D.; Frederick A. Smith, R.; Adolor J. Pettit, R.; Kickham Scaulan, R.; Jesse A. Baldwin, R.

Clerk—Joseph E. Bidwill, Jr.; chief deputy, Louis Hutt, R.; fourth floor, north end.

Jurisdiction—Same as that of the Superior court.

Terms of Court—Begin on the third Monday of every month.

COUNTY COURT.

Courthouse, 6th floor.

Judge—John E. Owens, D.; term expires in December, 1914.

Clerk—R. M. Sweltzer, D.; 600 courthouse.

Jurisdiction—The County court has concurrent jurisdiction with the Circuit courts in all cases of appeal from justices of the peace and police magistrates and in all common-law matters where the value of property does not exceed \$1,000; concurrent jurisdiction with courts of record in condemnation and special assessment proceedings; exclusive jurisdiction in voluntary assignments, release of insolvent debtors, trials of the right of property, commitment of insane and the support of paupers by their relatives; objections to the sale of real estate for nonpayment of general or special taxes are heard in the County court and all inheritance taxes are levied and collected under its direction; the official bonds of most county and township officers and the yearly reports of clerks, justices of the peace, and state's attorneys and other officers of fees collected are subject to the approval of that court; the County court in Cook county has entire management and control of all elections in Chicago.

CRIMINAL COURT.

Criminal court building, Michigan street and Dearborn avenue.

Judges—Judges of the Superior and Circuit courts alternate in presiding over the Criminal court.

Clerk—Frank J. Walsh, D.; office in Criminal court building.

Jurisdiction—The Criminal court of Cook county has original jurisdiction of all criminal offenses except such as is conferred upon justices of the peace, and appellate jurisdiction from justices of the peace.

Terms of Court—Begin on the first Monday of every month.

PROBATE COURT.

Courthouse, 6th floor.

Judge—Charles S. Cutting, R.; term expires in 1914.

Assistants—Neil J. Shannon, Philip P. Bregstone, John W. Rainey.

Clerk—John A. Cervenka, D.

Public Administrator—John F. Devine, R.

Public Guardian—Mary M. Bartelme.

Jurisdiction—The Probate court has original jurisdiction in all matters of probate, the settlement of estates of deceased persons, the appointment of guardians and conservators and settlement of their accounts, and in all matters relating to apprentices, and in cases of sales of real estate of deceased persons for the payment of debts.

Terms of Court—Begin on the first Monday of every month.

JUVENILE COURT.

771 Ewing street.

Judge—Merritt W. Pinckney.

Jurisdiction—The Juvenile court hears and disposes of cases brought before it under the act to regulate the treatment and control of dependent, neglected and delinquent children.

UNITED STATES CIRCUIT COURT.

Federal building, 6th floor.

Judges—Francis E. Baker, William H. Seaman, Christian C. Kohlsaat.

Clerk—John H. R. Jarar.

Salaries of judges, \$7,000 each per year; of clerk, \$3,500.

Jurisdiction—The United States Circuit courts have jurisdiction of suits of a civil nature at common law or in equity where the matter in dispute exceeds in value \$2,000, where an alien is a party to litigation or the suit is between a citizen of the state where the suit is brought and a citizen of another state; of suits where the United States or officers thereof are plaintiffs, and of cases involving patent, copyright, national banking and bankruptcy laws, etc.

UNITED STATES DISTRICT COURT.

Federal building, 6th floor.

Judges—Kenesaw M. Landis, George A. Carpenter.

Clerk—Thomas C. Mac Millan.

Salary of judges, \$6,000 a year; of clerk, \$3,000.

Jurisdiction—United States District courts have jurisdiction of crimes and offenses cognizable under the authority of the United States where the punishment is not capital; of suits relating to debts by or to the United States; of admiralty and maritime cases, and of suits arising under the postal laws, etc.

MASTERS IN CHANCERY.

Circuit Court—William F. Cooper, M. H. Guerin, Fred Sass, Albert W. Brickwood, Granville W. Browning, Stillman B. Jamieson, Roswell B. Mason, Dennis W. Sullivan, George Mills Rogers, Thomas Taylor, Jr., Horatio L. Wait, Sigmund Zelsler, William A. Doyle, Ralph W. Condee, John W. Ellis, Richard S. Folsom.

Superior Court—Hiram Barber, James Turnock, Charles J. Trainor, Charles T. Mason, J. J. Sullivan, S. S. Pollack, Wirt E. Humphrey, John E. Hunt, Charles P. Abbey, David F. Matchett, James V. O'Donnell, John S. Hummer, C. Arch Williams, Leo J. Doyle, Joseph E. Weissenbach, James I. Ennis, J. H. Hume, C. C. Stillwell.

United States Circuit Court—James S. Hopkins, Charles B. Morrison,

MUNICIPAL COURT OF CHICAGO.

City hall, eighth and ninth floors.

Chief Justice—Harry Olson, room 915.

Chief Clerk—Homer K. Galpin.

Chief Bailiff—Thomas M. Hunter.

Judges—Terms expire in 1912: Harry Olson, chief justice; Freeman K. Blake, William W. Maxwell, Judson F. Going, William M. Gemmill, William N. Cottrell, Edwin K. Walker, Edward A. Dickert, Isadore H. Hlimes, Arnold Heap. Terms expire in 1914: Henry C. Beitler, Max Eberhardt, Charles N. Goodnow, Joseph Z. Uhlir, Hosea W. Wells, Oscar M. Torrison, Frederick L. Fake, Jr., Sheridan E. Fry, Hugh R. Stewart. Terms expire in 1916: John B. Caverly, John J. Rooney, Thomas F. Scully, Jacob H. Hopkins, James C. Martin, Harry P. Dolan, Joseph Sabath, John R. Newcomer, Charles A. Williams.

Salaries—Chief Justice, \$7,500 a year; associate justices, \$6,000; clerk, \$5,000; chief deputy clerk, \$2,500; other clerks, \$1,800; bailiff, \$5,000; chief deputy bailiff, \$2,500; other bailiffs, \$1,500.

Civil Courts—First district, city hall; second district, 8855 and 8857 Exchange avenue, South Chicago.

Criminal Courts—First district: Branches 1 and 2, Criminal court building; South Clark street branches 1 and 2, 625 South Clark street; Desplaines street branch, 119 North Desplaines street; Maxwell street branch, Maxwell and Morgan streets; Hyde Park branch, 5223 Lake avenue; West Chicago avenue branch, 1125 West Chicago avenue; Shakespeare avenue branch, Shakespeare and California avenues; East Chicago avenue branch, 115 East Chicago avenue; Sheffield avenue branch, Sheffield avenue and Diversey boulevard; Englewood branch, 6347 Wentworth avenue; 35th street branch, 723 West 35th street. Second district; 8855-8857 Exchange avenue, South Chicago.

JURISDICTION.

1. All actions on contracts when the amount claimed by the plaintiff exceeds \$1,000; all actions for the recovery of personal property the value of which exceeds \$1,000; all actions for the recovery of damages for the conversion of personal property when the amount sought to be recovered exceeds \$1,000.

2. All cases which may be transferred to it by the Circuit and Superior courts of Cook county.

3. All criminal cases in which the punishment is by fine or imprisonment otherwise than in the penitentiary and all criminal cases which may be prosecuted otherwise than by indictment by a grand jury.

4. All civil actions, quasi-criminal actions excepted, for the recovery of money only, where the amount does not exceed \$1,000; all actions for the recovery of personal property the value of which does not exceed \$1,000; all actions of forcible detainer and all actions and proceedings of which justices of the peace were formerly given jurisdiction where the amount sought to be recovered does not exceed \$1,000.

5. Quasi-criminal actions.

6. Proceedings for the prevention of crime; pro-

ceedings for the arrest, examination and commitment of persons charged with criminal offenses and proceedings pertaining to search warrants.

COSTS IN CIVIL CASES.

1. In cases of the first class the plaintiff shall pay \$8 to the clerk when suit is begun and \$6 more if he asks for a jury trial.

2. In cases of the second class the plaintiff at the time of the bringing of the transcript of the record to the Municipal court shall pay \$1 and \$6 more if he files a demand for a jury.

3. In cases of the first class the defendant at the time of the filing of his appearance shall pay to the clerk \$5 and if he asks for a jury \$6 additional.

4. In any case of the fourth class the plaintiff at the time of beginning suit shall pay to the clerk of the court \$2 when the amount claimed does not exceed \$200; \$5 if the amount exceeds \$500 and does not exceed \$1,000, and \$2 in a case of forcible entry and detainer. If a jury is asked \$6 additional must be paid.

5. In any case of the fourth class the defendant at the time of his appearance shall pay to the clerk \$2 if the amount claimed by the plaintiff exceeds \$200 and the further sum of \$6 if he (the defendant) asks for a jury.

6. The costs to be paid for the services of the bailiffs, sheriffs and coroners shall be \$1.75 for each person upon whom service is made and in cases where any levy is to be made \$1.75 additional; other costs shall be the same as in the Circuit court.

7. In any case of the fourth class the party delivering to the bailiff any paper to be served shall pay him \$1 for each defendant named upon whom service is to be made, and in cases of writs of attachment, replevin or execution the further sum of \$1 when any levy is made, and shall also pay for the actual expense of seizing and caring for property.

8. In any case the party securing any certified copy of the record shall pay to the clerk the same fees as are paid to the clerk of the Circuit court for similar services.

9. In any case of the fourth class the bailiff, as commissions on moneys realized by execution, shall collect from the defendant in the execution 5 per cent upon the money realized if it does not exceed \$100, but if it exceeds \$100 the amount shall be 5 per cent on the first \$100 and 3 per cent upon the excess over \$100.

10. All other costs not specified shall be the same as in the Circuit court.

COSTS IN CRIMINAL CASES.

Costs in criminal and quasi-criminal cases and proceedings in the Municipal court instituted in the name of the people or of any state or county officers shall be:

1. Clerk's fees for all services rendered by him, \$6.

2. Bailiff's fees the same as those which may now or hereafter be fixed by law for the sheriff in counties of the third class for similar services.

COOK COUNTY FOREST PRESERVE ACT INVALID.

Under an act of the Illinois legislature, approved June 16, 1909, the following proposition was submitted to the voters of Cook county at the election of Nov. 8, 1910:

"For the adoption of an act to provide for the creation and management of forest preserve districts and repealing a certain act therein named and creating under said act a forest preserve district, the boundaries of which to coincide with and comprise the whole of the territory of Cook county, Illinois."

The proposition was approved by a majority of those voting upon it and under the provisions of the law the following were appointed to serve as the first commissioners:

Lewis Rinaker, Rep., four years; Charles H. Wacker, Dem., two years; Gustavus J. Tatge,

Dem., two years; Nelson A. Cool, Rep., four years; Samuel Insull, Rep., four years.

To test the validity of the steps by which the Cook county forest preserve district was created an application for quo warranto proceedings was filed by State's Attorney Wayman in the Superior court, directed against the commissioners, whom he charged with illegally holding office. The court decided against him and the matter was then laid before the state Supreme court. That tribunal announced, June 20, 1911, that the creation of the forest preserve district was illegal on the ground that, instead of the whole of Cook county being given an opportunity to vote upon the proposition, only the voters of Chicago and Cicero were permitted to do so. The validity of the forest preserve act was not involved; it was merely the creation of the district itself which was declared void.

DIRECTORY OF COUNTY DEPARTMENTS AND COURTS.

The original town of Chicago in 1835 extended from Chicago avenue on the north to 12th street on the south and from Halsted street on the west to Lake Michigan on the east. When the city was incorporated in 1837 the city limits were as follows: From Lake Michigan west along Center

street to North Clark street, south to North avenue, west to Wood street, south to 22d street and east to the lake. The largest addition to the area of the city was made in 1889, when Lake View, Jefferson, Hyde Park and Lake were annexed. Edison Park was annexed Nov. 8, 1910.

Drainage canal.
Garfield park.
Ghetto district on South Canal, Jefferson and Maxwell streets; fish market on Jefferson street from 12th to Maxwell.
Haymarket square, Randolph and Desplaines streets; scene of anarchist riot.
Hull House, 335 South Halsted street.
Humboldt park.
Humboldt, Leif Ericson, Renter and Kosciusko monuments in Humboldt park.
Parental school, St. Louis and Berwyn avenues.
Police monument (Haymarket), in Union park.

CHICAGO VICE COMMISSION REPORT.

The first report of the vice commission of the city of Chicago, appointed by Mayor Fred A. Busse July 5, 1910, was made to the city council April 5, 1911. The main facts set forth were these:

Chicago spends \$15,000,000 annually for vice.

The traffic in women annually demands and destroys the lives and souls of 5,000 young girls.

Graft flourishes under the system that exploits vice.

"Red light districts" breed criminals and offer them havens of refuge.

Vice surrounds innocent girls who come to Chicago to earn a living with almost irresistible temptations.

Negroes are contaminated by the proximity of vice to the neighborhoods in which they live.

Oct. 26, 1910, there were in Chicago 506 places, including houses, flats and hotels, classed as evil resorts, in which 1,880 women were harbored.

The male remedies suggested by the commission were these:

State laws and city laws should be enacted making resorts public nuisances and expressly giving to any citizen the right to institute summary proceedings against them.

There should be relentless pursuit and prosecution of professional procurers.

There should be constant prosecution of all keepers and inmates of existing houses as well as owners of the property.

An identification system for women in resorts should be established by the state courts.

A law should be enacted providing a penalty for sending any messenger under 21 years of age into a disorderly house.

Protection should be given to immigrant girls arriving in Chicago.

The sale of liquor should be forbidden at public dances. Municipal dance halls should be established.

The city should acquire a farm on which a trade school and hospital can be established for unfortunate women.

For the immediate initiation of a reform policy the commission asked the council to pass two ordinances.

First—Providing for the appointment of a morals commission.

Second—Providing for the establishment of a morals court.

The president of the commission was Dean W. T. Sumner and the secretary Edwin W. Sims.

SELECT COMMITTEES (1911-1912).

- Track Elevation—Bowler, Kearns, Forsberg, Emerson, Fisher, Janovsky, Reading, Lipps, Donahoe.
- Compensation—Reading, Reinberg, Snow, Ryan (34th), Belfuss, Foell.

Bathing Beaches and Recreation Piers—Long, Donahoe, Nance, Egan, Geiger.

Special Park Commission—Ald. Bellfuss, Danisch, Harding, Capitain, Schultze, McDermost, Ryan (4th), Walkowiak, Hazen, Cullerton, Haderlein, and Messrs. Oscar F. Mayer, William Best, Jens Jensen, Cyril Fjala, James H. Burdette, Paul Drzymalski, Frederick Greeley, Peter S. Goodman, F. A. Lindstrand, George Landau, Abraham M. Lieblich, Thomas J. Dixon, William Kolacek, Joseph Donnersperger and Francis T. Sinmons.

Meetings—Regular meetings of the council are held every Monday at 7:30 p. m., except when otherwise ordered at a regular meeting.

Duties—In a general way the duties of the board of aldermen are to enact ordinances for the government of the city, levy and collect taxes, make appropriations, regulate licenses, etc. The matters coming under the jurisdiction of the council are indicated by the names of the committees given above.

CITY CLERK'S OFFICE.

City hall, first floor, south end.

City Clerk—Francis D. Connery.

Chief Clerk to City Clerk—E. J. Padden, D.

Duties—The city clerk keeps the corporate seal and all papers belonging to the city. He attends the meetings of the council and keeps a record of the proceedings. All city licenses are issued through his office.

CITY TREASURER'S OFFICE.

City hall, second floor.

Hours—10 a. m. to 3 p. m.

City Treasurer—Henry Stuckart, D.

Assistant—J. Lindheimer.

Chief Clerk—Albert J. Keefe.

Duties—The treasurer receives all moneys belonging to the corporation, deposits the funds in bank, keeps separate accounts of each fund or appropriation, pays warrants, receives fines and renders monthly accounts of the condition of the treasury to the council. The city treasurer is also treasurer of the following pension funds: Firemen's, public school teachers', public library employees', public school employees', house of correction and municipal employees'.

CITY COMPTROLLER'S OFFICE.

Room 501, city hall.

Comptroller—John E. Traeger, D.

Deputy Comptroller—Louis E. Gosselin, D.

Chief Clerk—C. J. O'Connor.

Duties—The comptroller is at the head of the department of finance, of which the treasurer and collector are also members. He is charged with a general supervision over all the officers of the city who take in or pay out city money. He is the fiscal agent of the city and as such has charge of deeds, mortgages, contracts, etc. He audits and settles claims, keeps a record of persons committed to the house of correction, with fines, etc.; keeps books relating to appropriations, makes the annual estimates, signs warrants upon the city treasury, etc.

PAYMASTER'S BUREAU.

Room 503, city hall.

Paymaster—John L. Healy.

Duties—The city paymaster has immediate charge of paying the salaries of city employees, including school teachers and library employees.

CITY COLLECTOR'S OFFICE.

City hall, first floor.

City Collector—Edward Cohen, D.

Deputy City Collector—J. F. McCarty.

Duties—The city collector executes all special assessments and other warrants, receives money for vehicle tax and licenses, pays over to the city treasurer all moneys collected by him, takes receipts therefor and files them with the comptroller.

CORPORATION COUNSEL'S OFFICE.

Room 511, city hall.

Corporation Counsel—William H. Sexton, D.

Assistants—Maclay Hoyne, Bryan Y. Craig, Lee D. Mathias, John W. Beckwith, William Dillon, Nicholas Michels, Charles M. Haft, Edward T.

Wade, Patrick W. Sullivan, Bernard J. Mahony, James G. Skinner, Henry A. Berger, Leon Hornstein, S. Crawford Koss, A. L. Gettys, John F. Power, J. J. Viterna, Max M. Korshak, George L. Reker, Frank T. Huening, S. A. T. Watkins, Otto C. Bruhlman, Harry J. Ganey, J. F. Grossman, James J. St. Lawrence, Dwight MacKay, Howard P. Bishop, Loring H. Hoover.

Assistant Corporation Counsel and Attorney Board Local Improvements—Philip J. McKenna.

Assistant Corporation Counsel and Assistant Attorneys Board Local Improvements—Frank Johnston, Jr., George P. Foster, D. J. Normoyle, Eugene H. Dupee.

Assistant Corporation Counsel and Attorney Fire Department—Michael F. Sullivan.

Secretary to the Corporation Counsel—A. J. Callaghan.

Duties—The corporation counsel superintends and, with the assistance of the prosecuting and city attorneys, conducts all the law business of the city; draws the leases, deeds and other papers connected with the finance department and all contracts for any of the other departments of the corporation; drafts such ordinances as may be required of him by the city council or its committees and furnishes written legal opinions upon subjects submitted to him by the mayor or the city council or any department of the city government.

CITY ENGINEER'S OFFICE.

City hall, fourth floor.

City Engineer—John Ericson, C. E.

Assistant City Engineer—H. I. Baker.

Chief Clerk—W. J. Roach.

Duties—The city engineer has charge of the construction of bridges, viaducts and waterworks and performs all such services for the commissioner of public works as require the skill and experience of a civil engineer.

IN CHARGE OF DIVISIONS.

Construction—Henry W. Clausen.

Operation—Henry A. Allen.

Water Pipe Extension—H. L. Lucas.

Repairs and Shop—F. Miller.

Designing—K. Lehmann.

Inspection and Testing—H. C. Parkes.

Bridges and Viaducts—Thomas G. Pihlfeldt.

Harbor Master—Thomas Moynihan.

BOARD OF SUPERVISING ENGINEERS—CHL

CAGO TRACTION.

105 South LaSalle street.

Secretary—Lucius H. Davidson.

BOARD NO. 1.

Chairman and Chief Engineer—Bion J. Arnold.

Representing City of Chicago and Assistant Chief Engineer—George Weston.

Representing Chicago City Railway Company—Harvey Fleming.

Representing Chicago Railways Company and Southern Street Railway Company—John Z. Murphy.

BOARD NO. 2.

Chairman and Chief Engineer—Bion J. Arnold.

Representing City of Chicago and Assistant Chief Engineer—George Weston.

Representing Calumet and South Chicago Railway Company—A. L. Drum.

BUREAU OF WATER.

City hall, fourth floor.

Superintendent—William J. McCourt.

Head Accountant—James J. Dunn.

Chief Clerk—John C. Schubert.

Cashier—Otto A. Dieler.

Water Assessor—Thomas H. Byrne.

Field Assessor in Charge—J. J. Ward.

Duties—The superintendent of water has special charge of the assessment and collection of water rates.

BUREAU OF STREETS.

Room 408, city hall.

Superintendent (acting)—F. W. Solon, D.

First Assistant Superintendent—Patrick McCarthy.

Second Assistant Superintendent—(Vacancy).

Third Assistant Superintendent—Walter G. Leininger.

Duties—The superintendent of streets performs such duties as are required of him by the commissioner of public works or the ordinances of the city. He has special charge of the streets, sidewalks and public ways of the city and of the improvement and repair thereof, except where such repair or improvement is to be paid for by special assessment. The first assistant superintendent performs such duties as may be required of him by the commissioner of public works, the superintendent of streets or the city ordinances, and acts as superintendent in the latter's absence. The second assistant superintendent has charge of the cleaning of the streets and alleys of the city, including the removal and disposition of garbage, litter, dirt, ashes, offal and other materials. He also sees that the ordinances relating to garbage, etc., are enforced and that violations thereof are reported for prosecution. The third assistant has charge of the improvement and repairs of the streets and alleys, except where such repairs or improvements are to be paid for by special assessment.

BUREAU OF SEWERS.

Room 409, city hall.

Superintendent—William E. Quinn, D.
Chief Clerk—Ed Cullerton, Jr.

Duties—The superintendent has special charge of the maintenance of sewers, including cleaning and repairing, and also of the issuance of permits for all connections.

BUREAU OF MAPS.

Room 410, city hall.

Superintendent—John D. Riley, D.

Duties—Has special charge of city maps and plats and all matters pertaining to street numbering, and is examiner of subdivisions.

BUREAU OF COMPENSATION.

Room V-15, city hall.

Superintendent—Henry V. McGurgen.

Duties—Shall, under the direction of the commissioner of public works, have charge of and receive all applications for permits to use streets and alleys, or public grounds, or any space beneath the same; shall attend to all matters connected with the issuance of such permits; also act in an advisory capacity to the committee on compensation of the city council.

BOARD OF LOCAL IMPROVEMENTS.

City hall, second floor, south end.

Members—George A. Schilling, president; Frank Sina, Frank X. Ryzdewski, Clayton F. Smith, Fred Burkhard.

Superintendent of Special Assessments and Secretary—Edward J. Glackin.

Engineer Board of Local Improvements—Cicero D. Hill.

Chief Engineer of Streets—John B. Hittell.

Superintendent of Sidewalks—N. E. Murray.

Chief Clerk Special Assessments—T. Sullivan.

Duties—The board of local improvements is that part of the city of Chicago government created by law for the purpose of making local improvements, the cost of which is paid by special assessments or direct taxation on the property directly and indirectly benefited. Among such local public improvements are sewers, house drains, water mains, water service pipes, sidewalks, street and alley paving and the taking of private property by condemnation proceedings for the purpose of opening, extending or widening public highways.

CITY ATTORNEY'S OFFICE.

Room 602, city hall.

City Attorney—Nicholas L. Piotrowski.

Chief Assistant City Attorney—Morton A. Mergenthal.

Trial Attorneys—George F. Mulligan, Edward C. Fitch, Myer L. Emrich, Samuel C. Herren, Matthew J. O'Brien, Assistant Trial Attorneys—Richard W. Donovan, Edward A. Prindiville, William W. O'Brien, James R. Conditine, Matthew E. Clark, Michael C. Zacharias, John B. Brenza, Justin F. McGrath.

Appellate Court Attorney—David R. Levy.

Chief Investigator—George Self.

Supervisor of Investigations—Frank C. Sebring.

Chief Clerk—Claude Dyckman.

Docket Clerk—Joseph M. Coffey.

Duties—The city attorney keeps a register of all actions in courts of record, prosecuted or defended, in which the city may be a party, and defends all damage suits against the city. His chief duty is the defense or settlement of personal injury cases against the corporation. He may be called upon to draft ordinances for the city council or for heads of departments. He is the attorney for the fire pension board.

PROSECUTING ATTORNEY'S OFFICE.

Room 604, city hall.

Prosecuting Attorney—James S. McInerney, D.

Chief Assistant—Edwin J. Raber.

Chief Clerk—Edward V. Peterson.

Assistants—Albert J. W. Appell, Morris Barnett, Edward J. Clancy, George Emick, Henry Eckhardt, Leroy Hickett, Abel B. Kretzke, J. Henry Kraft, Otto Keiser, Ernst Langtry, Ota P. Lichtfoot, Conrad L. Le Blanc, Bernard G. Matz, John L. McInerney, C. A. McPadden, William Navigato, John Prystalski, Walter A. Rooney, Frank C. Soubrada, U. S. Schwartz, W. J. Vavra, Edward Woodson.

DEPARTMENT OF HEALTH.

City hall, seventh floor.

Commissioner of Health—George B. Young, M. D.

Assistant Commissioner—Gottfried Koehler, M. D.

Secretary—E. R. Pritchard.

Assistant Secretary—S. F. Manning.

Chief Bureau of Vital Statistics—M. O. Heckard, M. D.

Assistant Chief Bureau of Vital Statistics—C. St. Clair Drake, M. D.

Chief Bureau of Medical Inspection—Heman Spalding, M. D.

Assistant Chief Bureau of Medical Inspection—I. D. Rawlings, M. D.

Assistant Chief Bureau of Medical Inspection—Hyman Cohen, M. D.

Chief Bureau of Sanitation—Charles B. Ball.

Assistant Chief Bureau of Sanitation—Thomas J. Claffy.

Chief Bureau of Food Inspection—Benjamin Perry, M. D.

Assistant Chief Bureau of Food Inspection—B. E. Sherman, M. D.

Director of Laboratory—F. O. Tonney, M. D.

City Physician—Dr. George J. Spencer.

Duties—The commissioner of health and his assistants enforce state laws and city ordinances relating to sanitation and cause all nuisances to be promptly abated. They keep records of deaths and other vital statistics, investigate all cases of contagious diseases and take all necessary steps to prevent their spread, such as providing for vaccination, disinfection, etc.

The city physician attends to all cases in the police stations requiring medical attention.

DEPARTMENT OF PUBLIC WORKS.

Room 406, city hall.

Commissioner—Lawrence E. McGann, D.

Deputy Commissioner—J. O. Kostner, D.

Duties—The commissioner of public works is the head of the department of public works, which embraces the bureaus of engineering, streets, sewers, water, maps and plats, compensation and architecture. The commissioner of public works has special charge and superintendence, subject to the ordinances of the city, of all streets, alleys, highways, walks, bridges, viaducts, docks, wharves, public places, public landings, public grounds, markets and market places and public buildings belonging to the city; of all works for the deepening and widening or dredging of the Chicago river and its branches, and of the harbor of said city; of all sewers and works pertaining thereto; and of the waterworks and collection of water rates and fees for the use of water or for permits issued in connection with the waterworks system, and of all sewerage per-

mits and licenses; the awarding and execution of all contracts for any work or public improvement not done by special assessment, and the letting of all contracts for coal for use of any department of the city.

BOARDS OF EXAMINERS.

Suite 1002, city hall.

BOARD OF EXAMINERS OF STATIONARY ENGINEERS.

President—Henry A. Zender.
First Vice-President—Adolph Jenczewsky.
Second Vice-President—W. F. Melican.
Chief License Inspector—Henry G. McMahon.
Inspectors—John T. Gohring, Charles B. Christner, Samuel C. Sidenstick.

Duties—The board of examiners of stationary engineers is appointed by the mayor. It consists of three members, all of them practical engineers and competent judges of the construction of steam boilers and engines and experienced in their operation. The board examines applicants for licenses as engineers and boiler or water tenders and issues to such applicants as are found qualified proper certificates; each certificate issued expires by limitation one year from date. An application for an engineer's license must be accompanied by a fee of \$2.00 and for a boiler tender or water tender's license by a fee of \$1.00. Applicants are required to pass by a percentage of 70 or more.

BOARD OF EXAMINERS OF PLUMBERS.

Chairman (ex officio)—Dr. George B. Young, commissioner of health.
Master Plumber—Charles J. Herbert.
Journeyman Plumber—William W. Petrie.

BOARD OF PUBLIC MOTOR VEHICLE REGISTR.

William Carroll, city electrician, chairman; Dr. George B. Young, commissioner of health; John Ericson, city engineer; Harry L. Hudson, examiner.

BOARD OF EXAMINERS OF MOVING PICTURE OPERATORS.

Chairman—William Carroll, city electrician.
Examiner—William H. Havill.
Secretary Boards of Examiners—Vernon L. Bean.
Duties—The secretary of the boards of examiners is by law secretary of all the four boards enumerated above. The duties of the three boards last mentioned are sufficiently indicated by their titles. They are similar, within their scope, to those of the board of examiners of stationary engineers.

TRACK ELEVATION DEPARTMENT.

Room 1003, city hall.

Track Elevation Commissioner—Francis J. Owens, D.
Duties—Frames ordinances for the elevation of steam surface roads in Chicago and has supervision of track elevation.

DEPARTMENT OF BUILDINGS.

Room 702, city hall.

Commissioner—Henry Ericsson, D.
Deputy Commissioner—Robert Knight.
Secretary—Peter C. Hoey.
Assistant Secretary—Harry D. Stone.
Duties—The building commissioner sees that new buildings are put up in accordance with the city ordinances, that fire escapes are provided wherever needed, that unsafe structures are demolished or repaired, that safe exits are provided in halls, theaters, etc.

DEPARTMENT OF ELECTRICITY.

Room 608, city hall.

City Electrician—William Carroll, D.
Chief Operator—Frank W. Swenke.
Superintendent of Construction—Harry Leser.
Chief Clerk—John B. Porter.
Chief Electrical Inspector—Victor H. Tousey.
Chief Gas Inspector—William D. Wilcox.
Duties—The city electrician has charge of the construction, repair and maintenance of the city's electric and gas lights, power plants and the police and fire alarm telegraphs; also of the inspection of all electrical installation within the city limits.

DEPARTMENT OF SUPPLIES.

City hall, floor 3½.

Business Agent—Richard J. Reynolds, D.
Duties—The business agent buys all supplies for city departments which involve an expenditure of less than \$500. He has nothing to do with supplies used by contractors employed by the city.

BUREAU OF STATISTICS.

Room 1005, city hall.

City Statistician—Francis A. Eastman.
Assistant Statistician—Fred Rex.
Stenographer and Recorder—Katherine M. Driscoll.
Duties—Has charge of the municipal library and collects data relating to municipal matters for the aidemen and other officials. The library is open to the public.

HOUSE OF CORRECTION.

California avenue, near 26th street.

Superintendent—John L. Whitman, R.
Deputy Superintendent—P. J. O'Connell.
House of Correction Inspectors—Mathias Aller, chairman; A. A. Burzer, secretary; Dr. M. A. Weiskopf.
Duties—The superintendent has charge of the house of correction under the supervision and direction of the board of inspectors, enforces order and discipline, receives prisoners and discharges them on order or on expiration of sentence.

POLICE DEPARTMENT.

Headquarters—5th floor, city hall, north end.
General Superintendent—John McWeeny.
Assistant Superintendent—H. F. Schuetzler (3d floor).
Secretary Police Department—Simou Mayer (10th floor, north end).
Chief Clerk—P. McKenna (10th floor, north end).
Drillmaster—John Bauder, 5th floor.
Custodian—DeWitt C. Cregier (3d floor, north end).
Inspectors—P. J. Lavin, 4th division, Morgan and Maxwell streets; John J. Wheeler, 1st division, 625 South Clark street; P. D. O'Brien, 3d division, 4936 South Halsted street; William P. Clancy, 2d division, 53d street and Lake avenue; (vacancy), 2d division, Desplaines street and Waldo place; Nicholas Hart, central division, 179 North LaSalle street; Stephen K. Healy, 6th division, 1123 West Chicago avenue; John L. Revere, 7th division, 113 West Chicago avenue.
Captains—Patrick J. Gibbons, John M. Haines, John J. Mahoney, John J. Halpin, Thomas C. Kane, John Rehm, James O'D. Storen, James Madden, John Alcock, Joseph Kandzia, Charles C. Healey, Stephen B. Wood, Morgan A. Collins, William J. Plunkett, Max L. Danner, W. W. Cudmore, Patrick J. Harding, Bernard C. Baer, Max Nootbaar.

Duties—The police department is charged with preserving order, peace and quiet and enforcing the laws and ordinances throughout the city. Police officers have the power to make arrests and to serve warrants. They are required to assist firemen in saving property, in giving alarms of fire and in keeping the streets in the vicinity of burning buildings clear. They are also required to take notice of all obstructions and defects in the streets, nuisances, etc.

FIRE DEPARTMENT.

Headquarters—Room 101 city hall.
Fire Marshal—Charles F. Seyferlich.
First Assistant Fire Marshal—Thomas O'Connor.
Second Assistant Fire Marshal—P. J. Donohue.
Third Assistant Fire Marshal—E. J. Buckley.
Fourth Assistant Fire Marshal and Department Inspector—J. C. McDonnell.
Fifth Assistant Fire Marshal—A. R. Seyferlich.
Department Attorney—Michael Sullivan.
Secretary—William C. Gamble.
Battalion Chiefs—1st, P. J. Egan; 2d, Benjamin O'Connor; 3d, Jacob Grauer; 4th, Charles N. Heaney; 5th, J. McAuliffe; 6th, Thomas J. Reynolds; 7th, Michael Kerwin; 8th, Thomas Hackett; 9th, Michael Corrigan; 10th, David J. Mahoney; 11th, Martin Lacey; 12th, Joseph L. Kenyon; 13th, Frank Conway; 14th, Michael R. Driscoll; 15th, James Ward; 16th, John F. Smith;

17th, George H. McAllister; 18th, Eugene Sweeney; 19th, James Costin (acting); 20th, Thomas P. Kenney (acting).

Superintendent Insurance Patrol—E. T. Shepherd, 163 West Monroe street.

Duties—The fire marshal has sole and absolute control over all persons connected with the fire department and has the custody of the equipment and other property of the department. The fire inspector investigates the causes of fires and keeps a record of the same. The secretary keeps all books and papers of the department and delivers to the city council and other departments the written communications of the fire marshal.

CIVIL-SERVICE COMMISSIONERS.

Room 610, city hall.

Commissioners—H. M. Campbell, D., president; Elton Lower, R.; J. J. Flynn, D.
Secretary and Chief Examiner—R. A. Widdowson.
Attorney—Herbert J. Friedman.

Duties—The commissioners classify offices and places in the city service, examine applicants for employment in such offices and places, certify to the heads of departments as required the names of those standing highest on the list of eligibles, investigate charges against employes in the classified service and remove employes for cause. Two weeks' notice by advertisement of the time and place of holding examinations is given.

ELECTION COMMISSIONERS.

City hall, third floor, south end.

Commissioners—Charles H. Kellerman, chairman; Anthony Czarnecki, secretary; Howard S. Taylor, Chief Clerk—William H. Stuart.
Attorney—Charles H. Mitchell.

Duties—The commissioners fix the election precincts, provide ballot boxes, tally sheets, poll-books and all other blanks and stationery necessary in an election, select judges and clerks of elections, canvass the returns of votes and, in brief, have charge of everything pertaining to the registration of voters and the holding of all regular, special and primary elections.

DEPARTMENT OF SMOKE INSPECTION.

Room 614, city hall.

Chief Smoke Inspector—O. Monnett, D.
Chief Assistant Smoke Inspector—W. A. Pittsford.
Deputy in Charge—S. H. Viall.
Chief Clerk—Edward A. Laub.

DEPARTMENT OF BOILER INSPECTION.

Room 613, city hall.

Chief Inspector—M. J. Ryan, D.
Supervising Engineer—R. B. Wilcox.

CITY ARCHITECT.

City hall, tenth floor, south end.

Charles W. Kallal.

CITY FORESTER.

Room 1004, city hall.

City Forester—Jacob M. Prost.

DEPARTMENT OF WEIGHTS AND MEASURES.

Vault floor, city hall.

Inspector Weights and Measures—Peter Zimmer, D.
Chief Deputy—William F. Cluett.

OIL INSPECTOR'S OFFICE.

Room 1013, city hall.

Oil Inspector—James A. Quinn, D.

MUNICIPAL LODGING HOUSE.

162 North Union street.

Superintendent—Charles F. Rogers.

GOVERNMENT OFFICES IN CHICAGO.

The postoffice and all other United States department offices, except where otherwise noted, are in the federal building, which stands on the square bounded by Clark, Adams and Dearborn streets and Jackson boulevard. Postmaster, Daniel A. Campbell.
Appraiser's Office—Harrison and Sherman streets; appraiser, Thomas O'Shaughnessy.
Bureau of Labor—Room 851; special agent, Lucian W. Chancy.

Custom House—South wing, fourth floor; collector, John C. Ames; special deputy collector, John Hitt; deputy collector at barge office, No. 2 River street, James M. Nash.

Hydrographic Office—Room 528; Lieut.-Com. G. G. Mitchell in charge.

CHICAGO COMMITTEE OF PUBLIC EFFICIENCY.

Organized in 1910.

Trustees—Julius Rosenwald, chairman; Alfred L. Baker, treasurer; Onward Bates, George G. Tunnell, Clyde M. Carr, Charles R. Crane, Henry B. Favill, Walter L. Fisher.

Director—Herbert R. Sands.

Secretary—George C. Sikes.

Headquarters—City Club building, 815 Plymouth-st.

The purposes of the organization are:

- (1) To scrutinize the systems of accounting in the eight local governments of Chicago.
- (2) To examine the methods of purchasing materials and supplies and letting and executing con-

struction contracts in these bodies.

(3) To examine the pay rolls of these local governing bodies with a view of determining the efficiency of such expenditures.

(4) To make constructive suggestions for improvements in the directions indicated under 1, 2 and 3, and to co-operate with public officials in the installation of these improved methods.

(5) To furnish the public with exact information regarding public revenues and expenditures, and thereby promote efficiency and economy in the public service.

- Burke—Prairie avenue and 52d street; J. Ciara Brese.
- Burley—Barry avenue, near Ashland avenue; Mary F. Willard.
- Burns—Central Park avenue and 25th street; Robert Nightingale.
- Burnside—91st place and Langley avenue; Frank W. Reider.
- Burr—Ashland and Wabansia avenues; John H. Stube.
- Burroughs—36th street and Washtenaw avenue; George D. Plant.
- Byford (Austin)—Iowa street and Central avenue; Novella M. Close.
- Calhoun—Jackson boulevard and Francisco avenue; Luella V. Little.
- Cameron—Monticello and Potomac avenues; Herbert L. Merrill.
- Carpenter—Center avenue and Huron street; Volney Underhill.
- Chalmers—12th street and Fairfield avenue; J. Katherine Cutler.
- Chase—Cornelia court and Point place; Solon S. Dolge.
- Chicago Lawn—62d street and Hamlin avenue; Helen Blanchard.
- Clark (site)—Iowa street and Campbell avenue.
- Clarke—Ashland avenue and West 13th street; Henry G. Clark.
- Clay—133d street and Superior avenue; Flora I. Renaud.
- Cleveland—Albany avenue and Byron street; Lewis W. Colwell.
- Colman—Dearborn street, near 47th; Alfred E. Logie.
- Columbus—Augusta street, between Hoyne avenue and Leavitt street; Kate A. Reedy.
- Coomley—Leavitt street and Belle Plaine avenue; Elizabeth A. McGillen.
- Cooper—West 19th street, near Ashland avenue; Ida A. Shaver.
- Copernicus—Throop and 60th streets; Cora Caverno.
- Corkery—West 25th street and South 42d court; Daniel F. O'Hearn.
- Cornell—Drexel avenue, near 75th street; Flora J. Joslyn.
- Crcrar—Campbell avenue, between Taylor and Fillmore streets; Harry S. Valle.
- Curtis—Stanwood avenue, near State street; Thomas C. Hill.
- Dante—Desplaines, Ewing and Forquer streets; Harriet F. Hayward.
- Darwin—Edgewood avenue and Catalpa court; Ernest E. Cole.
- Day—Sacramento avenue and 39th street; Jaroslav J. Zrnhal.
- Delano (site)—Adams street and Springfield avenue.
- Dewey—54th street and Union avenue; Edward Mc-Longhlin.
- Doolittle—35th street, near Cottage Grove avenue; Frederick M. Sisson.
- Dore—Harrison street, near Halsted; Fred J. Watson.
- Douglas—32d street and Forest avenue; Lucia Johnston.
- Drake—Calumet avenue, between 26th and 28th streets; Helen W. McLaughlin.
- Drummond—Clybourn place and North Lincoln street; Horace N. Herrick.
- Earle—61st street and Hermitage avenue; Ira C. Baker.
- Emerson—Walnut and Paulina streets; Catherine A. Tibbetts.
- Emmet (Austin)—Corner Madison street and Pine avenue; Helen B. Eastman.
- Ericsson—West Harrison street, near Sacramento avenue; John M. Duggan.
- Everett—Irving avenue and 34th street; Patrick F. Haley.
- Fallon—Wallace and 42d streets; James E. Mc-Dade.
- Farragut—Spaulding avenue and 23d street; Frank L. Morse.
- Farren—Wabash avenue, near 51st street; Florence U. Colt.
- Felsenthal—Calumet avenue and 41st street; Walter J. Harrower.
- Field—Greenleaf and North Ashland avenues; Mary E. Vaughan.
- Fiske—62d street and Ingleside avenue; Harry T. Baker.
- Forestville—45th street and St. Lawrence avenue; Florence Holbrook.
- Foster—Union and O'Brien streets; Mary B. Cate-lain.
- Franklin—Goethe street, near Wells; Etta Q. Gen. Froebel—21st and Robey streets; Ellen K. Baker. Fuller—42d street and St. Lawrence avenue; Louise K. Stone.
- Fulton—Hermitage avenue and 53d street; Clara H. McFarlin.
- Gallistel—104th street and Ewing avenue; James H. Henry.
- Garfield—Johnson street and 14th place; James E. Welsh.
- Gary—30th street and Lawndale avenue; Frank W. Stahl.
- Gladstone—Robey street and Washburne avenue; Daniel A. Tear.
- Goethe—Rockwell street, near Fullerton avenue; Charles S. Bartholf.
- Goodrich—Taylor and Saugamon streets; Charles J. Lunak.
- Goulet—North Foster and Winthrop avenues; Har-let A. Eckhardt.
- Graham—45th street and Union avenue; Ida M. Cook.
- Grant—Wilcox avenue, near Western avenue; Sarah A. Kirkley.
- Gray—52d avenue and Grace street. Ella R. Connell.
- Greeley—Grace street and Sheffield avenue; Abigail Cannon Ellings.
- Greene—Paulina and 36th streets; Susan E. Colver.
- Gresham—85th and Green streets; Robert H. Reunie.
- Hamilton—Cornelia street and North Marshfield avenue; Elizabeth W. Murphy.
- Hamline—48th and Bishop streets; Susie L. Cowan.
- Hammond—21st place, near California avenue; John A. Long.
- Hancock—Princeton avenue and Swan street; Min-nie M. Wrisley.
- Harper—65th. Wood and Honore streets; Morgan G. Hooge.
- Harvard—Harvard avenue, between 74th and 75th streets; Mary S. L. Hartigan.
- Haugan—Hamlin, Avers and Sunnyside avenues.
- Haven—Wabash avenue and 15th street; Eleanor Reese Dunn.
- Hawthorne—School street and Seminary avenue; George W. Davis.
- Haves—Leavitt and Fulton streets; Simeon V. Robbins.
- Hayt—Granville avenue and Perry street; Elmer L. Kletzing.
- Headley—Lewis street and Garfield avenue; Caro-line J. Utter.
- Henly—Wallace street, near 31st; Elizabeth B. Daly.
- Hedges—48th street and Winchester avenue; Mar-cella R. Hanlon.
- Hendricks—43d street and Tracy avenue; Humphrey J. Moynhan.
- Henry—West Cullom and Eberly avenues; Mary E. C. Lyons.
- Holden—Loomis and 31st streets; Lincoln P. Good-hue.
- Holmes—55th and Morgan streets; James W. Mc-Glomis.
- Howe (Austin)—Laurel avenue and Superior street; Mary E. Vance.
- Howland—Spaulding avenue and 16th street; Amelia D. Hookway.
- Hoyle—Illinois and Cass streets (not used at present).
- Irving—Lexington and Leavitt streets; John W. Troeger.
- Irving Park—2338 North 41st court; Mary Mc-Mahon.
- Jackson—Sholto and Better streets; William Hedges.

- Jahn—North Lincoln street and Belmont avenue; Cephas H. Leach.
 Jefferson—Elburn avenue and Laffin street; Catharine M. Delanty.
 Jenner—Oak street and Milton avenue; Frederick J. Lane.
 Jirka—17th and Laffin streets; Mary E. Rodgers.
 Jones—Plymouth court and Harris street; Thomas C. M. Jamieson.
 Jungman—Nutt and West 18th streets; Sarah A. Fleming.
 Kelti—Dearborn and 34th streets; Edward Wilde-man.
 Kenwood—Lake avenue and 50th street; Alice E. Solitt.
 Kershaw—Union avenue, near 64th street; William H. Debaugh.
 Key (Austin)—Ohio street and Park avenue; Lillian H. Wright.
 King—Harrison street, near Western avenue; Ellen J. Hardick.
 Kinzie—Ohio street and LaSalle avenue; Azile B. Reynolds.
 Knickerbocker—Clifton and Belden avenues; Mary G. Guthrie.
 Kohn—104th and State streets; Charles C. Cobb.
 Komensky—Throop and 20th streets; Clara H. Mahony.
 Kosciuszko—Division and Cleaver streets; Harriet P. Johnston.
 Kozmuskul—54th street and Ingleside avenue; Leslie Lewis.
 Lafayette—Washtenaw avenue and Augusta street; Langdon I. Purser.
 Langland—Cortland street, near Leavitt; Effie A. M. Christensen.
 LaSalle—Hammond and Eugenie streets; Elizabeth T. Spieker.
 Lawson—Homan avenue and 18th street; Charles C. Krauskopf.
 Lewis—Champlin—62d street and Princeton avenue; Henry S. Crane.
 Libby—53d and Loomis streets; M. Elizabeth Farnson.
 Lincoln—Larrabee street and Kemper place; Albert L. Stevenson.
 Linn—Sacramento avenue and School street; Charles A. Cook.
 Lloyd—Grand and North 55th avenues; Jacob H. Hauch.
 Logan—Oakley avenue and Bremen street; James B. Farnsworth.
 Longfellow—35th street, near Lincoln; Mary E. Lambert.
 Lowell—North Spaulding avenue and Hirsch street; Clarence E. De Butts.
 Madison—Madison avenue, near 75th street; Sarah A. Milner.
 Manierre—Hudson avenue, near Blackhawk street; Luman Hewes.
 Mann—37th street and Princeton avenue; Jeannette I. Pratt.
 Marquette—Harrison and Wood streets; Mary E. Tobin.
 Marsh—98th street and Exchange avenue; Elliott A. Hamilton.
 Marshall—Adams street, near Kedzie avenue; Louis J. Block.
 May—South 50th avenue and West Congress street; Otto M. Becker.
 Mayfield—North 44th and Lawrence avenues; Thomas C. Johnson.
 Medill—14th place, near Throop street; Albert R. Sabin.
 Mitchell—North Oakley avenue and Ohio street; Chester C. Dodge.
 Monroe—Schubert and Monticello avenues; John A. Wadhams.
 Montefiore—Sangamon street and Grand avenue; G. Ovedia Jacobs.
 Moos—California and Wabasha avenues; Esther J. W. Barker.
 Morgan Park—Western and Arlington avenues; John H. Hell.
 Morris—Barry avenue and Bissell street; Luella Helnroth.
 Morse—Sawyer avenue and Ohio street; George L. Voorhes.
 Morsey—Michigan avenue and 24th street; Mary A. McNaney.
 Motley—North Ada street, near West Chicago avenue; G. Charles Griffiths.
 Mozart—North Hamlin and Humboldt avenues; Harriet B. Davis.
 Mulligan—Sheffield avenue, near Willow street; Hanna Schli.
 McAllister—36th and Gage streets; Rose A. Pesta.
 McClellan—Wallace and 35th streets; Mary A. Fokin.
 McCormick—Sawyer avenue and 27th street; William H. Chamberlin.
 McCosh—Champlain avenue, near 66th street; J. M. Pahlman.
 McLaren—York and Laffin street; Carolyn G. Adams.
 McPherson—Lincoln street, near Lawrence avenue; Adelaide E. Jordan.
 Nash—North 49th avenue and West Erie street; Margaret S. Gill.
 Nettelbladt—Evanston and Albine avenues; Robert L. Hughes.
 Newberry—Willow and Orchard streets; Edith Huguenin.
 Ninety-Third Street—93d street and Houston avenue; Frank Mayo.
 Nixon—Dickens and North 42d avenues; Charles H. Ostrander.
 Nobel—North 41st avenue and Hirsch street; Marie A. Dunne.
 Oakland—40th street and Cottage Grove avenue; Louise M. Ripple.
 Ogden—Chestnut and North State streets; Martha M. Ruggles.
 Oglesby—Emerald avenue and 79th street; Daniel J. Beeby.
 Otis—Armour street, near Ohio; G. A. Osinga.
 Parkman—51st street and Princeton avenue; John B. McGinty.
 Park Manor—71st street and Rhodes avenue; Genevieve Melody.
 Parkside—70th street and Selpp avenue; J. Edward Huber.
 Peabody—Augusta and Noble streets; Mary H. Smyth.
 Penn—Hemlin avenue and 16th street; Bertha Benson.
 Pickard—21st place and Oakley avenue; Mary Ryan.
 Plamondon—15th place and Washtenaw avenue; William W. Reed.
 Poe—106th and Fulton streets; Abigail M. Ifunt.
 Prescott—Wrightwood and Marshfield avenues; Margaret S. Fitch.
 Pulaski—Leavitt street, between Lubeck and Coblenz streets; Anna C. Goggin.
 Pullman—Pullman avenue and 113th street; Daniel R. Martin.
 Raster—Wood and 70th streets; David L. Murray.
 Ravenswood—Paulina street and Montrose avenue; Josiah F. Kletzing.
 Ray—57th street and Monroe avenue; Arthur O. Rape.
 Raymond—Wabash avenue and 36th place; John L. Lewis.
 Revere—Ellis avenue and 72d street; Edmund B. Smith.
 Rogers—West 13th street, near Throop; Alice A. Hogan.
 Ryder—59th street and Lowe avenue; Leona L. Thorne.
 Ryerson—Lawndale avenue and Huron street; John T. Ray.
 Sawyer Avenue—Sawyer avenue and 53d street; Robert G. Jeffrey.
 Scammon—Morgan and Monroe streets; Cecella B. Schimek.
 Scanlan—Perry avenue, near 117th street; Alfred Harvey.
 Schiller—Vedder and Halsted streets; Belle B. Murphy.
 Schley—North Oakley avenue, near Potomac avenue; Minna S. Heuermann.
 Schneider—Hoyne avenue, near Wellington street; Elizabeth E. Flisk.
 Scott—6th street and Washington avenue; John W. Akers.
 Seward—46th street and Hermitage avenue; Benjamin F. Hill.
 Sexton—Wells and Wendell streets; Dora W. Zollman.

Shakespeare—Greenwood avenue and 46th street; Walter H. Comstock.
 Sheldon—State and Elm streets; Jane S. Atwater.
 Shepard (site)—Polk street and Lawndale avenue.
 Sheridan, Mark—27th and Wallace streets; John A. Johnson.
 Sheridan, Phil—90th street and Escanaba avenue; Edward L. C. Morse.
 Sherman—Morgan street and 51st place; Levi T. Regan.
 Sherwood—57th street and Princeton avenue; William J. Black.
 Shields—43d and Rockwell streets; Walter R. Hatfield.
 Skinner—Jackson boulevard and Aberdeen street; William L. Smyser.
 Smyth—13th street, near Blue Island avenue; William R. Hornbaker.
 Spalding—Park avenue, between Ashland avenue and Paulina street; Lucy I. Laling.
 Spencer—Park and 56th avenues; Henry F. Kling.
 Spry—Marshall boulevard and West 24th street; William J. Fraser.
 Stewart—Kenmore avenue, between Wilson and Sunnyside avenues; Archibald O. Coddington.
 Stowe—Wabansia avenue and Ballou street; Frank A. Larck.
 Sullivan—83d street and Houston avenue; Ada Semphill.
 Sumner—43d avenue and Harrison street; Orris J. Miliken.
 Swing—String street, between 16th and 17th; Margaret C. Adams.
 Talcott—Ohio and Lincoln streets; Ambrose B. Wight.
 Taylor—Avenue J, near 100th street; Annie K. Sullivan.
 Tennyson—California avenue and Fulton street; Mary E. Fellows.
 Thomas—Belgen avenue and High street; M. Theresa Norton.
 Thorp, J. N.—89th street and Superior avenue; Henry D. Hatch.
 Thorp, Ole N.—Winona street, between 18th and 19th; Minnie M. Jamieson.
 Throop—Throop street, near 18th; Mary W. O'Keefe.
 Tilden—Lake and Elizabeth streets; Harriet N. Winchell.
 Tilton—West Lake street and 44th avenue; Bertha S. Armbruster.
 Trumbull—North Ashland, Foster and Farragut avenues; Helen R. Ryan.
 Van Vlissingen—108th place, near Wentworth avenue; George A. Brennan.
 Von Humboldt—Rockwell and Hirsch streets; Mary J. W. Boughan.
 Wadsworth—Lexington avenue, near 64th street; Isabel J. Burke.
 Walsh—20th and Johnson streets; Samuel B. Allison.
 Ward—Shields avenue and 27th street; Augustus R. Dillon.
 Warren—33d street and Jackson Park avenue; Edith B. Shephard.
 Washburne—West 14th street, near Union; Charles W. Thompson.
 Washington—North Morgan street and Grand avenue; Samuel R. Meck.
 Waters—Wilson and Campbell avenues; Esther E. Morgan.
 Webster—Wentworth avenue and 33d street; Mary T. Maroney.
 Wells—Ashland avenue and Cornelia street; George B. Massifich.
 Wentworth—70th and Sangamon streets; William H. Campbell.
 West Pullman—120th street and Parnell avenue; Harriette T. Treadwell.
 Whitney—28th street and 40th court; Ella R. Coles.
 Whittier—Lincoln and 23d streets; Mary, Greene.
 Wicker Park—Evergreen avenue, near Robey street; Fred E. Smith.
 Willard—49th street and St. Lawrence avenue; Grace Reed.
 Worthy—California avenue and 26th street; Edgar W. Trout.
 Yale—70th street and Yale avenue; Wm. Sechoh.
 Yates—Cortland and Humboldt streets; Blanca R. Daigger.

SALARIES IN CHICAGO SCHOOLS (1911).

(Per year unless otherwise specified.)

Superintendent	\$10,600
First assistant superintendent	6,000
Assistant superintendents, each	3,500
Dist. superintendents, first and second year ..	3,500
Third and subsequent years	4,000
Examiner	3,000
Principal normal school	6,000
Supervisor physical education	3,500

CHICAGO CHARTER MOVEMENT.

What was known as the Chicago charter convention was organized in 1905, the first session being held Dec. 12, that year. Milton J. Foreman was president, Alexander H. Revell vice-president, M. L. McKinley secretary and Henry Barrett Chamberlin assistant secretary. The convention was made up of delegates chosen by or representing the mayor, city council, governor, assembly, board of education, sanitary trustees, county board, public library board and the Chicago park boards. Its purpose was to frame a comprehensive, simple and elastic charter for the city of Chicago to be submitted to the state legislature for consideration. The work was completed and the charter taken to Springfield in the early part of 1907, where it was introduced in each house of the legislature and referred to the appropriate committees.

Some of the main features of the charter were these: Consolidation in the municipal government of Chicago of the power vested in the board of education, township, park and other local governments within the city; submission of propositions to popular vote; aldermen to be elected once in four years; the raising of adequate revenue by the issue of bonds and by other means; the power to own, maintain and operate all public utilities in the city, including intramural railroads, subways and tunnels, and telephone, telegraph, gas, electric lighting, heating, refrigerating and power plants; the parks to be under the management of a city department of parks; the public-school system to be a department of the city government and under

the control of a board of education of fifteen members appointed by the mayor for terms of three years; the public library to be managed by a board of nine directors appointed by the mayor for terms of six years.

Several radical changes were made by the legislature, one of the most important being the substitution of the old primary system for the one proposed. Another was the redistricting of the city into fifty wards, one alderman to be elected from each. These and other changes aroused much opposition, but the charter was passed May 12, 1907. According to the terms of the act it was submitted to the voters of Chicago at a special election held Sept. 17, 1907, when it was defeated by a vote of 121,935 nays to 59,786 yeas.

Early in 1909 the charter convention resumed work and prepared eleven bills for submission to the legislature, in the hope that some at least might be enacted into law. These separate bills included the principal points in the charter defeated by the referendum vote of 1907.

The charter bills encountered opposition from the start, not only from the senators and assemblymen representing districts outside of Chicago, but also from some of the city members, and, while favorable action was taken in committee and also in each house on the consolidation measure and on one or two of the other propositions, no legislation was secured and the work of the convention again went for nothing.

THE CHICAGO REAL ESTATE BOARD.

27 North Dearborn street.

OFFICERS IN 1911:

President—Roy B. Tabor.
Vice-President—Benjamin A. Fessenden.
Secretary—William G. Eoath.
Treasurer—Robert L. Davs.

Directors—Ferteam M. Winston, chairman; John F. Wallace, Adolph F. Kramer, Roy B. Tabor, ex officio; William G. Booth, ex officio.

PRINCIPAL LIBRARIES OF CHICAGO AND EVANSTON.

THE CHICAGO PUBLIC LIBRARY.

Michigan avenue and Washington street.

Board of Directors—Robert J. Roulston, president; Julius Stern, vice-president; Graham Taylor, Antonio Lagorio, Mortimer Frank, Henry V. Freeman, Horatio L. Wait, Max Henius, Philip M. Kyscki.

Standing Committees (1911-1912)—Library: Stern, Frank, Henius. Administration: Wait, Lagorio, Henius. Branches: Taylor, Stern, Kyscki. Delivery stations: Frank, Freeman, Kyscki. Buildings and grounds: Lagorio, Wait, Frank. Finance: Freeman, Stern, Henius. By-laws: Kyscki, Lagorio, Taylor.

Meetings—Regular meetings of the board are held at 5 p. m. on the second Monday of each month. Librarian—Henry E. Legler.

Assistant Librarian—Carl B. Roden.

Secretary—Henry G. Wilson.

Hours—Circulation department open 9 a. m. to 8:30 p. m.; Sundays, closed; reading room and reference department, 9 a. m. to 10 p. m.; Sundays, 9 a. m. to 6 p. m.

The Chicago public library is a free public institution, established under the Illinois library law of 1872. It derives its revenue from an annual library tax of approximately four-tenths of a mill. A board of directors of nine members is appointed by the mayor, three annually for terms of three years. The library occupies the site formerly known as Dearborn park, bounded by Michigan avenue, Washington street, Garland court and Randolph street. The cost of the building was about \$2,000,000, including the furniture, book stacks and machinery.

The right of drawing books from the public library belongs to all who reside in the city of Chicago, and also to those who make their homes in the suburbs within the limits of Cook county and are regularly employed in the city. In order to become a book borrower it is necessary only to file an application giving the name and residence of the applicant and bearing the signature of a second person, who must be an actual resident of the city, appearing as such in the latest city directory. This person becomes the guarantor to the library for the proper observance of the library regulations on the part of the applicant. These regulations merely provide that books drawn for home use must be returned within the stated period and must not be defaced or injured.

At the close of May 31, 1911, the public library contained 448,073 volumes. The aggregate circulation for the year ending May 31, 1911, was 2,256,022 volumes, which does not include the use of books kept on the open shelves at the main library or its branches or the periodicals or newspapers used in the reading rooms. This use would bring the total book issues to 2,832,773.

THE JOHN CRERER LIBRARY.

110 North Wabash avenue, 6th floor.

President—Judge Peter S. Grosscup.

Vice-Presidents—Henry W. Bishop and Thomas D. Jones.

Secretary—Leonard A. Busby.

Treasurer—William J. Londerback.

Librarian—Clement W. Andrews.

Board of Directors—E. W. Blatchford, Robert T. Lincoln, Henry W. Bishop, John M. Clark, Frank S. Johnson, Peter S. Grosscup, Marvin Fluhitt, Thomas D. Jones, John J. Mitchell, Leonard A. Busby, Robert Forsyth, Chauncey Keep, Frederick H. Rawson and the mayor and the comptroller of the city of Chicago, ex officis.

Hours—The library is open daily, except Sunday, from 9 a. m. to 10 p. m.

The John Crerer Library contained in October, 1911, 282,000 volumes and 35,000 pamphlets on the social, physical, natural and medical sciences and their applications. They cannot be taken from the library, but may be freely consulted by all who wish to do so. The department of medical science formerly housed in the Newberry library building, has now been moved to the main library, where the Senn reading room is open to physicians and students.

THE NEWBERRY LIBRARY.

North Clark street and Walton place.

President—E. W. Blatchford.
Librarian—William N. G. Carlton.
Secretary—Jesse L. Moss.

Trustees—George E. Adams, Epiphilet W. Blatchford, Franklin H. Head, David B. Jones, Bryan Lathrop, George Manierre, Horace H. Martin, Gen. Walter C. Newberry, Edward L. Ryerson, John A. Spoor, John P. Wilson, Moses J. Wentworth.

Hours—From 9 a. m. to 10 p. m. every day except Sundays and the following holidays: Jan. 1, May 30, July 4, Thanksgiving and Christmas.

The Newberry library, Jan. 1, 1910, contained 259,342 books and pamphlets. These are not circulated, but are kept for reference purposes. The library is free to the public.

EVANSTON PUBLIC LIBRARY.

Orrington avenue and Church street.

Free to residents of Evanston and open to others on payment of an annual fee of \$2.50, or 25 cents a month. Reference department free to all. Library open from 9 a. m. to 9 p. m. week days. Reading room open from 2 to 6 p. m. Sundays, except during July and August, and holidays, except Jan. 1, July 4, Thanksgiving day and Dec. 25. The Coe music collection, which contains more than 1,000 books, 300 pieces of sheet music and 500 piano rolls, is open to all. The medical science room, which contains the books (500) of the Evanston branch of the Chicago Medical society, is open to all. Number of volumes June 1, 1911, 47,354. Librarian, Mary B. Lindsay.

LEWIS INSTITUTE LIBRARY.

West Madison and Robey streets.

The Lewis Institute library contains about 20,000 volumes and 4,500 pamphlets. The public is invited to use the library for reference, but books are loaned only to instructors and students of the institute. Throughout the school year the library is open from 8 a. m. to 5 p. m. daily except on Saturday, when it closes at 3 p. m.; during the session of the night school the library is also open from 5 p. m. to 9:30 p. m. Librarian, Miss Frances S. Talcott.

UNIVERSITY OF CHICAGO LIBRARY.

At the university, 58th street and Ellis avenue. This library contains 357,041 bound volumes and 170,000 pamphlets. It is primarily for the use of the faculty and students at the university, but others may have the privilege of drawing books available for circulation upon the payment of a fee. Properly accredited scholars visiting Chicago will receive complimentary cards for a term of four weeks or less upon application. The reading room is open to all. The director of the library is Ernest D. Burton; the associate director is J. C. M. Hanson.

CHICAGO HISTORICAL SOCIETY LIBRARY.

Dearborn avenue and West Ontario street.

President—Thomas Dent.
First Vice-President—Gen. Walter C. Newberry.
Second Vice-President—Charles H. Conover.
Treasurer—Orson Smith.Librarian—Caroline M. McIlvaine.
Executive Committee—Thomas Dent, Clarence A. Burley, Seymour Morris, Edward L. Ryerson, William A. Fuller, Charles F. Gunther, Samuel H. Kerfoot, Jr., George Merryweather, Otto L. Schmidt.

The library, museum and portrait gallery are open to the public from 9 a. m. to 5 p. m. on week days. It is a repository of matter relating to the history and archaeology of the northwest, particularly of Chicago. It contains some 40,000 volumes and 75,000 pamphlets and a large collection of MSS., maps, views, etc., illustrative of the development of Illinois and the central west.

ACADEMY OF SCIENCES LIBRARY.

In Lincoln park.

Consists principally of the publications of learned societies of this and other countries and is especially rich in the literature of photography, zoolo-

gy, geology and allied sciences. Oct. 1, 1911, the library contained over 29,000 volumes and pamphlets. Open from 9 a. m. to 5 p. m. on week days.

ST. IGNATIUS' COLLEGE LIBRARY.

1076 West 12th street.

The library of the college of arts of Loyola university. It contains about 45,000 volumes for the use of the faculty and students, but may be consulted by others on application to the librarian. Open from 8 a. m. to 4 p. m. Librarian, A. J. Garvy, S. J.

WESTERN SOCIETY OF ENGINEERS.

No. 1735 Monadnock block.

The library of this society contains over 8,200 volumes, almost altogether engineering, scientific and technical works, and is maintained at the cost of the society. It is a free public reference library, open for use during business hours of business days. Secretary and librarian, J. H. Warder.

CHICAGO LAW INSTITUTE LIBRARY.

1025 county building.

President—Marquis Eaton.
Secretary—Alfred E. Barr.
Treasurer—Frederic S. Hebard.
Librarian—William H. Holden.
The library contains about 55,000 volumes.**GARRETT BIBLICAL INSTITUTE LIBRARY.**

Evanston, Ill.

This is a reference library of theology for the use of the faculty and students of the institute, but open to the public October to June, from 8 a. m. to 6 p. m. Nov. 1, 1911, the library contained 30,384 volumes. Librarian, Doremus A. Hayes.

NORTHWESTERN UNIVERSITY LIBRARY.

Evanston, Ill.

The Northwestern university library contained 123,595 bound volumes and 83,000 pamphlets July 1, 1911. The library is open during the college year from 8 a. m. to 10 p. m. daily, except Sunday, and during the summer vacation from 8 a. m. to 12 m. and from 1:30 to 5 p. m. Librarian, Walter Lichtenstein.

PULLMAN PUBLIC LIBRARY.

73 to 77 Arcade building, Pullman, Ill.

Contains 10,000 volumes. Library open from 10 a. m. to 5:30 p. m. and in the evenings from 6:45 to 9 o'clock; also Sundays and holidays, 2 to 6 p. m. Librarian, Bertha S. Ludlam; assistants, Caroline H. Mott and Luella L. Hewitt.

FIELD MUSEUM OF NATURAL HISTORY LIBRARY.

Jackson park.

The museum library occupies three rooms in the north end of the building and is open to the public every week day from 9 a. m. to 4:30 p. m. The library is a scientific one and is designed for reference purposes only.

In the reading room the magazines are accessible without application. Visitors can consult books by making application to the librarian.

The library on Sept. 30, 1911, contained approximately 55,000 books and pamphlets. Librarian, Elsie Lippincott.

HAMMOND LIBRARY.

1610 Warren avenue.

The Hammond library of the Chicago Theological seminary contains 31,300 volumes. It is intended for the use of the faculty and students of the Chicago Theological seminary, but may be consulted by clergymen and others. The library is open on week days from September to May from 9 a. m. to 12 m. and from 1 to 10 p. m. except on Saturdays, when it is closed at 5 p. m. Closed Sundays. Director of library, Marvin Davis Biscoe.

RYERSON LIBRARY.Art Institute, Michigan avenue and Adams street.
The Ryerson library of the Art Institute is devoted exclusively to works on fine art. It con-

tains more than 6,900 bound volumes and a collection of 25,000 photographs, including 16,000 Braun autotypes. Open every day except Sundays, and holidays from 9 a. m. to 5 p. m. The library is

primarily for the students of the institute, but is practically a free reference library on fine art. Librarian, Mary Van Horne.

FIELD MUSEUM OF NATURAL HISTORY.

President—Stanley Field.

Vice-Presidents—Martin A. Ryerson, Watson F. Blair.

Director of the Museum and Secretary—Frederick J. V. Skiff.

Treasurer—Byron L. Smith.

Auditor and Assistant Secretary—D. C. Davies.

The Field museum of natural history, established in 1894 at the close of the World's Columbian exposition of 1893, occupies the temporary building erected for fine arts in Jackson park, the exposition site. The founding of a scientific institution of this character in Chicago was made possible by the gift of \$1,000,000 by Marshall Field, who on his death (Jan. 16, 1906) bequeathed the institution a further \$3,000,000, \$4,000,000 for the erection of a permanent building and \$4,000,000 for endowment. In addition \$500,000 has been donated by other individuals and there is an annual income from other sources than endowment of about \$25,000. The citizens of Chicago have confirmed legislative provision for the levy of a tax for the maintenance of the museum when a new building shall have been erected, which it is estimated will eventually produce approximately \$100,000 per annum.

The nucleus of the exhibition material was gathered by gift and purchase at the World's Columbian exposition. Most of this material, however, has since been rearranged, readapted or discarded. Several departments created at the organization have been abandoned, until, after the lapse of eleven years and the expenditure of over \$2,000,000, the museum is now divided into four departments—namely, anthropology, botany, geology and zoology. Many expeditions for the purpose of obtain-

ing study, exhibition and exchange material and data have been dispatched to all parts of North America and to different countries. The results of these expeditions, investigations and researches have been published by the museum from time to time, which publications have been distributed to kindred societies and institutions both at home and abroad. Two courses of free lectures are given annually. The museum has a working library of about 53,000 titles, an extensive exchange system, fully equipped departmental laboratories, a herbarium of 260,000 sheets, study collections in mammals and birds reaching many thousand specimens, a large two-story taxidermy section, a well-equipped printing shop, illustration studios and assaying and lapidary rooms. In North American ethnology, in the world's mineralogy, in economic botany the museum is particularly prominent, while its series of mounted mammal furnish examples of advanced museum methods. The present main building covers nine acres and is open to the public on all days except Christmas and Thanksgiving. An admission fee of 25 cents is charged except on Saturdays and Sundays, when admission is free to all. Students, scholars and teachers are admitted free on all days between 9 a. m. and 4 p. m.

The museum is incorporated under state law and the administrative control rests in a board of trustees with president, secretary, etc. The executive of the museum is the director, under whom there are four head curators with divisional assistant curators, preparators, etc. The entire museum records, the accessions system, the historical files, publications and supplies are in charge of a recorder.

LEARNED SOCIETIES IN CHICAGO.

American Library Association—Public library building; secretary, George B. Utley.

Chicago Academy of Sciences—Lincoln park; president, Thomas C. Chamberlain; secretary, Frank C. Baker.

Chicago Architectural Club—39 West Adams street; president, Edward F. Gillette; secretary, T. Ralph Ridley.

Geographic Society of Chicago—President, Dr. George S. Isham; secretary, Dr. Otis W. Caldwell.

Western Society of Engineers—1735 Monadnock block; president, O. P. Chamberlain; secretary, J. H. Warder.

THE CHICAGO ACADEMY OF SCIENCES.

In Lincoln park, opposite Center street.

President—Dr. Thomas C. Chamberlain.

Secretary—Dr. Wallace W. Atwood.

Curator—Frank C. Baker.

Trustees—La Verne W. Noyes, president; Charles F. Gunther, Charles A. Heath, Louis E. Ladin, Henry J. Furber, Charles Dickinson, Ira J. Geer, Charles S. Raddin, Henry Patten, F. L. Wilk, Frances Dickinson, Carroll H. Sudler, Eugene Garnett, T. C. Chamberlain (ex officio), Francis T. Simmons (ex officio).

The museum is open from 9 a. m. to 5 p. m. on

weekdays and from 1 to 5 p. m. on Sundays. There is no charge for admission. The academy is in co-operation with the public and private schools of the city in the promotion of nature study and scientific courses of instruction. Lecture courses, classroom instruction and laboratory work are given at the academy for the benefit of teachers, children and members. Field excursions are conducted during the fall and spring months and museum material is loaned to the schools.

EVANSTON HISTORICAL SOCIETY.

Incorporated November, 1898.

President—J. Seymour Currey.

Vice-President—Frank R. Grover.

Treasurer—Henry J. Wallingford.

Secretary—Merton J. Clay.

The Evanston Historical society has rooms in the Public Library building there. It has a library of 1,000 volumes, 1,000 pamphlets and a large amount of historical data.

CHICAGO ACADEMY OF FINE ARTS.

81 East Madison street.

President—Carl N. Wertz.
Vice-President—M. M. Newman.
Secretary—E. M. Ashcraft, Jr.

The Chicago Academy of Fine Arts was founded in October, 1902. Its object is to popularize art and art education through the more practical channels of illustration, cartooning, commercial illustration, design, normal art training, crafts, miniature, etc. It was the first school to teach commercial art, craftwork, miniature and cartooning in exclusive classes; also the first school to give its students training in business ethics and selling systems. The average attendance is 700 pupils per year, with twenty instructors, the faculty including some of the best known local artists. There are day and evening classes and the rates of tuition are as follows:

Afternoons only, \$26 for three months.
Mornings only, \$26 for three months.
All day classes, \$110 per season of ten months.
Evening classes, \$23 for ten months, three nights weekly.
Sunday class, \$23 for ten months.
Saturday classes, for school teachers, children and others, \$5 for three months.
All classes limited.

ELEVATED RAILROAD STATIONS.

ON THE "LOOP."

Wabash and Adams, Wabash and Madison, Wabash and Randolph, Lake and State, Lake and Clark, 5th avenue and Randolph, 5th avenue and Madison, 5th avenue and Quincy, Van Buren and LaSalle, Van Buren and Dearborn and Van Buren and State.

In addition to the above there are 277 numbered stations served from the carrier stations and each with a clerk in charge.

There are 3,417 clerks in the general postoffice and stations and 1,931 carriers, including collectors.

COLLECTIONS AND DELIVERIES.

In the downtown district there are twenty-six collections of mail matter between 7 a. m. and 11 p. m.; in the outlying districts there are from four to twelve collections. Mail is delivered six times a day in the business district and three times in the outlying districts.

Special delivery letters are delivered in the central postoffice district between 7 a. m. and 11 p. m. and from stations within their respective districts (station U excepted) between 7 a. m. and 6 p. m. Special delivery mail received in special delivery section which can reach the point of delivery up to approximately 11 p. m. daily will be given service throughout the city.

In the district bounded by the Chicago river on the north and west, and on the south by 12th street, hotels, clubs, newspapers, telegraph offices and undertakers have all-night service.

POSTAL SAVINGS BANK.

The postal savings bank is a new feature of the Chicago postoffice. The bank was opened at the main postoffice Aug. 1, 1911. Any one 10 years old or over may open an account. No account may be opened for less than \$1.00, nor will fractions of a dollar be accepted for deposit. No person is permitted to deposit more than \$100 in any one calendar month, nor to have a total balance to his credit at one time of more than \$500, exclusive of accumulated interest.

Deposits are evidenced by postal savings certificates issued in denominations of \$1, \$2, \$5, \$10, \$20, \$50 and \$100.

Depositors of the postal savings system may exchange the whole or a part of their deposits on Jan. 1 or July 1 of each year for United States registered or coupon bonds in denominations of \$20,

\$100 and \$500, bearing interest at the rate of 2½ per cent per annum, payable semiannually, and redeemable at the pleasure of the United States after one year from the date of issue, both principal and interest payable twenty years from that date in United States gold coin.

Postal savings banks have also been opened at some of the larger postal stations of the Chicago postoffice and more will be opened at other stations in the near future. Up to Nov. 15, 1911, banks had been established at the following postal stations: Ravenwood, Lake View, Logan Square, North Halsted, Carpenter, Pilsen, Wicker Park, Garfield Park, Hawthorne, Stockyards, 51st Street, Englewood, Jackson Park, South Chicago, Pullman and Hegewiach.

RAILROAD TRACK ELEVATION.

[From report of Francis J. Owens, commissioner of track elevation.]

Ordinances have been passed by the city council and accepted by the railroad companies for the elevation of their roadbeds and tracks from May 23, 1892, to June 30, 1911, covering the following amount of work.

Total number of miles of main tracks to be elevated, 175.

Total number of miles of all tracks to be elevated, 1,059.

Total number of subways to be constructed, 808.
Total estimated cost of the work, completed Dec. 1, 1911, \$66,256,000.

The amount of elevation done from May 23, 1892, to Dec. 31, 1911, was as follows:

Total number of miles of main tracks elevated, 140,422.

Total number of miles of all tracks elevated, 843.56.

THE CHICAGO STREET-RAILWAY FRANCHISE.

Ordinances passed by city council Feb. 3, 1907; vetoed by mayor and passed over veto Feb. 11, 1907; approved by people on referendum vote April 2, 1907.

Systems to be reconstructed and rehabilitated within three years.

City to supervise rehabilitation through board of three engineers.

Life of grant not to extend in any event beyond Feb. 1, 1927.

City to receive 55 per cent and companies 45 per cent of the net profits from the operation of the roads.

Twenty-one through routes specified and provision made for others.

Fares for adults to be 5 cents for continuous trips in one general direction within the present or future city limits.

Transfers to be given at all connecting points on and to all lines except in section on south side between 12th street and the river.

Motive power of cars to be electricity applied by the overhead or underground trolley systems.

Cars to be of the latest and most approved pattern and to be kept clean and warm and well lighted.

Cars to be operated singly after one year.

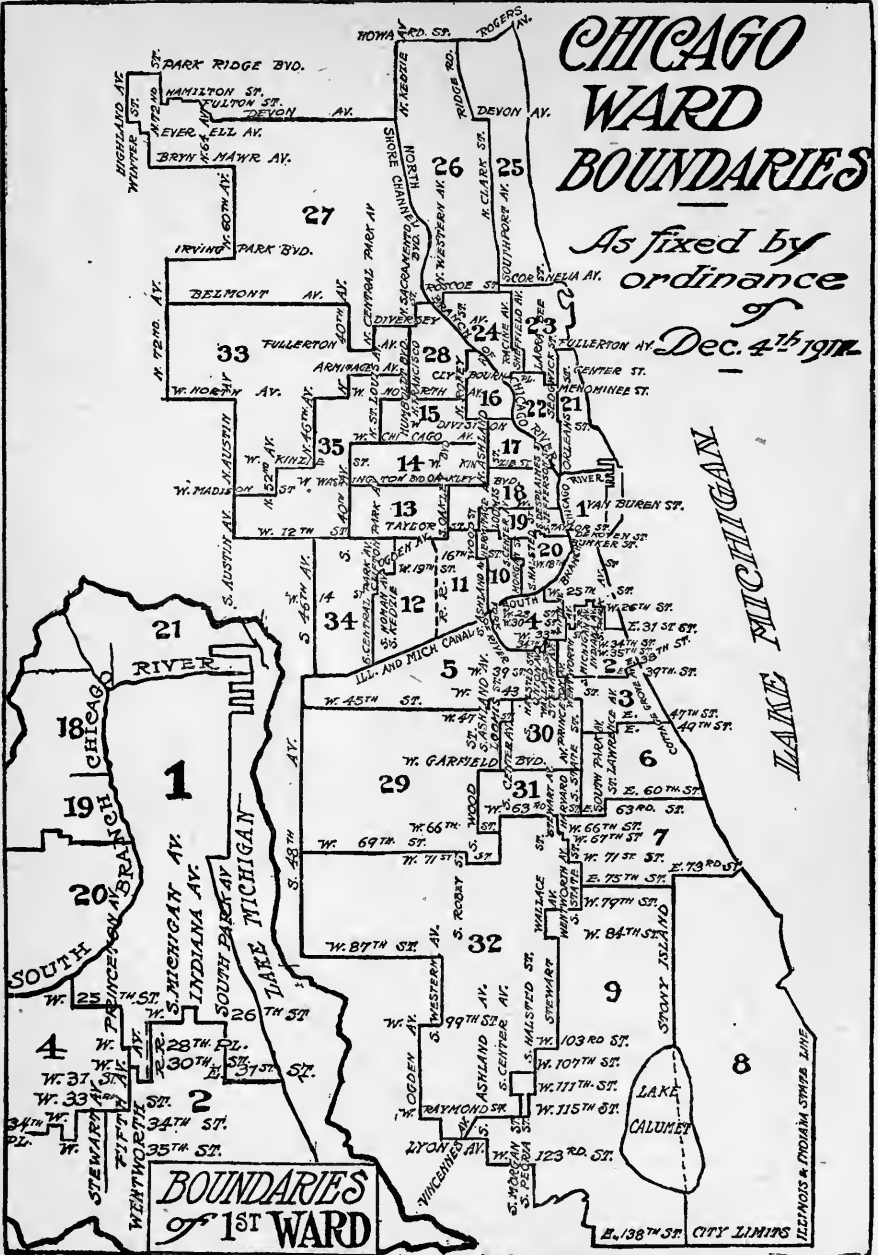

Companies to pay \$5,000,000 toward the construction of subways in the downtown section at the city's option.

City given the right to purchase the property of both the present great systems at any time upon giving six months' notice.

Agreed value of Union Traction company's property June 30, 1906, \$29,000,000, and of the Chicago City Railway Company's property at same date, \$21,000,000. The purchase price for the city is to be the aggregate of these two sums, with the value of work done and property acquired between the date named and the date of the passage of the ordinance and the cost of rehabilitation and extensions added.

Dearborn street.
Young Men's Christian Association—19 South La-
Salle street; general secretary, L. Wilbur Messer.
Young Women's Christian Association—830 South
Michigan boulevard; corresponding secretary, Mrs.
William W. Abbott.

THE BEATTIE MURDER CASE.

Henry Clay Beattie, Jr., a young man of good
family, shot and killed his wife, Louise, on the
night of July 18, 1911, while they were out in an
automobile five miles from Richmond, Va. He
claimed that the shot had been fired by a highway-
man, but was arrested after the inquest and held
for murder. His trial began Aug. 19 at Chester-

field, Va., and attracted wide attention. He stead-
ily maintained that he was innocent, but the jury
brought in a verdict Sept. 8, finding him guilty.
He was electrocuted in the penitentiary at Rich-
mond Nov. 24, after having confessed in the pres-
ence of three clergymen that he was guilty of the
crime for which he had been sentenced to death.

CHICAGO STREET GRADES.

The grade of the streets in the central portion
of Chicago has been raised three times. In 1855 it
was raised from 2½ to 3 feet above the then exist-
ing surface, and it was again raised by about

the same amount in 1857 and 1872, making the
present level fourteen feet above "city datum,"
which is the low-water mark of the lake in 1847,

CHICAGO SCHOOL CENSUS OF MAY 2, 1910.

Taken under the supervision of W. L. Bodine for the board of education.

ADULT POPULATION.

Owing to the fact that 1910 was the year of the decennial census of the United States taken by the government, the board of education did not take a count of the inhabitants 21 years of age and over. The supervisor of the school census, however, estimated the total population of the city at 2,100,000, exclusive of the large number of people living in the suburbs. He arrived at this result by making deductions for deaths and using a multiple of a trifle over 2½ applied to the minor population of \$14,115 to include all the inhabitants, plus 1 per cent of the total population of 1908 for possible skips.

AGES AND SEX OF MINORS.

Age.	Male.	Female.	Total.
Under 4.....	81,535	84,968	166,503
Between 4 and 5.....	24,333	24,423	48,756
Between 5 and 6.....	24,013	23,415	47,428
Between 6 and 7.....	22,813	23,249	46,062
Between 7 and 14.....	126,108	125,448	251,556
Between 14 and 16.....	39,592	40,874	80,466
Over 16 and under 21.....	84,563	88,781	173,344

402,957 411,158 814,115

The net increase of minors over the school census of May 4, 1903, was 66,768. In 1906 the increase shown was 25,958 and in 1908 the increase was 40,797.

CHICAGO PARKS AND BOULEVARDS.

LINCOLN PARK SYSTEM.

Commissioners (Appointed by Governor with Consent of Senate)—Leo Austrian, F. H. Gansberger, Bryan Lathrop, Amos Pettibone, Francis T. Simmons, Frederick L. Wilk, Charles H. Wilson. Officers—Francis T. Simmons, president; Bryan Lathrop, vice-president; Frederick L. Wilk, auditor; Theodore Freeman, treasurer; Arthur S. Lewis, superintendent and secretary; C. A. Churnan, attorney.

Office—In Academy of Sciences, Lincoln park, Clark and Center streets.

The Lincoln park district consists of the towns of North Chicago and Lake View, with Fullerton avenue as the dividing line, and is bounded on the north by Devon avenue, on the south by the Chicago river and extends from Lake Michigan on the east to the north branch of the river and North Western avenue on the west.

The area of the Lincoln park district is 12.64 square miles and the population about 440,262. The total area of the parks and boulevards is 699.94 acres, with 9.33 miles of boulevard.

Lincoln Park—Lincoln park, previously known as Lake park, began its history under its present name by resolution passed by the common council of Chicago under date of June 5, 1865. The park proper is 317 acres in extent and extends from Diversey boulevard to Oak street along the lake front. To this 235 acres of land is being added by filling in Lake Michigan north of Diversey boulevard. This extension will contain a seventy-acre yacht harbor and will have bathing facilities.

The park contains a large floral department, also an extensive zoological garden containing about 1,200 animals. Boating and bathing facilities are furnished and the park lagoon—one mile in length—gives an admirable course for racing. The Academy of Sciences is located in the park at the foot of Center street. This building was erected in 1893 and contains about 250,000 specimens. It is noted for its collection of local natural history specimens and for its complete collection of mollusks.

The park has provided facilities for outdoor games during both the winter and summer seasons.

Stanton Park—At Vedder, Vine and Rees streets; area 5 acres.

Lake Shore Playground—Area 9.160 acres; is situated between Pearson street and Chicago avenue, extending from the Chicago avenue pumping works to the lake. This park is fitted up as a playground, containing a shelter house, refectory, with outdoor gymnasium apparatus.

Seward Park—Contains 1.73 acres; is fitted with outdoor and indoor gymnasium and has a fieldhouse which contains reading rooms, assembly hall, clubrooms, restaurant, a branch of the public library and facilities for gymnastic work and aquatic sports.

Hamlin Park—Wellington and Robey streets; area 10 acres; is fully equipped with fieldhouse and out-of-door gymnasium facilities.

Wells Park—Western avenue and Montrose boulevard; area 10 acres.

LENGTH OF NORTH SIDE BOULEVARDS.

In miles and fractions of miles.

Lake Shore drive, .745.	Sheridan road, 2.148.
Lake View, .490.	North State parkway, .123.
Lincoln parkway, .539.	

SOUTH PARKS.

Commissioners (appointed by Circuit court judges)—Henry G. Foreman, Charles L. Hutchinson, Joseph Donnersberger, Edward Tilden, John Barton Payne.

Officers—John Barton Payne, president; Joseph Donnersberger, auditor; George M. Reynolds, treasurer; John F. Nell, secretary; Robert Redfield, attorney; J. F. Foster, general superin-

tendent; E. O. Greifenhagen, superintendent of employment.

Offices—In Washington park, 57th street and Cottage Grove avenue.

The south park district is bounded on the north by the Chicago river and the Illinois and Michigan canal, east by Lake Michigan and the state of Indiana, south by 87th street and 138th street and west by South 48th avenue and State street.

The area of the south park district is 92.6 square miles; population is slightly in excess of 600,000. The total area of parks is 2,043.98 acres and of parks and boulevards 2,494.59 acres, consisting of twenty-four parks and 32.95 miles of boulevards— $3\frac{1}{4}$ acres of park to each 1,000 inhabitants. The following is a list of the parks and boulevards:

Jackson Park—Area 542.39 acres; bounded on the north by 56th street, east by Lake Michigan, south by 67th street and west by Stony Island avenue; this park is provided with facilities for boating, rowboats and launches, has two golf courses, one of nine holes and the other of eighteen holes, with golf shelter, lockers and showers for both men and women; It has baseball and football fields, tennis courts, refectory, beach bathing, music court, the Field museum of natural history occupying the World's Fair art building located in the northern part of the park, and in the winter skating is provided.

Washington Park—Area 371 acres; bounded on the north by 51st street, east by Cottage Grove avenue, south by 60th street, west by South Park avenue; has the same accommodations for the public as Jackson park except the golf facilities and the museum and in addition has croquet courts, archery range, horse speedway, accommodations for fly casting, wading pool and sand court for children and a house for the game of curling.

Marquette Park—Area 322.68 acres; bounded on the north by 67th street, east by California avenue, south by 71st street and west by the Grand Trunk Western railroad. The east 80 acres have been improved. It has ball fields and tennis courts and skating in the winter.

Grant Park—Area 205.14 acres; bounded on the north by Randolph street, east by Lake Michigan, south by Park row, west by Michigan avenue. This park is under construction. Temporary provision is made for athletic work in the northern part of the park. The Logan monument and the Art institute are located in this park.

Midway Plaisance—The connecting way between Washington and Jackson parks; bounded on the north by 59th street, east by Stony Island avenue, south by 60th street, west by Cottage Grove avenue. Has tennis courts and in the winter skating and hockey.

McKinley Park—Area 74.83 acres; bounded on the north by 37th street and Archer avenue, east by Robey street, south by 39th street, west by Western Avenue boulevard. Has swimming pool, outdoor gymnasiums for men and women, tennis courts, ball field, children's playground, wading pool and skating in the winter. Improvements not entirely completed.

Gage Park—Area 20 acres; situated at the intersection of Western avenue and 55th street. Has wading pool, ball field and tennis court.

Sherman Park—Area 60.60 acres; bounded on the north by 52d street, east by Center avenue, south by Garfield boulevard, west by Loomis street. Has recreation buildings which include an assembly hall used by the people free of charge for various entertainments, clubrooms for meetings of the various clubs of the community, reading room supplied with periodicals by the park commissioners, lunchroom, gymnasiums for men and for women, shower and plunge baths and locker rooms. There are also outdoor gymnasiums for men and women, playground for children, wading pool and swimming pool with the necessary dressing booths. Provision is made for baseball, football, tennis and boating. There is also a band stand under which concerts are given during the summer every Sunday evening. Also skating in the winter.

Ogden Park—Area 60.56 acres; bounded on the north by 64th street, east by Center avenue, south by 67th street, west by Loomis street. The same facilities for recreation and pleasure are provided as in Sherman park, except lunch counter.

Palmer Park—Area 40.48 acres; bounded on the north by 111th street, east by South Park avenue, south by 113th street, west by Indiana avenue. The same facilities for recreation and pleasure are provided as in Sherman park, except boating and lunch counter.

Hamilton Park—Area 29.95 acres; bounded on the north by 72d street, east by C., R. L. & P. railway, south by 74th street, west by C. & W. I. railway. The same facilities for recreation and pleasure are provided as in Sherman park, except swimming pool and boating.

Bessemer Park—Area 22.83 acres; bounded on the north by 89th street, east by Muskegon avenue, south by 91st street, west by South Chicago avenue. The same facilities as Sherman park except lunch counter and boating.

Maple White Square—Area 10 acres; bounded on the north by 29th street, east by Halsted street, south by 30th street, west by Poplar avenue. The same facilities as Sherman park except boating and lunch counter.

Armour Square—Area 10 acres; bounded on the north by 33d street, east by 5th avenue, south by 34th street, west by Shields avenue. The same facilities as Sherman park except boating.

Cornell Square—Area 10 acres; bounded on the north by 50th street, east by Lincoln street, south by 51st street, west by Wood street. The same facilities as Sherman park except boating and lunch counter.

Davis Square—Area 10 acres; bounded on the north by 44th street, east by Marshfield avenue, south by 45th street, west by Hermitage avenue. The same facilities as Sherman park except boating.

Russell Square—Area 11.47 acres; bounded on the north by 83d street, east by Bond avenue, south by Illinois avenue, west by Houston avenue. The same facilities as Sherman park except boating and lunch counter.

Calumet Park—Area 66.19 acres; bounded on the north by 95th street, east by Lake Michigan, south by 102d street, west by Avenue G and a line about 50 feet east of C., L. S. & E. railway. Has not yet been improved, but a bathing beach is maintained there during the summer with suitable dressing booths and provision is made for baseball, football and tennis, and skating in the winter.

Hardin Square—Area 7.41 acres; bounded on the north by 25th street, east by the Rock Island right of way, south by 26th street, west by Wentworth avenue. Not yet improved. Provision for baseball and football.

No. 4 Square—Area 10 acres; bounded on the north by 45th street, east by Princeton avenue, south by 46th place, west by Stewart avenue; now being improved with same facilities as Sherman park in a more extensive form.

No. 15 Park—Area 19.16 acres; bounded on the north by 76th street, east by Dobson avenue, south by 78th street, west by Ingleside avenue. Not yet improved.

No. 16 Park—Area 13.52 acres; bounded on the north by 103d street, east by Bensley avenue, south by 105th street, west by Oglesby avenue. Not yet improved.

No. 17 Park—Area 20 acres; bounded on the north by 130th street, east by Carondelet avenue, south by 132d street, west by Exchange avenue. Not yet improved.

No. 18 Park—Area 20.19 acres; bounded on the north by 90th street, east by St. Lawrence avenue, south by 51st street, west by South Park avenue. Not yet improved.

Michigan Avenue Boulevard—80 to 100 feet wide; from Garfield boulevard to Randolph street.

Garfield Boulevard—200 feet wide; from South Park avenue to Western Avenue boulevard on the line of 55th street.

Western Avenue Boulevard—200 feet wide; a strip of land east of and adjoining the center line of Western avenue from the Illinois and Michigan canal to 55th street (Garfield boulevard).

Grand Boulevard—198 feet wide; on the line of South Park avenue from 35th to 51st street.

Drexel Boulevard—200 feet wide; first street east of Cottage Grove avenue and extending from Oakwood boulevard to 51st street.

Prairie Avenue—66 feet wide; the street of that name from 16th to 29th street.

South Park Avenue—66 feet wide; being the street of that name between 35th and 29th streets.

Jackson Street—66 feet wide; being the street of that name extending from Michigan avenue to the south branch of the Chicago river.

Oakwood Boulevard—100 feet wide; the first street south of 39th street between Grand boulevard and Cottage Grove avenue.

Thirty-Third Street—66 feet wide; being the street of that name between Michigan avenue and South Park avenue.

Sixteenth Street—50 feet wide; being the street of that name between Michigan avenue and Prairie avenue.

Twenty-Ninth Street—66 feet wide; being the street of that name between Prairie avenue and South Park avenue.

Fifty-Seventh Street—100 feet wide; being the street of that name between the I. C. railroad right of way and the west line of Jackson park.

Sixty-Sixth Street—66 feet wide; being the street of that name from Jackson park to Vincennes avenue.

Vincennes Avenue—66 feet wide; from 66th street to 67th street.

Sixty-Seventh Street—66 feet wide; being the street of that name from Vincennes avenue to California avenue.

Normal Avenue—66 feet wide; from Garfield boulevard to 72d street.

Loomis Street—66 feet wide; being the street of that name from Garfield boulevard to 67th street.

Hyde Park Boulevard—100 feet wide; being that part of 51st street between Drexel avenue and East End avenue.

East End Avenue—85 feet wide; being the street of that name from 51st street to Jackson park.

Yates Avenue—100 feet wide; being the street of that name from Jackson park to 71st street.

Seventy-First Street—100 feet wide, being the street of that name from Yates avenue to Bond avenue.

Bond Avenue—66 feet wide; being the street of that name from 71st street to 83d place.

WEST CHICAGO PARKS.

Commissioners (Appointed by Governor with Consent of Senate)—John F. Smulski, Frederick W. Dreckman, John F. Hovland, William Kolacek, William C. Eggert, Joseph A. O'Donnell, Addison E. Wells.

Officers—William Kolacek, president; William O. Eggert, auditor; Bernard A. Eckhart, treasurer; George A. Mugler, secretary; John M. Dingman, assistant secretary; Jens Jensen, consulting landscape architect; Alfred C. Schrader, superintendent and engineer; Charles B. Pavlicek, attorney.

Offices—In Union park, Lake street and Ashland boulevard.

The west park district comprises all that part of the town of West Chicago lying between the Illinois and Michigan canal and the Chicago river and the following described lines: Beginning at the north branch of the Chicago river at Belmont avenue, thence west to North Kedzie avenue, thence south along Kedzie avenue to North avenue, thence west along North avenue to North 60th avenue, thence south along 60th avenue to 12th street, thence east along 12th street to South 46th avenue, thence south along South 46th avenue to West 39th street, thence east along 39th street to the Illinois and Michigan canal.

The area of the west park district is 35.5 square miles; population is about 872,000. The total area of parks and boulevards is 1,035.43 acres, consisting of thirteen parks and twenty-five miles of boulevard—0.72 acre of park to each 1,000 inhabitants. Area of parks, 629.23 acres. The following is a list of the parks and boulevards:

Humboldt Park—Area 205.86 acres; bounded on the north by West North avenue, east by California and Sacramento avenues, south by Division and Augusta streets and west by Kedzie

avenue; has rose garden with pergola and garden hall and fountains; refectory building, also a pavilion and boat landing, music court, a wading pool and shelter building for children; is provided with facilities for boating, has baseball diamonds and tennis courts and in winter skating and tobogganing are provided.

Garfield Park—Area 187.53 acres; bounded on the north by Kinzie and Lake streets, east by Central Park avenue and Homan avenue, south by Madison street and Colorado avenue and west by Hamilton avenue. Has a new conservatory, the largest in the country; refectory building, boat landing and pavilion, music court and band stand, water courts with fountain, basin and extensive flower gardens. Has a golf course with fieldhouse containing lockers for men and women; also has tennis courts and facilities for fly casting, and in winter skating, tobogganing and curling facilities are provided.

Douglas Park—Area 181.99 acres; bounded on the north by West 12th street, east by California avenue, south by 19th street and west by Albany avenue. Has refectory building, boat landing and pavilion, music court, flower gardens, outdoor gymnasium and natatorium with swimming pools, shower baths and dressing rooms for men and women. Facilities are provided for baseball, boating and lawn tennis, and in winter skating and tobogganing.

Union Park—Area 17.37 acres; bounded on the north by Lake street, east by Ogden avenue and Bryant place, south by Warren avenue and west by Ashland boulevard. In this park the offices of the West Chicago park commissioners are located. In winter facilities for skating are provided.

Jefferson Park—Area 7.02 acres; bounded on the north by Monroe street, east by Throop street, south by Adams street and west by Loomis street.

Vernon Park—Area 6.14 acres; bounded on the north by Macalister place, east by Centre avenue, south by Gilpin place and west by Loomis street.

Wicker Park—Area 4.03 acres; bounded on the north and east by Park street, south by Fowler street and west by Robey street.

Holstein Park—Area 1.94 acres; bounded on the north by Elm street, south by Hamburg street and located one block east of Western avenue. Has an outdoor gymnasium and play field and shelter building, and in winter skating is provided.

Campbell Park—Area 1.38 acres; a strip of land 100 feet wide lying between Oakley boulevard and Leavitt street and one block north of Polk street.

Shedd's Park—Area 1.13 acres; located at 23d street and Millard avenue, opposite Lawdale station of the Chicago, Burlington & Quincy Railway company.

Small Park No. 1—Area, 3.125 acres; bounded on the north by Cornell street, east by Chase street, south by Chicago avenue and west by Noble street. A fieldhouse has been provided containing gymnasium and shower baths for men and women, lunchrooms, library and reading room and assembly hall; also an outdoor swimming pool with shower baths and dressing rooms for men and women. An outdoor gymnasium for men and women, play field with wading pool and sand courts for children and tennis courts and ball grounds have been provided; also skating in the winter.

Small Park No. 2, containing 2.89 acres, bounded on the north by Barber street, east by Jefferson street, south by 14th place and west by Union street, has been completed by the west park board. In this park the same facilities for recreation and pleasure are provided as in the small parks and playgrounds mentioned above.

Small Park No. 3—Area, 3.85 acres; bounded on the north by 20th street, east by Flisk street, south by 21st street and west by May street. The same facilities for recreation and pleasure are provided as in the small park No. 1.

Humboldt boulevard, 2.94 miles long, 100 feet to 400 feet wide, from Diversey boulevard bridge to Humboldt park, connecting the west park system with the Lincoln park system on the north, has

been renamed for house-numbering purposes as follows:

Logan Boulevard—From the Diversey boulevard bridge to North Kedzie boulevard.

North Kedzie Boulevard—From Logan boulevard to Palmer square.

Palmer Square—From North Kedzie boulevard to Humboldt boulevard.

Humboldt Boulevard—From Palmer square to Humboldt park.

Franklin boulevard, 1.5 miles long, 250 to 400 feet wide, connecting Humboldt and Garfield parks, has been renamed for house-numbering purposes as follows:

North Sacramento Boulevard—From Humboldt park south to Franklin boulevard.

Franklin Boulevard—West from North Sacramento boulevard to North Central Park boulevard.

North Central Park Boulevard—South from Franklin boulevard to Garfield park.

Douglas boulevard, 1.68 miles long, 250 feet wide, connecting Garfield and Douglas parks, has been renamed for house-numbering purposes as follows:

Independence Boulevard—South from Garfield park to Douglas boulevard.

Douglas Boulevard—East from Independence boulevard to Douglas park.

Marshall boulevard, 2.17 miles long, 360 feet wide, from Douglas park to the Illinois and Michigan canal, connecting the west park system on the south with the south park system at Western avenue, has been renamed for house-numbering purposes as follows:

Marshall Boulevard—From Douglas park south to West 24th boulevard.

West 24th Boulevard—East from Marshall boulevard to South California boulevard.

South California boulevard—From West 24th boulevard south to West 31st boulevard.

West 31st Boulevard—From South California boulevard east to South Western Avenue boulevard.

South Western Avenue Boulevard—South from West 31st boulevard to the Illinois and Michigan canal.

Washington boulevard, 6.31 miles long, from 66 to 100 feet wide, from Canal street west to the city limits through Union park and Garfield park, a continuation of Washington street on the south side, has been renamed for house-numbering purposes West Washington boulevard.

Jackson boulevard, 3.94 miles long, from 66 to 80 feet wide, from the Chicago river west to Garfield park, a continuation of Jackson boulevard on the south side, has been renamed for house-numbering purposes West Jackson boulevard.

Ashland boulevard, 1.28 miles long, 100 feet wide, from Lake street south to 12th street, has been renamed for house-numbering purposes as follows:

North Ashland Boulevard—From West Lake street south to West Madison street.

South Ashland Boulevard—South from West Madison street to West 12th boulevard.

Twelfth Street boulevard, 0.98 mile long, 70 feet wide, from Ashland boulevard to the intersection of Oakley and Ogden boulevards, a continuation of West 12th street, has been renamed for house-numbering purposes West 12th boulevard.

Ogden boulevard, 0.74 mile long, from 70 to 112 feet wide, from the intersection of Oakley boulevard and West 12th boulevard through Douglas park.

Central Park avenue, 0.33 mile long, 80 feet wide, from West Madison street to Colorado avenue, along the east side of Garfield park, has been renamed for house-numbering purposes South Central Park boulevard.

Oakley boulevard, 1.10 miles long, from Washington boulevard to the intersection of West 12th boulevard and Ogden boulevard, has been renamed for house-numbering purposes as follows:

North Oakley Boulevard—South from West Washington boulevard to West Madison street.

South Oakley Boulevard—South from West Madison street to West 12th boulevard.

Homan avenue, 0.25 mile long, from West Lake street to West Madison street, along the east side of Garfield park, has been renamed for house-numbering purposes North Homan boulevard.

Sacramento avenue, 1.59 miles long, from Franklin boulevard to Douglas park, has been renamed for house-numbering purposes as follows: North Sacramento Boulevard—From Franklin boulevard south to West Madison street. South Sacramento Boulevard—From West Madison street south to Douglas park.

SMALL PARKS AND PLAYGROUNDS.

Special Park Commission (appointed by the mayor)—Aldermen Beilfuss, Danisch, McDermott, Harding, Cullerton, Capitani, Schultz, Ryan (4th), Walkowiak, Hazen, Haderlein, Jens Jensen, Abraham M. Liebling, William Best, Thomas J. Dixon, Oscar F. Mayer, Cyril Fliala, James H. Burdette, Paul Drzymalski, Peter S. Goodman, F. A. Lindstrand, George Landau, Frederick Greeley, Dr. J. B. McPatrick, William Kolacek, Joseph Donnersberger, Francis T. Simmons.

Secretary—(Vacancy), room 1004 city hall.

Superintendent of Parks—John Algots.

Superintendent of Playgrounds and Bathing Beaches—Theodore A. Gross.

City Forester—Jacob H. Prost.

The special park commission is appointed by the mayor by authority of the city council. It has charge of a number of small parks and squares which are under the immediate jurisdiction of the city, and it also conducts several bathing beaches on the lake shore and a number of municipal playgrounds. The parks are provided with ornamental and drinking fountains wherever it is practicable, lagoons, swings, tennis courts and landscape and other features according to circumstances. The playgrounds are provided with play apparatus, athletic fields, baseball diamonds, basket-ball courts, skating ponds, drinking fountains, running tracks, gymnastic apparatus and buildings containing toilet rooms, offices, sand courts and roofed platforms. The bathing beaches are provided with bathhouses containing dressing rooms, lockers, change rooms, washrooms, toilets and office.

In 1910 the city appropriation was \$4,290 for administration, \$62,452 for parks, \$56,756 for playgrounds, \$6,345 for city forester and \$4,069 for bathing beaches.

Following is a list of the small parks, playgrounds and bathing beaches in charge of the special park commission, with the area of the parks in acres. Two parks maintained privately are included in the list and are so described:

Adams Park—75th place, 76th street and Dobson avenue; 1½.

Aldine Square—Vincennes avenue, 37th place and alley north of 38th place; 1½.

Amy L. Barnard Park—105th street, between Longwood boulevard and Walden parkway; 1¼.

Arbor Rest—Chestnut, Rush and Cass streets; ¾.

Arcade Park—111th place, 112th street, Morse avenue and Watt avenue; ¾.

Archer Point—Archer avenue, 20th street and Dearborn street; ¼.

Austin Park—Waller avenue, Northwestern railway, Austin avenue and Lake street; 4½.

Belden Avenue Triangle—North Clark street, Sedgwick street and Belden avenue; ½.

Bickerdike Square—Ohio street, Bickerdike street, Ashland place and Armour place; 1¼.

Blackstone Point—Lake avenue, Washington avenue and 49th street; ¾.

Buena Circle—Buena avenue and Kenmore avenue; ½.

Buena Terrace—Sheridan road, Evanston avenue and Buena terrace.

Colorado Point—Colorado avenue, Monroe street and Francisco avenue; ½.

Congress Park—Van Buren street, Rockwell street, Harrison street and Washtenaw avenue; ¾.

Columbus Circle—Exchange avenue, South Chicago avenue and 92d street.

DeKalb Square—Lexington street, Hoyne avenue, Fernway street and DeKalb street; ¾.

Dickinson Park—North 50th avenue, Dickinson avenue and Belle Plaine avenue; 1¼.

Douglas Monument Park—Woodland park, Illinois Central, 35th street and alley west of railroad; 3.

East End Park—East End avenue, 51st street, 53d street and the lake; 10.

Eldred Grove—North 64th avenue, Norwood Park avenue, 53d avenue and Northwestern railway; 1.

Ellis Park—36th street, Langley avenue, 37th street and Elmwood court; 4.

Eugenie Triangle—Eugenie street, North Clark street and LaSalle avenue; ½.

Fernwood Park—103d street, 95th street, Stewart avenue and Canal street; 8.

Green Bay Triangle—North State street, Rush street and Bellevue place; ¾.

Gross Park—Otto street, North Paulina street, School street, Ravenswood avenue; ½.

Groveland (private)—Cottage Grove avenue, 34th street and Illinois Central railway; 3½.

Holden Park—Lake street, Indiana street, Central avenue and Park avenue; 4.

Independence Square—West 14th street and Hamlin avenue; 3¾.

Irving Park—Irving Park boulevard, Northwestern railway, near 42d avenue; ¾.

Jefferson Park—Winnemac avenue, North 52d avenue, Argyle avenue and North 53d avenue; 5.

Kedzie Park—Kedzie avenue, between Palmer place and North avenue; 2.

Kinzie Parkway—Kinzie street, between 52d avenue and Willow avenue; 1¼.

Lakewood Point—Greenwood avenue, Lake avenue and 43d street; .27.

Lily Gardens, The—Low avenue, Chicago & Western Indiana railroad, 71st and 73d streets; 3.

Merrick Park—Pine avenue, Willow avenue, Indiana street and Kinzie street; 6½.

Midway, The—Midway, between Waller and Austin avenues; 1½.

Montrose Park—Montrose avenue, Sheridan road and Evanston avenue.

Mulberry Point—Crescent avenue, Ceylon avenue and Mulberry avenue; ¾.

McKenna Triangle—38th street, Archer avenue and Campbell avenue.

Normal Park—67th street, 69th street, Lowe avenue and Western Indiana railroad; 2½.

Norwood Circle—Hobart avenue, Colfax place and Circle avenue; 2¼.

Oak Park—Oak, Rush and State streets; ¾.

Oakland Park—Lake avenue, 39th street and Illinois Central road; ¾.

Ogden Arrow—North Clark street, Wells street and Ogden front; ¾.

Parkway—In North Harding avenue, bounded by West Byron street, West Addison street, Springfield avenue and North 40th avenue.

Patterson Park—Leavitt, Boone and DeKalb streets; ¾.

Pullman Park—111th street and place, Cottage Grove avenue and Morse avenue; ¾.

Rice Triangle—Grand avenue and Western avenue; ¾.

Rocky Ledge—Lake Michigan and 79th street; 3¼.

Railway Gardens—Avondale and Ceylon avenues, south of Northwestern railroad; also on Norwood Park avenue, north of Northwestern railroad; 2¼.

Rutherford Park—Humboldt, North 69th and North 68th avenues; 4½.

Sacramento Avenue Parking—Sacramento avenue, 26th street and house of correction; ¾.

Sayre Park—69th avenue, West Belden avenue, 68th court and Humboldt street; 3½.

Schoenhofen Place—Canal street, Canalport avenue and 18th street; ¾.

Washington Square—North Clark street, Walton place, Dearborn avenue and Washington place; 3.

Winnemac Avenue Park—Robery street, Winnemac avenue, Foster avenue and Clay street; 40.

Woodland Park (private)—Cottage Grove avenue, Illinois Central road, between 34th and 35th streets; 3¾.

UNIMPROVED.

Avondale Park—Avondale avenue, North Avers avenue and Addison street.

Crescent Park—Crescent road, Prescott avenue, Ormonde avenue and Grassmere road; 8.

Dauphin Park—87th street, Illinois Central line, 81st street and Dauphin avenue; 5¼.

Geator's Parkway—North St. Louis avenue, North Homan avenue and West Kinzie street.

Higgins Road Triangle—Milwaukee avenue and Higgins road.
 Kosciusko Triangle—Kosciusko avenue, between Milwaukee avenue and North 62d avenue; 1/2 Myrtle Grove—Hobart avenue, Myrtle avenue and Grant place; 1/2.
 Parkway—In North Avers avenue, bounded by North Springfield avenue, Northwestern railroad, North Hamlin avenue and West Addison street.
 Tract fronting on Montgomery avenue, west of Rockwell street and North of West 42d street.
 Triangle at West Belmont avenue, Elston avenue and California avenue.
 Triangle at West 69th street, Vincennes avenue and Lafayette avenue.
 Triangle at Blue Island avenue, 16th street and Throop street.

MUNICIPAL PLAYGROUNDS.

Names, location and dimensions of the municipal playgrounds in Chicago:
 George E. Adams—Seminary avenue, south of Center street; 402 by 283 feet.
 Audubon—Hoyne avenue, Cornelia avenue and Hamilton avenue; 125 by 165 feet.
 Holden—Bonfield street, near West 35th; 696 by 116 feet.
 Commercial Club—West Chicago avenue, near Lincoln street; main ground, 200 by 125 feet; annex, 120 by 123 feet.
 John B. Drake—Calumet avenue, between 26th and 28th streets; 194 by 181 feet.
 Moseley—Wabash avenue and 24th street; 200 by 200 feet.
 McLaren—West Polk street, near Lavin; 175 by 183 feet.
 Northwestern Elevated—Alaska and Larrabee streets; 90 by 350 feet.
 Sampson—15th street, near Loomis; 215 by 125 feet.
 Hamlin Avenue—Springfield avenue, Hamlin avenue, 16th street, north to Avers avenue; 300 by 593 feet.
 Orleans—Institute place and Orleans street; 136 by 126 feet.

WIDTHS OF TIRES REQUIRED IN CHICAGO.

The wide-tire ordinance passed by the Chicago city council Feb. 4, 1908, requires that all four-wheeled vehicles shall have tires proportionate to the load they carry, as follows:

Load. Tires, inches.

3,000 pounds or under.....1 1/2

Between 3,000 and 4,000 pounds.....2

Between 4,000 and 6,000 pounds.....2 1/2

Load.	Tires, inches.
Between 6,000 and 8,000 pounds.....	3 1/4
Between 8,000 and 10,000 pounds.....	3 3/4
Between 10,000 and 14,000 pounds.....	4 1/4
Between 14,000 and 18,000 pounds.....	6
Over 18,000 pounds.....	8

The width for two-wheeled trucks is double.

HOUSE-NUMBER SYSTEM IN CHICAGO.

[From report of John D. Riley, superintendent of maps.]

Sept. 20, 1910, the city council passed an amendment to the house number ordinance (of Sept. 1, 1909), the effect of which was to include the downtown district in the new system of numbers, making the same complete for the entire city, the change becoming effective, so far as the downtown district was concerned, April 1, 1911.

The system is laid out on two base lines, State street dividing the east and west streets and Madison street dividing the north and south streets, the numbers being assigned on the basis of 800 numbers to each mile or 100 numbers to the prevailing city block of 660 feet or one-eighth of a mile. An exception to this assignment, however, is made on the north and south streets between Madison street and 31st street, in which territory 1,200 numbers are assigned between Madison and 12th streets, 1,000 between 12th and 22d streets and 900 between 22d and 31st streets. This was necessitated by reason of the fact that it was not deemed expedient or advisable to interfere with the system of numbered streets on the south side.

The system further provides for the use of the prefixes "North," "South," "East" and "West" on all streets which either cross or are open on either side of the base lines and on all streets of numerical nomenclature, whether open on either side of the base line or not. Names of streets open only on one side of either of the base lines do not carry the prefix, the result of this being that all of the east and west streets north of North avenue, at about which point the line of State street runs into Lake Michigan, do not require the use of the prefix "West." This, of course, also applies to such streets as Plymouth court, Polk street and all other named streets open on only one side of either of the base lines.

In the assignment of numbers in the downtown district it was not possible to have 100 numbers to each block by reason of the fact that the blocks, instead of being laid out on the basis of one-eighth of a mile or 660 feet long, are approximately only 400 feet. The assignment, however, was made in as systematic a manner as possible. On the east and west streets downtown, commencing at State street and running west, we get numbers 1 and 2 at State, 50 Dearborn, 100 Clark, 150 LaSalle, 200 5th avenue, 300 Franklin, 350 Market, the terminating numbers at the river picking up those heretofore assigned on the same streets west of the river. On the east and west streets running east of State street we get numbers 1 and 2 at State, 50 at Wabash, the terminating numbers at the west side of Michigan avenue being something less than 100. On the north and south streets, going north from Madison street, we get 1 and 2 at Madison, 100 Washington, 150 Randolph, 200 Lake and 300 South Water street, the terminating numbers at the river picking up with those heretofore assigned to the same streets north of the river. Going south from Madison street on the north and south streets we commence with 1 and 2 at Madison street, 100 Monroe, 200 Adams, 300 Jackson, 400 Van Buren, 500 Congress, 800 Polk, 1000 Taylor and 1200 12th street, all of those numbers being in conformity with those for the same streets as heretofore assigned west of the river. In the business district downtown an individual number is assigned to each entrance on the street level.

CHICAGO

GREENEBAUM SONS BANK AND TRUST COMPANY

Corner Clark and Randolph Streets
Chicago

A lifetime of success has placed the banking house of Greenebaum Sons Bank and Trust Company in the forefront of Chicago monetary institutions. Founded in 1855 by Elias Greenebaum, three generations have contributed to the growth and solidity of the business, and to-day no institution in the banking world is more highly regarded.

From 1877 to 1911 the business founded by Elias Greenebaum was known under the name of Greenebaum Sons, Bankers, and when the grandsons of the man who laid the broad foundations of the structure were ready to take their places in the management of the great banking and investment business, which had expanded to such large proportions, it was reorganized as a state bank and trust company, with a capital of \$1,500,000, in 1911.

Conducting, as it does, a banking department, mortgage loan department, investment, foreign and trust departments, it is adequately equipped to supply the Chicago

business world with financial assistance in any of the varied lines specified.

Recognized as the banking house best able to handle large or small first mortgage bond issues, it has proved its supremacy in the matter of the bonds for the Chicago central business buildings now under construction. Among the issues recently taken by Greenebaum Sons Bank and Trust Company may be mentioned the bonds of the great new Hearst Building, that modern, high-class, all-steel skyscraper built as the new home for the Chicago Examiner and the American; the new Rothschild State Street Building, the Rogers & Hall Building, Franklin Building, the Klper Buildings, and various office, warehouse and manufacturing buildings have been negotiated through this bank.

These First Mortgage Real Estate Bonds were issued in units of \$1,000 and \$500, bearing 5½% to 6% interest, and were all quickly bought by the large number of investment clients who place their funds through Greenebaum Sons.

At the same time it maintains a department for loans on improved real estate and building loans on moderate sized residences, flats and business buildings.

The banking departments are similar to those in any well-equipped institution in a metropolitan city and transact a general banking business.

City Hall Square Building

LOCATION

This building occupies the premises, new numbers 127 to 139 North Clark Street. The location, in the heart of the Loop, makes office space unusually desirable for Lawyers, Builders, Contractors, Architects, Financial and Bonding Companies, Building Material Firms, etc.

CONSTRUCTION

This building is a thoroughly modern twenty-one story, fire-proof office building and will be ready for occupancy on or before the first of April, 1912. The building has a frontage of one hundred and eleven feet on Clark Street and a depth of seventy feet on Court Place, with an open light court in the rear one hundred and eleven feet wide and ninety feet deep. Every office is an outside room with plenty of sunshine and light. The exterior of the first four floors is polished granite and Bedford stone, the stonework treated in a decorative manner. Above the stonework the main shaft of the building is a specially selected vitrified red brick. The upper four stories are ornamented terra cotta. The lobby has Italian marble wainscoting and floor, bordered in Verde Antique marble. Corridors and stairways above the first floor are wainscoted in Italian marble with floors of Italian marble. Finish is highly polished San Domingo mahogany throughout.

ELEVATORS

There are five unusually large latest improved type of Otis elevators with a speed of 600 feet per minute, equipped with all the modern safety devices and electric signals, insuring quick and reliable service at all times.

EQUIPMENT

A thoroughly modern system of steam vacuum heating with thermostat regulation is installed. Particular attention is paid to ventilation and sanitation and a vacuum system is utilized for cleaning. Hot and cold water is furnished to every office in the building. Commodious and well-appointed lavatory and barber shop are located on the eleventh floor. Retiring-room with toilet and rest-room, suitably furnished for ladies, are provided on the twelfth floor.

The most efficient service will be maintained in all departments, and every means for the

comfort, convenience and accommodation of the tenants will be adopted.

The building has been erected under the personal supervision of the Architect, Mr. C. A. Eckstorm.

On the 15th of December, 1911, approximately 60 per cent of the office space was leased.

Willich Post No. 780, G. A. R.—Town of Maline cemetery; Oct. 13, 1901.

MUNICIPAL LODGING HOUSE.

162 North Union street. Charles F. Rogers, supt.

The municipal lodging house is for the benefit of all homeless and indigent men and boys in the city. Lodging, a bath and food are provided free for every applicant for one night, and longer if he is honestly seeking employment. The crippled, old or infirm are sent each morning to hospitals, dispensaries or homes. Employment is found for the able-bodied and industrious. Statistics for the calendar years, 1908, 1909 and 1910 are as follows:

	1908.	1909.	1910.
Lodgings given.....	105,564	69,980	36,710
Meals served.....	229,397	142,691	73,420
Situations supplied.....	8,119	4,884	1,727
Criples received.....	2,473	2,874	193
Skilled laborers received.....	40,389	25,432	4,015
Unskilled laborers received.....	65,175	44,548	9,089
Sent to county agent.....	312	199	350
Sent to county hospital.....	240	163	263
Sent to charitable organizat'ns	56	19	223
Sent to dispensary.....	3,648	740	441

STREETS, ALLEYS AND PAVEMENTS.

The combined length of the streets and alleys of Chicago is 4,355.23 miles. The street mileage is 2,896.59 and the alley mileage 1,458.64. Of the streets 1,730.51 miles are paved. The total of each kind of pavement in use Jan. 1, 1911, was:

Pavement.	Miles.	Pavement.	Miles.
Asphalt.....	530.69	Medina stone.....	1.19
Block asphalt.....	1.74	Slag.....	7.48
Brick.....	147.03	Novaculite.....	2.00
Cedar.....	349.59	Rock asphalt.....	0.57
Concrete.....	5.11	Wood asphalt.....	0.05
Cresotod block... ..	15.59		
Granite.....	95.07	Total.....	1,730.51
Macadam.....	574.40

LEGAL FARES FOR CABS, CARRIAGES AND TAXICABS.**ONE-HORSE VEHICLES.**

1. For one or two passengers, not exceeding one mile.....\$0.50
2. For each additional passenger, 25 cents for the first mile or part thereof only..... .25
3. For one or more passengers for the second mile and subsequent miles or part thereof, 25 cents for all for each such mile or part thereof..... .25
4. For children between 5 and 14 years of age, when accompanied by an adult, not more than half of the above rates shall be charged for like distances. For children under 5 years of age, when accompanied by an adult, no charge shall be made.
5. For the use of any vehicle mentioned in this section conveying one or more passengers, when hired by the hour with the privilege of going from place to place and stopping as often as may be required, as follows:
 - For the first hour.....1.00
 - For each additional hour or part thereof at the rate of \$1 an hour.
6. In the case of any vehicle described in this section being engaged by the hour and discharged at a distance from the place where it was engaged, the driver shall have the right to charge for the time necessary to return to such place.

TWO-HORSE VEHICLES.

1. For one or two passengers not exceeding one mile.....\$1.00
2. For each additional passenger, 50 cents each for the first mile or part thereof only..... .50
3. For one or more passengers for the second mile and subsequent miles or part thereof, 50 cents for all for each mile or part thereof..... .50
4. Children between 5 and 14 years of age, when accompanied by an adult, not more than half of the above rates shall be charged for like distances. For children under 5 years of age, when accompanied by an adult, no charge shall be made.
5. For the use of any vehicle mentioned in this section conveying one or more passengers, when hired by the hour with the privilege of going from place to place and stopping as often as may be required, as follows:
 - For the first hour.....2.00
 - For each additional hour or part thereof, at the rate of \$1.50 an hour.
6. In the case of any vehicle described in this section being engaged by the hour and discharged at a distance from the place where it was engaged, the driver shall have the right to charge for the time necessary to return to such place.

Hiring by the Hour—Must be so specified at the time of hiring. In all cases where the hiring of any vehicle licensed under the provisions of this article is not at the time of such hiring specified by the person hiring same to be by the hour, it shall be deemed to be by the mile, and for any detention exceeding a total period of fifteen minutes during the whole period of such hiring, when so working by the mile, the driver may demand pay for such period of detention at the rate of \$1.00 per hour in addition to the rate per mile.

Baggage—Every passenger upon any vehicle licensed under the provisions of this article shall be allowed to have conveyed with him upon such vehicle without charge therefor his ordinary light traveling baggage in an amount not to exceed in weight seventy-five pounds.

Lost Baggage—Whenever any package, article of baggage or goods of any kind shall be left in or upon any vehicle licensed under the provisions of this article, the driver of such vehicle shall upon the discovery of such package, baggage or goods forthwith deliver the same to the board of inspectors of passenger vehicles.

TAXICABS.

No person, firm or corporation owning, operating or controlling any taxicab shall let the same for hire or reward for a fee or charge to be fixed and determined by the hour or fraction thereof, but the fare demanded and received shall (excepting for

waiting time as herein provided for) be computed by the distance traveled and shall not exceed the following rates:

- For the first one-half mile or fraction thereof, for one person.....\$0.50
- For each one-fourth mile thereafter..... .10
- For each additional person for whole journey.. .20
- For each four minutes of waiting..... .10

Waiting Time—Waiting time shall include the time during which the taxicab is not in motion, beginning with its arrival at the place to which it has been called, or the time consumed while standing at the direction of a passenger, but no charge shall be made for time lost for inefficiency of the taxicab or its operator or for time consumed by a premature arrival in response to a call; provided, however, that no operator or driver of any taxicab which has responded to the call of a prospective passenger shall throw down or place in a recording position the flag attached to the taximeter until at least eight minutes' waiting time have elapsed or been consumed.

Operator to Announce Charge Before Changing Position of Flagpost—It shall be the duty of the operator or driver of every taxicab at the termination of his services to throw the flag to the nonrecording position on the taximeter and call the passenger's attention to the amount registered. The taximeter shall not be changed until after the fare is paid or a charge ticket therefor made out and delivered to the person hiring such taxicab.

Baggage—Every passenger upon any taxicab shall be allowed to have conveyed with him upon such vehicle, without charge therefor, his ordinary light traveling baggage in an amount not to exceed in weight fifty pounds. A fee of 20 cents may be charged for conveying a trunk.

Lost Baggage—Whenever any package, article of baggage or goods of any kind shall be left in or upon any vehicle licensed under the provisions of this article, the operator of such vehicle shall, upon discovery of such package, baggage or goods, forthwith deliver the same to the board of inspectors of passenger vehicles.

AUTOMOBILES (OTHER THAN TAXICABS).

Rates of Fare—The rate of fare to be asked or demanded by the operator or person in charge or control of any automobile, autocar or other similar vehicle operated for the conveyance of passengers, for hire or reward, within the city, shall not exceed the following prescribed rates:

Seating Capacity Not Exceeding Two Passengers—For the use of any such vehicle the seating capacity of which shall not exceed two persons, at the rate of \$3.00 per hour; provided, however, that no operator of such vehicle shall be compelled to rent the same for a fee of less than \$1.00.

Seating Capacity from Three to Five Passengers—For the use of any such vehicle the seating capacity of which shall be more than two persons, and not exceeding five persons, at the rate of \$4.00 per hour; provided, however, that no operator of such vehicle shall be compelled to rent the same for a fee of less than \$1.50.

Seating Capacity More than Five Passengers—For the use of any such vehicle the seating capacity of which is more than five persons, at the rate of \$5.00 per hour; provided, however, that no operator of such vehicle shall be compelled to rent the same for a fee of less than \$2.00.

Rate to Be Based on Time Vehicle Is in Use—The rate of fare to be asked or demanded by such vehicles not equipped with taximeters shall be determined in accordance with the time in which the vehicle is in use by the passenger or passengers engaging the same.

Operator's Seat Not to Be Counted—In determining the seating capacity of any such vehicle, neither the operator's seat nor any portion thereof shall be computed, but the seating capacity shall be determined by the number of persons which can be accommodated in the interior or tonneau of such vehicle.

No Charge for Answering Call or for Return from Call—No charge shall be made for the time con-

Public Improvements*

THE ROOKERY

CHICAGO

sumed in responding to a call or in returning to the place from which such vehicle is called.

"Hour" Rates to be Charged Only When Passenger So Elects—The foregoing rates shall apply only in cases where the passenger at the time of the hiring of any vehicle referred to in this section expressly elects to pay therefor at the rate herein provided, and if such passenger so elects, the operator in charge of such vehicle shall hand to such passenger at the time of such hiring a card upon which shall appear: First, the name of the owner; second, the name of the operator of such vehicle; third, the exact time of such hiring; and in the absence of an express agreement as to the rate of fare to be charged for any vehicle referred to in this section, the rate of fare charged shall be the same as now is or hereafter may be provided by ordinance to be charged for the hire of taxicabs.

No Charge in Case of Breakdown—In case any automobile, autocar or other similar vehicle shall, while conveying for hire or reward any passenger or passengers, become disabled or shall break down so as to be unable to convey such passenger or passengers to his or their destination, and such disablement or breaking down cannot be remedied so that such vehicle shall be enabled to proceed within fifteen minutes from the time such vehicle shall

have become disabled, or shall have stopped, no fare shall be charged or collected for any service rendered or distance traveled up to the time of such stoppage, disablement or breakdown. Provided, however, that if any such passenger or passengers elect to remain in such vehicle and desire to be conveyed to their destination thereby, after such breakdown or disablement shall have been remedied, in such event full rates for the distance traveled shall be charged as if no breakdown or stoppage had occurred, or if such vehicle was employed by the hour, the time of stoppage shall be deducted from the time charged for.

Baggage—Every passenger upon any public automobile, autocar or other similar vehicle shall be allowed to have conveyed with him upon such vehicle, without charge therefor, his ordinary light traveling baggage in an amount not to exceed in weight fifty pounds. A fee of 25 cents may be charged for conveying a trunk.

Lost Baggage—Whenever any package, article of baggage or goods of any kind shall be left in or upon any vehicle licensed under the provisions of this article, the operator of such vehicle shall, upon discovery of such package, baggage or goods, forthwith deliver the same to the board of inspectors of public vehicles.

CHICAGO STREET RAILWAY SYSTEMS.

CHRONOLOGICAL.

Omnibuses—First regular omnibus line started by Frank Parmelee May 9, 1853.

Horse Cars—South side: First line on State street, between Randolph and 12th streets, open April 25, 1859. West side: Madison street line, halted to State, opened May 20, 1859; Randolph street line opened July 15, 1859. North side: Wells street line, river to Chicago avenue, opened late in spring of 1859; Clark street line opened in August, 1859.

Cable Cars—South side: First cable line in Chicago operated on State to 39th street; began business Jan. 28, 1892; Cottage Grove avenue line built same year. North side: Clark street line opened March 27, 1888; Wells street line opened same year; Lincoln avenue line opened Jan. 22, 1889; Clybourn avenue line opened May 2, 1891. West side: Madison street line opened July 16, 1890; Milwaukee avenue line opened at same time; Blue Island avenue line opened July 28, 1893.

Electric Cars—South side: First electric line in city began operating Oct. 2, 1890, from 95th street and Stony Island avenue to South Chicago; trolley substituted for horse cars on most of the lines (ex-

cept cable) in 1893 and 1894 in all divisions of the city and in the suburbs; trolley substituted for cable cars on State street July 22, 1906, and on Cottage Grove avenue Oct. 21, 1906. West side: Trolley cars substituted for cable on Blue Island avenue July 22, 1906, and on Madison street and Milwaukee avenue Aug. 19, 1906. North side: All cables changed to trolley lines Oct. 21, 1906.

Elevated Railways—South side: South Side elevated railroad began regular operation on line between Congress street and 39th street, June 6, 1892, with steam as motive power; extended to Stony Island avenue in Mar. 1893; extended to Englewood in 1906 and to Kenwood in 1907; trains began running around loop Oct. 19, 1897; motive power changed to electricity July 27, 1898. West side: Lake street line (Chicago & Oak Park) began running Nov. 6, 1893, with steam as motive power; electricity substituted June 14, 1896; Metropolitan road opened May 20, 1895, with electricity as motive power; began running over loop Oct. 10, 1897; extension of Garfield park and Douglas park lines completed in 1902. North side: Northwestern line opened for business May 31, 1900, with electricity as motive power; Ravenswood branch opened May 10, 1907.

CHICAGO RAILROAD ELECTRIFICATION COMMISSION.

The following city officials, railroad executives and Chicago business men were appointed March 20, 1911, as a commission to investigate the entire railroad terminal situation in Chicago with a view to the ultimate electrification of all the freight and passenger terminals in the city. The members were chosen by the Association of Commerce and the project had the official approval and co-operation of the city administration and city council.

CITY'S REPRESENTATIVES.

FIRST NATIONAL BANK BUILDING

CHICAGO

THE ART INSTITUTE OF CHICAGO.

A museum of fine arts and school of drawing, painting, etc.
Michigan avenue and Adams street.

OFFICERS.

President—Charles L. Hutchinson.
Vice-Presidents—Martin A. Ryerson, Frank G. Logan.

Secretary—Newton H. Carpenter.
Assistant Secretary—William F. Tuttle.
Treasurer—Ernest A. Hamill.
Auditor—William A. Angell.
Director—W. M. R. French.
Librarian—Miss Mary Van Horne.
School Registrar—Raiph W. Holmes.

Trustees, 1911-1912—Edward E. Ayer, Adolphus C. Bartlett, John C. Black, Chauncey J. Blair, Clarence Buckingham, Edward B. Butler, Daniel H. Burnham, Clyde M. Carr, Henry H. Getty, John J. Glessner, Frank W. Gunsaulus, Charles L. Hutchinson, Bryan Lathrop, Frank G. Logan, R. Hall McCormick, John J. Mitchell, Samuel M. Nickerson, Honore Palmer, Martin A. Ryerson, Howard Shaw, Albert A. Sprague. Ex. officio: Carter H. Harrison, mayor; John E. Traeger, city comptroller; John Barton Payne, president south park commissioners; Joseph Donnerberger, auditor south park commissioners.

The Art Institute of Chicago was incorporated May 24, 1879, for the "founding and maintenance of schools of art and design, the formation and exhibition of collections of objects of art and the cultivation and extension of the arts of design by any appropriate means." The museum building upon the lake front, first occupied in 1893, has never been closed for a day. It is open to the public every week day from 9 to 5, Sundays from 1 to 5. Admission is free to members and their families at all times, and free to all upon Wednesdays, Saturdays, Sundays and legal holidays. Upon other days the entrance fee is 25 cents.

All friends of art are invited to become members. Annual members pay a fee of \$10 a year. Life members pay \$100 and are thenceforth exempt from dues. Governing members pay \$100 upon election and \$25 a year thereafter. Upon the payment of \$400 governing members become governing life members and are thenceforth exempt from dues. All receipts from life memberships are invested and the income only expended. All members are entitled, with their families and visiting friends, to admission to all exhibitions, receptions, public lectures and entertainments given by the Art Institute and to the use of the Ryerson reference library upon art.

MUSEUM.

The Art museum now ranks among the first three or four in the country. It contains excellent examples of the old masters and of the modern painters. There is also a large and comprehensive collection of sculptures, including reproductions of the work of the greatest sculptors, ancient and modern. There is an extensive collection of architectural casts. Other fields of art are represented by collections of etchings, engravings, textiles, oriental art, Egyptian and classical antiquities, etc. There is a constant succession of passing exhibitions, thirty or more in a year. All students enjoy the full use of the collections and the library.

The number of visitors to the art gallery during the year ending June 1, 1911, was 704,239.

SCHOOL.

The school of instruction in the practice and theory of art includes departments of painting, sculpture, decorative designing, illustration, architecture and normal instruction. There are day and evening classes for beginners and for advanced pupils and special classes on Saturdays. The instructors number about 80 and the pupils average about 3,000 a year. The principle upon which the school is founded is to maintain in the highest efficiency the severe practice of academic drawing and painting, from life, from the antique and from objects, and around this practice, as a living stem, to group the various departments of art education.

The school is conducted upon the most modern methods and has grown to be the most comprehensive and probably the largest fine arts school in the United States. Constant communication and interchange are kept up with European art centers and distinguished teachers from a distance are called in from time to time. Students may enter at any time. The tuition rates are as follows:

Day School—Full time for full term of twelve weeks, \$30; four weeks, \$12; four days a week, full term, \$27; four weeks, \$11; three days a week, full term, \$24; four weeks, \$9; two days a week, full term, \$18; four weeks, \$7; one day a week, full term, \$12; four weeks, \$5.

Half-Day Courses—Five half days a week, \$24 a term; four weeks, \$10; four half days a week, \$21 a term; four weeks, \$9; three half days a week, \$17 a term; four weeks, \$7; two half days a week, \$13 a term; four weeks, \$5; one half day a week, \$8 a term; four weeks, \$4.

Evening Rates—Three nights a week, \$7 for twelve weeks or \$3 for four weeks; two nights a week, \$5.50 a term or \$2.50 for four weeks; one night a week, \$4 a term or \$2 for four weeks.

Saturday Rates for Juvenile Class—Twelve half days for \$5.

CHRONOLOGY.

First investigation made in 1885.
 Sanitary bill signed May 29, 1889.
 Sanitary district organized Jan. 18, 1890.
 Earth broken ("shovel day") Sept. 3, 1892.
 Lake water turned into canal Jan. 2, 1900.
 Formal opening of canal Jan. 17, 1900.

DIMENSIONS OF CANAL.

Length of main and water power channel, 39.16
 miles.
 Length of river, lake to Robey street, 6 miles.
 Length river diversion channel, 13 miles.
 Width main channel, Robey street to Summit:
 Bottom, 110 feet; top, 198.
 Width main channel, Summit to Willow Springs:
 Bottom, 202 feet; top, 290.
 Width main channel, Willow Springs to Lockport
 (rock section): Bottom, 160 feet; top, 162.
 Width river diversion channel: Bottom, 200 feet.
 Minimum depth of water in main channel, 22 feet.
 Current in earth sections, 1 1/4 miles per hour.
 Current in rock sections, 1.9 miles per hour.
 Present capacity of canal, 300,000 cubic feet per
 minute.
 Total amount of excavation, 42,229,635 cubic yards.

The north shore channel, extending from Law-
 rence avenue to Lake Michigan, in the village of
 Wilmette, is about 8 miles long with a water depth
 of 13.6 feet.

The construction of the Sag canal to drain the
 Calumet region was begun in the summer of 1911.
 When completed it will be 22 miles long.

 H. Wacker; secretary, Walter S. Brewster; office,
 167 North LaSalle street.

AMERICAN FENCE

Square Mesh Hinged Joints (patented), with Flexible Stays

A square mesh fence of weight, great strength and durability. Large wires in both the horizontals and the uprights, and the whole fabric woven together with the American hinged joint (patented), making the most substantial and flexible union mechanically possible. Both wires are positively locked and firmly held against side slip and yet are free to act like a hinge in yielding to pressure and returning quickly to place without bending or injuring the metal. Many years of the hardest usage in the field have demonstrated the value of the American forms of construction, justly entitling it to be called a resilient wall of steel, solid and enduring.

ELLWOOD FENCE

Diamond Mesh, Elastic Cables

The steel in Ellwood fence is especially made for the purpose from carefully selected stock; it is hard, elastic, tough and springy. The line wires, composed of two or more wires twisted into cables, give each individual wire the shape of an elongated coiled spring. The fence is therefore sufficiently elastic to take care of expansion and contraction, and yet so rigid when properly stretched as to prevent sagging. The small and permanent mesh is made by weaving one continuous wire throughout the fabric. The mesh or stay wires are so interwoven that slipping is impossible. The triangular truss is the strongest form of construction known; for this reason, Ellwood fence will stand the hardest usage and still retain its shape.

ROYAL FENCE

Square Mesh, Continuous Stays, with Royal Loop

Is made of heavy, hard, stiff steel wire, the strongest and best possible to produce for fencing purposes. The stay or upright wires are continuous from top to bottom of the fence and secured to the horizontal wires by the Royal loop. Being wrapped around the horizontal wires entirely within the tension curves, the stays are rigidly held in place and side slipping prevented. The whole forms a fabric of the greatest strength and ample flexibility, the best of the continuous stay fences.

ANTHONY FENCE

Square Mesh, Rigid Stays, with Anthony Knot

The upright and horizontal wires are tied with the famous Anthony knot, the smallest fence knot made. Machinery of special design has been brought to such a degree of perfection that the most nicely balanced woven wire fabric is produced, each wire drawing with mathematical precision under equal tension and uniformly even with the others. This brings into play, under stress of action, all the wires within a considerable radius of the center of contact, affording to an extraordinary degree great resistance combined with flexibility.

Young Fortnightly—925, 410 South Michigan avenue; president, Mrs. Arthur Elliott; corresponding secretary, Mrs. Alexander Soper.

CHICAGO OUTER HARBOR PLANS.

Four outer harbor sites along Chicago's lake front were established by the city council Nov. 20, 1911. The ordinances provided for the following districts:

No. 1—From the mouth of the Chicago river north to Chicago avenue, and extending one mile into Lake Michigan.

No. 2—From the mouth of the Chicago river south to Randolph street, and extending one mile into the lake.

No. 3—From the south end of Grant park south to 31st street, and extending one mile into the lake.

No. 4—All of the Calumet river within the city and all of Lake Calumet.

Another ordinance was presented at the same time providing for a fifth district along Chicago's south shore, through which vessels will have to pass before entering the inner harbor designated as district No. 4. Preliminary plans for the harbors were prepared by the city engineers.

Sydney ICE CREAM

Pure Wholesome Satisfying

The rich sweet-cream flavor sought by the critical lover of ice cream is found in *Sydney* Ice Cream as in no other.

At our Lakeland farm, located at the summit of Illinois, in the finest dairy region in the United States, a herd of the famous Glenwood family of imported Guernsey cows, noted for the richness and excellent flavor of their cream, produce cream used exclusively for making *Sydney* Ice Cream.

Sydney Ice Cream is made in a modern sanitary plant, surrounded by the same degree of intelligent supervision as are all the well-known *Sydney* products of

CHICAGO AND CALUMET HARBOR LIGHTS AND FOG SIGNALS.

CHICAGO HARBOR—LIGHTS.

On the southerly end of the northerly inner breakwater, a fixed red light in gray conical metal tower 31½ feet high; light visible 9½ miles.

On the northerly end of the inner breakwater, a fixed white light from lens lantern shown from top of white post 13 feet high.

On the easterly end of the north pier at the entrance of Chicago river, a fixed red light shown from lens lantern on post 22 feet high; with the next light it forms a range showing the direction of the piers and course for entering the harbor.

On the north pier, near its easterly end, at the entrance to Chicago river, a fixed white light in gray framework tower 27 feet high; light visible 13 miles.

In 30 feet of water, inside of and near the southeasterly end of the outer breakwater; flashing alternately red and white; interval between flashes, 10 seconds; red conical tower on rock-faced masonry tower, 59½ feet high; light 67½ feet above lake level and visible 16 miles.

On the northwesterly end of the outer breakwater, a fixed red light, shown from lens lantern in gray skeleton metal tower 19 feet high; height of lantern above lake level 55 feet.

CHICAGO HARBOR—FOG SIGNALS.

On the north pier in front of and attached to the light tower, a bell, struck by machinery, a double and single blow alternately with intervals of 20 seconds.

At the light tower near the southeasterly end of the outer breakwater, a 10-inch steam whistle; blasts 5 seconds, silent intervals 25 seconds.

CALUMET HARBOR—LIGHTS.

Calumet bar gas buoy, moored in 21 feet of water, on the northerly end of the Calumet bar; fixed white light with 10-second eclipse, shown from lens lantern.

On the southeasterly end of the new breakwater, a fixed white light, shown from buff metal tower 34 feet high; light visible 13½ miles.

On the outer end of the north pier, entrance to the mouth of the Calumet river and South Chicago harbor and about 11 miles southeasterly from the Chicago breakwater, a fixed red light, shown from gray cylindrical tower 30 feet high; light visible 13 miles.

CALUMET HARBOR—FOG SIGNALS.

At the breakwater tower, a first-class compressed-air siren which sounds thus: Blast, 3 seconds; silent interval, 12 seconds; blast, 3 seconds; silent interval, 42 seconds.

At the north pier light, a bell struck by machinery every 20 seconds.

"CLOSED" HOURS ON BRIDGES OF CHICAGO.

Following are the hours when the bridges of Chicago are closed to river traffic: Bridges on the main river, on the south branch as far south as 12th street, and on the north branch to Kinzie street, 6:30 to 8:30 a. m. and 5 to 7 p. m.; on the

north branch from Kinzie to Halsted street, and on the south branch from 12th street to Halsted street, 6 to 7 a. m. and 5:30 to 6:30 p. m.; all other bridges from 6 to 7 a. m. and 6 to 7 p. m.

1871.	236,898,650	52,847,820	289,746,470	4,897,464.70	1908.	344,499,927	132,690,472	477,190,399	22,666,543.94
1872.	339,154,890	45,042,540	384,197,430	4,462,961.45	1909.	586,253,655	122,574,401	708,828,056	24,078,000.98
1873.	362,969,820	49,108,175	412,077,995	5,617,313.91	1910.	603,272,873	245,971,661	849,244,536	23,485,538.22
1874.	258,549,310	45,153,830	303,703,140	4,406,622.54	1911.	604,276,475	240,564,577	844,841,052	23,485,538.22

The valuation since 1875 is the equalized valuation fixed by the state board of equalization. From 1867 to 1875 the valuation was made by the city for the city tax. From 1898 to 1908, inclusive, the assessed value was one-fifth of the actual value. In 1909 the rate was fixed at one-third. The amounts in the personal property column include the railroad valuation. The separate figures in 1911 were: Personal property, \$196,967,023; railroads, \$17,305,282.

TAXING BODIES IN CHICAGO.

- STATE TAX**—For state purposes. The governor, auditor and treasurer constitute the board which ascertains the rate per cent required to produce the amount of taxes levied by the general assembly. The "state school tax" is levied in the same manner.
 - COUNTY TAX**—The county board levies the taxes for all county purposes.
 - CITY TAX**—The city council, acting with the mayor, levies the taxes for all city purposes.
 - SCHOOL TAX**—The city council and the mayor make a separate levy for this purpose.
 - LABRARY TAX**—The city council and the mayor make a separate levy for this purpose.
 - SANITARY DISTRICT**—The tax is levied by the board of trustees.
 - SOUTH PARK SYSTEM**—The south park commissioners levy for park purposes in the towns of South Chicago, Hyde Park and Lake.
 - WEST PARK SYSTEM**—The West Chicago park commissioners levy for park purposes in the town of West Chicago.
 - LINCOLN PARK**—The Lincoln park commissioners are not "corporate authorities," the Lincoln park act not having been adopted by popular vote. The levy for Lincoln park is made by the county treasurer, acting as ex officio supervisor.
 - RIDGE PARK**—A small park district in Rogers Park, organized under the law providing for local park districts by popular vote. The board of five commissioners levies for the district.
 - THE NORTH SHORE PARK DISTRICT**—Organized the same as Ridge Park.
- By an act of the legislature approved May 11,

1901, and by the vote of the people at the spring election in 1902 the townships lying within the limits of Chicago were consolidated and the powers of the town boards transferred to the city council. This reduced the taxing boards in Chicago from eighteen to eleven as above.

ASSESSMENT OF TAXABLE PROPERTY IN COOK COUNTY.

Includes equalized valuation of railroads and capital stock of corporations.

1900.	\$206,957,900	1906.	\$461,813,707
1901.	408,189,960	1907.	514,757,122
1902.	433,489,922	1908.	514,757,122
1903.	445,028,259	1909.	597,213,850
1904.	437,850,426	1910.	915,895,947
1905.	441,990,246	1911.	925,003,114

The above figures are one-fifth of the actual valuation down to and including 1908. The rate was changed to one-third in 1909.

COOK COUNTY TAX RATE FOR 1910.

Town	State County	City	School	Sanitary	Park	Town	Total
West Chicago.	.30	.53	1.41	1.55	.34	.77	5.00
South Chicago.	.30	.53	1.41	1.55	.34	.51	4.64
North Chicago.	.30	.53	1.41	1.55	.34	.54	4.96
Hyde Park.	.30	.53	1.41	1.55	.34	.51	4.64
Lake	.30	.53	1.41	1.55	.34	.51	4.64
Lake View.	.30	.53	1.41	1.55	.34	.76	5.01
Jefferson	.30	.53	1.41	1.55	.34	.51	4.13

*Includes .05 for parks and boulevards. *Includes .03 for lake shore protection.

Note—The above rates apply to the \$100 assessed valuation, which is one-third of the full value.

PUBLIC ROADS IN ILLINOIS.

According to the Illinois highway commission there are in the state a little more than 94,000 miles of public roads or an average of 1.7 miles of road for every square mile of area. In 1905 the estimated amount of road which had been macadamized or graveled was 7,864 miles or 7.7 per cent of the total mileage.

CHICAGO STOCK YARDS FIRE CALAMITY.

Twenty-four men were crushed to death under a falling wall at a fire in Morris & Co.'s meat storage house in the Union stockyards, Chicago, early on the morning of Dec. 22, 1910. The victims included Fire Marshal James Horan, Second Assistant Fire Marshal William J. Burroughs, twenty other city firemen, a private fireman and a railway clerk. The fire started at 4:09 a. m. from some unknown cause and was followed soon afterward by an explosion, resulting, it is supposed, from hot air expansion. A part of the east wall was blown out, the brick and beams falling upon and smashing a canopy covering a loading platform. The chief and his men were at work on the platform, trying to get at the fire, which was in the basement, when the crash came. They were caught as in a trap and all were killed, probably instantly. It took many hours of hard work to recover their bodies. The money lost caused by the fire was \$750,000.

Following is a list of the men killed:

Horan, James, chief fire marshal, 722 South Ashland avenue.

Burroughs, William J., second assistant fire marshal, 4019 Michigan avenue.

Brandenberg, Herman, lieutenant truck company No. 11, 3902 Princeton avenue.

Collins, Patrick J., captain engine company No. 59, 5605 Drexel avenue.

Costello, Thomas, pipeman engine company No. 29, 3446 Emerald avenue.

Crane, Nicholas, truckman truck company No. 18, 4803 South Union avenue.

Danis, Edward J., lieutenant engine company No. 61, 442 West 59th street.

Doyle, Dennis N., captain engine company No. 39, 1634 West 33d street.

Doyle, Nicholas D., truckman truck company No. 11, 2949 Hayne court.

Dymuran, Andrew, fireman employed by Morris & Co., 4801 South Winchester avenue.

Enthoff, George C., pipeman engine company No. 23, 1757 West 21st street.

Fitzgerald, James, lieutenant engine company No. 23, 2917 Lexington street.

Lannon, Alexander D., captain engine company No. 50, 5735 Emerald avenue.

Leen, Stephen, clerk for Chicago Junction railway, 513 West 42d place.

McInerney, Michael, truckman truck company No. 11, 4822 Princeton avenue.

Moore, Charles, truckman truck company No. 18, 5253 Emerald avenue.

Moriarty, Albert, truckman truck company No. 11, 3902 South State street.

Murawski, George F., pipeman engine company No. 49, 4814 Scuta Wood street.

Powers, Peter J., truckman truck company No. 11, 3316 Dearborn street.

Reaph, Patrick, fireman employed by Morris & Co., 5427 South Paulina street.

Schonsett, Edward D., truckman truck company No. 11, 3558 Princeton avenue.

Sturm, William G., lieutenant engine company No. 64, 6218 South Laffin street.

Walters, Frank, pipeman engine company No. 59, 311 West 26th street.

Weber, William F., driver engine company No. 59, 7224 South Morgan street.

For the relief of the widows, children and other dependent relatives of the victims of the fire a fund of \$211,000 was raised by popular subscription and placed in the hands of a citizens' relief committee headed by Harlow N. Higginbotham. The committee desired to invest the money so as to provide an income for the children during their minority, but suit was brought on behalf of the beneficiaries and Judge W. F. Cooper of the Superior court decided Aug. 25, 1911, that the fund should be distributed at once. Chief Horan's widow was to receive \$17,000, Assltant Chief Burroughs' widow \$11,536 and the others sums ranging from \$1,000 to \$5,253 each. The money was distributed in December.

**PUSH
BUTTON
STATION**

"The Kohler System"

embraces the highest developed line of printing press controllers on the market.

Complete control equipments are made for two motor, four motor or eight motor presses of the web perfecting type; for small or medium sized single motor newspaper web presses; for commercial printing house single motor web presses of small size; for job rotary presses; and for flat bed presses.

THE CUTLER-HAMMER MFG. CO., MILWAUKEE THE KOHLER SYSTEM DEPT.

NEW YORK—Times Building
CHICAGO—Peoples Gas Bldg.
BOSTON—176 Federal St.

PHILADELPHIA—1201 Chestnut St.
PITTSBURGH—Farmers' Bank Bldg.
CLEVELAND—Schofield Bldg.

Pacific Coast Representative

T. S. WATTERS, 411 Howard St., SAN FRANCISCO.

Safety and Speed

"The KOHLER SYSTEM"

Multiple Push Button Control

For all kinds and sizes of Printing Presses and every kind of machine requiring accurate, instantaneous, precise and infallible speed control.

Push the **SAFE** button and the press is "dead" till you're ready for it to go ahead and signify your readiness by pushing the **RUN** button at the same station. No one else can start the press till the **SAFE** button at your station is released.

"The Kohler System" turns out more and better work. Feeders and helpers are not obliged to keep one eye on the controller to see that no one starts the press till they are clear of it. The **SAFE** button insures safety to every man.

Smooth starting, accurate speed regulation, slow down, quick stop, etc., are all accomplished by simply pushing the buttons at the control stations. No time is lost, no manual operation is required.

The presses of the world's greatest newspapers are operated by "The Kohler System."

Descriptive bulletins sent on request.

MAP SHOWING
ELEVATED LINES & STATIONS
IN THE
CITY OF CHICAGO
1911

SOUTH SIDE ELEVATED RAILROAD.

All the main points of interest on the south side are reached by the various branches of the South Side Elevated Railroad.

The main line runs south just east of State street, to 40th street, and between Prairie and Calumet avenues from 40th street to 63d street, and east along 63d street to Jackson park,

The Englewood branch leaves the main line at 59th street, running west to 63d street and Loomis boulevard.

The Normal Park branch leaves the Englewood division at 63d street and Stewart avenue, running southerly and westerly to 69th street and Normal avenue.

From 40th street and Indiana avenue the Kenwood branch extends to the east, with a terminus at East 42d street and the lake.

Indiana avenue and 40th street is also the junction of the stockyards branch extending

to the west. This line crosses Halsted street and forms a loop in the heart if the stockyards. A panoramic view of the yards can be had from the windows of the trains that cannot be had in any other manner.

An excellent express service is afforded by reason of a third track for the exclusive use of express trains, extending from 43d street to 12th street. Along this track trains are whirled at full speed for over four miles without a stop, fully protected by the latest type of block signals and interlocking plants, equipped with safety devices.

All possible precautions are taken to make the South Side Elevated Railroad safe, comfortable and rapid, with frequent service, and clean, well heated cars, elevated above the dust and mud of the city, and it is therefore the most popular of any means of transportation on the south side.

THE METROPOLITAN WEST SIDE ELEVATED RAILWAY

The Metropolitan West Side Elevated Railway, through its industrial department, has been instrumental in locating numerous large and small industries outside the loop and near the outskirts of the city.

These industries also have the best of steam road facilities by reason of their location being upon the Chicago & Western Indiana-Belt, Baltimore & Ohio, Chicago Terminal, and the Chicago Burlington & Quincy railroads.

All four branches operate over the main line around the Union Loop during the entire twenty-four hours of the day.

The main line parallels Van Buren street from the loop to Marshfield avenue.

Garfield Park branch leaves the main line at Marshfield avenue and parallels Van Buren street to 52d avenue, then on the surface through Austin, Oak Park and Forest Park (Harlem).

Douglas Park branch leaves the main line at Marshfield avenue, thence southerly and

westerly to 21st street and 43d avenue, thence on the surface to 52d avenue and 22d street.

The Logan Square branch leaves the main line at Marshfield avenue and runs northerly and northwesterly to Robey street and Milwaukee avenue and then parallel to Milwaukee avenue to Logan Square.

The Humboldt Park branch extends west from Robey street and Milwaukee avenue, paralleling North avenue, passing Humboldt park and Humboldt boulevard, to Lawndale avenue.

The running time from the terminus of the three branches to the loop is about twenty-seven minutes.

The company has built a large terminal station on 5th avenue, between Jackson and Van Buren street. Into and out of this terminal station during the morning and evening rush a regular service is maintained on all the branches of the Metropolitan system.

This station is also used as the Chicago terminal of the Aurora, Elgin & Chicago Railway, which taps the Fox river valley.

NORTHWESTERN ELEVATED RAILROAD.

The Northwestern Elevated railroad is the four track route of the Chicago Elevated railroads. It also maintains an express service, both day and night, over its lines.

The Main Line leaves the loop at 5th avenue and Lake street and runs northerly over Wells street bridge and along Franklin street to Chicago avenue, thence northerly and westerly over its own right of way to Wilson and Evanston avenues, the terminus of the Main Line.

The Evanston Division commences at Wilson avenue and runs down upon the surface through Edgewater and Rogers Park, passing Calvary Cemetery just beyond the City Limits,

and runs through Evanston to a short distance from its northern limits.

At Central street, the northern terminus, connection is made with the Chicago & Milwaukee Electric Railroad for all cities and towns along Lake Michigan as far as Milwaukee.

The running time of express trains from Central street station to the Loop is 42 minutes.

The Ravenswood Division runs westerly and northerly from Belmont avenue station to Lawrence and Kimball avenues in West Ravenswood.

The running time of express trains from the terminus of the Ravenswood Division to the Union Loop is 33 minutes.

THE CHICAGO AND OAK PARK ELEVATED RAILROAD

The Chicago and Oak Park Elevated Railroad runs west on Lake street through Austin and Oak Park.

It is three track route west from Rockwell street to 52d avenue, a distance of three and one-half miles, which permits of express service during the rush hour periods of the morning and evening.

A branch running south on the surface in Oak Park from the Main Line to Harrison street taps the territory of the Metropolitan Elevated in South Oak Park.

The Chicago and Oak Park line makes direct connection with the Suburban Electric Railway to Riverside, Brookfield and LaGrange, at 52d avenue and Lake street.

The Keeley Institute

The Keeley treatment, or, as it has been named by the public, "The Keeley Cure," has now been in continuous and successful administration for more than thirty years. Doctor Keeley began treating patients in Dwight in the early seventies in connection with his practice, but later in 1880 he abandoned general practice and devoted himself exclusively to the treatment of drunkenness, drug and narcotic addictions. The first Keeley Institute was in a modest one-story wooden building in Dwight, whereas at the present day the Keeley Institute is housed in the establishment an illustration of which is seen above. These buildings are fireproof and equipped with every modern convenience. The Livingston Hotel, where the Keeley patients board, is first class in every particular and enjoys the distinction of being the best in the State of Illinois outside of Chicago.

The growth of the Keeley Institute system is not represented merely by this growth at Dwight. The business has spread now until there is a Keeley Institute in nearly every state in the Union and some have more than one. Besides these there has been one in successful operation in England for the past twenty years and there are two in Canada.

The Keeley system of treatment involves no confinement nor restraint. Patients are looked after carefully in order to see that medicines are taken

with the utmost regularity and this is accomplished in such a manner as not to irritate or annoy the patient. Liquor and drugs are not discontinued abruptly, but their use is permitted in connection with the Keeley treatment until such time as patients can get along comfortably without these things.

Sometimes a mistaken impression prevails that the Keeley treatment accomplishes its work by nauseating patients and creating a disgust for liquor. Nothing can be farther from the truth. There is no nausea nor other sickness caused by or attendant upon the Keeley treatment. Common sense would indicate that an alleged cure obtained in such a manner is a fraud and would last no longer than the deception would continue. It is easy to nauseate a patient and persuade him that he cannot drink liquor, but this impression does not last because he soon finds out that he can. Nothing of this kind is practiced at Dwight. Cures are accomplished by building up and strengthening the nervous system and restoring it to its original unpoisoned condition so that liquor and drugs are no longer necessary for the patient's comfort and convenience.

The Keeley treatment has received endorsements from a great many corporations, firms and individuals and in addition to that it has been administered in the Soldiers' Homes with marvelous success as well as in the regular army. The treatment has also been administered to patients taken from workhouses and such an experiment tried at Minneapolis resulted in proving what an economic advantage it would be to cure drunkards rather than confine them.

The work of the Keeley Institute was looked at askance in the beginning by physicians who had learned to distrust specifics and so-called "cures." They have realized, however, that no medical fraud can possibly survive as long as the Keeley treatment has; hence a large proportion of the patients received now are sent by physicians. The work of the Keeley Institute can be summarized very briefly and truthfully by saying that with the aid of the Keeley treatment the inebriate who desires to do so can get along comfortably without liquor or drugs for the remainder of his life.

It should be borne in mind that every establishment where they claim to treat drunkenness and drug addictions is not a Keeley Institute, whatever may be claimed for them by other people. The Keeley treatment is administered only in establishments known by the uniform name "The Keeley Institute." We have nothing to say in relation to other establishments, but those desiring to take the Keeley treatment should bear this fact in mind. This has sometimes been a great injustice to us to have to bear the blame for something of which we know nothing.

Patients at the Keeley Institutes are allowed the utmost freedom not only as regards going about the village, walking, exercising, etc., but their friends are permitted to visit them every day in the week if desired. All correspondence is strictly confidential.

The Keeley Institute

DWIGHT, ILL.

CHICAGO OFFICE, RECTOR BUILDING
SUITE 906, 79 WEST MONROE-ST.

CHICAGO TELEPHONE ORDINANCE AND RATES.

Passed by city council Nov. 6, 1907.

The Chicago Telephone company is authorized to operate its telephone wires in the city until Jan. 2, 1929. Its books and records are to be open for examination by the city comptroller and its accounts may be audited for the purpose of verifying the statement of gross receipts, of which 3 per cent is to be paid into the city treasury as compensation for the franchise. The city is to have free telephone service. The city reserves to itself the right to change the rates or tolls from time to time and to modify the rules and regulations. It is provided, however, that such changes shall not be made to continue for a period of more than or of less than five years. The company shall not make any rate agreements or division of territory with any other company. The right to purchase the plant of the company on Jan. 1, 1919, or Jan. 1, 1924, is reserved to the city, the price to be fixed by appraisers. The maximum rates fixed by the ordinance are as follows:

BUSINESS TELEPHONES.

FLAT RATE.

For a single-party line with the right to the unlimited use of the same, \$125 a year.

MEASURED RATE.

For a single-party line, including 1,200 outgoing conversations or messages, \$60 a year.

For the next 2,400 outgoing messages, or any part thereof, during the year, 3 cents each.

For all outgoing messages in excess of 3,600 during the year, 2 cents each.

Every subscriber who will contract to pay for 7,200 outgoing messages a year at the above rates shall be furnished with a second single-party line without extra charge, and every subscriber shall be furnished with an additional single-party line without extra charge for each 6,000 outgoing messages he will contract to pay for, in addition to the 7,200 during the year at the rate of 2 cents each.

A single-party line or lines, including the right to transmit outgoing messages without limit and without any charge per message, shall be furnished at \$1 per day each. Subscribers to single-party lines at this rate shall be deemed subscribers to measured service. Every subscriber to measured service shall also be furnished with as many single-party lines as he may demand at the rate of \$6 per quarter for each line.

RESIDENCE TELEPHONES.

For a single-party line, including all outgoing messages, \$18 per quarter.

For a two-party line, \$14 per quarter.

NICKEL PREPAID SERVICE.

Nickel prepayment service with outgoing messages at 5 cents each, as follows:

One-party line, at a guaranty of 20 cents a day, including four messages.

Two-party line, at a guaranty of 12½ cents a day, including two and a half messages.

Two-party line, for residences only, at a guaranty of 10 cents a day, including two messages.

Four-party line, for residences only, at a guaranty of 5 cents per day, including one message.

PUBLIC TELEPHONE SERVICE.

The charge for a single conversation or message from any telephone in Chicago to any other telephone in the city shall not exceed 5 cents.

NEIGHBORHOOD EXCHANGE SERVICE.

The company may maintain local or neighborhood exchanges and shall establish them wherever the city council may direct. Any subscriber in any such exchange may communicate with any telephone within the city limits outside the neighborhood district, for which a charge of 5 cents may be made for each period of 5 minutes or fraction thereof. The rates per month for local exchange service, including all outgoing messages under yearly contracts, shall not exceed the following:

Line.	Business.	Residence.
One-party	\$4.00	\$3.00
Two-party	3.00	2.00
Four-party	2.00	1.50

TOLL SERVICE.

The company shall not charge more than 10 cents for each conversation or message up to three minutes (and not more than 5 cents for each additional minute), transmitted from any telephone in Chicago to any other telephone outside the city but within fifteen miles of the present city hall, or within one mile of the city limits and within the state of Illinois.

METERS.

The company shall install in connection with each measured-service line of its subscribers a meter which shall prove effective in actual use for accurately recording the number of outgoing messages over the line.

CHICAGO'S FREE PUBLIC BATHS.

Charles F. Rogers, superintendent.

Names and location of baths:

Carter H. Harrison—759 Mather street.
 Martin B. Madden—325 Wentworth avenue.
 William Mayo—4647 Gross avenue.
 Robert A. Waller—19 South Peoria street.
 Kosciuszko—1444 Holt avenue.
 DeWitt C. Cregler—1153 Gault court.
 John Wentworth—2839 South Halsted street.
 Theodore T. Gurney—1141 West Chicago avenue.
 William B. Ogden—3346 Emerald avenue.
 Joseph Medill—2138 Grand avenue.
 Thomas Gahan—4226 Wallace street.
 Pilsen—1849 Throop street.
 Ferdinand Henrotin—2415 North Marshfield avenue.
 William Loeffler—1217 South Union street.
 Simon Baruch—1911 West 20th street.

Free baths are given at the 14th street and 22d street pumping stations and at several lake beaches, but special buildings have not been pro-

vided at these points. The Carter H. Harrison bath, which was opened in January, 1904, is said to have been the first free public bath in the United States, if not in the world. Similar baths in Vienna charged a fee of 2 cents and those in New York 5 cents. The Madden bath was opened in April, 1897; the Mavor bath in May, 1900; the Waller bath in February, 1901; the Kosciuszko bath in April, 1904; the Cregler bath in October, 1905; the Wentworth bath in December, 1905; the Gurney bath in May, 1906; the Ogden bath in July, 1906; the Medill bath in September, 1906; the Gahan bath in November, 1907; the Pilsen bath in March, 1908; the Henrotin bath in September, 1908; the Loeffler bath in February, 1909, and the Baruch bath in April, 1910. The average cost of each plant has been between \$15,000 and \$20,000, and the average annual cost of maintenance, \$4,000.

SOCIETIES OF TEACHERS.

Cook County Teachers' Association—Fullerton hall, Art Institute; president, W. W. Lewton.
 Chicago Principals' Association—President, Avon S. Hall; secretary, Mary E. Fellows, 1922 Patterson avenue.
 Chicago Teachers' Federation—Room 344, 129 North Dearborn street; president, Mrs. Ida L. Fursman; corresponding secretary, Frances E. Harden; finan-

cial secretary, Catherine Goggin; business representative, Margaret A. Haley.
 Chicago Teachers' Relief Society—President, Ella Flagg Young; secretary, Miss Marion H. Dyer, Gladstone school.
 Head Assistants' Association—President, Miss Myra O. Billings; secretary, Miss Anna Strauss, 4415 Drexel boulevard.

COMISKEY'S NEW HOME FOR THE WHITE SOX.

COMISKEY PARK

HOME OF THE

“WHITE SOX”

The new ball grounds of the Chicago American league baseball club are located on 35th street between Wentworth and Shields avenues, and contain close to fourteen acres, making one of the largest fields devoted to baseball in the United States.

The new grand stand is one of the finest in the country and close to 35,000 persons are able to find seats in the stands and bleachers. The grand stand alone will seat 15,000 and boxes 6,000.

Twelve hundred tons of steel were used in the construction of the plant, which is re-enforced with concrete.

Every modern device in the construction of baseball plants is installed in the plant, and clubhouses for home and visiting teams are fitted out with all the luxuries that money can buy. Spacious offices for President C. A. Comiskey and the other officials of the club are arranged at the grounds and provision is made for taking care of automobiles in an up-to-date garage.

CHICAGO WATERWORKS SYSTEM.

The following table shows the growth of Chicago's waterworks system by decades since 1854, when the first large pumping station at Chicago avenue and the lake was built, and by years since 1900:

Year.	*Population using city water.	Gallons pumped per day.	Gallons per capita.	Total revenue.
1854.....	65,000	591,000	9.1	\$8,105.90
1860.....	109,000	4,794,000	43.1	181,162.00
1870.....	307,610	21,766,000	70.9	539,180.00
1880.....	503,600	57,384,600	114.1	865,618.35
1890.....	1,107,060	152,372,000	137.6	2,109,508.00
1900.....	1,707,600	322,683,000	189.0	3,250,481.85
1901.....	1,753,000	342,901,000	195.6	3,370,600.88
1902.....	1,798,000	353,179,000	199.2	3,611,558.81
1903.....	1,843,000	376,090,000	204.1	3,689,625.80
1904.....	1,889,000	399,065,000	211.2	3,384,541.30
1905.....	1,935,000	410,980,000	212.4	4,019,205.88
1906.....	2,000,000	437,059,000	218.5	4,281,065.50
1907.....	2,050,000	455,194,000	222.0	4,450,349.61
1908.....	2,100,000	469,282,000	223.4	4,648,299.54
1909.....	2,163,000	480,965,000	222.3	5,032,068.48
1910.....	2,234,000	518,579,000	232.1	5,448,257.55

*Estimated from United States government census.

In 1910 the total amount of water pumped was 176,018,750,000 gallons.

The pumping stations with the year of construction of each follow:

Chicago avenue.....1854	Washington Heights.....1892
Twenty-second street.....1875	Norwood Park.....1897
Harrison street.....1889	Central Park.....1900
Lake View.....1892	Springfield avenue.....1901
Fourteenth street.....1892	Rogers Park.....1899
Sixty-eighth street.....1892	Roseland.....1910

The total daily capacity of the waterworks in gallons is 665,000,000.

Other statistics: Number of taps, 390,000; meters in use, 15,032; mileage of water pipe, 2,272.

LAKE TUNNELS.

One 5-foot tunnel from two-mile crib to Chicago avenue pumping station; built 1867; cost \$464,866.05.

One 7-foot tunnel from two-mile crib to Chicago avenue pumping station; built 1874; cost \$415,709.36.

One 7-foot tunnel from two-mile crib to Chicago avenue pumping station; built 1887-1895; cost \$342,786.64.

One 8-foot tunnel from four-mile crib to 14th street pumping station; built 1892; cost \$1,104,744.12.

One 10-foot tunnel from Carter H. Harrison crib to foot of Oak street; built 1898; cost \$677,577.55.

One 7-foot tunnel from Lake View crib to Lake View pumping station; built 1896; cost \$701,792.45.

One 7-foot tunnel from Hyde Park crib to 6th street pumping station; built 1893; cost \$771,556.07.

One 14-foot tunnel from Hyde Park to 73d street and Railroad avenue; built 1911; cost \$1,207,826.01.

LAND TUNNELS.

One 7-foot tunnel from Chicago avenue pumping station to 22d street pumping station; built 1874; cost \$542,912.63.

One 7-foot tunnel from Park row shaft to foot of Peck place and thence to Harrison street pumping station; built 1891; cost \$279,848.78.

One 6-foot connecting tunnel in Jefferson street from Van Buren to Harrison; built 1891; cost \$15,968.17.

One 10-foot tunnel foot of Oak street to Green street and Grand avenue, and two 8-foot tunnels from that point to Central Park avenue and Springfield avenue pumping stations respectively; built 1900; cost \$2,121,525.02.

One 7-foot tunnel connecting above 10-foot tunnel with Chicago avenue pumping station (remodeled); built 1898; cost \$42,436.45.

One 9-foot tunnel from 104th street and Stewart avenue to 73d and State streets; one 12-foot tunnel in 73d street from State street to Yates avenue, and one 14-foot tunnel from Yates avenue to Railroad avenue; in course of construction; estimated cost, \$3,000,000.

One 7-foot tunnel in Polk street connecting Peck place shaft and Jefferson street shaft.

One 8-foot tunnel from Chicago avenue to 22d street and Ashland avenue; built, 1907-8; cost, \$829,704.59.

WATERWORKS CRIBS.

Name.	Built.	Cost.
Two-mile.....	1867	\$106,679.63
Four-mile.....	1891	472,890.93
Lake View.....	1896	164,085.82
Hyde Park.....	1896	137,624.77
C. H. Harrison.....	1900	232,733.10

VALUE OF WATERWORKS PROPERTY.

The total appraised value of the Chicago waterworks property Dec. 31, 1910, was \$46,534,250.87, divided as follows: Real estate, \$4,064,296; buildings, \$2,499,226.16; equipment, \$2,602,672.88; cribs, tunnels, mains, etc., \$37,348,055.83.

CHICAGO'S BRIDGE SYSTEM.

The first ferry across the river was established in 1829, where the Lake street bridge now is. In 1833 a floating bridge of logs was in operation just north of the present Randolph street bridge. A foot bridge over the north branch was built in 1832 at Kinzie street. The first drawbridge over the main branch of the river was placed at Dearborn street in 1834. In 1854 a pivot bridge was built at Clark street. These and other bridges of that time were built by the persons most directly benefited by them. It was not until 1857 that a bridge was built entirely at the city's expense. This was the structure over the south branch at Madison street. It cost \$30,000. Until 1872 the swing bridges were turned by hand, but in the year named steam power was installed on the Dearborn street structure and later on most of the other bridges in the downtown

section were similarly equipped. In 1895 the Rush, Lake and Van Buren street bridges were operated by electric motors. The last named structure, which was opened for traffic in that year, was the first of the Scherzer rolling type. The Halsted street lift bridge, the first and only one of its kind, was opened in 1894 and was operated by steam. It cost the city \$242,880.

There are at the present time in Chicago ninety bridges over the river, of which sixty-eight are maintained by the city and twenty-two by railroad companies. Of those operated by the city thirty-four are movable and the others fixed. Thirty-four of the movable bridges are operated by electricity, one by steam and fourteen by hand power. Twenty-four are bascule bridges of various types, one is a vertical lift bridge and twenty are swing bridges.

FARM POWER.

By L. W. Chase, Professor of Agricultural Engineering, University of Nebraska.

Most farmers have learned that a gasoline engine is an automatic machine when properly handled. If the farmer himself does not know that a four-cycle engine requires a suction stroke, a compression stroke, an expansion stroke, and an exhaust or clearance stroke, before the cycle of gases is complete, his son is quite apt to, so what is the difference?—It is all in the family. This same son knows that the charge which is drawn into the engine must be of the proper mixture, he knows that the charge must be compressed to the proper number of pounds per square inch or it will not explode. He knows that ignition must take place a certain distance before the piston reaches dead center in order to get the proper power from the charge, and he knows that the burnt charge must be removed from the cylinder before a new charge is taken in. These four fundamentals of a gasoline engine he knows, and he also knows that if any one of these is off the engine will not run.

NOT DANGEROUS.

Some say that gasoline engines are dangerous because they will explode. This is an erroneous idea. Gasoline engines do explode, or at least should explode about 150 to 300 times per minute, and there has been far more trouble caused because they do not explode than because they do explode. Gasoline itself will not explode. If you do not believe it, fill a bottle full of the liquid and hold a match to it. You do not need to scringe or blink; it will do nothing but slowly burn, throwing off a yellowish blue flame. It is not the gasoline which explodes and does harm, but it is the gasoline vapors which have escaped into the open air that explode. Take a pint fruit jar and drop about ten drops of gasoline into it. Stir the air up within the jar, then turn the jar over and hold a match to the mouth. A small explosion occurs—and this is what happens every time a charge of gas explodes in the engine, and also every time gasoline vapors are ignited in a room. Roughly it takes 1,700 to 2,000 times its own volume of air mixed with gasoline to make it explode. Try exploding the charge of gasoline vapor in the fruit jar once more, but this time put in about twenty-five drops of gasoline instead of ten. It doesn't explode—simply burns with a slow flame as long as the jar is turned over. Set the jar up straight and the flame dies out. The second charge did not explode because there was too much gasoline in the jar to unite with the air in a proportion which would make an explosion.

Apply the above principle to a gasoline engine and you will have the cause of 50 per cent of the troubles of the amateur. He floods his engine, and after working over it for an hour or so trying to start it, goes away in disgust. Perhaps in an hour or so some one gives it a try and it starts right off. The reason for this is that the first man flooded the engine and kept on flooding it. But when he left the engine the vapors within the cylinders deteriorated. So when the next man came along the mixture of gasoline and air was of such consistency that the engine started at once.

It is always better to have the needle valve open too small a distance than too large a distance. If the engine does not start the first time close the needle valve, hold open the inlet valve, and turn the wheels around a time or two. This will clear the cylinder of the previous unburnt charge so that the try can be made again without danger of flooding.

IGNITION.

The ignitor of a gasoline engine is a simple affair when one understands its principle.

If a nonconductor gets between the points of the ignitor a spark is not made, and if a conductor gets across the points a spark is also not made, hence it is absolutely essential that the ignitor and all binding posts be kept clean, and the latter must be kept tight.

Since gasoline gas does not burn instantly, ignition should take place some time before the piston reaches dead center. A slow speed engine should ignite when the crank is about 10 degrees below center, while some extremely high speed engines should ignite about 70 degrees below or before dead center.

The farmer who knows the principle of the action of the gases in his engine and understands his ignitor will have no trouble other than those which come up because of wear and poor adjustment or lack of care, and these troubles he must learn to adjust as they come about.

The following table shows about the amount of gasoline required when using a 3 horse power gasoline engine for the work about the farm. Some of the figures are from actual tests and some are computations:

One gallon of gasoline will pump
2,454 gallons of water from well 43 feet deep.
1,720 gallons of water from well 158 feet deep.
Will shell 262 bushels of corn.
Will grind 48.6 bushels of corn.
Will separate the milk from 300 cows.
Will do about 20 weekly washings without wringing.

Will grind about 20 sickles, and, if harvester is pulled by horses, will cut about 4 acres of grain.

The limit of usefulness of a gasoline engine on a farm depends upon the ingenuity of the farmer.

Besides the subjects mentioned, it should be made to cut the ice, put the ice in the ice-house, the hay in the barn, the corn in the crib, cut the alfalfa, the ensilage, do the threshing, sharpen the plows and the disks, sweep the floors of the house, saw the wood, light the buildings, and do many other kinds of work.

SIZE OF ENGINE.

What size of engine to purchase depends entirely upon the farm and farmer. On the whole, it seems that most farmers are purchasing too small an engine, and overlooking the medium sizes. A good 4 or 5 horse power engine will do anything on the farm, except thresh or fill the silo, and do it as economically as a large engine which would require a large force to keep it supplied with work. The same engine will do all the small work about the farm, and requires only a trifle more gasoline for the work than a 1 or 2 horse power engine.

With modern machines and a good gasoline engine a farmer should use his mental ability in such a way that he and his farm hand can do all his work, and then thereby drop the old time shelling bee and threshing day. By stacking the grain and using a small separator, a farmer can choose his own time to thresh, and by that means keep a good hand who would otherwise be lost. This method of doing the work will also take a burden from his wife's shoulders, because she will not need to cook for such a large number of extra men as is usual at threshing time. Whenever a farmer gets a gasoline engine he should arrange to do without an equivalent value of horse flesh or man labor.

A Modern Columbus.

The I H C Gasoline Engine is a modern Columbus. It is re-discovering America, opening up new avenues of opportunity, making possible new economies and improvements, abolishing the back-breaking drudgeries which drive young men and women from the farm, and setting a new standard of comfort for rural life in America. It is a familiar sight, both in city and country, wherever a comparatively small unit of power is desired. It is specially valuable as a portable engine. It carries its own fuel supply in compact form and is self-contained in every way.

I H C Gasoline Engines

are reliable, well-built engines which do their work steadily without expensive stops for repairs and adjustments, and which require almost no attention beyond the necessary oiling, cleaning, starting and stopping. These efficient engines are made in a variety of sizes and styles to meet any requirements from 1 to 50-horse power. The following is a complete list of styles and sizes:

Vertical Tank-Cooled—2 and 3-H. P.
 Vertical Air-Cooled—2 and 3-H. P.
 Vertical Hopper-Cooled—2 and 3-H. P.
 Vertical Semi-portable Tank, Hopper or Air Cooled—2 and 3-H. P.
 Horizontal Air-Cooled—1-H. P.
 Horizontal Tank-Cooled—4, 6, 8, 10, 12, 15, 20, and 25-H. P.
 Horizontal Hopper-Cooled—1, 2½, 4, 6, and 8-H. P.
 Horizontal Semi-portable Tank-Cooled—4, 6, and 8-H. P.
 Horizontal Semi-portable Hopper-Cooled—1, 2½, 4, 6, and 8-H. P.
 Horizontal Mounting Engine, Tank-Cooled—4, 6, 8, 10, 12, 15, and 20-H. P.
 Horizontal Mounting Engine, Hopper-Cooled—2½, 4, 6, and 8-H. P.
 Horizontal Portable Engines, Tank-Cooled—4, 6, 8, 10, 12, 15, 20, and 25-H. P.
 Horizontal Portable, Hopper-Cooled—4, 6, and 8-H. P.
 Vertical 2-Cylinder Engines—25 and 35-H. P.
 Horizontal 2-Cylinder Engines—50-H. P.
 Traction Engines—12, 15, 20, 25, and 45-H. P.
 Sowing Outfits, Pumping Outfits, Spraying Outfits, Electric Light Outfits, Pump Jacks, etc.

There is an I H C local dealer near you who will be glad to tell you all the good points of these engines. We will send you catalogues direct on request. Address

USE AND CARE OF THE FARM SEPARATOR.

By J. H. Franson, M.S.A., Professor of Dairying, University of Idaho, Moscow, Idaho.
Reprinted by permission of Metropolitan and Rural Home.

In recent years no piece of farm machinery has been more universally used and accepted than has the farm separator. In the western states, especially, it is now the exception rather than the rule to find a single dairy that does not claim a hand separator as part of its equipment. This marvelous growth has been made in spite of a great deal of bitter opposition from those who, in many respects, should have been its best friends. There is no doubt that it has materially increased the profits and reduced the labor of the dairy farm, and thus has helped to solve some of the most serious economic problems confronting the dairy farmer. Even in the middle west, where the whole milk creameries so stubbornly fought the advance of the separator, they are now used to the extent that hardly a creamery can be found that has not been forced to accept farm separator cream. The merits of the separator, whether factory or hand separator, are now so well known that they hardly need a defense, though there is still a class of dairy men who stick to the shallow pan, or worse, to the dilution separator. If this class of farmers would make a careful study of the work which has been done by several of our experiment stations to determine the efficiency of the various methods of skimming they would find some very interesting results in favor of the centrifugal separator.

A COMPARISON OF DIFFERENT METHODS OF SKIMMING.

The Indiana experiment station made comparative tests of the skim milk from three different methods of skimming. It determined the relative loss of butterfat in each case as follows:

	Butterfat.
By "dilution separator" (the tin can kind) skim milk contained.....	0.57 per cent
By shallow pan skim milk contained	0.50 per cent
By centrifugal separator skim milk contained	0.05 per cent

Taking this table as a basis it will be interesting to note what the loss would be on a dairy farm of ten cows, considering a cow to yield about 5,500 pounds of skim milk annually. Basing the percentage of loss on the experiment carried on at the Indiana station and converting the butterfat into butter, we have the following table:

By "dilution separator" method on yield of 10 cows annually a loss of 382 lbs. of butter at	30c	\$114.00
By shallow pan method on yield of 10 cows annually a loss of 335 lbs. of butter at	30c	100.50
By centrifugal separator method on yield of 10 cows annually a loss of 33.5 lbs. of butter at	30c	10.05

A study of this table should convince the reader that by the use of a good separator he should be able to make an additional saving of from \$90 to \$100 a year on a herd of ten cows, a saving more than sufficient to pay for the separator in one year. In addition to this direct saving it is well to keep in mind the greatly enhanced value of the skim milk for feeding purposes when fed in a sweet, wholesome, undiluted condition.

There are many things about the hand separator that appeal strongly to the former patron of the whole milk creamery. He finds it easier and less expensive to deliver the comparatively small bulk of cream than to haul the whole milk as formerly, which also necessitated hauling the skim milk. Then again, there is the advantage of having the sweet milk for feeding to calves, pigs and poultry. The use of the hand separator on the farm also does away

with the danger of having the skim milk mixed and perhaps contaminated with disease-infected milk received at the creamery.

SELECTION OF SEPARATORS.

In selecting the separator the farmer should use the same good judgment that is so necessary in the selection of any kind of machinery. From a practical standpoint there is but little difference in the skimming efficiency of any of the standard makes of centrifugal separators now on the market. Durability, ease of running, ease with which they are cleaned, are the points of primary importance in buying a new separator. There are many cheaply constructed machines now on the market that are dear at any price, and with which the dairyman cannot afford to take any chances.

SETTING OF MACHINE.

After having purchased some good standard make of separator the first thing of interest is to have the machine well set. It is desirable to have a good, substantial foundation for the support of the machine. Concrete foundation, of course, is highly desirable. If it is found necessary to place the machine on a wooden floor this should be braced underneath by planks placed crosswise under the flooring where the separator is to stand. When fastening the separator down it should be leveled as directed by the manufacturer, generally on the surface of the frame. The separator bowl spinning around as it does like a top, will try to run perpendicular, and if the machine is not level there will be more or less useless wear on the sides of the bowl as it pushes in that direction. This not only shortens the life of the machine but results in poor skimming as well.

Next to having the machine set perfectly comes the question of having it well oiled. Use only the best grade of a thin oil, one that will not stick or gum on any of the parts. In case any of the parts should become gummed, it is a good plan to flush them occasionally with kerosene, which also will remove the dust and dirt that may accumulate from time to time.

As most manufacturers have carefully tested their machines and know exactly under what conditions they do maximum and most satisfactory work, it is always safe and highly desirable for the operator to follow strictly the directions given by the manufacturer as regards the care and speed of the machine.

CLEANING THE SEPARATOR.

Washing the separator is not a very difficult job if done soon after separation. To thoroughly clean the separator, the bowl and all its parts should first be rinsed with cool water to remove all particles of milk. Then they should be thoroughly scrubbed with a brush in warm water containing a liberal quantity of good washing powder. The water for washing should be warm, but not hot enough to cook the curd on any of the parts. After washing, they should be steamed or at least rinsed in boiling water. No wiping cloth of any kind should be allowed to come in contact with them after the scalding process. Sunlight is one of the best disinfectants, and when possible all the utensils should be given the benefit of pure air and sunlight. If it is not convenient to wash the machine immediately after separating, the bowl can, at least, be taken apart and immersed in water. This will loosen all the curd and make washing comparatively easy.

No one should place much confidence in any agent's claim of separators being able to wash themselves by simply running water through them. Such claims are not made by men who have the dairyman's interests at heart.

Cream Separator Essentials

Men who know dairy farm needs are agreed that the three essentials of a good cream separator are reliability, easy running, and ease of thorough cleansing; and the first of these is reliability.

Reliability—meaning the capacity to skim closely for a very long time without undue expense for repairs—is a strong feature of I H C separators.

It is secured by the use of the finest material for all parts, put together carefully by skilled workmen, according to the most approved mechanical design. The result is an

I H C Cream Harvester

Dairymaid or Bluebell

lasting—easy running—easy to clean.

I H C Cream Harvesters have dirt arresters in the bowls, which exclude all foreign matter from the skimming bowl. They have spiral cut gears, which insure steady motion and long wear. All bearing bushings are phosphor bronze—essential to a high-grade machine. Gears and working parts are easy to get at, to keep clean, and to oil.

With all these advantages in their favor, I H C Cream Harvesters deserve your careful consideration. See the I H C local dealer or write direct for catalogues.

DISK HARROW, ITS USE AND ABUSE.

By H. W. Campbell.

Editor's note:—Mr. H. W. Campbell has done more than any other man, living or dead, to reclaim the semi-arid districts. His method of farming has demonstrated beyond doubt that farmers can raise reasonably good crops on an annual rain fall of twelve inches.

In 1883 Mr. Campbell was a farmer in Brown county, S. D. Peculiar conditions in that year, when 260 acres of his farm gave almost no crop and forty acres gave a good crop, forced Mr. Campbell to begin thinking why. Since that time his experiments and practical demonstrations have been scattered from Central Texas to Alberta, Canada. He has demonstrated beyond any doubt that it is possible to farm successfully in the semi-arid regions. That he has awakened interest along this line of farming is evidenced by the tenor of utterances of such men as James J. Hill of the Great Northern railway and W. C. Brown, president of the New York Central railway.

"Tillage, better tillage, of the right kind and at the right time, is the keynote to-day of all successful farming," says Mr. Campbell.

There is no agricultural implement more important to the western farmer than the disk harrow. But like other farm implements, from its first conception it has undergone changes—some have been improvements, others have been disadvantages; the principal reason that all changes have not been improvements is that from its first conception to the present time its usefulness has been more or less misunderstood. Thousands of acres of wheat have been put in by the use of the disk harrow alone that have not turned the farmer any profit, and many times a loss of not only his labor, but seed. The great value of the disk harrow lies in its adaptability to the protection of moisture, the destruction of weeds, the preparation of the surface soil for the encouragement of rapid percolation of the rain water, and in thoroughly pulverizing a somewhat cloddy plowed field and obtaining an improved physical or mechanical condition of the soil. It has been used on thousands of acres instead of plowing when it should have been used to precede the plow. We have noted instances where the early spring use of the disk for the sole purpose of preventing evaporation and preparing the surface to receive and utilize further rains has resulted in giving the farmers increased yields of corn, as high as twenty bushels to the acre. Think of twenty bushels of corn per acre for only 50 cents of extra expense!

In handling of fields for summer culture there is no tool that can take the place of the disk harrow, cost of labor and value of work considered. Bear in mind this fact, that the great value of summer culture is not alone in the storing and conserving of the rain water, but in obtaining a soil condition for the promotion of nitrification and other chemical actions, for the development of the necessary elements to promote a vigorous, prolific growth of all plants. To promote nitrification every possible effort must be put forth to prevent the loss of moisture from the firm soil beneath the mulch. In doing this, three detrimental conditions must be carefully watched and as far as possible prevented. First, the growth of weeds and all foreign vegetation; second, the getting of the soil mulch too fine by the sometimes necessary frequent cultivation of the soil; third, to have the mulch too light and loose. No tool ever in use on our fields has accomplished the above as effectually as the disk harrow with the small diameter of disk.

The disk harrow may be used to prepare a field for a crop in the spring on autumn plowed land, because of the complete pulverizing and thorough separating of the soil into small coils

in its rotating action, and when the proper diameter of disk is used, the work is perfect; but here, too, the small disk is by far the most effective, as the larger disk cuts too deeply.

We most urgently advise the use of the disk early in the spring on all stubble ground that may have been left over the winter without plowing. No time should be lost after the soil has become sufficiently thawed and dry so that it will not stick to the disk. This is especially true where corn is to be put in with a lister. For best results, double disk the ground by lapping one-half, the object being to thoroughly pulverize and loosen the surface, for reasons above referred to, as well as to break the hard, crusted surface to promote a more rapid and complete soaking into the soil below of the early spring rains. For this work the diameter of the disk is not so vital.

In still another season of the year we find the disk harrow of great value, and that is immediately after the small grain or any other crop is removed. It is advisable whenever possible to follow behind the harvester and not allow the packed, crusted soil to be exposed for a single day to the sun's rays after the crop is gathered. It is very difficult to explain the value and importance of this work in sufficiently strong terms to permit the reader to grasp its full force and meaning. We will endeavor, however, to give three reasons.

First: There is no time in the year when water, held in the soil near the surface in sufficient quantities, will bring about so many valuable chemical changes as during the months of July and August, and these changes mean additional bushels to the next crop. But they will not take place if the per cent of moisture is too low or there is a crust over the surface or under the mulch. The surface must be loose and the soil must carry the necessary quantity of both air and water. The better the farmer understands these facts the greater will his yield per acre continue from year to year.

Second: If there is any moisture in the soil at harvest time, though it be a few inches down below, by preparing a mulch of liberal thickness this moisture will accumulate by capillary attraction, which nature has provided under these conditions shall be largely upward as far as the soil is firm, stopping beneath the mulch or loosened soil. If no rains come, your ground in a few days is in perfect condition to plow because of this increased moisture. If you wish to list your corn and not plow in the fall, this moisture can be carried over until the next spring; then by early disking, and in case of a dry spring your field can be planted and the seed will immediately germinate and grow, while your neighbor who has not taken the advantage of these scientific principles is worrying about a dry country, and immediately becomes pessimistic on all questions. Luck was against him; everybody and everything was against him. But really the only thing against him was his lack of knowledge regarding the merits of the disk harrow and the true principles of scientific soil culture.

Third: In case you wish to sow fall wheat this disking behind the harvester may mean ten to twenty bushels more per acre in your crop next year. By holding the moisture as shown above, it will be seen that any subsequent rain will percolate more quickly and deeper. If the rain be a heavy one, sufficient to dissolve and pack the loosened surface, the common spike tooth harrow should be thoroughly used as soon as the soil is dry enough not to stick. If the soil is made quite firm, then the disk harrow should be used again, unless you are able to soon finish your plowing. In which case the second disking would not be advisable, as the common harrow would loosen enough to hold the moisture for a short time.

\$500.00 for Three Days' Work

A boy in Edwards County, Kansas, made \$500 by three days' work following the binder with a disk harrow; i. e., the ground he treated in this manner with a disk harrow produced 42 bushels and 10 pounds of wheat to the acre, while that of the rest of the farm, planted in the ordinary way, without disking, produced only 25 bushels.

A farmer in Decatur County, Iowa, raised 109 bushels and 40 pounds of corn to the acre because he disked the ground.

These are two instances—one a grain grower and the other a corn grower. In both cases the increased yield was due to the use of the disk harrow. The grain grower was in a district where rainfall is not so abundant as it is where the corn grower lives, but both raised bumper crops.

No matter whether it is a wet year or dry year, the disk harrow properly used will increase the yield, because disking prevents surface evaporation and conserves the sub-surface moisture needed by growing crops.

I H C Disk Harrows give good service in all conditions of ground. This is absolutely necessary if the best results are to be obtained. The disks are

made to both penetrate and pulverize the ground in the best possible manner. The frames are strong, holding the gangs to the work at all times.

The I H C line of tillage implements includes disk harrows, spring tooth harrows, vineyard harrows, combination harrows, peg tooth harrows, and cultivators. These are made in various styles and sizes, so that no matter in what section you farm, we can give you the tillage implement designed for your special needs.

There is an I H C local dealer in your vicinity who will explain to you all the good points of I H C tillage implements. For catalogues address

U S A

INCREASING FERTILITY.

By Cyril G. Hopkins, Professor of Agronomy, College of Agriculture, University of Illinois.

If he who made two blades of grass grow where only one grew before is a public benefactor, then he who reduces the fertility of the soil so that only one ear of corn grows where two have been grown before is a public curse.

Agriculture is the fundamental support of the American nation, and soil fertility is the absolute support of agriculture.

THE TWO FUNCTIONS OF THE SOIL.

The soil has two distinct functions to perform in crop production: First, the soil must furnish a home for the plant, where the roots can penetrate the earth upon which the plant must stand; second, the soil must furnish plant food, or nourishment, for the growth, development and maturing of the plant.

To improve the physical condition of the soil is to improve the home of the plant; while to add to the soil, or to liberate from the soil fertilizing materials, is to increase the available supply of plant food.

One soil may furnish an excellent home for the plant, but a very insufficient supply of plant food; while another soil may contain abundance of plant food, but the physical conditions (such as imperfect drainage, or inadequate aeration) may be such as to make an unfit lodging place for the plant.

THE TEN ESSENTIAL PLANT FOOD ELEMENTS.

There are ten different elements of plant food, each of which is absolutely essential to agricultural plants. These elements are carbon, hydrogen, oxygen, nitrogen, phosphorus, potassium, calcium, magnesium, iron and sulphur.

Carbon, hydrogen and oxygen, which constitute more than 90 per cent of most agricultural plants, are contained in air and water, the supply being unlimited. The two elements, iron and sulphur, although absolutely essential to plant growth, are required in very small amounts, while they are provided by nature in practically inexhaustible quantities.

On the other hand, the five elements, nitrogen, phosphorus, potassium, calcium and magnesium, are required by plants in very considerable amounts, and soils are frequently found which are so deficient in one or more of these five elements as to limit the yields of crops. It should be understood that soils are never found which are entirely devoid of these elements. Even the poorest and most unproductive soils still contain at least some small supply of each of these elements, and as a general rule such so called exhausted soils contain at least one, and frequently two or three, of these valuable elements in large amount, the low productive capacity being due to the deficiency of one or two elements only.

Sometimes the element which the plant fails to obtain in sufficient quantity for its normal growth, the element which positively limits the yield of the crop, is actually present in the soil in very large amount. In such cases the practice should not be to add to the soil more of this plant food element, but to adopt methods of soil treatment and management by which we can liberate a sufficient amount of this element for maximum profitable crop yields.

THE VALUE OF FARM MANURE.

Farm manure always has been and probably always will be one of the most important and abundant materials for soil improvement. It is a necessary product on every farm, and on stock farms a product which accumulates in very large amounts. If not used for soil improvement, it becomes a worthless nuisance about the stables, whether in the city or in the country.

A conservative estimate places the annual production of farm manure in the United States at a billion tons. The actual agricultural value

of fresh farm manure containing both the liquid and solid excrements is not less than \$2 a ton, whether the value is measured in terms of plant food elements actually contained in the manure as determined by chemical analysis of the manure and the market values of the elements or whether the value is measured by the actual increase in crop yields produced by the use of the manure on ordinary long cultivated soils.

WASTE OF FARM MANURE AND LAND RUIN.

If fresh farm manure is thrown out and exposed to the weather for six months in summer, one-half of its total weight of dry matter is lost, and more than one-half of its value as a fertilizer is lost. In most newer countries there is enormous and shameful if not wicked waste of farm manure. In older countries it is the rule to save all possible farm manure with very great care, although this rule is too frequently broken by the careless, ignorant, or short sighted.

As a whole, the unnecessary waste and loss of farm manure which occurs in the United States each year is equal in value to several times the value of all commercial fertilizers used in this country. Sometimes the waste of farm manure and the purchase of commercial fertilizers occur upon the same farm. In such cases the commercial fertilizer used is usually a so called "complete" fertilizer, containing acid phosphate with a trace of nitrogen and potassium too small to add appreciably to its value, and it is commonly applied in amounts which supply less plant food than the crops actually remove, the small amount of soluble plant food applied being supplemented by that which the soil would naturally give up, together with what can be forced from the soil by the stimulating action of the soluble corrosive acid salts and manufactured land plaster contained in such fertilizers.

One of the most common commercial fertilizers used in the United States contains the equivalent of 2 per cent of ammonia, 8 per cent of falsely so called "phosphoric acid," and 2 per cent of potash, corresponding to less than four pounds of nitrogen, seven pounds of phosphorus, and less than four pounds of potassium in 200 pounds, the most common application per acre; whereas a 100 bushel crop of corn removes from the soil not four, but 150 pounds of nitrogen, not seven, but twenty-three pounds of phosphorus, and not four, but seventy-five pounds of potassium.

SAVING FARM MANURE.

In order to retain the full amount and full value of farm manure, it should be removed directly from the stall or covered feed lot and spread at once upon the land. Where the winters are moderately cold and free from heavy rains there is little loss if the manure is allowed to accumulate during such weather in a small, uncovered feed lot, provided it is hauled out and spread upon the land in the early spring. Manure may be allowed to accumulate without much loss in deep stalls for several weeks if plenty of absorbent bedding is used, and then it may be hauled from the stall directly to the field and spread.

It should be the rule never to handle manure more than once. When taken from the stable or feeding shed it should be at once loaded onto the spreader and hauled to the field. If manure is produced at the rate of two loads or more a week, the convenience and importance of taking this manure directly from the stable and spreading it at once upon the field will certainly justify providing a manure spreader or special wagon to be used solely for this purpose.

Farm Land Demands Fair Treatment

Farm land is like a factory. It is supplied with raw material in the form of seed. From this raw material it manufactures a finished product called a crop.

In the process of manufacturing a crop, the land uses certain elements which pass from it into the growing grain. When the grain is harvested, these elements are lost to the soil. They must be returned if the soil is to continue to raise profitable crops.

Nature has provided a medium for the return of plant food to the soil. Fresh stable manure contains all the elements needed to preserve soil fertility. When it is applied properly, it returns to the soil nearly, if not quite, all the plant food which was removed by the growing crop.

I H C Manure Spreaders

Kemp 20th Century

Corn King

Cloverleaf

pulverize the manure and spread it evenly all over the field, in just the right quantity to restore to the soil the fertility used by the harvested crop.

I H C Spreaders are made to do more and better work than any others. Thousands of wide-awake farmers in every part of the country will verify this statement. Corn King and Kemp 20th Century Spreaders are return apron types; Cloverleaf is an endless apron machine. Each style is made in several sizes to meet all requirements.

I H C Spreader catalogues describe the machines very fully and they also give you opinions on soil fertility by the world's greatest experts. Copies may be secured from the I H C local dealer or from the

OLD RESIDENTS OF CHICAGO.

Nov. 15, 1911.

In the following list of men and women who have lived in the city or its suburbs for sixty-one years or more there are doubtless many omissions, though an effort has been made to make it as complete as possible. Additions to, changes of residence and other corrections of this list, which will be continued in future editions of this publication, will be gladly received. Names marked with an * are those of persons born in Chicago or Cook county. Ages when known are given in parentheses:

- 1532—Heardt, Adaline N. (80), 3219 Prairie avenue.
Keonon, Mrs. Eleanor H.* (79), 2145 W. Adams-st.
Outhet, Miss Elizabeth (80), 522 Pleasant street, Oak Park.
- 1833—Brookes, Frederick W. (84), 11120 Armida avenue, Morgan Park.
Brooks, F. T. (85), 5224 Ainslee street.
Cleaver, Mrs. John (91), 6438 Washington avenue.
Filler, Alanson (99), 1710 Orrington-av., Evanston.
Foote, George C.* (78), 1123 W. Van Buren street.
Goodwin, Mrs. Caleb (87), 939 Winthrop avenue.
Vanatta, Charles (79), 2336 Grand avenue.
- 1834—Clingman, Mrs. William (84), 4809 Madison-av.
Fuller, Edward (78), Fullersburg, Ill.
Gerber, Barbara (83), 6154 South Halsted street.
Lorig, Mathias (78), 4409 Princeton avenue.
Ludwig, Catherine, 215 West Goethe street.
Peck, Mrs. Aurilla* (77), Berwyn.
Taylor, Louis D. (89), Glencoe, Ill.
- 1835—Barnum, William E.* (76), 6400 Normal-av.
Brown, Lockwood S., 113 Cass street.
Clarke, Mrs. Mary E. Carver (76), 239 N. May-st.

READY-TO-LAY
Burmite
 (Reg. U. S. Pat. Off.)

FLEXIBLE-CEMENT-BURLAP INSERTED
MATERIAL
 For ROOFING and SIDING

Buildings—*be they NEW or OLD*, of any construction, is being specified by Architects, recommended, used and sold by Contractors, Builders, Roofing Experts and Dealers, *because it is*

Practical—Durable—Artistic—Inexpensive
GUARANTEED for 10 YEARS WITHOUT COATING

A practical roofer, with thirty years' experience in selling and applying other makes, recently used our "Burmite" for roofing his own building—which, by the way, was a flat roof—although he had on hand at the time a large stock of the other kinds he had been selling. In speaking of the many advantages of "Burmite" he writes us:—"It is not necessary to take off your shoes for fear of damaging the storm-resisting and fire-retarding surface of a "Burmite" Roof—the strongest and most durable made."

WRITE TODAY for Samples, Printed Literature and Booklet,
"Burmite Quality Counts"

Illustrated with Residences, Summer Homes, Cottages, Bungalows, Garages, Barns, etc., beautifully printed in colors, showing effect of "Burmite" applied as a Roofing and Siding.

Birmingham & Seaman Co., Roofing Mfrs. Chicago
 Gen. Offices: 1208-1226 Tribune Bldg. Phone: 56th, Armitage and Grand Aves.

This illustration shows component parts of "BURMITE" with Chipped-Slate Surface

MUNICIPAL ART LEAGUE.

Incorporated Jan. 30, 1901. Secretary's office at the Art Institute.

President—Ralph Clarkson.
 Vice-President—Lorado Taft.
 Secretary—Kenneth Sawyer Goodman.
 Assistant Secretary—Carl O. Saner.
 Treasurer—Charles L. Hutchinson.
 Directors—Ralph Clarkson, Lorado Taft, Webster Tomlinson, William H. Bush, Mrs. George B. Carpenter, Eames MacVeagh, Jens Jensen, Kenneth Sawyer Goodman.
 Exhibition Committee—Mrs. William Frederick Grower, chairman; Mrs. H. H. Kingsley, vice-chairman; Mrs. William F. Young, secretary.

The objects of the association are to promote the beautifying of the streets, public buildings and places of Chicago; to bring to the attention of the officials and people of the city the best methods for instituting artistic municipal improvements and to stimulate civic pride in the care and improvement of private property. The board of directors of the league is composed of one sculptor, one architect, one painter, one landscape architect, four laymen and the chairman of the exhibition committee.

Table with columns: YEAR, Jan., Feb., Mar., April, May, June, July, Aug., Sept., Oct., Nov., Dec., Av'ge. Rows 1877-1911 showing monthly average circulation figures.

SUGGESTIONS Purchasers of The Chicago Daily News Almanac and Year-Book are invited to send suggestions for its improvement to the Editor of The Chicago Daily News Almanac and Year-Book, 15 N. 5th-av., Chicago.

TABLE OF CONTENTS

OF FIRST TWENTY-SEVEN VOLUMES (1885 TO 1911 INCLUSIVE) OF THE CHICAGO DAILY NEWS ALMANAC AND YEAR-BOOK.

NOTE—The figures following the year are the page numbers of that volume.

Complete sets of THE DAILY NEWS ALMANAC AND YEAR-BOOK from the year 1885 to 1912 inclusive can be supplied for \$13.50, transportation prepaid. The first five issues for the years, 1885, 1886, 1887, 1888 and 1889 are bound in one volume, half morocco, library style. This volume is sold only to purchasers of complete sets. A complete set embraces the library volume and a cloth-bound issue for each succeeding year.

Single cloth bound copies can be bought only for the years 1890, 1893, 1894, 1895, 1896, 1898, 1899, 1900, 1903, 1909 and 1911. These are supplied at the rate of 50 cents each, transportation prepaid. Single, paper covered copies can be supplied for each year from 1886 to 1903, except 1897 and 1899, for 25 cents each at the office of publication, or 35 cents by mail.

Orders should be addressed to THE DAILY NEWS office, 15 North 5th avenue, Chicago.

FOR INDEX OF THE CURRENT VOLUME SEE PAGES 3-12.

"There is no other paper in the city which will spend as much money for news as will THE CHICAGO DAILY NEWS. During the Japanese-Russian war it had a number of special correspondents at the scene of the strife, who had at their constant disposal a special boat to aid in collecting the news and furnishing it to the Chicago public quickly. THE DAILY NEWS dispatch boat was the only one in commission for an American newspaper. It is not to be wondered at where a newspaper has so many excellent features that it becomes the strongest and best liked paper in the community."—Mail Order Journal.

The Problem Solved

For the Small City Daily

How to Print 6, 8, 10, 12, 14 and 16 Page Newspapers
From One Roll of Paper and a Single Set of Plates.

THE "UNIQUE" Single-Plate, Single-Roll Press

The printing portion is exactly similar to that in our best newspaper presses and has only two pairs of cylinders and two sets of inking rollers, USING THE REGULAR SEMI-CIRCULAR STEREOTYPE PLATES.

It
Prints

6, 8, 10, 12, 14 and 16 Page Papers from One Roll of Paper and a Single Set of Plates at a Running Speed of 10,000 an Hour.

4, 6 and 8 Page Papers from One Roll of Paper and a Double Set of Plates, at 24,000 an Hour.

12 and 16 Page Papers, Composed of Two 6-Page and Two 8-Page Sections, from One Roll of Paper and a Single Set of Plates, at 12,000 an Hour.

When made five pages wide will produce also 18-Page Papers from 18 Plates and 20-Page Papers from 20 Plates, at 10,000 Copies an Hour.
